SUMMER SESSION, 1921

June 20 to July 30

Sessions of 1921

The annual Summer Session of the University of California will begin Monday, June 20, 1921, and will continue until Saturday, July 30, the session covering six weeks. During the same period the University will conduct a Summer Session in Los Angeles. A special bulletin describes the courses offered.

In 1921 the Summer Session will be preceded, in Berkeley, by an Intersession covering the period of six weeks from May 9 to June 18.

Earlier Sessions

The University of California held its first regular Summer Session in 1900, though summer courses in several departments had been given during the years 1891-99. In the summer of 1920 the total enrollment of the Intersession was 1005, and of the Summer Session, not including the Summer School of Surveying, was 4009; 2044 were teachers. In the Summer Session there were represented forty-four states of the United States and twenty-one foreign countries. In the Summer Session in Los Angeles the enrollment was 1427.

Purpose of the Sessions

The courses in the Summer Session are designed to meet the needs of the following persons:

1. Teachers who wish to increase their professional skill, to revise and extend their knowledge of a chosen field, or to qualify in new subjects, preparing to meet the special demand for instruction in Americanization, commercial subjects, biology, physics, chemistry, general science, physical education, manual arts, and vocational agriculture. (With state and federal aid, under the Smith-Hughes Act, special Summer Session courses are offered at the Chaffey Union High School for those preparing to teach vocational agriculture and the supplemental vocational subjects in California high schools.)

Teachers who desire to be prepared for service in vocational schools and classes maintained under the provisions of the State and Federal Vocational Education acts, and the recent State Compulsory Part-Time Education Act, which became effective with the beginning of the school year 1920. The courses designed primarily for this purpose are listed on page 131 of this bulletin.

2. School superintendents, supervisors, and other officers. Supervisors of agricultural education, drawing and art, commercial subjects, music, physical education, and home economics will find work especially suited to their needs.

3. Graduate students, to whom the advantages of smaller classes and the more direct and intimate personal contact with the professors in charge of the courses offered are peculiarly possible during the Summer Session.

4. Undergraduate students, and especially those registered in the fall or spring sessions of the University, may use a portion of the vacation to take up studies for which they are unable to find room in their regular programmes, or to make up deficiencies, or to shorten their courses.

5. Properly recommended high school graduates who are about to enter upon regular university courses and who desire to broaden their preparation for university work. To meet their needs courses are offered in chemistry, commerce, drawing, French, German, graphic art, Greek, home economics, Italian, mathematics, physics, and Spanish.

6. House wives, graduate nurses, social workers, Americanization workers, students of public health, and all adults who are qualified to pursue with profit any course given, whether or not they are engaged in teaching or study.

The courses in the Intersession are designed primarily to meet the needs of students attending, or about to attend, the courses of the fall or spring sessions.

1. Lower Division students will find opportunity to enroll in a number of courses prerequisite to advanced study from which they were excluded in the present year because of the over-crowding of the University.

2. Upper Division students in the larger departments will find opportunity to continue their work in smaller classes.

3. Graduate students will find opportunity to enroll in major Upper Division courses and in seminars which are to be continued during the Summer Session.

In general, by combining the Intersession and the Summer Session, it will be possible for students to obtain, in a single summer, credit for one semester's residence and for twelve units of work, thus reducing by six months the time required for completion of work for a degree. Between the closing of the Summer Session and the opening of the fall semester there remains an interval of two weeks for vacation purposes.

Faculty

The faculty of the Summer Session will include not only members of the regular faculties of the University but also a number of men of letters and science from Eastern universities.

The faculty of the Intersession will consist almost wholly of members of the regular faculties of the University.

Applications for Admission

All persons who desire to attend any of the courses of the Summer Session are urgently requested to notify the Recorder of the Faculties on or before Wednesday, June 1, using the blank form of application at the end of this bulletin.

All persons who desire to attend any of the Intersession courses are urgently requested to notify the Recorder of the Faculties on or before Wednesday, April 20, using the blank form of application at the end of this bulletin.

Compliance with this request will facilitate the making of adequate arrangements by the University, and will make possible prompt communication with prospective students in case of change in the programme.

Admission Requirements

Attendants upon the exercises of the Summer Session and Intersession are divided into two broad classes:

A. *Auditors*.—Any adult of good moral character is permitted to attend all the regular exercises of either of the sessions, as an auditor, upon the filing of an application and the payment of the regular tuition fee of \$20. An auditor does not participate in recitations, does not take examinations, and hence does not receive credit.

B. *Students*.—While there are no formal admission requirements and no entrance examinations, the officers in charge of admissions will keep in mind the fact that the instruction offered is such as is suitable for students of university grade, and these officers will exercise their discretion in admitting to student privileges only those applicants who appear to possess the requisite maturity, training, and intelligence. Furthermore, the instructor in charge of a given course may himself require of those who present themselves as students in this course any preliminary test, formal or informal, which he may deem essential to the work proposed.

The University will not, as a rule, admit to the Summer Session or Intersession pupils from the high schools who have not yet completed the four-year high school course. Where an exception is made to this general rule, the pupil will be required to devote himself to courses given primarily or exclusively for matriculation credit, such as the "A" or "B" courses in chemistry, physics, mathematics, drawing, and the languages. And in every such exceptional case the applicant will be required to procure from the principal of his school and to present at the University a special testimonial as evidence of superior scholarship and of unusual fitness for the work proposed. A blank form of testimonial for the principal's use may be obtained from the Recorder of the Faculties. Only by special

arrangement made in advance may Summer Session or Intersession courses other than the "lettered courses" be applied toward matriculation.

Registration Dates

The office of the Recorder of the Faculties will be open for the registration of Summer Session students Saturday, June 18, and Monday, June 20; and for the registration of Intersession students Saturday, May 7, and Monday, May 9. For detailed directions as to entrance see later pages in this bulletin.

With the approval of the Dean, teachers whose regular employment makes it impossible for them to register in the Intersession or the Summer Session on the first day (Monday) may register as late as the second Monday; but such students may enroll in the courses desired only when in the opinion of the instructor they have satisfactorily covered the ground of the first week's work.

Fees

The tuition fee, regardless of the number of courses taken, will be twenty dollars (\$20) for the Summer Session and twenty dollars (\$20) for the Intersession; forty dollars (\$40) for both. Laboratory fees will be charged in courses in agriculture, botany, chemistry, civil engineering, home economics, mechanical engineering, office practice, physics, public health, and zoology. The fees in each case are stated in the description of the course.

Persons who desire to attend courses or occasional lectures without examination or formal credit may secure for this purpose an auditor's ticket upon payment of the regular fee, \$20 for the Summer Session or \$20 for the Intersession.

All fees must be paid in advance, at the opening of the Summer Session or of the Intersession, at the office of the Comptroller, in California Hall. No deduction will be made from fees in cases of late registration. After the first week no rebate will be allowed for early withdrawal. *No application for refund will be considered unless it is made at the time of withdrawal.*

Special Summer Session scholarships, equivalent in value to the Summer Session fee, will be granted by the California State Board of Education to prospective or to qualified teachers of vocational agriculture in California high schools. Such scholarships are good only for the special teacher-training courses at the Summer Session conducted at the Chaffey Junior College of Agriculture at Ontario. Application for scholarships should be made in advance to the State Supervisor of Agricultural Education, State Department of Education, Sacramento, California.

Classification and Numbering of Courses

CLASSIFICATION

I. Undergraduate courses.

1. Lower Division courses.
2. Upper Division courses.

An upper division course is an upper division course of advanced work in a department of study, that has been pursued in the lower division, or of elementary work in a subject of such difficulty as to require the maturity of upper division students. All upper division courses are definitely announced as such, and are given numbers 100-199, as explained below.

II. Graduate courses.

NUMBERING

Undergraduate courses are designated either by letters, without numbers, or by numbers. The "lettered courses," e.g., Mathematics A, French A, are equivalents, or nearly so, of subjects in the University preparatory list; they represent subjects of study which may be pursued either in the high school or the University. All other undergraduate courses, excepting only the upper division courses, are numbered from 1 to 99 inclusive.

All Summer Session and Intersession courses, graduate or undergraduate, which are identical, or nearly so, with courses given during the fall or spring sessions, are distinguished by the letter "S" prefixed to the regular number of the course.

Undergraduate upper division courses are numbered from 100 to 199 inclusive.

Graduate courses are numbered from 200 to 299 inclusive.

Teachers' courses are numbered 300, 301, etc. Such courses may be classified either as upper division courses or as graduate courses; if offered for the master's degree, however, such courses are rated as upper division courses, not as graduate courses.

In each department where Intersession courses are given they are listed separately from the Summer Session courses.

Credit

Credit toward a university degree will be given only to attendants who are qualified to do systematic university work, and is in every case subject to the requirement that the student shall at some time qualify in the University as a regular matriculant, either by passing the entrance examination or otherwise. In the absence of formal entrance requirements, the instructor in charge of a given course in the Summer Session or Intersession is the judge of the qualifications of candidates for credit.

In general, credit will be given at the rate of one unit for fifteen exercises. A course of five recitations or lectures weekly during six weeks may receive a credit of two units. Credit may be given, in due proportion, for a smaller number of exercises, when these are of more than the usual length (which for lectures and recitations is about fifty minutes). A recitation or lecture presupposes about two hours of study outside of the classroom; laboratory or other exercises which do not require outside preparation are estimated at a lower rate than recitations or lectures.

If in a given course a final examination is required by the instructor, there can be no individual exemption from this examination. A student who fails to pass the examination does not receive credit for the course. It should furthermore be noticed that special examinations and re-examinations in the summer courses are not provided.

The maximum amount of credit obtainable during the Summer Session by a student who devotes his whole time to courses strictly of university grade is from four to six units, according to the character of the work selected. A similar amount of credit is obtainable during the Intersession. A bachelor's degree represents 124 or more units of credit, distributed according to the special requirements of the college or department in which the student is enrolled. For the master's degree there are required twenty units, including a thesis, which may count from two to four units. The courses must be graduate courses or upper division courses. At least eight of the twenty units, including the thesis, must be strictly graduate work in the major subject. The work for the Ph.D. and other doctor's degrees is not estimated in units of credit, and must be specially planned for every candidate. There are normally required four years of university residence for a bachelor's degree, one year for a master's degree, and at least two years for a doctor's degree; and while advanced credit is given for work done at other universities the candidate's final year of residence for any degree must ordinarily be spent in the University of California.

Two Summer Sessions or one Summer Session and one Intersession are accepted as the equivalent of one half-year of residence for any degree; but the amount of credit (the number of units) that may be completed during two Summer Sessions or one Summer Session and one Intersession will not exceed three-fourths of the amount that could be completed during a single fall or spring session.

In every case students desiring credit for upper division or graduate courses should make definite arrangements therefor with the instructor at the beginning of the session. The specific courses which will be recognized as upper division or graduate courses toward a higher degree are announced in later pages of this bulletin. Students electing work in the Summer Session or Intersession as part of a programme for a higher degree

should consult the Announcement of the Graduate Division for information regarding facilities and departmental requirements. Except by special arrangement work for the Ph.D. can ordinarily be pursued only during regular sessions. Graduate students should consult, also, the Dean of the Graduate Division at his office in 209 California Hall, second floor.

Prospective applicants for the Recommendation for the High School Teacher's Certificate or for higher degrees are urged to submit to the Dean of the Graduate Division official transcripts of records of their college work, preferably by mail in advance of the opening of the Summer Session, so that they may be advised in regard to their graduate standing and to the program of study which they desire to elect.

The University issues formal Recommendations for the High School Teachers' Certificates only to those who hold a bachelor's degree and who have completed the professional and academic requirements in accordance with the regulations of the State Board of Education and of the School of Education. For further information the student should consult the Director of the School of Education. Certificates of record for Summer Session or Intersession work, whether of matriculation or of university grade, will be issued by the Recorder of the Faculties upon application of any student in the session; and personal recommendations from instructors may be obtained by school officers and other inquirers through the office of the Appointment Secretary.

There will be no general period of final examinations. The matter of examinations for credit will be left in the hands of the instructors, who may use the regular recitation hours for that purpose or may hold examinations at other times, to be arranged with their classes. No examination is to be held except at a time which will make it possible for all the members of the class to attend without conflict with other University appointments; special examinations to suit the convenience of individuals are not permitted.

Students who apply for credit in any course will be expected not only to complete all the work and examinations of the course but also to continue in regular attendance upon the class exercises until the *close of the session*; and students will be required to hand in all their work by that time, in order that the instructor may make his report in due season. Students are not authorized to continue any part of the work beyond the close of the session. No provision is made for reexamination or supplementary work for the removal of deficiencies.

Accommodations and Expenses

There are no dormitories on the campus, but there are many boarding houses and private homes in Berkeley where in previous years students have obtained board and room at prices ranging from \$35 to \$50 per

month. There are also several restaurants in Berkeley where meals may be had *à la carte*. A list of places offering board and room or either alone will be ready for distribution at the opening of the session at the bureau of information in California Hall. Every possible assistance will be given to strangers in their search for suitable boarding places.

