PAGE 7

Interrogatories by Mr. Jones Atty for claimant

1. Interrogatory. What is your name age and place of residence?

Answer. My name is William A Richardson. My age fifty eight and I reside at Sausalito in Marin County California.

2d Interrogatory. Do you know the late James Richard Berry? if so when and where did you know him and what did you know of his connection with the Mexican Government

Answer. I knew him. He came to me in the early part of 1834 with recommendations to me from the then Commandante of California Don Nicolas Gutierrez to pass him over to the North side of the Bay of San Francisco. I was then Captain of the Port of San Francisco. I was requested in the recommendation to pass him over in order to select some lands granted to him for his services as a Colonel in the Mexican Army and I did so.

He returned to my house at Yerba Buena about three weeks afterwards on his route to Monterey. He came back again about a month after that with his pass to the latter port upon which of his Land at Punta de Reyes which is in what is now Marin County I knew him from that time until his death

3 Interrogatory. Are you acquainted with the Land claimed in this Case called "Punta de Reyes"? and if you please state what you know of its occupation.

Answer. I am acquainted with the Land. I saw the previous occupation

418 ND
PAGE 8

of it given to Mr. Berry. I saw the commencement of it, but did not remain until it was finished, previous to that I sold to Mr Berry fourteen or fifteen heifers and went with him with these heifers as far as Mr. Reed's farm where he obtained more cattle and took them all to the Punta de Reyes. This was in 1836. Mr Berry at that time lived on the Rancho Punta de Reyes. He had his house there at that time, it was built at the Entrance of his farm and he continued to live there with his servants until his death. He visited around among his friends, but the Rancho was his permanent residence and the only residence which he had.

4th Question. Could you now identify on the ground the place where the said Possession or measurement commenced? -

Answer. I could. I can now locate it from memory from Garcia's house within a few yards. The starting point was exactly where Mr. Berry had his house at that time on the Main Road at the entrance to his farm. A little small rivulet was his boundary on the west bank of which his house was built - Said Rivulet empties on to the marshy land at the head Tomales Bay

5th Question. Are you acquainted with the hand writing of Nicolas Gutierrez and Francisco de Castro Negrete? if so look at the document now shown to you marked "Exhibit No 1 with the initials "A F" annexed to the deposition of Salvador Vallejo this day taken in this case and state whether the signatures appearing on the third page of said document are theirs - are the true and genuine signatures of said Gutierrez and Negrete respectively.

Answer. I have looked on said Document said signatures are the true and genuine signatures of Gutierrez and Negrete respectively. I am acquainted with the hand writing of both of them -

Deposition of Salvador Vallejo

Office of the Board of Commissioners &c &c &c

This day before Comr. Stephens Felch Came Salvador Vallejo a Witness in behalf of Claimant Bolivar Phelps No. 323 to be often being duly Sworn deposed as follows

Questions by Mr. Jones Attorney for Claimant

1 Question. What is your name age and place of residence?

Answer. My name is Salvador Vallejo, My age is Fifty Years and I reside in Napa County in California

2d Question. Are you acquainted with the land claimed in this Case, called Punta de Reyes? if yes please state what you know of the possession and occupation.

Answer. I am acquainted with the place. I have known it to be occupied by One Berry whose first name I do not know. He lived on the place until his death

I knew of his living on the place from 1838 until he died. He had a house there on which he lived, and he had also Corrals, some fences horses and Cattle, and cultivated some of the ground.

3d Question. Do you know anything of Juducial poseesion of the place having been given

Answer. I do. I gave juducial poseesion of the place to Benj. I was civil Magistrate of Sonoma and gave the juducial poseesion in that Capacity

4 Question. Look on the document now presented purporting to be a record of the act of Juducial poseesion Marked Exhibit No 1. with the Words A & and annexed to this deposition, and State whether it Contains a record of the proceedings in giving such Juducial poseesion? and whether the Signatures appearing thereon as the Signatures of Jasme Richard Benjs Salvador Vallejo, Pedro Sola, Cayetano Juarez, Francesco Segueira, Gregorio Briones & Rafael Garcia are the true and genuine Signatures of those persons respectively

Answer. I have Examined the Document. The Signatures appearing thereon as theirs are the true and genuine Signatures of the Several persons named in the enunciation. I am acquainted with their hand writing having seen them & each of them write frequently I saw them see Sign this document

5 Question. When you measured the ground in giving the poseesion did you place any Stakes or Marks or Monuments and on the points now be described in the record?

Answer. I placed One and Mark and Ordered the Others to be placed. The One I placed was a post on the Sea Shore at the Second point in the Survey The Other points were Marked in the other Monuments which I Ordered to be placed

11

418 ND
PAGE 11

there: There was in the survey only two points, there being a land in the sea which surrounded the land, except on one side— We made the measurement all around the land, but put no monuments on the beach except the one above mentioned. The points can now be ascertained on the ground I could point them out if I was there. There is an Estero or Bay at the point where I put the post as above stated which is known by us as the "Estero de Lamantin"— It has that name from the circumstance of Lamantins having run his vessel in there and been ship wrecked.

The Estuary is included within the limits of the place as surveyed by me.

Questions by Mr. Greenhow appearing as Law Agent.

1 Question. At what point did you begin your measurement or survey

Answer. At the mouth of the Estero de Ballenas, that is to say where the Ballenas Creek empties into the Tomales Bay— We measured directly from that point to the place where we placed the post mentioned. It was a rainy day, and I do not know the points of the Compass

Questions by Mr. Jones

1 Question— Look at the document above mentioned marked "Exhibit No 1" and state whether the Creek mentioned on page 11 as the Tokeglome is the same Creek as that called by you in your last answer, the Ballenas.

Answer. They are the same streams— The Indian name is Tokeglome, but we know the stream by the name of Ballenas—

Question by Mr. Greenhow

1 Question. Does the stream which the Indians called Tokeglome Empty into the

12

Bay a Estero of Tomales?

Answer. I does

for Californie and attached to this Depos-
ition and marked "P L" the located of
said house?

Answer. The house was in the
Valley or Canada about three leagues
from that point on the Map where is
shown a house and marked Rancho de
Sausal. The located of the house was at
the point where the letter N is found in the
words "Canada de Bemlenes". It was in a
Northern direction from the house of
Sausal

5th Question. Was James Richard
Berry at that time occupying the Rancho
of you, in what manner.

Answer. He was in
the occupation of said Rancho had called
and houses on the same.

5. Question. Is the house
marked On this Map as the Rancho de
Sausal correctly located with reference to
the Meanderings of the boundary?

Answer. I think it is as well
as I can recollect, it was On the West side
of the Estuary, known by the name of
Bemlenes and close to the Sea Shore.

6 Question. From what circum-
stance do you fix the date given in your
Answer to Question?

Answer. Because it was
at the time that I lost my Canoe and I came to that place
to offer him assistance

7th Question. Do you
know the location and boundaries of the
tract known as Punta de los Reyes pan-
ted to Antonio Maria Osio, if you describe
the same

Answer. I know the tract, which
was always Called Punta Reyes and I
know all boundaries Except on the East

It is bounded on the South and South Westerly and on the West by the Pacific Ocean and On the North and North Easterly by the Estuary of Tomales— I do not know the line On the East which divides it from the Bony Lands.

