(Copy of telegram sent 4-5-50)

Dr. George A. Pettitt
2422 Cedar Street
Berkeley 8, California

I have unofficial word that letters received today containing request for signing of special oath were sent by mistake and should be ignored. I am prepared to recommend this to academic staff and others if desired either as coming from President Sproul or on my own responsibility provided definite information is received from the President or a representative authorized by him. This information will be kept secret if you wish. Reply by telegram to my home.

Roger Revelle.