The following table will enable the student to form an estimate of the expenses, exclusive of railway fare, to be met in attending the six weeks of Summer Session:

University tuition fee	\$20.00-\$20.00
Laboratory fees (according to courses taken)	00.00- 12.50
Board and room, six weeks	50.00- 80.00
Textbooks and stationery	5.00- 15.00
Laundry	5.00- 12.00
Total	\$80.00-139.50

The Associated Students' Store carries all textbooks for Summer Session courses, as well as stationery and other supplies.

Railroad Rates for the Summer Session

At the time this bulletin goes to press no official announcement by the railroads with reference to reduced rates is yet possible. It is generally anticipated, however, that excursion rates under the certificate plan will be offered. Prospective students of the Intersession or Summer Session are urged to secure definite information at railroad offices with reference to summer rates from their respective cities.

Library

Throughout the Summer Session and the Intersession the University Library will be open daily from 8 a.m. to 10 p.m., Monday to Saturday inclusive, and from 9 a.m. to 5 p.m. Sunday.

Full library privileges, including the home use of books, as accorded to regular University students, will be extended, without additional fee, to those students in the summer courses who register at the Library.

Infirmary

The University has a well equipped infirmary on the campus, with a full complement of physicians and trained nurses. Every student is entitled to ordinary medical and hospital care at the Infirmary without charge, it being distinctly understood that the illness to be treated arises after registration. If an operation becomes necessary, a moderate charge is made, the funds received from such operations being used for the benefit of the Infirmary.

Summer Session Californian

The Summer Session Californian is issued twice each week throughout the Summer Session. In addition to Summer Sessions news, it contains announcements of lectures, concerts, exhibits, meetings of University organizations, and information concerning the library, museums, art galleries, observatories, and other parts of the University of interest to visitors. It will be mailed to any address for the six weeks of the Summer Session for 25 cents, payable with other fees at the office of the Comptroller in California Hall.

Special Lectures

During the session of 1920 there were numerous special lectures given both by members of the faculty and by distinguished visitors. Plans for a similar series are under way for this year's session.

Greek Theatre

The Director of the Greek Theatre announces that there will be presented during the Summer Session the following plays: *Fanny's First Play* (Shaw), *The Importance of Being Earnest* (Wilde), *Pygmalion* (Shaw), *Beyond the Horizon* (O'Neill), *Belinda* (Milne). These will be performed on five consecutive Friday evenings, commencing June 24, by the Greek Theatre Players, who have enjoyed a very successful spring season in Wheeler Auditorium. Season tickets, entitling the holder to a reserved seat, will be \$2.25, without war tax. Reservations may be made in advance by addressing the Director of the Greek Theatre, University of California.

In addition to these indoor productions, there will be a presentation in the Greek Theatre of Shakespeare's "*Romeo and Juliet*," "*Twelfth Night*," and possibly "*Richard II.*"

On Saturday evening, July 23, under the direction of Paul Steindorff, a grand opera will be produced in the Greek Theatre.

Chamber Music

The faculty of the Department of Music will offer for the entertainment and instruction of the students in the Summer Session a series of concerts of admirable chamber music.

Y. M. C. A.

The University Young Men's Christian Association, now occupying the entire Association building, Stiles Hall, is both a social and recreational center for the men of the University. With new equipment and enlarged accommodations, the Y. M. C. A. is better prepared than ever to serve the interests of the Summer Session students. Reading rooms, a social hall,

and recreation rooms are provided where students can profitably spend their leisure hours. An Employment Bureau is conducted free of charge, exclusively for the benefit of incoming students. The Association Secretary, whose offices are located at Stiles Hall, will be glad to be of any service to students who wish aid and to help them in getting settled.

Y. W. C. A.

The building of the Young Women's Christian Association, situated on the corner of Allston way and Union streets, a block west of Sather Gate, will be open during the Summer Session for the use of all students. Reading and rest rooms, a sunny patio, a foyer for students from other countries, an information bureau, and a splendid lunch and tea room are provided for the use of all students. Appointments may be made with secretaries trained to advise with regard to club work for girls in schools and industry or other lines of social work in connection with the Y. W. C. A. here and over seas.

A bulletin giving the schedule of classes, social affairs, meetings and lectures, office hours of secretaries, etc., will be ready for distribution on registration day.

Assemblies

As a part of the official social life of the Summer Session there will be an informal reception with dancing in Harmon Gymnasium each Friday evening. These assemblies will be under the supervision of Mrs. Davidson, Assistant Dean of Women. All Summer Session students will be admitted to these gatherings on presentation of their registration cards.

Excursions

The department of physical education will arrange excursions for each Saturday during the session; full announcements of these will be made later. An excursion to Mount Hamilton and the Lick Observatory will be arranged for the classes in astronomy and others who may be interested.

The student in Berkeley has within easy reach the libraries, museums, parks, concerts, lectures, and theatres of San Francisco and Oakland. During the summer, when the Eastern season is over, many of the greater dramatic events of the year are to be seen in both San Francisco and Oakland.

Attendants at the Summer Session will find it easy to plan outings in the country about Berkeley, or across the bay in Marin County; boating on Lake Merritt, or on the bay; a trip to Muir Woods, a national park of redwoods; tramps in the Berkeley or Piedmont hills, to Lake Chabot,

Grizzly Peak, or up Mount Tamalpais (visitors may go up either by the scenic railway or the trails); salt water bathing at the Alameda beaches or the Piedmont baths; electric car rides through Oakland to such places as San Leandro, Hayward, and San Lorenzo; sightseeing trips about San Francisco, including Golden Gate Park, the Cliff House, the new Chinatown, and the Presidio; week-end trips to nearby towns such as San Jose, Monterey, Santa Cruz, Santa Rosa, Napa, etc.

Conferences and Conventions

The Pacific Division of the American Association for the Advancement of Science will hold its fourth annual meeting with other affiliated scientific societies of the Pacific Coast at the University of California, Berkeley, from August 4-7 inclusive. Many of the features offered will be of interest to attendants upon the Summer Sessions. Several public addresses will be delivered by prominent scientists. All sessions will be open to the public.

The Astronomical Society of the Pacific will hold its annual meeting in Berkeley during the period of the Summer Session.

From Wednesday, July 13, to Friday, July 15, inclusive, there will be a meeting at the University of the California High School Teachers' Association. This will be the ninth annual session held in conjunction with the University Summer Session. Students of the Summer Session are invited to attend any sessions that are of interest to them. There will be general sessions devoted to discussions of various problems of high school administration, and section meetings for the consideration of important high school subjects.

The Classical Association of the Pacific States will hold its annual meetings in Berkeley during the period of the Summer Session.

Site and Climate

The campus of the University of California, situated on the lower slopes of the Berkeley Hills, commands a splendid view over San Francisco Bay and the Golden Gate. Its 530 acres of land include a great variety of topography. From a height of some 200 feet above the sea, the gentler slopes on which stand most of the University buildings merge into the bolder slopes of the hills and extend to about 1300 feet elevation. Beyond the campus boundary, and reached by excellent trails, the nearby summits of the hills rise to heights of 1700 to 1900 feet above the sea. Around three sides of the campus lies Berkeley, a city of homes, with a population of about 60,000. San Francisco is thirty-five minutes ride from the campus by electric train and ferry; street cars run to the business center of Oakland in twenty-five minutes.

The climate of Berkeley is well suited for uninterrupted university work. The records of the meteorological station maintained by the University covering a period of thirty years show an average temperature for June, July, and August of about 60°. The highest temperature for the day averages close to 70°, while the lowest temperatures of the nights average about 53°. These favorable temperature conditions are due to the marked prevalence of light southwest winds from the ocean, which give a distinctly invigorating character to the summer weather at Berkeley. "High fogs," which are a fairly frequent accompaniment of the ocean winds, serve further to moderate the temperature. Low fogs, often associated with a coastal climate, are relatively infrequent. On rare occasions the moist southwest wind is replaced by a dry north or northeast wind, and at such times the temperature rises during the hottest part of the day to between 85° and 90°. Temperatures around 95° have been noted a few times during the period of record. Owing to their low humidity, these land winds are almost never oppressive. The summer at Berkeley is practically rainless, though the month of June occasionally has showers of short duration. Out-of-door activities of every sort may be planned without fear of interruption by weather. A light overcoat will be found occasionally useful, especially during the cool evenings.

THE UNIVERSITY

The University of California (founded in 1868) is by the terms of its charter an integral part of the educational system of the state. At Berkeley are the Colleges of Letters and Science, Commerce, Agriculture, Engineering, and Chemistry; the Schools of Architecture, Education, and Jurisprudence, and the instruction of the first two years in the Medical School; at Mount Hamilton is the graduate Astronomical Department, founded by James Lick; in San Francisco are the Colleges of Law, Medicine (third, fourth, and fifth years), Dentistry, and Pharmacy; in Los Angeles are the Southern Branch and the Los Angeles Medical Department; at Riverside is the Graduate School of Tropical Agriculture; at La Jolla is the Scripps Institution for Biological Research; and at Davis is the University Farm. The University's income, 1919-20, for all purposes amounted to \$5,844,464.13. The University is indebted to Mrs. Phoebe A. Hearst for permanent building plans, upon a scale appropriate and comprehensive. At Berkeley there are 385 principal officers of instruction and administration, together with assistants numbering about 500; forty-three departments of instruction; about 15,556 students in 1920-21, including the Summer Sessions of 1920; a library of 400,000 volumes aside from the volumes in the Bancroft collection; museums and laboratories; also the agricultural experiment grounds and station, which are invaluable adjuncts of the farming, orchard, and vineyard interests of the state. In San Francisco there are 265 officers of instruction, including demonstrators and other assistants; 721 students in 1920-21. In Los Angeles there are at the Southern Branch 102 officers of instruction and administration, 908 students in the Junior College and 1218 in the teachers' courses. Tuition in the academic departments of the University during the fall and spring sessions is free to residents of California; non-residents pay a fee of \$75 each half-year. Instruction in all of the colleges is open to all qualified persons, without distinction of sex.

LIBRARY

The General Library, housed in the building made possible by the bequest of the late Charles F. Doe, now contains more than 400,000 volumes. It is constantly augmented by donations and exchange and by large purchases of books with the income from the Michael Reese, Jane K. Sather, E. A. Denicke, Alumnus, Meyer, Carpentier, and other funds. Books are specially bought each year for the particular courses offered during the Summer Session. All Summer Session students may enjoy full privileges of the Library, including the drawing of books; and the hours of opening are the same as during the regular academic year.

The extensive Bancroft collection of manuscripts and books relating to Pacific Coast history is in process of arrangement. The major portion of the manuscripts has been calendered.

The resources of the Library are supplemented by borrowings from other libraries, and, similarly, the Library lends its books, under proper regulation, to other institutions.

Several of the departments of instruction have separately kept collections of books, useful for ready reference and classroom work.

MUSEUMS AND LABORATORIES

Psychological Laboratory. The equipment of the psychological laboratory includes the usual apparatus for demonstrations and for elementary experiments and mental measurements. The laboratory is also provided with a large number of special pieces of apparatus for investigations in the principal lines of psychological research, together with the necessary auxiliary instruments. There is a collection of printed forms and other materials for use in conducting mental tests with children and adults, apparatus for investigations in animal psychology, a colony of rats for this work, and a collection of models and charts of the brain and sense organs.

The psychology building contains rooms used as laboratories for instruction in experimental psychology; facilities for work with animals and for general research work; a shop where carpenter work may be done; battery and storage rooms; office research rooms for the members of the staff, and a seminar room. All the rooms are connected by switch board with low potential electrical current, and are served with 110 volt current, both direct and alternating. All of the larger classes meet in other buildings.

Although crowded during the regular term, the building offers excellent opportunities for research work during the summer.

The Physical Laboratories are located in South Hall. There are set apart rooms for elementary and for advanced work, for photometry, for spectroscopic research with a Rowland grating, for measurements in heat and in electricity, and for a workshop. The apparatus includes many instruments and standards for fundamental measurements from makers of the best reputation, and the laboratory employs two competent mechanics, who are continually increasing the equipment from original designs. It offers good facilities to students who wish to pursue the study of physics beyond the limits of the prescribed courses, whether for the sake of physics itself or in connection with other subjects, like electrical engineering, astrophysics, the practical uses of polarized light, and physical chemistry. Such students may make special arrangements for using the laboratory.

Students' Observatory (Berkeley Astronomical Department). The equipment of the observatory consists of the following instruments: an eight-inch reflector, gift of the Hon. William M. Pierson, suitable for visual and photographic observations; a six-inch refractor with position micrometer; a five-inch refractor, with position micrometer, gift of Mr. and Mrs. Herman Oelrichs; a six-inch photographic telescope and a five-inch photographic telescope with a three-inch guiding telescope, all equatorially mounted with driving clocks; a three and one-half inch Bamberg prismatic transit, with transit micrometer; a three-inch Davidson combination transit-and-zenith telescope; a two-inch astronomical transit; a two-inch altazimuth instrument; surveyors' transits with solar attachment; spectroscopes; a Pickering photometer; a Repsold measuring engine for measuring astronomical photographs; a Gaertner microscope for measuring spectrograms; electrochronographs; a Harkness spherometer; a level-trier; sextants; chronometers; a Rieffler sidereal clock; a Howard M. T. clock; all necessary electrical connections for recording time and determining longitude by the telegraphic method.