Cooper Examined by A. S. Apodaca Law Agent

1 Question. Did you ever visit said Rancho after 1841 if yea, what kind of a house was it you refer to in your answer to 3d interrogatory in Chief herein

Answer. I never was as far as the house since 1841— I have been but On the Lands— The house I spoke of was a wooden house, some 15 feet by 10 feet, One story high

2d Quest. State the position of said house with reference to the Natural Objects you have named?

Answer to 2d— It was in the Lands de Bonlines about 3 leagues, North Westerly from Sanora house and from One to two Miles South Easterly from the head of the Estero of the Estuary of Tomales

3d Question. How do you know the boundaries of this Rancho as you have stated them?

Answer. I know them by going up and down the Coast there for some 15 years and by hearing the people always call it the Point Reyes thence as far as the Estuary of Tomales and from hearing persons so

Re Examined by Claimants Counsel

1 Question. Where did Rafael Garcia and his family live when you visited this Rancho in 1841?

Answer. He lived with his family in the house where I stated and near the same house I refer to in my answer to 5th Question in Chief herein

San Francisco Dec. 30 1854

This day came before Peter Sole Commissioner for taking testimony to be used before the Board of U.S. Land Commissioners in said State James Black a witness on the part of the United States in Case No. 525. On the Docket of said Board: wherein Bolinas Rancho is Claimant - and said witness being duly & sworn deposes as follows.

The claimants Counsel Geo. Southworth is present.

Interrogatory U.S. Land Agent.

1 Interrogatory. What is your name age and residence

Answer - My Name is James Black. My age 48 years, my residence in Marin County California, which I have been for the last 20 years.

2d Interrogatory. Are you acquainted with James Richard Berry, and with the Rancho Called Punta Reyes, Originally Claimed by said Berry and now Claimed by Bolinas Rancho in this Case, if yes, how long have you known them, and what has been the Character of your acquaintance with them?

Answer. I am acquainted with said Berry he has been there some seven or eight years I was once acquainted with him, he sometimes stopped at my house two or three months at a time. I am acquainted with the place Called Punta Reyes. I have known it since about 1835 I have often been on said place and like I cannot

418 ND
PAGE 16

Say that I am very well acquainted with it. I live about five Miles from what I have ever Heard to be the boundary of said Ranch, the Nearest boundary to my house

3d Question. Had said Berry a family, and where did he reside when you first knew him?

Answer. He has no family that I know of, and when I knew him, he had no regular place of abode that I know of. He has a house and a Corral at the Estero Tomales On the lands now claimed by Garcia, where he sometimes lives, and he used to stay about at Other places. Said house and Corral are about two miles from the boundary of Punta Reyes, if I am Correct as to the locality of said boundary.

4th Question. When was the first house built on the lands called Punta Reyes?

Answer. I knew a small house to be built on said place in 1836 or 1837 by Captain Snooks who had a man living in the house, who was Employed to take Care of his Cattle. I am not positive about the year but according to my best recollection it was about the time I have stated

5th. Question. Describe said house and State what it was used for?

Answer. It was a House built of round logs & poles about as thick as a Mans thigh, and plastered over with clay, the sides of this house were about 7 feet high to the roof, and the building was about 12 by 15 or 20 feet in size. The roof was made of Tule thatch. It was used as the residence by the Man Domo of Capt Snooks of whom I have Spoken

6th. Question. If said Berry had ever been on said Ranch of Punta Reyes after you became acquainted with him was you acquainted with him such that you must have known it?

Answer. Mr. Berry had his Cattle

418 ND
PAGE 17

on Punta Reyes from 1837 to 1840 and he used to stay during those years somewhere down there but I cannot say exactly where he stayed whether he lived in a house or not. I never saw a house on Punta Reyes, and cannot say that he had one.

7th Question. How many cattle had Berry there, and what part of the Ranch did they range on?

Answer. I knew his cattle in 1837 & 1838, he then had about fifty head and they ranged just in the neighborhood of Berry's house on Garcias land, at the head of the Tomales. He afterwards drove them up to the North Western part of the Punta Reyes Ranch.

8th Question. Explain what you mean by saying Berry used to stay somewhere down there during those two years

Answer. I saw him on one occasions when he told me he was going down to the point and was gone 8 or 10 days

9th. Question. Did not Berry make Garcias Ranch his home during & did he not uniformly return to his cattle there?

(9th Question Objected to by Defendants)

Answer. He made Garcias place his home during part of the years 1837 & 1838 that was about the time he took his cattle on to the Punta Reyes

Cross Examined by Defendants Counsel

1 Question. Do you know when and where Jose Y Samaniegos vessel was wrecked of you, state where?

Answer. I think that vessel was wrecked in 1841 to the west of my house up. It was wrecked on the South Easterly side of Punta Reyes

2d Question. Where was Garcias house at the time of said wreck?

418 ND
PAGE 18

Answer. Garcia's family then lived at the Bemines but he had some Indians living down where his house no is who were placed there by him late in 1840 or early in 1841.

3rd Question. State with as much accuracy as you can the precise locality of the place called the Bantines—

Answer. It is an inlet of the Sea and an Estero Called Punta Bemines and by some the Bay of Bemines It is in a South Easterly direction from Punta Reys

4th Question. State the precise locality of the house you have spoken of as Binys house On Garcia's land?

Answer. On the Map in the Espediente in this Case as near as I can indicate there house stood about half way between the Junction of the Canada de Tomales and the Canada de Bemines (On the East side of the Same Canada de Bemines at the below C at the Beginning of the word Canada de Bemines, As I am not well acquainted with this Map, I would judge being the house was about 1 Mile and a half or two miles in a Southerly direction from the Coping of the Estero which was near the junction of the two Canadas before mentioned

5th. Question. Does for this house you Speak of, the home of Beny, and did you know of his having any other house at that time?

Answer. I knew of no other house of Benys he Had but little at the house I have Spoken of. he lived generally around among the Indians

6th. Question. Please State the precise locality of Cape Saroks house of which you Speak?

Answer. It stood on the South side of Punta Reys on the main Road going down to the point, a little West of the head of the Estero at the Mouth of

Answer. My name is John Paty My age 47 years, My residence Honolulu Sandwich Islands.

2d Question. Are you acquainted with the Rancho granted to James R Berry in this Case if you know of it?

Answer. I know that said Berry had a ranch. I was at his house on his Ranch in 1841 I came up there by land to find the wreck of Lamantour's vessel and Hope Voyage, Lamantour and One Mr. Reed who is since deceased were with me. We stopped at Berry's house, which stood as near as I can locate it on this Map Marked Exhibit 1 to this deposition and heretofore filed in this Case, about half way between the letters R in "Road to San and O the first being the Capital R in "Road to San Rafael" and the Other the O in "Olemas Creek". The house was On the Northerly Side of said Creek

Garcia's house where we stopped at night going and also when returning, was Close On the West Side of Bunlones Bay near a creek, the spot is indicated On this Map by two Square dots thus "□□". The wreck was just at the Entrance of the Estero On its Eastern Side and may be indicated on this Map as being 2¾ inches a little West of North from the P in the words "Pacific Ocean"

On Said Map, at the place on the Westerly side part of Said Map where the Estero is indicated by Some dotted lines. My errand up there was to help Sam Brown to get off his Cargo which I afterwards did. When we had Landed ourselves at the location of the wreck there was a small house just South of Tomales Bay which was unoccupied when we were up there, and as we passed it, it was pointed out as Capt. Snooks house
I saw no other houses in the Ranch besides Berry and Garcia's which I have mentioned Garcia was living there with his family, and had Stock there and a Corral.
This was the Only Visit I ever made to the Ranch in question.

