**Letter**

WASHINGTON, D. C.

April 19, 1907.

Prof. A. C. Lawson

Bond Building

Washington, D. C.

My dear Doctor Lawson:

I am in receipt of a letter from Professor Lawson, stating that he will arrange for a field conference with Professor Newsom. He wishes me to secure copies of the geologic boundaries in the area to be discussed.

Will you kindly furnish me those on the San Francisco quadrangles for six or eight miles north of the boundary? I will have the Santa Cruz copied here, and the two maps can be sent off together.

Very truly yours

[ARTHUR KEITH]