Visitors are received at the Students' Observatory on the first Saturday of each month, in the evening from 8 to 10 o'clock.

Chemical Laboratories. These laboratories are housed in a group of buildings, of which one is devoted entirely to the first-year course in chemistry. It contains ten small laboratories, each of which accommodates twenty-five students. It also contains the necessary storage, preparation, and distributing rooms.

The main chemistry building contains two large lecture rooms, laboratories devoted to instruction in organic chemistry and quantitative analysis, and a number of rooms devoted to research work.

Gilman Hall, a new, three-story, concrete building, contains the departmental library and administrative offices, and laboratories for advanced work in physical chemistry, electrochemistry, and chemical technology. Provision is made in this building for extensive research in industrial, physical, and inorganic chemistry.

The Mineralogical and Petrographical Laboratories are provided with large collections of minerals and rocks and are equipped with the necessary apparatus for research work in crystallography, mineralogy, and petrography.

The Museum of Geology and Mineralogy comprises an extensive suite of minerals and ores illustrating the chief phenomena of crystals and of economic deposits. There are, besides, many crystallographic models, and relief maps geologically colored. There is a similarly extensive suite of petrological specimens affording a fairly good illustration of the subject of petrology, and many specimens illustrative of the more interesting features of structural geology.

The Rudolph Spreckels Physiological Laboratory. There are laboratory facilities for about fifty students of physiology in the east wing of the building and for a similar number of students of biochemistry in the west wing. The central part of the building is chiefly devoted to advanced instruction and research. The department library contains complete sets of all the important physiological journals and the more important monographs on physiological and related subjects.

Civil Engineering Laboratories. The testing laboratory is fitted with apparatus to determine the elasticity and resistance of the materials used in engineering construction and for the inspection of Portland cement, road oil, and asphaltic products. Testing machines of large capacity are available for practical tests of beams and columns. Facilities are offered for original investigation of the physical properties of the materials of engineering. The laboratory is provided with a well equipped machine shop for shaping test specimens of metal or wood and for the manufacture of special apparatus.

The sanitary and municipal laboratories of the department afford facilities for routine and research work on problems relating to the determination of chemical, bacteriological, and physical properties of water, sewage, air, and municipal refuse. Apparatus is available for special studies of rainfall rates and run-off in streams and sewers. Practical problems in hydraulics, water and sewage purification, municipal refuse disposal and ventilation can be studied either in the laboratories or elsewhere with the use of the laboratory equipment.

The Laboratories of Soils and Cereal Investigations are located in Budd Hall; those of horticulture, viticulture, entomology, parasitology, plant pathology, forestry, and genetics are in Agriculture Hall and Hilgard Hall; while those of enology, zymology, veterinary science, insecticides, agricultural chemistry, fertilizer control, and the State Pure Food Laboratories are in adjoining structures.

OPPORTUNITIES FOR RECREATION

Harmon Gymnasium. This gymnasium, presented to the University by the late A. K. P. Harmon, is well equipped and provides all men students with opportunities for physical education. Besides the main hall, rowing room, and athletic quarters, there are one hundred and sixty-five shower baths and two thousand steel lockers for the use of the students.

The exercises in the gymnasium are conducted systematically under the supervision of the staff of instruction.

The open-air swimming pool in Strawberry Cañon affords an opportunity for water sports. This pool is 232 feet long, 76 feet wide, and 10 feet deep in the deepest parts, holds a half million gallons of water, and by a constant flow of filtered water is kept in admirable condition.

Two new baseball diamonds and two outdoor basket-ball courts are available at the new recreation center.

Hearst Hall. Hearst Hall was presented to the University by Mrs. Phoebe A. Hearst for a womens' gymnasium. The lower hall is a general gathering place for the women of the University. Connected with the gymnasium are two hundred and eighty-seven shower baths, supplied with hot and cold water, and eighteen hundred and forty lockers for the exclusive use of women students. Hearst Hall Gymnasium is 60 by 90 feet and the gymnasium in Hearst Hall Annex is 80 by 80 feet. There is also an outdoor platform for gymnasium exercises. The athletic field is equipped for outdoor sports and team games and there is an open-air swimming pool 45 by 75 feet.

Athletic Grounds. The tennis courts, California Field, the baseball field, and running track offer opportunity for pleasant and healthful recreation.

FACULTY OF THE SUMMER SESSION

DAVID PRESCOTT BARROWS, Ph.D., LL.D., President of the University.

WALTER MORRIS HART, Ph.D., Professor of English; Dean of the Summer Sessions.

BALDWIN M. WOODS, Ph.D., Professor of Aerodynamics; Dean of the Summer Session in Los Angeles.

GUY MONTGOMERY, Ph.D., Instructor in English; Assistant Dean of the Summer Sessions.

JAMES SUTTON, Ph.B., Recorder of the Faculties.

MARY BLOSSOM DAVIDSON, B.L., Assistant Dean of Women, Social Director of the Summer Session.

GEORGE PLIMPTON ADAMS, Ph.D., Professor of Philosophy.

JOHN MEAD ADAMS, Ph.D., Associate Professor of Physics, Southern Branch.

A.B., Harvard University, 1903; M.A., 1905; Ph.D., 1907; John Tyndall Scholar of Harvard University, study in Leipzig and Cambridge, 1908-09; Professor, Occidental College, 1909-12; Assistant Professor, Queen's University, Ontario, 1912-16; Assistant Professor, University of Saskatchewan, 1916; Southern Branch, 1919-.

RICHARD L. ADAMS, M.S., Professor of Farm Management.

CAROLYN A. ALCHIN, Instructor in Music in the Summer Session.

Student with Calvin B. Cady at Oberlin Conservatory, with Julius Klauer and others in Berlin, Germany, 1905-06; Teacher, University of Southern California, 1917-20; Teacher, University of Washington Summer School, 1920. Books published: *Song Stories*, *Ear Training for Pupil and Teacher*, *Applied Harmony*, *Tone Thinking*.

FREDERICK ALEXANDER, A.B., Director of the Conservatory, Michigan State Normal College, Ypsilanti, Michigan.

A.B., University of Michigan, 1894; student in France, 1900.

ERIC W. ALLEN, A.B., Dean, School of Journalism, University of Oregon.

A.B., University of Wisconsin, 1901; journalist and publisher, 1904-12; Professor of Journalism, University of Oregon, 1912-; Dean, 1917-.

EDITH S. ANDERSON, A.B., Assistant in Spanish.

A.B., Mt. Holyoke College, 1910; study in Paris, 1913; Spain, 1916-17; summer sessions, University of Chicago, 1915, 1917; University of California, 1920-; Instructor in high school, Asheville, N. C., 1910-12; high school, Austin, Texas, 1912-13; high school, Atlanta, Georgia, 1913-16; high school and junior college, San Luis Obispo, 1918-20.

JOHN B. ANDREWS, Ph.D., Secretary, Association for Labor Legislation, New York.

A.B., University of Wisconsin, 1904; M.A., Dartmouth College, 1905; Ph.D., University of Wisconsin, 1908; travel and study in Europe, summers of 1910, 1912, 1919; Lecturer on Social Legislation, Columbia University, 1920; Technical Advisor for United States Government in London and Assistant Secretary in Washington to first International Labor Conference under League of Nations. Books published: (with John R. Commons) Principles of Labor Legislation, History of Labour in the United States. Associate Editor, Documentary History of American Industrial Society.

ERNEST B. BABCOCK, M.S., Professor of Genetics.

CLAIR HADYN BELL, Ph.D., Instructor in German.

A.B., University of California, 1908; M.L., University of California, 1909; Ph.D., University of California, 1920; Teacher, Los Angeles High School, 1909-10; Exchange Teacher, Realgymnasium, "Musterschule," Frankfurt Am-Main, 1911-12; Teacher, Los Angeles High School, 1912-13; Captain, Q. M. C., U. S. Army, 1917-19; Instructor in German, University of California.

MADISON BENTLEY, Ph.D., Professor of Psychology and Head of the Department, University of Illinois.

B.S., University of Nebraska, 1895; Ph.D., Cornell University, 1898; Assistant Professor of Psychology, Cornell University, 1902-12; Professor of Psychology, University of Illinois, 1912-; Captain, Air Service and Intelligence Service, United States Army, 1917-18; Major, Air Service, United States Reserve Army, 1919. Books published: A Manual of American History, Studies in Psychology; editor, Psychological Index.

JEAN BERNARD, B.S., Coördinator, Part-Time Instructor, Los Angeles City Schools.

 JOHN W. GILMORE, M.S., Professor of Agronomy.
 JOHN C. WHITTEN, Ph.D., Professor of Pomology.
 RICHARD L. ADAMS, M.S., Professor of Farm Management.
 ERNEST B. BABCOCK, M.S., Professor of Genetics.
 WILLIAM T. HORNE, B.S., Associate Professor of Plant Pathology.
 FREDERICK L. GRIFFIN, M.S., Associate Professor of Agricultural Education.

INTERSESSION COURSES*(May 9 to June 18, 1921)***AGRICULTURAL EDUCATION**

202. **Special Problems in Agricultural Education.** (GRIFFIN and STAFF)
 A seminar in which the instructors of the division and graduate students may participate. Reading; organization of subject matter into syllabus and outline form; examination and criticism of outlines now in use; and a study of the methods of secondary agricultural instruction. 2 to 4 units.
299. **Thesis for the Master's Degree.** (GRIFFIN and STAFF)
 Especially for agricultural high school teachers who have the B.S. degree in agriculture and who desire to comply with the residence requirements for the Master's degree and to obtain recommendation for the teacher's certificate.

AGRONOMY

200. **Research in Agronomy.** (GILMORE)
 For graduate students who are able to pursue research studies in special topics. 2 to 4 units.
 Hours to be arranged.
299. **Thesis for the Master's Degree.** (STAFF)

GENETICS

200. **Research in Genetics.** (BABCOCK and STAFF)
 Research on plant and insect material, with one hour of conference per week. 3 to 6 units.
 Hours to be arranged.

ENTOMOLOGY

- S103. **General Entomology.** (WOODWORTH)
This course corresponds to Entomology 103 of the regular session.
Hours and credit to be arranged.
201. **Research.** (WOODWORTH)
Toxicity of insecticides; action of cyanide on insects. Units to be arranged.
M W F, 10. Laboratory by arrangement.

PLANT PATHOLOGY

99. **Practice Course.** (HORNE)
Hours and credit to be arranged.
125. **Special Topics.** (HORNE)
230. **Research.** (HORNE)
Original investigations and special problems in plant pathology.
Credit and hours to be arranged.

POMOLOGY

201. **Research in Pomology.** (WHITTEN)
Special problems of research embracing field or laboratory investigations with correlated reading. The subject to be arranged with the head of the division. 1 to 6 units.
Hours to be arranged.

SUMMER SESSION COURSES

(June 20 to July 30, 1921)

AGRONOMY

200. **Research in Agronomy.** (GILMORE)
For graduate students who are able to pursue research studies in special topics. 2 to 6 units.

ENTOMOLOGY

S103. General Entomology. (WOODWORTH)

This course corresponds to Entomology 103 of the regular session.
Hours and credit to be arranged.

201. Research. (WOODWORTH)

Toxicity of insecticides; action of cyanide on insects. Units to be arranged.

M W F, 10. Laboratory by arrangement.

FARM MANAGEMENT

203. Farm Management for Intersession Graduate Students. (ADAMS)

Investigations into the farm management practice of the state; review of the literature on the subject for the purpose of training students in the principles and practices of (a) practicing farm managers, (b) investigators, (c) teachers. 2 to 6 units.

Hours to be arranged.

GENETICS

200. Research in Genetics. (BABCOCK and STAFF)

Research in plant and insect material, with not more than one hour of conference per week. 3 to 6 units.

Hours to be ranged.

PLANT PATHOLOGY

125. Special Topics. (HORNE)**230. Research.** (HORNE)

Investigations and special problems in plant pathology.

Hours and credit to be arranged.

POMOLOGY

201. Research in Pomology. (WHITTEN)

Special problems of research embracing field or laboratory investigations with correlated readings. The subject to be arranged with the head of the division. 1 to 6 units.

Hours to be arranged.

PRACTICAL OPTICS

The work in this subject is designed for those who have some experience in the use of optical instruments and particularly for those expecting to use them professionally.

104. The Theory of the Microscope. (WOODWORTH)

This instrument is chosen for study since all forms of optical aberrations are involved and most of them are liable to be present in an extreme degree.

M Tu W Th F, 1.

202. Research in Geometrical Optics. (WOODWORTH)

Each student undertakes the investigation of an original problem. A knowledge of geometrical drawing and of trigonometrical computations is essential. Prerequisite: course 104, or the two may be taken concurrently. This course may be continued in the summer Session and will then involve the preparation of a thesis.

Seminar Tu Th, 10. Laboratory by arrangement.

ANTHROPOLOGY

WILSON D. WALLIS, Ph.D., Instructor in History and Sociology, Fresno Junior College.

SUMMER SESSION COURSES

(June 20 to July 30, 1921)

S1A. Introductory Anthropology.