Cross Examined by U. S. Surveyor

1st Question. How do you ascertain with Such Exactness where to locate the house you Saw, On the Map Shown you, give the Compass on the Scale, with the distance Lines of Said Map. How Can you give location and distance, at this time with Such Exactness?

Answer. The Scale of this map I understand to be 400 rods to 1 inch and the Scale of 1 league is a little over 3 inches and I do not pretend to be so very Exact, but I recollect that Soon after we passed Berry's house we crossed the Creek and of the San Rafael Road is Correctly laid down here it would make my ideas of the location tolerably Correct.

2d Question. How do you know the house you Saw was on Berry's Ranch?

Answer. I only know it by hearSay. It was called Berry Ranch

3d Question. Describe the house Berry and State whether he was living in it when you were there?

Answer. It was a Wooden house made I think with bowrds One Story high and about 15 by 20 feet in Size. Berry was

Not there when I were - I think he were at Sacrecteto, at any rate he were not at home he have no family -

2d Question. When did you first visit the land claimed in this case

Answer. I never was there but once, that was the time I have mentioned in 1837

3d Question. On business did you visit said Rancho at that time?

Answer. I went to San Rafael to get a horse of mine which Ignacio Pacheco had there, and at San Rafael Berry invited me to go and look at the Rancho of which I have made report.

4th Question. How long were you absent at Santa Clara on that trip?

Answer. I do not remember the number of days, it might have been a week more or less.

5th. When did you first become acquainted with said Berry?

Answer. It was late in 1835 or early in 1836 at Santa Clara that I first knew him. I do not know what his business was but I understood he lived across the bay

6th. Question. How often did you see him from that time till you visited the Ranch in 1837?

Answer. I saw him often I saw him at Monterey, at Santa Clara and at the Pueblo of San Jose I do not know about his business Except that Early in 1836 he went to Monterey to petition for the land.

7th. Question. How long did you stay at said Ranch when you visited there in 1837.

Answer. I think I went one day and returned the next – I was there about one day. I do not recollect the time of day I arrived there or the hour I left. It is so long since that I recollect very little about it. I am not going to state more than I remember.

8th. Question. What did you do while you were there?

Answer. I do not know what

I dare I suppose I was riding on horseback it was about all we had to in those days

9th Interlin. What is the shape of said Rancho

Answer. It is a square with mountains on either side that is all I saw

418 ND
PAGE 34

10th Interlin. How do you know the extent and location of those Lands?

Answer. Not was a Surveyor would know it, it is so rough and hilly. I do know what any man would want with such land. I went to see it and whatever I know was learned by going there.

11th Interlin. Were the mountains the boundary of the Rancho if you, how do you know it, and state what the form of the lines was which those mountains embraced between them?

Answer. I never saw the boundaries on the sides where the mountains are and I do not know them. So far as I saw the Canada is longer than it is wide, I dare not swear to it.

12th Interlin. How long and how wide do you know said Rancho to be

Answer. I do not know the length or breadth but I know how much he petitioned for

13th. Interlin. Do you know any One boundary of said Rancho, if you, which One?

Answer. I know none of the boundaries of said Rancho except the one adjoining the Lands of Rafael Garcia, when I was there in 1837 said Garcia pointed out to me as the line between him and Berry and Berry was present. I do not recollect the direction or course of that line.

14th. Interlin. Were that line pointed out to you on the first or second day of your visit to said Rancho

Answer. I do not remember which day.

when that line was pointed out to you?
Answer. We were on a hill on
the side of the Canada next to San Rafael
17th. Question. State for one in
which direction from the house which Berry
had on the ranch did this Concession Ocean
Answer. I do not know how
far it was it was about half way between
Berry's house and Garcia's
18th Question. Can you point
out on the map which has been Exhibited
to you the place where you were when you
heard that Concession
Answer. I cannot. I do not
know anything about maps. I know Berry's
house was within the land claimed by him
19th. Question. How do you know
Berry's house was within Sais land
Answer. I know it because
Berry told me that was the land upon
which I have reported
20th Question. How came
you make report of the land without knowing
its locality?
Answer. I was the only person
at Monterey from about San Francisco
and I was called upon to make the reports
I did not know the locality personally
but there were some persons there who informed
me that the land was occupied by Berry
and was vacant (valdio) and Jose Ramon
Estudillo and some one else (who name I
do not now remember) said to me that
I could sign the report with my opinion
as that it would be right. I do not
now recollect the names of those who
informed me that the land was vacant
and occupied by Berry

my knowledge on the subject. The pattern of this map embraced in the parallelogram in yellow lines gives a true description of said Rancho - it is four leagues long and two leagues wide.

4th Question. Where did Rafael Garcia reside when you first knew this Rancho?

Answer. He lived near the head of Banlenes Bay where two little square marks appear on said map, and his family lived there with him.

Map Examined by U. S. Law Agent

1st Question. Where have you resided during the 14 years that you have known this Rancho?

Answer. I have always lived in San Francisco County on the Sanchez Rancho about 10 leagues distant from this Rancho in question.

2d Question. How often have you visited said Rancho of Berry since you first knew it?

Answer. I have been there about six times I was there first about 14 years ago and all the visits I made were during the first four years of my acquaintance with it, when my father lived many years down there.

3d Question. How many times did your father point out these boundaries to you?

Answer. Two or three times

4th To what purpose did he show them to you?

Answer. I cannot tell I know nothing about this

5th Question - For what purpose did he show them to you?

Answer. He was passing over the Land together and I inquired of him where the boundaries were and he told me I had no particular motive except general curios-

Shad no particular motive except general interest

418 ND
PAGE 43

6th Question. Where was you on the Ranch when he first showed you the boundaries?

Answer. We were in the Cañada not far from Berry's house the first time I asked him, we were going to count some stock, near where the words "Olmus Creek" are written on said map.

7th Question. What led to the conversation between you and your father at that time and what was said?

Answer. When I was there I was thinking of Garcia's ~~boundary~~ boundary and I asked my father where Garcia's boundary was and he told me, and described Berry's boundary to me as I have described them in this deposition, and that was substantially all that was passing between us on the subject at that time.

8th Where was you on the Ranch the next time you talked with your father on this subject, and what was said and done on that occasion—

Answer. The next time we talked about it we were at Berry's house we were at breakfast and I asked my father if Garcia's Ranch extended up to that place and he told me it did not, it only came up to the Lagunita. That was all that was said at that time.

9th Question. Where was you on the Ranch the 3d time you talked about said boundaries and what was then said?

Answer. I cannot remember the particular places, where all the conversations occurred, I was going about on the ranch with my father and we were talking about these things— I recollect we were out on the Ranch the 3d time we talked about it but I cannot recollect the precise place. These were the only times my father mentioned the boundaries to me, and substantially all he said to me

418 ND
PAGE 44

on the Subject As I have Stated &c.

10th Question - Is there any Mark on On the Surface of the Earth Corresponding with the Yellow line you have noticed on the Map of you, described Said Mark, and if May how do you know the Shape of the Rancho was a parallelogram with right Angles.

Answer - I Saw no Artificial land Marks The only Marks I Saw were the Lagunitas On the South, the Arm of the Estero On the North and the Sonoma Roads and the Sierra On the West and On the East - according to the information I have, I thought the Rancho was in a Square form about four leagues long and two leagues wide, but I did not Supppose it was so perfectly and regularly formed as the Yellow line would represent it

11th Question. What Constitutes the Corners of the Rancho according to what you Saw or were told you?

