**Letter**

September 6 (0) 7  
Professor H. F. Reid  
Johns Hopkins University  
Baltimore, Md.  
My dear Reid:

I am enclosing you herewith a letter I received this morning from Professor McAdie concerning the time observed in San Francisco for the earthquake. McAdie was not quite sure that you had all these data, and as he seems to be very positive as to the question, I thought it well to send the data on to you.

Yours sincerely