(WALLIS)

Man's place in the animal kingdom: the development of human characteristics; kinship with the higher apes. Beginnings of industrial and economic life: prehistoric archaeology. Economic and industrial activities of primitive peoples: domestication; agriculture; hunting. The knowledge and beliefs of primitive men; nature philosophy. 2 units.

M Tu W Th F, 2.

S1B. Social Development.

(WALLIS)

Influence of environment, race, inheritance, economic conditions. The influence of custom, tradition, public opinion. The mechanism of social development: inventiveness, culture diffusion, similarities in culture. Theories of social development: among the Greeks, Romans, English, and French philosophers, and among ethnologists; critique of theories. The trend of social development: complexity *versus* power. 2 units.

M Tu W Th F, 3.

ASTRONOMY

WILLIAM F. MEYER, Ph.D., Assistant Professor of Astrophysics.

SUMMER SESSION COURSES

(June 20 to July 30, 1921)

S1. Elements of Astronomy.

(MEYER)

An introductory course, largely descriptive in character, designed primarily to meet the needs of those who desire a general knowledge of the subject. Lantern slides will be used freely to illustrate the lectures. 2 units.

M Tu W Th F, 9. 1 Observatory.

S117. Astrophysics.

(MEYER)

A general review of present day problems in astrophysics. The course is designed for students and teachers interested in astronomy, physics, and general science. Three lectures and two laboratory periods per week. 2 units.

Hours to be arranged. Class meets for organization June 20, 2 p.m., 11 Observatory.

Attention is called to Mathematics S107, **History of Mathematical Science (TYLER)**.

BOTANY

C. W. DODGE, Ph.D., Instructor in Botany, Brown University.

SUMMER SESSION COURSES

(June 20 to July 30, 1921)

S2. General Botany.

(DODGE)

The manner of living of the plant. The aim of this course is to give the student an understanding of the fundamental processes in the life of plants in general and of seed plants in particular and of the significance of these processes for human welfare. 4 units. Fee, \$2.50.

Lectures, M Tu W Th F, 8; laboratory, 9-12.

120. Evolution of Plants.

(DODGE)

Evolution of various groups of plants from point of view of physiologist; critical consideration of recent papers of Church and others relative to development of present land flora. 2 units.

M Tu W Th F, 2.

CHEMISTRY

JOHN JOHNSTON, Ph.D., Sterling Professor of Chemistry, Yale University.

CHARLES W. PORTER, Ph.D., Associate Professor of Chemistry.

GEORGE E. GIBSON, Ph.D., Assistant Professor of Chemistry.

GERALD E. K. BRANCH, Ph.D., Assistant Professor of Chemistry.

T. D. STEWART, Ph.D., Assistant Professor of Chemistry.

ERMON D. EASTMAN, Ph.D., Assistant Professor of Chemistry.

W. A. NOYES, JR., R. C. FUSON, SHERWIN MAESER, M. A. DEBEAU, R. W. MILLAR, PHILIP S. DANNER, JOHN A. ALMQUIST, T. R. HOGNESS, Assistants.

The chemical laboratories will be open daily, except Saturday, from 8 a.m. to 5 p.m. The deposit required for each of the following courses, A, S1A, S1B, and S5, is \$17, of which the maximum returnable is \$5; for course S9 it is \$28, of which the maximum returnable is \$10.

INTERSESSION COURSES

(May 9 to June 18, 1921)

S1A. General Inorganic Chemistry and Qualitative Analysis. (BRANCH)
5 units.

Lectures, M Tu W Th F, 9; laboratory, M Tu W Th F, 1-3; quiz,
M W F, 3-4.

S8. Elements of Organic Chemistry. (PORTER)

An introduction to the study of the carbon compounds. 3 units.

M Tu W Th F, 11; quiz, Tu Th, 9.

S9. Organic Chemistry: Laboratory. (PORTER)

The preparation of organic compounds: a study of their properties and characteristic reactions. 3 units.

M Tu W Th F, 1-5.

SUMMER SESSION COURSES*(June 20 to July 30, 1921)*

- A. Elementary Chemistry.** (STEWART)
An introduction to general chemistry. Credit for matriculation chemistry will be given for the satisfactory completion of this course. Lectures and experimental illustrations, or recitations, and 15 hours of laboratory work per week.
Students should register for this course in Room 25, Freshman Laboratory, Chemistry Building.
Lectures, M Tu W Th F, 8; laboratory, M Tu W Th F, 9-12.
- S1B. General Inorganic Chemistry and Qualitative Analysis.** (EASTMAN)
Continuation of Chemistry 1A. 5 units.
Lectures, M Tu W Th F, 9; laboratory, M Tu W Th F, 1-3; quiz, M W F, 3-4.
- S5. Quantitative Analysis—Gravimetric and Volumetric (Inorganic).** (GIBSON)
A short course in the principles and methods of quantitative analysis. 3 units.
Lectures and laboratory work, M Tu W Th F, 1-5.
- 117. Application of Theoretical Chemistry to Technical Problems.** (JOHNSTON)
Discussion of selected topics of fundamental importance concerning chemical equilibria; emphasis on the bearing of theoretical principles upon important practical problems, industrial as well as scientific. 2 units.
M Tu W Th F, 10.
- S190. Seminar in Geochemical Problems.** (JOHNSTON)
Equilibrium relations between the main rock-forming oxides; the rôle of high pressure; application of these principles to the elucidation of the conditions of formation of minerals and rocks. 1 unit.
M W F, 11.

CIVIL ENGINEERING

SUMMER SCHOOL OF SURVEYING

Camp California, Swanton, California

CHARLES DERLETH, Jr., C.E., Professor of Civil Engineering and Dean of the College of Civil Engineering.

FRANCIS SEELEY FOOTE, E.M., Professor of Railroad Engineering and Director of the Summer School of Surveying.

CHARLES C. SWAFFORD, M.S., Instructor in Civil Engineering.

STURLA EINARSSON, Ph.D., Associate Professor of Practical Astronomy.

WILLIAM C. POMEROY, B.S., Instructor in Physics.

Additional instructors, a medical officer, who will also act as commissary agent, and the necessary cooks, janitors, and helpers will be appointed before April 30, 1921.

The Summer School of Surveying is held at a camp established at the junction of Scott and Little creeks, Santa Cruz County, within one and one-half miles of the ocean coast; sixteen miles northwest of Santa Cruz. The session begins Thursday, May 12, and is four weeks in length.

All students attending camp pay a fee of \$20.

COMMISSARY DEPOSIT

A deposit of \$35 is required from each student to cover expenses incurred for board at camp, fines for injury to instruments or camp equipment, etc. Any surplus not required to cover the above items is returned to the student.

The fee and commissary deposit must be paid in advance to the Comptroller of the University at Berkeley. Receipts for these payments must be shown to the Camp Director after reaching camp.

Civil Engineering 3.

(FOOTE, SWAFFORD, EINARSSON, POMEROY, and Assistants)

This course consists of field practice in plane surveying, comprising such subjects as:

Determination of length of base lines.

Measurement of horizontal angles by repetition.

Triangulation.

Azimuth traverse.

Differential and profile leveling.

Topographic survey, by plane table and stadia.

Determination of latitude and azimuth with engineer's transit,
by solar and Polaris observations.

Military sketching.

Four weeks' continuous field work. Required of freshmen in the Colleges of Civil Engineering and Mining. Prerequisite: course Civil Engineering 1A, 1B. 3 units. Students with grade 4 or incomplete in course CE 1B will not be admitted to course CE 3.

Civil Engineering 103.

(FOOTE, POMEROY, and Assistants)

This course comprises field and office work necessary for the location of a short railroad line, including:

Reconnaissance.

Preliminary surveys.

Final location.

Cross-sectioning.

Drainage area and right-of-way surveys.

Maps and profiles.

Estimates of quantities and costs.

Prescribed at the end of the junior year for all students in the College of Civil Engineering. Prerequisite: courses 3 and 102. Four weeks' continuous field practice. 3 units.

Students interested in surveying field practice are advised to secure the Special Bulletin of Information of the Summer School of Surveying.

Communications regarding the work of the Summer School of Surveying should be addressed to the Dean of the College of Civil Engineering, University of California, Berkeley, California.

DRAWING

ROSS J. BROWER, B.S., Instructor in Drawing.

EUGENE P. CARPENTER, Assistant in Drawing in the Summer Session.

SUMMER SESSION COURSES

(June 20 to July 30, 1921)

C. Instrumental Drawing.

(BROWER)

Use of instruments, solving of geometrical problems, construction of mathematical curves, and lettering. Satisfies the requirement in matriculation subject 6b (but with a credit of 2 units). 2 units.

Tu W Th F, 9-12; lectures at 9.

S3. Descriptive Geometry.

(BROWER)

Individual work covering the subject matter of the courses 3A, 3B, 3C, or 3D, according to individual needs of the pupils. Prerequisite: Instrumental Drawing. 2 or 3 units, according to the work done.

Tu W Th F, 9-12; lectures at 10.

ECONOMICS

- FRANK R. RUTTER, Ph.D., Trade Commissioner, Bureau of Foreign and Domestic Commerce, Washington.
- JOHN WILLIS SLAUGHTER, Ph.D., Lecturer on Civics and Philanthropy, Rice Institute.
- JOHN B. ANDREWS, Ph.D., Secretary, Association for Labor Legislation, New York.
- EDWARD KELLOGG STRONG, Jr., Ph.D., Professor of Vocational Education, Carnegie Institute of Technology, Pittsburgh.
- WILLIAM HENRY LOUGH, M.A., formerly Professor of Commerce, New York University; President, Business Training Corporation, New York.
- WILLIAM ANDREW PATON, Ph.D., Associate Professor of Economics, University of Michigan.
- JOHN B. CANNING, Ph.D., Associate Professor of Economics, Stanford University.
- M. M. KNIGHT, Ph.D., Assistant Professor of Economics, University of Utah.
- GEORGE SAMUEL BURGESS, J.D., Assistant Professor of Political Economy, Pomona College.
- MARIE MARGARET DUGGAN, A.B., Assistant Professor of Secretarial Science, College of Secretarial Science, Boston University.
- R. F. NYMAN, M.A., Instructor in Economics, Oakland Technical High School.
- CLYDE INSLEY BLANCHARD, A.B., Director of Commercial Education and Practice, Berkeley Public Schools.
- FAYETTE PARTCH, A.B., Assistant Head of the Commercial Department, Alameda High School.
- JEAN BERNARD, B.S., Coördinator Part-Time Instructor, Los Angeles City Schools.
- EMMA J. JOHNSON, B.C.S., Assistant Head of the Commercial Department, Stockton High School.
- RAY EDWARD CHATFIELD, B.S., Commercial Training Expert, Twelfth Division, Federal Board for Vocational Education.
- ALBERTA S. PORTER, B.S., Assistant in Economics in the Summer Session.
- WALTER CLAY HYATT, Head of Commercial Department, Tamalpais Union High School; Director, United States Army Vocational School, Fort Baker.
- WERT EMMETT MOORE, Principal, Longfellow School, Oakland.

LAURENCE N. PEASE, Director of Commercial Department, Stockton High School.

CHARLES A. GLOVER, Assistant in Accounting; Instructor in Bookkeeping, High School of Commerce, San Francisco.

INTERSESSION COURSES

(May 9 to June 18, 1921)

S1A. Principles of Economics.

(CANNING)

An introductory study of the principles of economics, touching such fundamental theories as those of value, rent, wages, interest, and profit, but emphasizing current economic problems. 2 units.

M Tu W Th F, 4.

S143. Insurance.

(CANNING)

An examination of the social and individual problems of economic insecurity; systems of insurance devised to deal with these problems; an elementary statement of the principles underlying the more important commercial branches of insurance; problems of state insurance and of state regulation and control of private insurance ventures. 2 units.

M Tu W Th F, 5.

OFFICE PRACTICE

See note on page 61 regarding credit for these courses.

A. Elementary Stenography.

(GLOVER)

Fundamental principles of Gregg shorthand. The first half of the manual; penmanship drills and supplementary work. Students should be able to take dictation of simple matter at the rate of seventy-five words a minute at the conclusion of the course. 2 hours daily, 4 hours preparation. 4 units.

M Tu W Th F, 9-11.

C. Elementary Typewriting.

(GLOVER)

Drills for establishing the essential habits for accurate and rapid typewriting; knowledge of mechanism of the typewriter; fingering of entire keyboard; speed and accuracy drills; beginning copying work. 1 hour daily class work and 1 hour practice. 1 unit. Laboratory fee, \$1.50.

M Tu W Th F, 8. Laboratory, 9 or 10 or 11.

SUMMER SESSION COURSES*(June 20 to July 30, 1921)***S1B. Principles of Economics.**

(KNIGHT)

A continuation of course S1A as given in the Intersession; S1A is, however, not prerequisite. A study of the principles of economics beginning with distribution. 2 units.

M Tu W Th F, 8.

S10. Economic and Industrial Development of the United States.

(KNIGHT)

Resources of America. Business aspects of colonization. Struggle for commercial and economic independence. The industrial revolution and the westward movement. The growth of industry, agriculture, commerce, transportation, population, and labor from simple colonial conditions to the complex industrial and commercial society of today. 2 units.

M Tu W Th F, 9.

S14A. Elements of Accounting.