Answer. I did not Show me the Corners. he told me the boundaries On the Sides as I have mentioned He told me the top of the Sierra divided the Rancho from Santa Rosa, he did not Say what part of the Sierra was the boundary On the East

12th Question. Are the directions of the ranges of hills on each Side of the Canada Correctly laid down on Said Map.

Answer. It appears to be Correct to my Eye.

13 Question. If you Father told you that the crest of the Sierra on the East was the boundary, how came you Say that the line as laid down from any that Side of Said Parallelogram and Cropping Said Range is the Correct boundary

Answer. He pointed out the Mountains and told me they was the boundaries, but he Said Nothing to me about

45

straight lines. It might be if the Rancho was measured with exactness that the lines would run as the yellow lines are laid down

14th Question. Point out on said map where your father told you the ranges of hills were which formed the Eastern and Western boundaries of said Ranch?

Answer. On the West the Sierra were those lying west of the Olmas Creek through which the Westerly yellow line runs, and those which my father showed me. On the East I understood to be along here where a black dotted line runs with the words "Road to San Rafael written on part of it.

15th Question. Point out on the map the Laguna you mention and state whether it is grown over with Tule

Answer. It is this little spot at the word "Olmas L" and I cannot say whether it is grown over with Tule It was a small lake when I saw it say 50 or 100 varas across

16th Question. How far were you from said Laguna when your father told you that was the boundary

Answer. We were perhaps a half league distant from it.

Monterey March 17th. 1836

In view of the petition which Commences this Espediente, the testimony of the witnesses, the report of the Municipal Authority and all the rest which was born in mind and was necessary to Examine; Mr. James Richard Berry is in Conformity with the Laws and regulations on the Subject declared to be the respectful owner of the Land designated in the plat, Subject to the Conditions which shall be Stipulated and with the reserve of the approval of the Most Excellent Territorial Deputation—

Let the Corresponding despatch be made out, which Shall Serve the party interested as a title, to whom this decree shall be made known. Señor Don Nicolas Gutierrez- Lieut Colonel, Commandant General Inspector and political Chief of Upper California, did this Command, decree and Sign, whereof I give testimony

(Signed) Nicolas Gutierrez

(Signed) Franco. de Castillo Regalado
Secretary

On the 31st of March this was signed to the Committee on Lands

(Signed) Maldonado
Secretary

Most Excellent Sir

The Committee on Colonization and Vacant Lands to whom was

71

referred the Espediente which forms the
grant made by the Political Chief in favor
of Citizen James Richard Berry of the place
named "Tamaules and Bonlines, makes
known that in the grant made to citizen
Refugio Garcia of the Land of the same
Name, there appears to be a mistake, because
this person (Garcia) asked for two Sitios
in the Canada de Bonlines, as appears by
the Espediente on file in the office of the
Secretary of the Political Government, and
besides, in the declaration of said Garcia
on the 8th. Folio of the present Expediente,
he declares that the Land asked for by
Berry does not belong to any private person
and that he acknowledged it as vacant;
this proves that the Tamaules & Bonlines
granted to said Berry are not granted to
the beforementioned Garcia, but only two
Sitios in the Canada of said Bonlines
and that therefore the Land asked for by
and granted to Berry remains vacant;
in witness whereof and in order not to
injure the parties, the Land asked for may
be granted to Berry, leaving citizen Garcia
in possession of two Sitios in the
Canada de Bonlines—

With respect to the
grant made to the party interested in this
Expediente by the Supreme decree of the
17th of March last, the Committee has no
other objection to make, Except its having
been granted under the Conditions which should
be stipulated, and believing that there
Can be no. Others than those stipulated
in the Law on the Subject, it is of opinion
that the party interested Cannot be subjected

418 ND

to any more restrictions than those mentioned in said Law - Whereupon the Committee concludes by submitting to the consideration of your Excellency the following propositions

1st The grant made by the Political Chief on the 17th of March last of the Land called Tumacas & Buenaventura to citizen James Richard Berry, is approved with the Exception of two Sitios already granted to citizen Rafael Garcia in the Canada de Bolinas, from its Centre towards the point of the same name.

2d Said Berry shall not be subject to any other restrictions than those stipulated in the Law and Regulations of Colonization.

Monterey September 9th. 1836
(Signed) Jose Joaquin Gomez. David E Spence

Monterey Sept. 9th 1836

In Sesion of to day, the Most Excellent Diputation approves the foregoing Opinion with the two propositions with which it closes, and ordered that this Espediente be sent to the Political Chief for its Conclusion

I Antonio Maria Osio, a resident of this place, with due respect and as the Law may allow me present myself and say, that on the 28th of September 1839, I bought from Mr. Joseph Snook two sitios de ganado Mayor, which had been granted to him in the Punta de Reyes (in the jurisdiction of San Francisco, where after having Examined it, I found that it Comprised a large Extent of land, and that being desirous I might injuring any one, ask for it, To that Effect I made a petition to His Excellency the Governor. Your Excellency's predecessor, and he granted me the sitios which it might Contain, Not Exceeding the Maximum besides the two sitios which I had purchased

418 ND

as appears by the annexed petition

It is now going on two years, since I obtained the satisfaction of quietly possessing a Rancho which I began to stock with nearly five hundred head of Cattle, and just when I was ready to convey a large from the Pueblo of San José I understood from Captain Don Salvador Vallejo that he himself had already given possession of my land to Mr. James Richard Berry-

This information was given to me in presence of his Excellency the Governor, to whom I immediately complained bitterly of the spoliation of my property, and his answer was, that on account of the disputes which had taken place between the Government and the Commandancia General, he considered the most prudent measure to be for me to await the arrival of your Excellency who was shortly Expected.

As I began said Most Excellent Sir, it is now going on for two years, that I am suffering loss of much Consideration, and therefore most Earnestly request that you would be pleased to Order a title of ownership to be made out in my favor, to the Extent which was provisionally granted to me, and that Mr Berry be informed that he has no right whatever in the Pueblo de Reyes, since the possession there given to him is null in all its parts, and that he be restricted to the Sitios which were given to him in the Ranada del Estero de Tamales, as the Expediente formed to that Effect in the year 1836 determinately Expresses, wherein the Corresponding plot

418 ND

Exists, and at first sight it appears that nature itself meant to divide the two ranchos by placing Mountains between them. I therefore request your Excellency to accede to my petition, whereby I shall receive favor and justice, Swearing &c

From all the proceedings had in the respective Especientes, as well as from the approved of the Most Excellent Departmental Junta of the 5th of September 1836 it results that Eight Sitios of ganado Mayor were granted to Mr Berry, in the place called Cañada de Tamales y Bambines, and the two Sitios in the same place of the Bambino to Señor Garcia, without any right to the other Contiguous land and much less to the place granted to and Claimed by Señor Don Antonio Maria Osio, which is divided by Mountains-

Government Secretary's Office

"This Government by a decree dated the 29th. of February last, commands that the Sentence of the Superior Tribunal of Justice of this Department, whereof the following is a Copy, be Carried into Execution—

Most Excellent Sir— The Fiscal of this Superior Tribunal makes known to your Excellency that he has Examined the Especimens of Mrps. Refugio Garcia, James Richard Beny and Antonio Maria Osio, and remarks thereon that the two Sitios granted by the Departmental Government to Sinon Garcia lie in the Canada de Bunlings, measured from the Centre to the point of the same name— Garcia agreed to this grant Since he established his house within its limits and without any objection reported as Vacant the remainder of the land asked for in the petition of Mr. Beny.

