Letter from John F. Hayford, Inspector of Geodetic Work.

Letter

October 22, 1907.
Messrs. Hoen and Co.
Engravers and Lithographers
Baltimore, Maryland.
Gentlemen:

I have to-day received a letter from Prof. Andrew C. Lawson in which he calls attention to an error in map 24 of the California Earthquake Investigation Commission, which map is to be printed by you. He also requests me to drop you a line calling attention to this error in order that it may be corrected, if possible. Accordingly, there is sent to you, under separate cover, a proof of this map on which the necessary correction has been indicated.

Respectfully
John & Hayford
Inspector of Geodetic Work.