(PATON)

Principles of double entry; theoretic and functional classification of accounts; bookkeeping devices; use of working papers; income and balance sheets; accounting significance of valuations; partnership accounts. Lectures, discussions, exercises. 2 units.

M Tu W Th F, 10.

15. Mechanical Accounting.

(CHATFIELD, GLOVER, and STAFF)

An introductory study of the problems incidental to handling large volumes of accounting detail and the methods of organization and management followed where accounting machines are used. Lectures by accounting machine experts, by office managers, visits to machine-equipped offices, and demonstrations of the machines discussed. For laboratory practice see *Office Appliances*, page 62.

M Tu W Th F, 8.

S120. Business Management.

(LOUGH)

The essential factors in successful management; the personality of a manager; methods of dealing with individuals; methods of organizing and directing groups of people; methods of producing and delivering goods or services; selling; raising and handling money; record keeping; formulating and carrying out sound policies. Texts: Scott's "Influencing Men in Business" and Jones' "Administration of Industrial Enterprises." 2 units.

M Tu W Th F, 9.

S123. Elements of Marketing.

(BURGESS)

Among the general topics considered will be the processes of distribution of merchandise and the attempts to eliminate the middleman. 2 units.

M Tu W Th F, 2.

S133. Corporation Finance.

(LOUGH)

Financial forms of business enterprises; advantages of the corporate form; owned and borrowed capital; capitalization; raising capital funds; promotion; selling securities; fixed and working capital; budgeting; financial standards; exploitation and involvements. Text, Lough's "Business Finance." 2 units.

M Tu W Th F, 10.

S135. Money and Banking.

(BURGESS)

History and principles of money and banking with special attention to recent developments. 2 units.

M Tu W Th F, 3.

S150. Labor Legislation.

(ANDREWS)

Modern tendencies of legislative and administrative methods in the protection of women and children in industry; safety and health of wage earners; prevention of unemployment; adjustment of industrial disputes; minimum wage and maximum hour regulations; workman's compensation for accidents; insurance against illness, invalidity, old age, and unemployment. 2 units. Text, "Principles of Labor Legislation," Commons and Andrews.

M Tu W Th F, 11.

S153. Employment Management.

(STRONG)

Personal work in industry; organization of department; typical systems; psychology of employment; transfer and promotion; coöperation; loyalty and esprit de corps. 2 units. Prerequisite: Psychology 2A.

M Tu W Th F, 3.

154. Business Psychology.

(STRONG)

Course deals with the vitality of advertising and selling; analysis of advertisement and sale; interviews; strategy of selling; psychological principles with special reference to motives for buying. 2 units.

M Tu W Th F, 2.

S160A. Advanced Accounting.

(PATON)

Corporate accounts; interest problems; bases of revaluation; inventory methods; depreciation policies; analysis of financial statements; survey of theory of accounts with emphasis on teaching methods. Lectures, discussions, exercises. 2 units.

M Tu W Th F, 11.

S178. Foreign Trade.

(RUTTER)

Documents, organizations, and banking; tariff policies, with special bearing on Oriental relations and current problems. 2 units.

M Tu W Th F, 8.

S179. Transpacific Trade.

(RUTTER)

Special emphasis will be given to Japan; resources, people, and markets in the Orient; lines of communication. 2 units.

M Tu W Th F, 9.

190A. Training in Professional Social Work.

(SLAUGHTER)

A course designed to train the student for professional social work. It includes the history of public and private relief, the functions of the more important social agencies, and the technique of social diagnosis and treatment. Theoretical instruction in the case method will be accompanied by field work under the direction of experts connected with the social agencies of the San Francisco Bay region. 2 units.

M Tu W Th F, 11.

192A. Social Problems.

(SLAUGHTER)

An intensive treatment of the following topics: Child Welfare, Industry, Immigration. This course aims to equip the student of social activities as well as the prospective social worker with a knowledge of important types of social maladjustment. It is open to qualified seniors who wish to pursue advanced work in social science. 2 units.

M Tu W Th F, 10.

300. The Teaching of Economics in High Schools.

(NYMAN)

Designed to meet the needs of teachers who plan to offer courses in economics. Principles of consumption, production, exchange, distribution. Methods of presenting these principles to high school students. Practical applications. Lectures, discussions, reports. 2 units.

M Tu W Th F, 9.

Attention is called to Mathematics S116, **Mathematics of Economics** (EVANS).

OFFICE PRACTICE

NOTE.—The courses lettered A–D may be used for matriculation credit; university credit for these courses towards a degree will be granted only to candidates for the bachelor's degree in the College of Commerce or to prospective teachers of commercial work in a secondary school.

The courses lettered G–J are high school subjects not on the university preparatory list.

University credit towards a degree will not be given for these courses; except that candidates for a high school teacher's certificate may include those courses which are directly connected with the candidate's majors. The hour value given each course is considered only in ascertaining the amount of work for which the student is registering in the Summer Session.

A. Elementary Stenography.

(DUGGAN)

Fundamental principles of Gregg shorthand. The first half of the manual; penmanship drills and supplementary work. Students should be able to take simple graded dictation at the rate of seventy-five words a minute at the conclusion of the course. 2 hours daily; 4 hours preparation. 4 units.

M Tu W Th F, 1 and 3.

B. Intermediate Stenography.

(HYATT)

Review of the theory covered in course A; last half of the manual. Beginning speed dictation; special vocabularies; letters and business forms. Prerequisite: course A or its equivalent. 2 hours daily, 4 hours preparation. 4 units.

M Tu W Th F, 2 and 4.

C. Elementary Typing.

(PEASE)

A rapid development of a thorough command of the keyboard through finger gymnastics, exercises for mental control, and intensive drills in fingering and rhythm. Correct position, the various mechanical devices, and care of the machine. 1 hour class drill and 1 hour supervised practice daily. Laboratory fee, \$1.50. 1 unit.

M Tu W Th F, Sec. 1, 8; Sec. 2, 9; Sec. 3, 10. Practice hour to be arranged in the afternoon only.

D. Intermediate Typing.

(PEASE)

Intensive development of skill based on principles developed by typewriter speed experts and adapted to school conditions. Detailed study and application in class and individual work: correct position and technique; rhythm; independent finger control, hand gymnastics and proper use of the phonograph in school work. The laws of applied art governing the artistic arrangement of typewritten

material, with special reference to simple commercial forms. Designed to furnish typists and those intending to teach with first-hand knowledge of skill. Prerequisite: mastery of the keyboard by touch method. 1 hour class work and 1 hour supervised practice daily. Laboratory fee, \$1.50. 1 unit.

M Tu W Th F, 11. Practice hour to be arranged in the afternoon only.

G. Penmanship.

(MOORE)

Zaner method, which is used throughout the state of California. Emphasis upon blackboard work. First week: position and movement; second week: application of movement and form to letters, words and figures; third week: capital and small letters; fourth week: application of movement and form to sentence writing; fifth week: alphabetical word and sentence work; sixth week: page work, commercial forms, and instruction in "scaling" writing. 1 hour.

M Tu W Th F, Sec. 1, 8; Sec. 2, 9; Sec. 3, 10; Sec. 4, 11.

9. Office Appliances.

(PARTCH)

Demonstration of latest labor-saving office appliances and instruction in their uses; filing systems for correspondence, vouchers, catalogues, drawings, and cuts. No credit.

M Tu W Th F; Sec. 1, 8; Sec. 2, 9; Sec. 3, 10; Sec. 4, 11.

THE DEMONSTRATION SCHOOL

In connection with the courses in Commercial Education in Secondary Schools a Demonstration School is maintained during the entire session. The students in this school are selected from high school students who have had no training in the commercial subjects in which they are to be instructed. These students are organized into a large number of small classes, each class having its own room and special equipment. Two members chosen from the methods courses are assigned to each class for the six weeks, each teaching on alternate days and observing on the other days. This arrangement gives each member of a methods course fifteen hours of supervised teaching and fifteen hours of observation. The instructors in charge of the methods courses supervise each class daily. No auditors are admitted to the demonstration classes.

The enrollment in each methods course is limited to twenty. All persons, therefore, who desire to enroll in any methods course should send their applications to the Recorder of the Faculties as soon as possible, using the application form at the back of this bulletin. All applications for admission to the methods courses will be accepted subject to the applicant passing an examination to test his knowledge of the subject matter which he will teach in the demonstration class. The prerequisites given with the description of each course will indicate the extent of this

examination. Early application is necessary to insure enrollment. When the maximum enrollment has been reached further applicants will be notified.

A special announcement has been prepared for the information of high school students who desire to enroll in the demonstration classes. Full information will be sent upon application to the Dean of the Summer Session, California Hall, Berkeley, California.

S301A. Methods of teaching Elementary Stenography. (BLANCHARD)

Principles of Gregg shorthand. Study of texts on methods; thorough drill in blackboard presentation of important lessons in the manual. Discussion of vocalization, penmanship drills, assignment and preparation, sight reading, plate writing, reviews, tests, and grading. Class limited to twenty. Prerequisite: a knowledge of the theory of Gregg shorthand. 2 units.

M Tu W Th F, 8. Demonstration classes: Sec. 1, 9; Sec. 2, 10.

S301B. Methods of Teaching Elementary Typing. (JOHNSON)

Methods used in the first year of a two-year high school course in typing. Each lesson will be planned and presented by both the supervisor and the student teachers. Parts of the machine, finger gymnastics, exercises in mental control, use of the phonograph, standards of work, equipment, and department organization. Class limited to twenty. Prerequisite: a knowledge of the theory of touch typing and an ability to write by touch accurately. 2 units.

M Tu W Th F, 11. Demonstration classes: Sec. 1, 9; Sec. 2, 10.

302A. Store Subjects for Part-Time Classes. (BERNARD)

A research course in the work of junior store employees to find the teaching content necessary to meet the needs of these junior workers. The object is to develop the teaching content for classes for store employees. Suitable for high school teachers of store subjects, part-time teachers of commercial subjects, and high school teachers who are seeking for material for motivating arithmetic, penmanship, English, salesmanship, bookkeeping, and other commercial subjects for junior workers. 2 units.

M Tu W Th F, 1.

302B. Methods of Teaching in Part-Time Commercial Classes.

(BERNARD)

A coöperative research course in methods and materials for motivating the subjects taught in general commercial classes for part-time students. An analysis of the juvenile worker's point of view, the teacher's problem in reaching the juvenile work and specific analysis of the material taught with a view to discovering how to best present all the general commercial subjects. 2 units.

M Tu W Th F, 2.

SUMMER SESSION COURSES*(June 20 to July 30, 1921)***THE PLAY SCHOOL**

The Director of the Play School: Mrs. HETHERINGTON.

THE DEMONSTRATION

The Play School will be conducted as a demonstration of the organization, materials, activities, and methods involved in uniting, within one school organization, the spontaneous play life of the child, together with his need and desire for leadership and society's demands that he be instructed. It is an effort to solve elementary educational problems by harmonizing the extra home educational experiences of the child by combining in one institution, in the spirit of education, the functions of the play center and the functions of the school; hence the term "Play School." Further the plan unites in this larger school idea the many new successful educational experiments that have arisen with modern social changes. Therefore the Play School may be defined as combined play-center and school, where the teacher's interest is centered in the children and their activities, not in mere subjects of study, and where the educational efforts, including the moral and social phases, are put on a basis of practical living experience radiating into the whole environment, and where the children are considered both as free active agents and also immature social creatures requiring social control and discipline. The plan covers the ages from early infancy to the adolescent period. Instead of teaching subjects, activities are organized out of which subjects develop, as they have in racial history. The activities organized are the natural, more or less distinct, phases of the child's complete life. The usual school subjects develop as phases of these activities.

THE CHILDREN

On account of local conditions the demonstration will be confined to the ages from four to eleven years. A fee of \$5 will be charged for each child. This fee may be paid in advance to the Comptroller of the University of California and a receipt taken. This receipt must be presented or the fee paid at the gate of the Play School Center on the first morning of the Summer Session. Parents from a distance should make their applications early, as the enrollment is limited to three hundred children. Attendance must be regular, or the child will be dropped. Girls are required to wear bloomers. Parents are welcome to visit the school at all times, but must in no way make their presence felt by the children.

16. Organization and Leadership in the Activities of Children under Six Years. (VEVERKA)

The lectures and discussions will explain the work demonstrated in the Play School. 1 unit.

M W F, 1.

GEOLOGY

BRUCE L. CLARK, Ph.D., Assistant Professor of Palaeontology.

SUMMER SESSION COURSES

(June 20 to July 30, 1921)

The courses offered in geology will consist entirely of work in the field. The work of the party will be in the immediate vicinity of Mount Diablo, Contra Costa County. The geological section of the Mount Diablo region is one of the most typical of the Coast Ranges of California, a very large part of the geological column as known in the Coast Ranges being well represented in this area.

Camps will be established in convenient localities contiguous to where the work is being done. The total expenses in the field, including transportation, will be approximately \$50.

Students who expect to take this work should not report later than registration day.

For further details about the work address Professor B. L. Clark, Bacon Hall, University of California.

180. Field Geology.

(CLARK)

Open to students who have had elementary geology and mineralogy.

The work will consist of mapping the formations and studying the fossil faunas as found in this section. Students who have had field work will be assigned special problems. 6 units.

Hours to be arranged.