"The Departmental Government, in the petition made by Beny for Eight Sitios in the Land of Samuels and Bunlings, grants this favor, but with the understanding that Said Eight Sitios be measured from the boundaries of the two Sitios of Garcia formed. Garcia posterior to these grants, denounced his possession and located himself within formed and Consequently occupied in this new Settlement, land belonging to Beny— "This latter person also in order not to lose any part of his Eight Sitios by reason of the part taken away from him by Garcia advanced on the land

418 ND
PAGE 118

of Sinn Osio, Causing by these Operations Considerable damage to Osio —
"The popepin given to Mr. Bury of the Eight Sitios granted to him, was by the Military Commandant, Don. Salvador Vallejo, and not by the Magistrate authorized by law to that Effect, and consequently as the Military Commandant has no Litigious authority, Said popepin is null and of no Effect, and the party interested in order to legalize at all times the document of his property, must obtain popepin from the Competent Authority —
"The Measurement of these Eight Sitios is found by the Fiscal to be incorrect for it appears by the plot presented for popepin, that they Contain 7820 Varas from East to west — 15000 Varas the North 30.000 to the E. S. E. and 30.000 to the S. E. which Segure not being a regular one —, shews the imperfection of the Land and gives room for frequent law Suits between the adjoining Land owners —
All of which your Excellency will perceive by the plot of these measurements which I have the honor to accompany
"The Fiscal has likewise remarked with Surprise the dissimilitude and Consequently must say that the plot of popepin ought to Conform in all its parts with the one presented to the Government for obtaining the grant —
"The denouncement made by Sinn Osio is not as Mr. Bury Erroneously supposes of the remainder of his Eight Sitios, deducting the two which he granted to Mr. Snook, but of the vacant land

418 ND
PAGE 119

which may result after the Exact
measurement of the Eight Sitios which
belong to Mr. Berry. From nee of which
premises, the Fiscal's Office under my
charge, is of opinion — 1st That Simon
Garcia must occupy the two Sitios
which were granted to him in the boundaries
de Banlines, measured from the centre
of Isla Cananea, to the point of the same
name, which are the Sitios legally granted
and which he located in the beginning
2d That from the boundaries of Garcia
there be Exactly measured to Mr Berry
by a Surveyor, the Eight Sitios granted to
Mr. Snook, or that On the Contrary he obtain
a new title for two Sitios only which
belong to him, in order to avoid disputes
in future — 3d That in case the Depart
mental Government wishes to favor Simon
Osio, it may do so without the remainder
of the Land which may result upon the
Exact measurement of Garcia's and
Berry's Land. 4 — That as the person benefit
-ed by the measurement of the Sitios is
Simon Osio, he pay the Expense of the Survey.
5th. That Mr. Berry obtain the posession
of his lands from the Competent Authority and
reform the plot of posession, to Conform
with the One presented to the Departmental
Government at the time of asking for the
land — 6th. That the Competent Magistrate
Oblige these individuals in accordance
with the Laws of Colonization, to place them
Land Marks at the moment of receiving
posession, in Order to assignate, their boundaries
and Obviate many disputes — This is
the Opinion of this Fiscal's Office, but Your

Excellency will resolve what you may
Consider most Agreeable to Justice.

As it does not
appear from the Expedientes referred to
by the Fiscal that Don Antonio Osio has
made any Announcement of any of Mr

often Measuring Exactly the Land of
said Mr Berry; and it appearing that
this gentleman Erroneously questions the
right of occupation of his Land; this
Tribunal bearing in mind that he
Ceded two Sitios to Mr. Brook and Consen
ted to the Sale made by this person of
said two Sitios to Don Antonio Osio, he
Ought to know which was the part he

Consequently that he Cannot occupy

Bethnel Phelps
vs
The United States

For a place called "Punta Reyes" situated in the County of Marin and Containing Eight Square leagues—

418 ND
PAGE 143

The petitioner in this case claims title from One James R Berry and has offered in Evidence in support of his Claim a Traced Copy of an Espediente of the said Berry dated March 25th 1835, for the land, and a grant ispeed in pursuance thereof by Governor Victoria dated the 17th day of March 1836 and also a deed of Conveyance from the said Berry to the Claimant all of which documents are properly authenticated

The grant in this Case is for Eight Square leagues of land and it appears from the records in this Case that Salvador Vallejo a Local Military Commander gave possession of the same on the 16th day of June 1842 to the grantee, which fact was represented to the Govern and the Departmental Assembly, and action had thereon by them and the proceedings in judicial measurement set aside, and an approval by the departmental assembly of the grant for the Eight leagues specified in the grant, and grants issued to Other applicants for the balance of the Land.

We think this a valid claim and see no Objections to a Confirmation for the Eight leagues specified in the grant, and to be located agreeable to the Calls thereof and the map—

accompanying the Espediente, and a decree will be Entered accordingly

The above named Bettinet Phelps, the Claimant in this Case objects to the Survey returned herein by the Surveyor General of the United States for California, and makes and files the following Exceptions thereto.

The Survey is not in accordance with the decree herein, nor does it agree with the grant upon which said decree is founded in the following particulars,

1st. The grant and decree include the Cañada Tamales y Bandinas, and the Survey excludes said Cañada.

2d. The grant and decree is for Eight leagues of land, the Survey includes only three leagues Eight hundred and Seventy three acres nearly.

3d. The grant is the oldest in date to any that surround it, but in the Survey it is postponed to every junior grant which touches it on the North, East South, & West, the

Samales y Baulines confirmed to Rafael Garcia. The Nicasio confirmed to James Black & B. R. Buckelew, the San Geronimo, the Canada de Herrera, Punta de Quintin, Sanchito, & Las Baulinas.

QUESTIONS IN BEHALF OF THE Claimants

183

Question 1st,

What is your name age and place of residence?

Ans.

My name is John Parrott, my age is fifty years. I reside in

San Francisco.

2.

Did you ever reside in Monterey California, if so during what time?

418 ND
PAGE 184

Ans.

I visited Monterey in the month of June 1845. I resided there from that time until the August following.

3.

Where have you resided since that time?

Ans.

Principally in San Francisco.

4.

What was your business at Monterey and in California, at and since 1845?

Ans.

I entered that Port as Supercargo on board of the Brig ~~Alcalde~~ Rakader, my business since that time has been principally banking and real estate business.

5.

Do you know what paper

418 ND
PAGE 185

was used by the Government officers in Monterey, in 1845-~~1846~~ and subsequent, if you state your information and the means by which you acquired it?

Ans.

The paper that I observed used in the Custom house, and public offices was Italian paper which was called "Medio Florida" made of Linen in Genoa. The Spaniards never used Cotton paper. I sold a considerable quantity of the paper & speak of it to the Government, that paper was marked "Picardo"

6.

Examine the paper marked "Exhibit 1, A. H." purporting to be signed by Pio Pico, and state if you have any knowledge of such paper having been in California in 1846 or at any other time prior to the Conquest of California by the U. S. either in public or private use or otherwise?

418 ND
PAGE 186

Ans.

The paper that was in use
prior to my arrival I do not
remember the marks upon
it. I have no recollection
of seeing paper with the
marks upon this exhibit
in use at all.

7.

Was you in the habit of
doing business in California
or of visiting public offices.
To what extent, that if such
paper as that in this
exhibit had been in use,
you would have seen and
known it?

Ans.

I have no recollection of
seeing paper of this mark,
notwithstanding I did business
with the public offices.

