Dear Mr. Sthal.

The question of whether or not subsistence for workers on the part-time night shift should be deducted is now pending the decision of Mr. Myer in Washinton. We have requested that Mr. Myer make no subsistence deduction for the part-time workers.

Until we have received his answer, will you please deduct t he regular subsistence from the night workers' wages and hold this sum in trust until such time as Mr. Myer has made a definit e decision on the matter.

Yours very truly