215. Research in Geology, Palaeontology, and Physiography. (CLARK)

Open only to graduate students who as undergraduates made geology their major. 6 units.

Hours to be arranged.

GERMAN

CLAIR HADYN BELL, Ph.D., Instructor in German.

KURT HELLER, Ph.D., Instructor in German.

SUMMER SESSION COURSES

(June 20 to July 30, 1921)

The courses listed below cover slightly less ground than the corresponding courses in the regular session of the University. Nevertheless, especially proficient Summer Session students will be admitted into the next higher courses of the University in regular session. For other students brief correspondence courses have been prepared which will bridge the gap between the Summer Session and the next higher courses of the regular session.

For course A there is no prerequisite. The prerequisite for B is the completion of a semester's work in the University or two years of German in the high school, or matriculation subject 5d².

A. The Elements of German (Double Course). (BELL)

For beginners. Essentials of grammar, reading, conversation. Spanhoofd's "Elementarbuch der deutschen Sprache," Holzwarth's "Gruss aus Deutschland." 4 units.

M Tu W Th F, 8 and 1.

B. Advanced Elementary German (Double Course). (HELLER)

Reading, grammar, composition, conversation. Zinnecker's "Deutsch für Anfänger," Haertel's "German Reader for Beginners," Stöckl's "Alle Fünf," Storm's "Immensee." Conducted mainly in German. 4 units.

M Tu W Th F, 9 and 2.

GRAPHIC ART

A. H. SCHROFF, Professor of Fine Arts, University of Oregon.

WILLIAM W. MANATT, Instructor in Clay Modeling, California School of Arts and Crafts.

MYRTLE JEAN WILLIAMSON, Assistant in Graphic Art.

SUMMER SESSION COURSES

(June 20 to July 30, 1921)

AB. Freehand Drawing and Perspective.

(WILLIAMSON)

The application of mechanical principles to freehand drawing, perspective, shade and shadow, and reflection; drawing from geometrical solids and its application to natural objects, in pencil, pen, and wash. Interior and exterior views of buildings are used to illustrate these principles. Credit for matriculation subject 6 will be given only upon passing the regular matriculation examination in that subject. In addition to the regular class meeting there will be required at least 6 hours per week of outside study. 2 units.

M W F, 1-4.

S1D. Art History (Lectures).

(SCHROFF)

European civilization and art epochs with special reference to art appreciation. 2 units.

M Tu W Th, 10.

S101. Modeling.

(MANATT)

Modeling from ornament and other casts. The course is intended to strengthen the feeling for plastic representation in those who ordinarily would draw from the antique. Prerequisite: matriculation subject 16 or its equivalent. 1 unit.

M W F, 1-4.

112. Out-of-Doors Sketching.

(WILLIAMSON)

Landscape drawing in charcoal, wash, and pencil. Lectures and black-board illustration on landscape composition. Though the University grounds afford ample opportunity for landscape practice, trips will be arranged to the lake and parks of Oakland and the hills back of Berkeley. 1 unit.

Tu Th, 1-4.

S115A. Composition.

(SCHROFF)

Cartoons for mural and stained glass. Prerequisite: Graphic Art AB, 6AB, 14A or equivalent. 1 unit.

F, 9-12.

S116A. Painting Class.

(SCHROFF)

Oil, water color, and tempera mediums with lectures on color theory.

Prerequisite: at least two years of drawing. 2 units.

M Tu W T, 1-3.

GREEK

IVAN M. LINFORTH, Ph.D., Professor of Greek.

SUMMER SESSION COURSES

(June 20 to July 30, 1921)

S1A. Greek for Beginners.

(LINFORTH)

The course covers about one-half of a standard beginner's book, which may be completed in the regular session (Greek 1B, 3 hrs., either half-year). The principal purpose of the course is to assist students to acquire a working vocabulary and to recognize and understand the inflectional forms. 3 units.

8 hrs., M W F, 2, and M Tu W Th F, 3.

S199. Special Study.

(LINFORTH)

Competent students may undertake private study under the direction of the instructor. 1-3 units.

HISTORY

O. G. LIBBY, Ph.D., Professor of American History, University of North Dakota.

WALDEMAR WESTERGAARD, Ph.D., Professor of History, Pomona College.

JOSÉ MARIA GÁLVEZ, Ph.D., Head, Department of English, University of Chile.

LOUIS J. PAETOW, Ph.D., Professor of Medieval History.

EUGENE I. McCORMAC, Ph.D., Professor of American History.

CHARLES E. CHAPMAN, Ph.D., Associate Professor of Latin-American and Californian History.

HERBERT I. PRIESTLEY, Ph.D., Associate Professor of Mexican History, Librarian of the Bancroft Library.

INTERSESSION COURSES

(May 9 to June 18, 1921)

S161A. History of Spain and Portugal. (CHAPMAN)

The development of these nations from the earliest times to the present day. The course will include a number of lectures on Spanish society today. 2 units.

M Tu W Th F, 9.

S166B. History of Mexico, Colonial and Modern. (PRIESTLEY)

A discussion of the principles of Spanish colonization, with an account of the conquest of Mexico, and the influences which have formed the present republic. 2 units.

M Tu W Th F, 10.

S189A. History of Alta California. (CHAPMAN)

Lectures on the Spanish period of California history. 2 units.

M Tu W Th F, 11.

231. Seminar in European History. (PAETOW)

An introduction to research work in this field based on special topics of investigation chosen with reference to the interests of each student. Candidates for the master's degree in modern or medieval history can get 4 units of credit in graduate courses towards that degree by taking this course and History S202A in the Summer

Session at Berkeley, provided they are willing to carry on, in connection with History S202A, their investigations on special topics begun in History 231. 2 units.

Tu Th, 4-6.

S266A. **Seminar in the History of Mexico.** (PRIESTLEY)

M Th, 7:30-10 p.m. 2 units.

SUMMER SESSION COURSES

(June 20 to July 30, 1921)

45. **Europe in the Nineteenth Century.** (WESTERGAARD)

Political and civil history of Europe from 1815 to 1914. 2 units.

M Tu W Th F, 10.

175. **Political and Constitutional History of the United States to 1837.**

(LIBBY)

M Tu W Th F, 11. 2 units.

S121B. **The Beginnings of the Dominance of Western Europe.**

(PAETOW)

A general survey of European history from the First Crusade to the great oceanic discoveries about 1500 A.D. Based on Paetow, *Guide to the Study of Medieval History*, part II, period II. 2 units.

M Tu W Th F, 9.

S163. **The Intellectual History of the Spanish American Republics.**

(GÁLVEZ)

A general survey of the development of education, art, and literature since the period of independence, with an intensive examination of the modernist movement in belles lettres. 2 units.

M Tu W Th F, 2.

S174. **History of the United States since 1868.** (McCORMAC)

M Tu W Th F, 10. 2 units.

S202A. **An Introduction to the Advanced Study of History.** (PAETOW)

An introduction to historical method and bibliography for students who are aiming at higher degrees in history or a high school teacher's recommendation with a major in history. Based largely on Langlois and Seignobos, *Introduction to the Study of History*. 2 units.

M W, 4-6.

249. Seminar in History of Northern and Eastern Europe.

(WESTERGAARD)

Studies in Baltic history; economic and political problems during war and reconstruction periods. 2 units.

M Tu W Th F, 2.

275. Seminar in Jeffersonian Democracy.

(McCORMAC)

Tu Th, 3-5. 2 units.

S301. The Teaching of History.

(LIBBY)

Lectures, class discussions, and student reports. The course will deal with methods and materials for history teaching. The illustrations will be drawn largely from the fields of ancient, English, and United States history. 2 units.

M Tu W Th F, 2.

HOME ECONOMICS

Two distinct courses of study are offered in the general field of home economics, one in household art and the other in household science. These two courses may be combined by the individual student with the consent of these departments. Such a combination is often impracticable, however, on account of the prerequisite drawing and design on the one hand and the more advanced prerequisite chemistry on the other. Students who wish to enter upon either of these courses of study or upon a combination of the two are urged to include in their work for matriculation elementary chemistry, botany, geometrical and freehand drawing, clothing and foods as listed in the Circular of Information, under general list of preparatory subjects. Such a plan will enable students to fulfill without delay the requirements for the junior certificate and to secure fundamental training in the subjects preparatory for the major work in Household Art or Household Science.

For description of courses students are referred to the Department of Household Art and the Department of Household Science.

HOUSEHOLD ART

MARY F. PATTERSON, Associate Professor of Household Art and Design,
University of California.

BERNICE LANGTON, Lecturer in Batik Decoration and Design in the
Summer Session.

ANNE SWAINSON, M.A., Associate in Textiles, University of California.

MARY C. HERETH, B.S., Instructor in Household Art in the Summer
Session.

WILLETA SCHREIBER, Assistant in Industrial Art in the Summer Session.

EDMUND GURNEY, Instructor in Household Art in the Summer Session.

Student Assistants: CORINNE SWEET, A.B., KATHERINE FISK, A.B., VIVIAN
R. YOUNG, A.B., DOROTHY WILKINSON, M.A., THELMA GILMAN, A.B.,
RUTH K. DUHRING, A.B.

SUMMER SESSION COURSES

(June 20 to July 30, 1921)

170. Three Centuries of Mediaeval Costume and Ornament.

(PATTERSON)

Costumes of the thirteenth, fourteenth, and fifteenth centuries as pictured
in sculptured architectural decoration, incised brasses, illuminated
manuscripts, tapestries, embroideries, wood carvings, and paintings
of the early Renaissance. Prerequisite: Mediaeval History or the
History of Art. Lectures illustrated with stereopticon. Notebook
required. 1 unit. Open to auditors.

M W F, 11.

171. The Method of Batik Decoration.

(LANGTON)

This course is intended for artists and teachers who are experienced
in design, free-hand drawing and painting. It offers opportunity
for original compositions suitable for decorative purposes in con-
nection with clothing or interiors, also for experimentation in the
application of such decoration to a variety of fabrics by dye resist
processes. The lectures will trace the methods used in this mode
of decoration in primitive civilizations and at the present time.
Prerequisite: design, free-hand drawing, and color. Laboratory fee,
\$3.50. This will cover the use of equipment, dyes, wax, acids, gaso-
line, etc. Fabrics for individual designs should be provided by
students. 2 units.

Lectures and laboratory, M Tu W Th F: Sec. 1, 9-11; Sec. 2, 1-3.

S305. Teacher's Course: Industrial Art.

(SWAINSON)

Lectures, discussion, and practical laboratory work, designed particularly for teachers and supervisors of the public schools and vocational part-time courses. The hand work will be considered in the following ways: (1) as a method of teaching; (2) as a means of creating a background for new knowledge; (3) as an end in itself; (4) as an opportunity for giving training in construction suitable to the material; and (5) as a means of assisting in developing appreciation for practical beauty. Among the materials to be used are sand, clay, cement, paper, cardboard, textiles, leather, wood, metal, discarded spools, boxes, etc., and special materials found in environment. The following will be constantly considered: the viewpoint, ability, and development of the child; the time allotment and size of group; the cost of supplies and use of materials at hand. Prerequisite: free-hand drawing, design, and color. Laboratory fee, \$5. 2 units.

Lectures and laboratory: Sec. 1, M Tu W Th F, 8-10; Sec. 2, 10-12; Sec. 3, 1-3.

306. Teacher's Course in Clothing Construction.

(HERETH)

This course offers training in technical problems for clothing construction and household articles. Prerequisite: Household Art 1A-1B, or the equivalent. Laboratory fee, \$3. This includes use of equipment and materials for demonstration models, garment materials, and individual sewing utensils to be furnished by the students. 2 units.

Lectures and laboratory, M Tu W Th F: Sec. 1, 8-11; Sec. 2, 1-4.

307. Teacher's Course in Advanced Clothing Construction and Design.

(GURNEY)

This course offers training in design in material, technical processes of construction necessary for dresses, coats, and suits, and practice in the adaptation of commercial patterns. Such processes are taught by designing and pattern making in paper, and by the execution of small models in material—a shirtwaist, a coat, and a skirt. Each student will also complete an individual suit or coat. Prerequisite: Household Art 197A-197B, or the equivalent. Laboratory fee of \$1.50 will cover the use of equipment. Garment materials and individual sewing utensils should be provided by the students. 2 units.

Lectures and laboratory: Sec. 1, M Tu W Th F, 8-11; Sec. 2, 1-4.

NOTE.—Courses in the 300 group are acceptable by the Department of Education for credit for the H. S. T. R. (See Summer Session Announcement for Department of Education.)

HOUSEHOLD SCIENCE

- AGNES FAY MORGAN, Ph.D., Associate Professor of Household Science.
 SYBIL WOODRUFF, M.S., Instructor in Household Science, Oregon Agricultural College.
 SUSAN F. WEST, B.S., Professor of Home Economics, Wilwaukee Downer College.
 Mrs. MAX WEST, B.S., Lecturer in Child Welfare in the Summer Session.