8.

Look upon paper purport-
ing to be a letter from
Gregorio Briones to Governor
Pio Pico dated "Ens. 3/1846"
produced by R. C. Hopkins
from the office of the U. S.

Surveyor General, say whether any such paper was in use in California in 1846, or any knowledge you may have in regard thereto?

418 ND
PAGE 187

Ans.
To the best of my recollection
~~knowledge~~
There was none in 1845. I cannot say about 1846. This paper was made in the United States.

9

Look at the signatures of Pio Pico and Jose Ma. Covarrubias to the said Exhibit 1. M. M. and say with what instrument they were made?

Ans.
I think Pio Pico's was written with a steel pen, Covarrubias is the same.

10.

Were there any such pens in use in California, at the date of those papers?

Ans.
Not that I recollect of.

PRESENT: S. M'M. Shafter Esq for Claimant. S. H. Sharp Esq for himself and W. H. Sharp Esq. U. S. Atty.

QUESTIONS IN BEHALF OF THE Claimant

Question 1st,

What is your name, age, place of residence and occupation?

Ans.

My name is R. C. Matthewson

my age is 42 years, I reside in San Francisco, My occupation is that of Engineer and Surveyor.

2.

418 ND
PAGE 191

What connection if any have you had with the surveys made under the direction of the U. S. Surveyor General, of the several ranchos in Marin County, California?

Ans.

I believe I surveyed all the ranchos in that county with the exception of the Sausalito ranchos. I made these surveys as Deputy Surveyor acting under the orders of the U. S. Surveyor General.

3.

In making the surveys of the Punta de los Reyes Labranza, the Tamales y Baulenes, the ranchos of Garcia and Berry, the portion of the Nicasio claimed by P. R. Buckelew, the San Jeronimo

418 ND
PAGE 192

and the Rancheros, did you become acquainted with the location and topography of said Ranchos?

Ans.

I did.

4

Do the printed map marked Mathewson Exh. 1. to be annexed to this deposition a correct delineation of said last mentioned ranchos, as surveyed by you?

Ans.

It is.

5.

State whether commencing at a point marked ~~"C"~~ "A" at the junction of the Arroyo San Geronimo and Sticapio there is a range of mountains running to the Southeast until it intersects the line of the San Geronimo Rancho at its Northern point?

Ans.

There is such a range of mountains marked by a pencil line

418 ND
PAGE 193

6.

State whether there is another range commencing at the Northern end of the Sierra de Paulenes and running in a Southeasterly direction to Tamaulipas. If you describe such range of mountains, as to height and extent?

Ans.

There is such a range of mountains which lie on the opposite side of the Arroyo San Geronimo, from the range described in the preceding question, from which rise higher and higher in a Southeasterly direction to Tamaulipas, where they attain a maximum height.

7.

Which of these two ranges are the higher, in that part of them lying within the part of the Tamaulipas spoken of, and the Ranch surveyed to Rafael Garcia?

Ans.

418 ND
PAGE 194

Ans.

That in the part of the Tecapic lying to the North-east of the San Geronimo. I should suppose these last were twice as high as the other.

8.

How high is the dividing line between the Taumales and Paulenas hays, above said hays?

Ans.

I should think it was less than one hundred feet.

9.

What is the nature of the country lying between said hays?

Ans.

It is partly a narrow valley, and partly rolling land, bounded on each side by hills.

10.

What is the nature of the land to the South and West of the Odessus Lake?

Ans.

A narrow portion of it near

Clemens Lake is valley land, the rest is rolling hills, ~~and~~ and mountain, There is a range of hills running in a Westerly direction parallel to the Clemens Lake and ~~Bad~~ ~~bay~~ Baumales bay.

Shake if you know who was the author of this map, Exhibit Matthewson No. 1.?

Ans.

I think it was compiled by Leander Ransom, from the notes of my surveys in the Surveyor Generals office.

About three leagues and one fifth – a very little less.

Ques 13.

Why did you include in this survey only about three leagues and one fifth, when the grant and decree require a much larger quantity?

Ans.

My reasons for so doing are given fully in a report which I returned to the Surveyor General with the Field notes and plats of the survey of this ranchs, and the surveys of the surrounding ranchos, to which I refer and make part of this answer.

Cross Examination resumed.
Questions by Counsel for Intervenor Sharp.

Ques: 14

State upon what principles these surveys were made, that is the grant of Palmillas y Paulenes, the Paulenes, claimed by Briones and

Rafael Garcia's grant?

Ans.

Garcia's grant was surveyed to the extent of two leagues under instructions from the Surveyor General. That of Gregorio Briones was surveyed by boundaries out of which the two leagues embraced in the survey as returned were selected by Volney E. Howard and Solomon H. Sharp in the office of the U. S. Surveyor, the ranchos being confined to the extent of two leagues by the Surveyor General, the attorneys for claimant always contending for the extent of their boundaries and beyond the two leagues, ~~and~~ if cut down to two leagues they selected it in the manner as surveyed and approved by the Surveyor General. And the ranchos Damales y Paulenes was surveyed to include what was left after the surrounding ranchos were surveyed as stated, the quantity only amounting to about three leagues and one fifth, instead

418 ND

amounting to about three leagues and one fifth, instead of six or eight leagues as claimed by the owners of the grant.

15.

418 ND
PAGE 198

To what extent ~~did~~ if any did you follow the jurisdictional survey found in the record of the grant of Daunales y Paulenes, or the report of the Fiscal purporting to adjust the boundaries between this ranch and that of Garcia?

Ans.

I did not follow it at all the jurisdictional proceedings having been given at Punta de las Reyes, which was afterwards declared by the Superior Tribunal to be null and void. ~~In this survey I~~

16.

What importance did you attach to the decree of the Superior Tribunal found in the record of this case, in making these surveys?

Ans.

I attached so much importance

do it, that I included the two leagues from the head of Tomales Bay, of which juridical possession was given to Garcia, in my original survey of this rancho, but was ordered by the Surveyor General to leave them out and include them in a separate survey to Garcia.

17.

Do you recollect what were the exterior limits of the rancho Baulines surveyed to ~~Garcia~~ Briones?

Ans.

It was bounded by a line commencing on the Pacific Ocean, running by the Laguna Lasimo to the summit of the ridge lying Southwest of the Always San Geronimo, thence following that ridge in a Southeasterly direction to an oak marked "B.T" which is the Northern point of the survey returned.

18.

How far North is the line you last speak of from the the

you last speak of, the the

one approved by the Surveyor General?

Ans.

About three miles.

19.

418 ND
PAGE 200

Do you recollect about how much land was contained within the natural boundaries called for in the grant?

Ans.

I do not recollect, but I think there was something more than a league ~~cut off~~ and a half cut off.

20.

State whether the natural objects called for in the grant were found by you on the ground?

Ans.

They were, the boundaries of the ranch being in my opinion well defined.

21.

Can you state how the line of the Baudenes grant returned by you and approved by the Surveyor General on the side next to the Sanchez and

adjoining that of Richardson, corresponds with the survey of that ranch made by Lewis and approved by the Surveyor General.

Yes.

It is identical with it.

PRESENT: S. M. M. Shafter Esq. for Claimants, ~~V. E. Howard Esq. for~~ and W. H. Sharp Esq U. S. Atty, S. H. Sharp for himself.

QUESTIONS IN BEHALF OF THE Claimants

Question 1st,

What is your name age and place of residence, and occupation?

Ans.

