CALENDAR OF LABOR CENTER PROGRAMS 1985-1986

The Center for Labor Research and Education at U.C. Berkeley will offer the following programs for trade unionists in Northern California, October through next May. Some programs will be co-sponsored by Labor Studies at San Francisco Community College, as indicated. There will be a separate announcement including a full description of each program, the agenda, the fees, and the exact location, which we plan to mail in the month preceding the date of each program. Fees will differ, depending on the cost of materials, meeting facilities, and sometimes lunch or the expenses of invited speakers; they will be as close to total program costs as we can estimate.

We would appreciate hearing at any time of your interest and your plans to attend any or all of these programs. The individual program announcements will contain more information and a registration form. It will help our planning if you use the form, and register as much in advance as possible. In the meantime, call us about any program (including any we haven't scheduled, if you think we should add it), and make sure you are on our mailing list and receiving the Labor Center Reporter.