SUMMER SESSION COURSES

(June 20 to July 30, 1921)

- C. Elementary Food Preparation.** (WOODRUFF)
 This course is designed for housekeepers who desire an introduction to the scientific control of cooking processes, and an elementary study of the nutritive and economic aspects of the choice and preparation of food.
 M W F, 10-12. Laboratory fee, \$2.50.
- AB. Study of Foods.** (WOODRUFF)
 The study of foods from the economic and hygienic points of view; of the chemical and physical characteristics of common food classes in so far as these characteristics affect methods of cooking and digestibility; typical cooking processes, recipe analysis and variation, service of meals. Equivalent to matriculation subject 18*d*. Prerequisite: matriculation chemistry. Matriculation credit, 4 units. Laboratory fee, \$3.
 Lectures or recitations, M Tu W Th F, 1; laboratory, 2-4.
- S2. Food and Dietetics.** (WEST)
 The essential facts governing chemical, physical, hygienic, and economic standards of food; methods of estimating kind and quantity of food required under varying conditions; the adequate feeding of families at low cost; the simplest facts about the feeding of infants and the sick. Laboratory fee, \$2. 2 units.
 Lectures, M W F, 8; laboratory, Tu Th, 9-10.

S30. Care and Feeding of Children.

(WEST)

A study of the feeding and physical care of infants and children, and of the organization and operation of nutrition classes and school lunches, designed to be of use to teachers, nurses, and social workers. 2 units.

Lectures, M Tu W F, 9; laboratory, Th, 9-11.

S300. The Teaching of Household Science.

(MORGAN)

Development and aims of home economics education; organization of the subject matter, lesson plans, courses of study, equipment. 2 units.

M Tu W Th F, 10.

S216. Seminar in Nutrition.

(MORGAN)

Recent advances in the chemistry of food and nutrition, food economics, and dietetic therapy. 2 units.

M W F, 1-3.

JOURNALISM

ERIC W. ALLEN, A.B., Dean, School of Journalism, University of Oregon.
REGINALD E. SWEETLAND, A.B., Assistant in English.

SUMMER SESSION COURSES

(June 20 to July 30, 1921)

1. Reporting.

(SWEETLAND)

The structure of the news story; methods of getting news and of keeping out inaccuracies; the judging of news values; types of news writing; brief survey of the reportorial field and of the editorial side of a newspaper. The class will be the reportorial staff of the Summer Session Californian, for which all students will be required to complete regular assignments. 2 units.

M Tu W Th F, 8.

2. Practical Editing.

(ALLEN)

A course for persons with newspaper experience, persons who have had elementary news writing, and for teachers who desire to use news writing as an aid to English composition. Proof reading, copy reading, and head writing will be a part of the course. Copy for the Summer Session Californian will provide most of the material. Lectures will be on newspaper policies and practices. 2 units.

M Tu W Th F, 10.

LATIN

H. R. FAIRCLOUGH, Ph.D., Professor of Latin, Stanford University.

SUMMER SESSION COURSES

(June 20 to July 30, 1921)

126A. Quintilian.

(FAIRCLOUGH)

Book X of Quintilian's *Training of the Orator* will furnish a basis for a survey of the chief fields of Greek and Roman literature. In addition to the regular class meetings, there will be required at least six hours a week of outside study. 1 unit.

Tu Th, 2.

273. Seminar in Virgil's Aeneid.

(FAIRCLOUGH)

Criticism and interpretation of the Aeneid of Virgil with special reference to the first six books. Certain passages to be selected for interpretation and discussion. Development of Virgil's genius. Bibliography and manuscripts. 2 units.

M Tu W Th F, 3.

300A. Teacher's Training Course.

(FAIRCLOUGH)

Lectures on teaching Latin in secondary schools. Bibliography of the subject. The teacher's preparation. Training in reading Latin aloud. Discussion of the high school Latin curriculum and other topics of importance to teachers of Latin. 1 unit.

M W F, 2.

LAW

SAMUEL WILLISTON, M.A., LL.D., Weld Professor of Law, Harvard University.

ROBERT M. DAVIS, A.B., J.D., Professor of Law, University of Arizona.

CHARLES GRACCHUS NEELY, B.L., Professor of Constitutional History and Law, Pomona College. .

ALEXANDER M. KIDD, A.B., LL.B., Professor of Law.

JAU DON BALL, M.D., Lecturer in Psychiatry and Criminology in the Summer Session.

EDWARD OSCAR HEINRICH, B.S., Consulting Expert in Criminal Investigations, Judicial Chemist, Examiner of Questioned Documents, San Francisco.

AUGUST VOLLMER, Chief of Police, City of Berkeley.

INTERSESSION COURSE

(May 9 to June 18, 1921)

S233. Practice (Double Course). (KIDD)

In connection with this course students are expected to draft the ordinary legal documents of office practice and the papers required in the different stages of actions and special proceedings. 4 units.

M Tu W Th F, 9-11.

SUMMER SESSION COURSES

(June 20 to July 30, 1921)

S10AB. Elementary Law (Double Course). (NEELY)

The general principles of law. 4 units.

M Tu W Th F, 2-4.

S115. The Law of Contracts (Double Course). (WILLISTON)

An investigation and application of the principles of such important phases of contracts as: the doctrine of mutual assent and questions of acceptance and revocation of offer; the doctrine of consideration, its historical development and modern aspect; requisites of contract under seal; rights of parties under a contract, including assignee of a contract, third person beneficiary under a contract, and joint obligors; conditions express and implied; impossibility; illegality; contracts in restraint of trade. 4 units.

M Tu W Th F, 8-10.

- S225. The Law of Corporations (Double Course).** (DAVIS)
 Legal conception of a corporation; corporations de facto; powers of a corporation; liability of corporations for torts, crimes, and contempt; ultra vires transactions; directors; stockholders; creditors; trusts; forfeiture of charter; dissolution. 4 units.
 M Tu W Th F, 10-12.

CRIMINOLOGY

- 113A. Medical and Psychological Problems.** (BALL)
 An introduction to the study of the medical and psychological side of criminology, including mental disorders, feeble-mindedness, disease, heredity, organization of departments for the study of criminals. The significance of findings in neurology and psychiatry. Lectures and assigned reading. 2 units.
 M Tu W Th F, 9.
- 113C. The Investigation of Crime.** (HEINRICH, VOLLMER)
 Modes and procedure in use in the best criminal and legal practice for the detection, preservation, and ultimate presentation in court of facts essential to the solution of criminal problems and the identification and apprehension of criminals. Crime agencies, police systems, criminals, methods of operation. Lectures, exhibits, photographs, stereopticon views. 2 units.
 M Tu W Th F, 10.
- 113D. Field and Office Methods in Criminal Investigation; Police Administration.** (HEINRICH, VOLLMER)
 Practical training in police problems; case studies involving searches for and organization of evidence; use of modernized equipment. Subjects that may be taken up will include shadowing, roping, interrogations, searches of localities, identification, reports, records, assignments, and control of squads. Arranged to meet individual preparation and opportunities for advancement of the student. Open only to students actively interested in investigational or police work. 2 units.
 M Tu W Th F, 11.
- 113G. Intensive Course in Psychiatry from an Individual, Social, and Industrial Point of View.** (BALL)
 The course includes a careful review of methods of examinations, personality studies, and at least three weeks' resident study in an institution for the insane or feeble-minded or in a penal institution. Each student will be assigned a special problem involving psychiatry. Open to not more than ten students of special qualifications. Credit to be arranged.
 M Tu W Th F, 11.

LIBRARY METHODS

BEULAH MUMM, Library Instructor and Visitor, California State Library; formerly in charge Library School, State Library.

MILTON J. FERGUSON, Librarian, California State Library.

ZULEMA KOSTOMLATSKY, formerly Assistant Librarian and Acting Librarian, Portland Library Association, Portland, Oregon.

MILDRED KELLOGG, A.B., Assistant in Library Methods in the Summer Session.

This course is designed as an introduction to certain phases of library work. It will be of assistance chiefly to those having some experience in the work; persons not holding library positions or actually under appointment are advised not to apply.

A limited number only can be admitted to the course, and these will be selected from the whole number of applicants with due regard to personal and educational qualifications and previous library experience. In order that selection may be made sufficiently early to allow accepted applicants necessary time for preparation, applications must be filed not later than May 15, 1921. All applicants will be notified of the result of the selection on or before May 30, and those accepted should immediately fill out and file with the Recorder of the Faculties the blank form of Application for Admission which will be found in the back of this bulletin, in accordance with the general rules governing registration in the Summer Session. (Note that this form should *not* be used for the initial application. Initial application blanks may be obtained from the State Librarian, Sacramento.)

Since the course is planned fully to occupy the students' time, no additional work, either in the University or outside, should be attempted. Credit not to exceed six units may be granted for this course. Those who satisfactorily complete the entire course will receive certificates to that effect.

Only those students regularly registered in the library course may attend the classes; auditors cannot be accommodated. Textbooks and supplies may be purchased from the Director's assistant; a list of required textbooks, with prices, will be sent each accepted applicant.

The course offers both instruction and practice work in each of the following subjects, to which time will be devoted as indicated:

1. **Cataloguing and Classification, including Accessioning and Shelf Listing.** 33 periods.

The essentials of the dictionary catalogue and of the decimal classification.

2. **Reference Work.** 18 periods.

The study of a selected list of reference books, with problems involving their use.

3. **Current Fiction.** 6 periods.

Lectures on modern writers with whom all library assistants should be familiar.

4. **Loan Systems.** 2 periods.

The comparative study of systems adapted to public library needs.

5. **California Library Plan.** 2 periods.

6. **Binding and Repair of Books.** 1 period.

Practical consideration of materials, methods and costs, illustrated by a visit to the University bindery.

MATHEMATICS

MELLEN W. HASKELL, Ph.D., Professor of Mathematics.

HARRY W. TYLER, Ph.D., Walker Professor of Mathematics, Massachusetts Institute of Technology.

CHARLES A. NOBLE, Ph.D., Professor of Mathematics.

GRIFFITH C. EVANS, Ph.D., Professor of Mathematics, Rice Institute.

J. H. McDONALD, Ph.D., Associate Professor of Mathematics.

BENJAMIN A. BERNSTEIN, Ph.D., Assistant Professor of Mathematics.

ARTHUR R. WILLIAMS, Ph.D., Instructor in Mathematics.

C. D. SHANE, Ph.D., Instructor in Mathematics.

INTERSESSION COURSES

(May 9 to June 18, 1921)

S4A. Integral Calculus.

(NOBLE)

The fundamental formulae of simple integration, with application to the calculation of lengths, areas, volumes, centers of gravity, etc. 2 units.

M Tu W Th F, 8.

S5. Plane Analytic Geometry.

(HASKELL)

Analytic treatment of the straight line and the circle; elementary properties of the conic sections; problems in loci. 2 units.

M Tu W Th F, 9.

S102. Elementary Algebra for Advanced Students.

(NOBLE)

Selected topics in elementary algebra with particular reference to modern points of view. Required for the High School Teacher's Recommendation. 2 units.

Tu Th, 4-6.

S215A. Higher Geometry.

(HASKELL)

The relation between various systems of coördinates. Geometric transformations. 2 units.

M W, 4-6.

SUMMER SESSION COURSES

(June 20 to July 30, 1921)

- A. Graphic Algebra.** (BERNSTEIN)
 The graphic and algebraic treatment of equations of the first and second degree, graphic solution of equations of higher degree, ratio, proportion, and variation. 2 units.
 M Tu W Th F, 10.
- B. Solid Geometry.** (MCDONALD)
 The fundamental propositions of the Euclidean geometry of space. 2 units.
 M Tu W Th F, 8.
- SC. Plane Trigonometry.** (BERNSTEIN, WILLIAMS)
 The general formulae of plane trigonometry, with application to the solution of triangles and practice in the use of logarithms. 2 units.
 Two sections: M Tu W Th F, 8, 9.
- S2. Mathematical Theory of Investment.** (WILLIAMS)
 The theory of compound interest, with application to various kinds of investment.
 M Tu W Th F, 9.
- S4B. Solid Analytical Geometry and Calculus.** (SHANE)
 S4A and S4B are together equivalent to course 4A-4B of the regular session. Double course. 4 units.
 M Tu W Th F, 8 and 2.
- S9. Introduction to Calculus.** (TYLER)
 The elements of the differential and integral calculus, with simple applications. Prerequisite: an acquaintance with elementary graphic algebra. 2 units.
 M Tu W Th F, 10.
- S101. Elementary Geometry for Advanced Students.** (HASKELL)
 Selected topics in modern elementary geometry, including a discussion of methods of solution of geometric problems. Required of candidates for the High School Teacher's Recommendation. 2 units.
 M Tu W Th F, 10.
- S107. History of Mathematical Science.** (TYLER)
 General survey of the development of mathematical science, including applications to astronomy, mechanics, etc., from the Greek period to the eighteenth century. Students who enroll for this course should have had trigonometry. Lectures, collateral reading, reports. 2 units.
 M Tu W Th F, 11.

S111. Theory of Algebraic Equations.

(McDONALD)

General properties of equations, algebraic solution of the cubic and biquadratic, symmetric functions, separation of the roots and solution of numerical equations. 2 units.

M Tu W Th F, 9.

S116. Mathematics of Economics.

(EVANS)

Some acquaintance with the calculus will be assumed, but no systematic knowledge of economics. The course will include algebraic, geometric, and mechanical analysis of simple economic systems; offer, demand, selling price; monopoly, limited and unlimited competition; taxation; the purchasing power of money; interest; general theory of economic systems. 2 units.