My name is R. C. Hopkins, I am

of lawful age, I reside in San Francisco, and my occupation is that of Keeper of the Spanish Archives in the Office of the U. S. Surveyor General, which position I have held for the last six years.

418 ND
PAGE 206

2.

State whether the three documents now exhibited by you are papers on file in the office of the U. S. Surveyor General as a part of such Spanish Archives?

Ans.

Yes. All of said documents to wit: the one marked "Expedients" &c, is on file among the archives which belong to the Secretaria of the former Mexican Government of California, the other being a letter from Gregorio Briones to Governor Pio Pico, this latter also belong to the said Secretaria. The third document to wit: Exhibit W. H. annexed to the deposition of William H Richardson is from the

file of papers of the late Board of U. S. Land Commissioners, now in the custody of the U. S. Surveyor General, and is a grant to Gregorio Briones for the place named Saulenes.

418 ND
PAGE 207

3.

In whose handwriting is the body of the second document spoken of by you, to wit: a letter from Briones to Pio Pico?

Ans.

It is I think in the handwriting of Juan Francisco Coronel.

4.

What was the residence and occupation of the said Coronel at the date of said letter?

Ans.

He was at or near the date of the letter referred to, I think a clerk of Vicente Sanchez a Justice of the Peace in Los Angeles. I arrive at the knowledge of this fact from finding in the archives a correspondence of said Sanchez about the date of said letter in the same hand-

writing as this letter of Briones, and by comparing the hand-writing of this letter with the signatures of Francisco Coronel where found in the archives, I am led to believe that this letter is in his handwriting.

418 ND
PAGE 208

5.

Are the signatures of Pio Pico and José M.ª Covarrubias or either of them, on the paper you call a grant of Bandenes to the said Briones genuine, and how do these signatures compare with other signatures of those persons, found on original papers in the office of the U. S. Surveyor General?

Objected to on the ground that the witness has never seen Pio Pico write, and the grant to Briones being finally confirmed is <u>res adjudicata</u>.

Ans.

As I have heretofore stated in many cases before the Court the archives show that Pio Pico used several forms of

418 ND
PAGE 209

"Ps" in signing his name, the "P" used in the signature to this grant is such as he at present uses in signing his name. I think I have never been able to find but two signatures in the archives similar to this — one is his signature to the grant to Francisco Pico of Las Calaveras, the other I have now forgotten. Signatures similar to that of this grant occurs repeatedly on papers filed by the claimants before the Board of U. S. Land Commissioners. I think this signature was made by Govr. Pio Pico. The signature of José Mo. Covarrubias resembles his signatures, but to my eye appears somewhat thicker than his signatures usually are.

6.

Are there any papers on file in said Surveyor-General's office written upon paper similar to that upon which the said Peinas grant was written, if so how many and

what are they?

Ans.

This grant is written upon paper bearing the water mark of "Patenti". I think I have seen but two documents in the archives written upon similar paper, one being the grant to Francisco Pico of Las Calaveras, and the other the grant to Manuel Castro of Laguna Seche. These two documents were filed by the claimants before the Board of U. S. Land Commissioners. I think these are all the documents I have seen written upon this paper.

in an index compiled in the

in an index compiled in the office of the U. S. Surveyor General in the summer of 1853.

8.

Do you know in whose handwriting is the endorsement on the back of that expediente?

Ans.

It is in the handwriting of Luis Mª Cervantes, signed with his rubrica, and who was at that date Secretary of State.

418 ND

9.

Can you state in whose handwriting is the concepian on page 1st of said expediente dated November 27, 1845, commencing "Vista la peticion"?

Ans.

It is also in the handwriting of Luis Mª Cervantes.

10.

Can you state how long to your knowledge, the expediente has been on file in the archives of the office?

Ans.

To my knowledge it has been on file ever since I have been

in the office, ~~and Sam~~

11.

State whether or not the expedients in this case of Briones has every appearance of being one of the regular expedientes in the office?

Objected to as irrelevant and incompetent.

Ques: 12.

Please state in what part of the expediente of Gregorio Briones the "concepcion" "Vista la Peticion," is written?

Ans.

It is written on the 10th and is finished on the 11th pages. It immediately follows the certificate of Timothy Murphy The concepcion is dated November 27th 1845.

13.

According to the usage and customs of the Mexican government as shown by the

Ans.

418 ND
PAGE 214

In the office of the Secretary of State.

14.

Where would it remain after that period?

Ans.

If the approval of the Departmental Apendly had not already been obtained, it would be sent to that body for it's approval, it would then be returned to the Archives of the office of Secretary of State, where it would remain.

15.

But whether approved or not, did not the expediente remain among the Archives of the Government for granting

of lands?

of lands?

Ans.

It did.

16.

418 ND
PAGE 215

Where was the expediente of Gregario Briones found, when you first became acquainted with it?

Ans.

It was found in the Archives, in what was clased as the "Unfinished Expedientes".

17.

Has it among the archives deposited with the authorities of the United States after the change of Flags?

Ans!

It was,

18.

What was the usage and customs under the Mexican Government as to attaching the signatures of the Governor and Secretary to the decrees of concessions and the office copies of the

grants?

Ans.

In the expedientes of the first grants made under the laws of Colonization it was usual for the Governor and Secretary to sign the decrees of concession; after the time of Governor Figueroa however not more than one half of the decrees of concession were signed either by the Governor or Secretary of State. The office copies of the grants were not signed either by the Governor or Secretary.

418 ND

19.

Were the decrees of concession treated as of equal validity whether signed or unsigned?

Ans.

Judging from the archives they were by the Mexican government.

Answered Supplemental

418 ND

20.

What evidence if any do the archives ~~contain~~ under your charge, contain of the appointment of Salvador Vallejo as Civil Magistrate?

Ans.

In the archives there is on file a correspondence between Salvador and his brother M. G. Vallejo dated I think, in 1839. In this correspondence Salvador Vallejo states that Governor Alvarado had appointed him Justice of the Peace, and that it required him to do certain things which interfered with his duties as a Military officer. ~~&~~ and asked his brother ~~to~~ ~~let~~ what he was to do. From that time there is evidence that he acted as Justice of the Peace, such as records of judicial

possession, and ~~provisional~~ permission to occupy lands provisionally, on the Northern sides of the Bay.

418 ND
PAGE 218

21.

Under the usage and customs of the Mexican government as shown by the Archives, what was the effect of these provisional licenses to occupy lands, issued by a Justice of the Peace or a Civic Magistrate?

Objected to as incompetent.

Ans.

They were usually required to make the prospective petition to the Governor for the land, being permitted under the permission to occupy the land until the action of the Governor was had in the matter.

22.

22.

Is there among the Archives under your charge an expediente of the grant to J. R. Berry?

Ans.

There is. His signature to the petition is spelled ~~Raot~~ ~~Lmo~~ "Saime Ricard Berry," wherever his name occurs in this expediente it is spelled in the same way.

418 ND
PAGE 219

23.

State whether there is a map attached to the application for a grant in the said expediente?

Ans.

There is.

24.

State whether you perceive any alteration in the said map if so what is it?

Ans.

The palace marked on said

418 ND
PAGE 220

maps as "Cañada de Baulenas" is an erasure apparently of some word of seven letters. There also appears to have been a line drawn across said Cañada de Baulenas, about the center, which has been erased. On the word "Tomales" found directly underneath the word "Terrens" in the Northern portion of the maps appears to have been written over a place where some other word had been erased.

25.

How do you translate the words on said maps, on both sides of the Cañada de Tomales "Terrens que se Solicita"?

