Letter to President D.S. Jordan, Stanford April 6, 1907

Letter

April 6, 1907.
President D. S. Jordan
Stanford University
California.
Dear Sir:

Among the documents of the Earthquake Commission, I have a memorandum from you stating that the earthquake crack at Morrill's house, above the tunnel at Wright's, intersects the tunnel. Other observers at the same place fail to verify your statement, and I write to ask whether you have any evidence of the fact of this crack passing through the tunnel. In view of positive statements by competent observers that no crack corresponding to this one can be found in the tunnel, I shall feel disposed to omit your statement in the report, unless you can give me the evidence that would overset the failure of other observers to find it.

An early reply will greatly oblige

Yours sincerely