Ans.

The land that is which is solicited.

26.

What do you understand the blue shade in said map to represent?

Ans.

418 ND
PAGE 221

It appears to represent valleys.

27.

What do you understand the dashed lines on the map, except what is represented as Canada de Tunales, to represent?

Ans.

It appears it must represent boundary, division, limit or extent.

You speak of the conception found attached to the exp-

418 ND

=edients of Gregorio Briones, is this conception in the ordinary form used by the Mexican Governors, or does it differ from such forms?

Ans.

As far as it goes it is in the ordinary form, but it appears to be incomplete. There is not found in this conception the formal words in which concessions were closed, which are as follows. "Let the corresponding "title issue, and let it be "delivered to the interested "party for his security and other ends."

29.

Is there any record or trace of a grant remaining in the archives to Gregorio Briones, of the land mentioned in this expediente?

418 ND
PAGE 223

Ans.

None save what is found in this expediente, except the grant which was presented by the Claimant to the Board of Land Commissioners.

30.

Are there other diseños among the archives in cases where grants issued from the Mexican Governments, which diseños appear to have been made by the same person as that in the case of L.P. Berry?

Ans.

There are several expedientes the petitions in which were made about the year 1835, containing maps I think made by the same person who made the maps in the Berry expediente.

31.

Look at the signature of Louise Berry to the affi-

Hon. J. W. Mandeville
U. S. Surveyor General

Sir: - Between the head of Tomales and that of Baulines Bay situated in Marin County, and embraced in the district which I have been appointed to survey, extends a narrow cañada, about ten miles in length, watered by two arroyas called the "Olemos Loke" and the "Cieno," the former of which flows in a north-westerly direction into Tomales, and the latter in a south-easterly direction into Baulines Bay. From the documents accompanying your Instructions, after a careful examination of the subject, I think there can be no doubt that the land lying in this cañada was known to the Mexican Authorities by the name of "Tomales y Baulines," while that stretching out westwardly to the coast was called "Punta de los Reyes."

Five of the Grants which I have been instructed to survey, according to the documents referred to above, are located upon these lands as follows: 1. To James Richard Berry, March 17. 1836, for Eight square leagues in Tomales y Baulines. 2. To Rafael Garcia, March 19. 1836, for Two square leagues in Tomales y Baulines. 3. To Jose Francesco Snook, in the year 1839, for Two square leagues on Punta de los Reyes. 4. To Antonio Maria Osio, in the year 1843, for Eleven square leagues on Punta de los Reyes. 5. To Gregorio Briones, in the year 1846, for Two square leagues in Las Baulines.

It appears to me after a thorough investigation of all the documents and diseños in the different cases that the Garcia grant is located upon the same land as the Berry grant in Tomales y Baulines; that juridical possession was given Garcia when his grant is located in Tomales y Baulines; that juridical possession was given Berry not in Tomales y Baulines where his grant is located, but on Punta de los Reyes; that while occupying the land on Punta de los Reyes, Berry sold Two of his Eight leagues to Snook; that these are the same Two leagues for which Snook afterwards obtained a grant; and finally that Osio's grant was for the sobrante and included all that remained of these lands after the proper location of the lands granted to Berry and Garcia.

418 ND
PAGE 245

In consequence of these contradictory transactions the subject was ultimately referred to the judiciary, and in the year 1844, the Superior Tribunal decided that the juridical possession given the parties was illegal and void, that Garcia must vacate Berry's land in Tomales y Baulines and locate himself on the land granted him in Las Baulines where he formerly resided; and that Berry must vacate the land of Ocio, on Punta de los Reyes, and locate himself on the land granted him in Tomales y Baulines, then occupied by Garcia. It appears, however, that this decree has never been carried into effect; for Garcia occupies until this day, the land in Tomales y Baulines decided to belong to Berry, and the land in Las Baulines decided to belong to Garcia, on which he formerly resided, and to which he is ordered to return, is the same land which was afterwards granted to Briones and on which he now resides.

The following is, therefore, the conflicting condition of affairs at present. Berry's grant according to his title papers and the decree of the Superior Tribunal is located in Tomales y Baulines, where Garcia now resides, while according to his juridical possession it is located on Punta de los Reyes on lands decided to belong to Ocio. Garcia's grant by his title papers and juridical possession is located in Tomales y Baulines, where he now resides, on land decided to belong to Berry, while by the decree of the Superior Tribunal it is located in Las Baulines on land granted to Briones and on which he at present resides. Briones's grant, according to his title papers is located on land decided by the Superior Tribunal to belong to Garcia. Ocio's grant according to the decision of the Superior Tribunal is located on land of which juridical possession was given to Berry. And finally Snook's grant by his title papers is located on land adjoining Berry's, while by his juridical possession it is located at the extremely of Punta de los Reyes - distant at least ten miles.

But what renders the confusion still more compounded are the facts, strange as they may appear - that when Berry applied for the land in Tomales y Baulines, Garcia who then lived at Las Baulines, testified that the land was vacant, and that when Garcia subsequently obtained a grant for the very same land in Tomales y Baulines, Berry assisted in giving him juridical possession! Under these circumstances, being unable to reconcile absurdities or perform impossibilities, I made the surveys, as nearly as possible, in conformity to the different grants, leaving some uncertain lines to be run hereafter upon receiving further instructions. When the juridical possession is not in accordance with the grant and diseño, I rejected it altogether, conformably to the decree of the Superior Tribunal, as in the grants of Berry and Snook, but when the decision of the Superior Tribunal varied from the grant and diseño, as in the grant of Garcia, I had to make the survey in accordance with the latter inasmuch as the former gives no boundaries or description upon which to base a survey. The Berry grant, having no definite boundaries, is made to include all the land which remains in Tomales y Baulines after all the other grants which have definite boundaries are surveyed.

418 ND
PAGE 246

The field notes, plats, and tablings which I submit accompanying this report, are as follows. 1. The Berry grant in Tomales y Baulines, containing 21269 47/100 acres or 4 4/5 Square leagues. 2. The Garcia grant in Tomales y Baulines, on the same land as a part of the Berry grant, containing 8877 41/100 acres, or 2 Square leagues. 3 The Snook grant on Puntas de los Reyes, containing 8877 67/100 acres or 2 Square leagues. 4 The Ozio grant on Puntas de los Reyes, containing 42020 25/100 acres, or 9 1/2 Square leagues. 5. The Briones Grant on Las Baulines, containing 16741 20/100 or 3 3/4 Square leagues.

In all these surveys, with the exception of that of the Briones, the quantity of land included is either equal to or less than that called for in the Grants. On the Briones Map that portion included between the Pacific Ocean on the South-west and the red-shaded line, commencing at Station 31, on the Coast, and terminating at Station 1, at the head of Baulines Bay, contains two square leagues, and is the portion selected by Briones. It excludes about 4490 acres, and includes only 1041 acres of the land he sold as part of the Rancho, but he says he has given Warranty deeds for the part included and only quit claim deeds for that excluded. The portion included by the original boundaries on each side of Baulines Bay and the dotted red line, commencing at the mouth of the Arroyo Hondo, near Station 21, and running N 46 3/4 E, 300.64 chains to Station 36 at an Oak tree, on the summit of the ridge, also contains 2 Square leagues, and is the survey contended for by the parties who purchased the Morgan and Corrus portions of the grant. This line would include 5184 acres and exclude only 347 acres of the portion sold.

I am very respectfully
Your Obdt. Servt.