M Tu W Th F, 10.

S215B. Higher Geometry.

(HASKELL)

The classification of geometries from the point of view of group-theory. 2 units.

M Tu W Th F, 9.

S226. Integral and Integro-Differential Equations.

(EVANS)

Harmonic functions and boundary values, Fredholm's problem; the classic solution of linear integral equations; problems related to linear integral equations; integro-differential equations of general types. 2 units.

M Tu W Th F, 11.

MECHANICAL AND ELECTRICAL ENGINEERING

B. N. WILSON, Professor of Experimental Engineering, University of Arkansas.

ARTHUR B. DOMONOSKE, M.S., Assistant Professor of Mechanical Engineering and Director of Shops.

F. W. WETMORE, Teacher of Cabinet and Pattern Making, Vocational High School, Oakland.

JAMES GEORGE, Assistant in Mechanical Engineering and Foreman of Ironwork.

SUMMER SESSION COURSES

(June 20 to July 30, 1921)

S6A. Commercial Drafting Room Practice. (DOMONOSKE)

Present day methods of making and reproducing drawings for use in manufacturing plants. Relation of the drafting room to the plant as a whole. Sketching from machine parts and the making of detail and assembly shop drawings. This course is intended for teachers of mechanical drawing in high schools and similar institutions who have not had shop training and are unfamiliar with drafting room procedure. Prerequisite: Drawing EF or the approval of the instructor. 2 units.

Lectures, Tu Th, 2; drafting, M W F, 1-4, or hours to be arranged.

S10. Automotive Construction. (DOMONOSKE)

Principles underlying the operation of the automobile and truck. Approximately one-half of the course will be devoted to the mechanical and the remainder to the electrical equipment of the car. This course does not fit one for garage work, but is intended to give a better understanding of the functioning of the modern automobile. 1 unit. M W F, 11.

18. Summer Session Shop. (DOMONOSKE)

The curriculum of the College of Mechanics requires 3 units or 144 hours of shop practice to be taken in Summer Session. This may be taken in iron work, wood work, or a combination of both. 3 units for 144 hours. Both shops run 9-12 and 1-4, M Tu W Th F.

Woodwork. (WETMORE)

Principles of pattern making and the use of bench and machine tools.

Machine Shop. (GEORGE)

The machine shop is used as a laboratory for the methods of manufacturing. Students study machine operation, scheduling, and inspection successively. Exercises include work at the bench and on the lathe, milling, planing, and grinding machines.

MUSIC

FREDERICK ALEXANDER, A.B., Director of the Conservatory, Michigan State Normal College, Ypsilanti, Michigan.

EDWARD G. STRICKLEN, Assistant Professor of Music.

ARNOLD WAGNER, Professor of School Music, University of Southern California.

CAROLYN A. ALCHIN, Instructor in Music in the Summer Session.

SASCHA JACOBINOFF, Solo Violinist with New York Philharmonic and Philadelphia Symphony Orchestras.

MARIE MIKOVA, Solo Pianist, New York.

SUMMER SESSION COURSES

(June 20 to July 30, 1921)

1. **The University Chorus.** (ALEXANDER)
 Repertory selected mainly from *alla cappella* masterpieces. Practical instruction in ensemble singing. Suggestions for choral material to be used in schools. 1 unit.
 M Tu W Th F, 11.
2. **Orchestral Practice.** (JACOBINOFF)
 Orchestral ensemble and string ensemble. Instruction in playing and teaching and suggestions for literature suitable for use in schools. 1 unit.
 M Tu W Th F, 2.
3. **Orchestral Practice.** (JACOBINOFF)

5. **Harmony and Ear Training, I.** (ALCHIN)
Primary triads and inversions in the major and minor modes. The dominant seventh chord. Harmonization of melodies. Simple chromatic alterations. Passing tones. Original melodic and harmonic composition. Application of all work at the keyboard. Prerequisite: knowledge of major scales and intervals. 2 units.
M Tu W Th F, 1.
6. **Harmony and Ear Training, II.** (ALCHIN)
The second triads and seventh chords, with all alterations. Altered chords as chromatic and as modulating chords. Suspensions. Simple melodic and harmonic composition in double period form. Prerequisite: course 5 or its equivalent. 2 units.
M Tu W Th F, 2.
21. **Music for Primary and Grammar Grades.** (WAGNER)
Training for teachers in the first eight grades. Study of the child voice. A detailed survey of material adapted to the needs of children; methods of presentation; practice reading; sight singing and ear training. Prerequisite: a knowledge of notation, including clefs, notes, rests, key and meter signatures, formation of major and minor scales (three forms of latter), and at least fair ability in the art of sight singing. The texts to be used will be the *Progressive Music Series, Teacher's Manuals I, II, and III, and Pupil's Books One, Two, and Three.* 2 units.
M Tu W Th F, 8.
22. **High School Music.** (WAGNER)
Special work in voice and diction; advanced sight singing and ear training; study of available material for high school classes; plan for courses of study; conducting; pedagogy. Prerequisites: at least two years' experience in teaching music; thorough knowledge of musical symbols, terminology, scales (major, minor, chromatic); ability to read and write musical notation; recognition of intervals. The texts to be used will be *Assembly Songs, Volume I*, by Hollis Dann, and *Laurel Union Songs*, by Armitage. 2 units.
M Tu W Th F, 9.
23. **Music for Supervisors.** (WAGNER)
A study of available material for first eight grades with practical use of same; methods of presentation to teachers; song interpretation; directions for course of study; various texts for supplementary work; practical work in advanced sight singing, ear training, and

conducting. Prerequisite: at least one year's experience in teaching music; thorough knowledge of notation with ability to read simple music expertly. The text books to be used will be *The Music Supervisor*, by Thomas Tapper, *Music Teacher's Manual*, by Julia E. Crane, *The Hollis Dann Music Series*, first six books, and *Junior Songs*.
2 units.

202. The Scientific Bases of Modern Musical Theory. (STRICKLEN)

The course will be devoted to the consideration of the following topics: the accoustical laws that have been taken as bases for ancient and modern musical theories; evolution of ancient and modern systems of scales and keys; evolution of the various systems of tuning and "temperament" that have reference to the musical theories of the present day; mathematical investigation of the laws governing the modern sense of tonality, consonance, chord-progression, dissonance and its "resolutions"; special studies in evolution and analysis of the devices of modern harmony as found in the works of composers of the later romantic and present periods; methods of modern harmony teaching. Prerequisites: completion of the "major" in music, and a year's experience in teaching harmony. An acceptable equivalent will be a thorough knowledge of the theory of music, including a knowledge of, at least, the main principles of analysis and composition, as well as a year's experience in teaching harmony.

GENERAL INFORMATION

The work of the Department of Physical Education is under the general direction of Professor Frank Kleeberger.

During the first day all enrollments for physical education courses will take place on the main floor of Harmon Gymnasium,

Gymnasium costumes will be required for all floor or field courses. Women's gymnasium clothing may be obtained at the Associated Students' Store at the opening of the Summer Session.

All those who expect to take the playground course should provide themselves with appropriate costumes for such games as basket-ball, baseball, running, and jumping. Any dress with bloomers, short skirt, low-heel, and broad-toe shoes will satisfy the requirements.

All women enrolled in swimming courses or wishing to make use of Hearst Swimming Pool are required to wear the University swimming suits, which will be issued each day on the presentation of a receipt from the Comptroller's Office for the \$1.50 swimming suit fee charged to cover rental, repairs, and laundry of swimming suits.

Men enrolled in field or floor work will furnish their own shoes, but will be required to wear the athletic clothing furnished by the University. This clothing, together with all necessary athletic equipment, will be issued at Office 3, Harmon Gymnasium, on the presentation of the Comptroller's receipt for the \$1 athletic fee charged in connection with all *field and floor courses*. Soiled articles may be exchanged daily for clean clothing between the hours of 10-12 and 2-4 at Office 3, Harmon Gymnasium.

Simple Greek costumes will be made by those enrolling in the dancing courses. The design and color of costumes will be directed by Miss Kelso to insure the proper color effects in the development of dance productions. A knowledge of designing will be one of the requisites for credit in the course. The designs will be simple and the costumes need not cost more than \$3 each.

The University tennis courts will be open during the entire Summer Session and regular classes will be organized for instruction in tennis and special tournaments will be arranged.

No visitors will be admitted to the folk or aesthetic dancing courses except by special arrangement with the Dean.

A preliminary physical examination will be required of those taking the strenuous practical courses.

Physical examinations for women will be conducted in Hearst Hall by appointment during the first week of the session. The appointments for these examinations must be arranged at Harmon Gymnasium during the first day of the session and thereafter at Hearst Hall.

Physical examinations for men will be conducted at Harmon Gymnasium, June 21 and 22.

For those who have not pursued elementary courses equivalent to the ones herein listed practical examinations will be required for entrance to the advanced gymnastic and dancing courses. A final examination will be given to those registered for credit.

Students wishing to take work in the Department of Physical Education, but desiring no credit therefor, must record these courses on the study-lists which they file at the Recorder's Office, and must also fill out enrollment cards in the classes concerned.

Students may enroll for a maximum of nine units of work, but six units only will be accepted by the University toward a degree.

OPPORTUNITIES FOR RECREATION

Opportunity for general participation in various recreational activities is provided for students attending the summer school. Choice may be made from the following: swimming, tennis, folk dancing, elementary (aesthetic) dancing, social dancing, general recreation, athletic activities for women, dramatic and dancing games, gymnastic dancing for men and women.

Recreational Information Bureau

The Department of Physical Education maintains a Recreational Information Bureau, where data may be obtained as to theatrical events and as to points of interest and historical significance in and about San Francisco and the bay region.

Harmon Gymnasium

This gymnasium, presented to the University by the late A. K. P. Harmon, is well equipped and provides all men students with opportunities for physical education. The building contains a main gymnasium, boxing room, wrestling room, fencing room, running track, and athletic quarters. There are two shower rooms with 100 showers and 25 showers respectively, and two separate locker rooms containing together 2300 steel lockers. The construction in Strawberry Canyon of an open-air swimming pool has furnished an opportunity for water sports. This pool is 232 feet long, 76 feet wide, and 10 feet deep in its deepest parts, holding a half million gallons of water, and by a constant flow of filtered water is kept in an admirable condition.

Hearst Hall

Hearst Hall was presented to the University by Mrs. Phoebe A. Hearst for a women's gymnasium. It contains the best modern equipment. Connected with the gymnasium are 287 shower baths, supplied with hot and cold water, 300 private dressing rooms, and 1350 lockers for the exclusive use of women students. Hearst Hall is 60 by 90 feet, and the gymnasium in Hearst Hall addition is 80 by 80 feet. There is also an outdoor platform for gymnasium exercises. The athletic field is equipped for outdoor sports and team games, and there is an open-air swimming pool 45 by 75 feet in size.

Athletic Grounds

Nine tennis courts, California Field, the running track, and the soccer and baseball fields offer opportunities for pleasant and healthful recreation.

TEACHERS OF PHYSICAL EDUCATION

RECOMMENDED GROUPING OF COURSES

The Recommendation for the High School Teachers' Certificate with a major in physical education is given only to those holding the bachelor's degree and after the completion of a fifth year of work as outlined in the Bulletin of the School of Education.

Students looking forward to state certification in physical education or in special activities such as athletics, gymnastics, playground activities, etc., should be guided by the arrangement of courses given below.

COACHING SCHOOL FOR MEN

The courses dealing with athletics for men are purposely arranged to make possible an intensive training in all the sports and mass drills, which are important to the high school director. It will be possible for an individual to select the particular courses he may especially desire or to join the group in following out the intensive programme extending from 8 a.m. to 6 p.m.

Men enrolled in the Coaching School will be suitably uniformed for the practical work and will continue so dressed throughout the entire day since theory and practice will be closely interwoven to prevent undue fatigue and to permit of practical demonstrations at all times. Men should bring athletic shoes but no athletic clothing or equipment and should come sufficiently hardened to vigorous physical exertion to make possible active participation throughout the entire period of six weeks. Attention will be given to mass boxing, wrestling, and tumbling as well as to mass games and relays. The disciplinary posture drills will be interwoven with quickening exercises in accord with the methods finally approved by the government experts in military training.

Special emphasis will be laid upon the tactics of military physical training as fundamental to the most efficient conduct of mass work. Each student will be required to conduct mass drills after the first week of instruction and to offer original work in the final examination.

The general content of the coaching courses will cover the interpretation of rules and the discussion of problems involved in officiating for the various sports, organization of season campaigns, schedules of games,

analysis of the sports from the psychological point of view and discussion of the inherent possibilities of each for the development of school spirit and sportsmanship.

* SUGGESTED SCHEDULE FOR WOMEN PLANNING TO DIRECT PHYSICAL EDUCATION IN HIGH SCHOOLS

The schedule has been carefully arranged to prevent, as far as possible, conflicts between the courses most essential to the training of high school teachers. It is not expected that any one individual will take all of the courses offered save as a matter of general review, but that each shall select the courses necessary to the completion of training already undertaken. Individuals wishing further advice as to proper sequence of courses should consult Professor Kleeberger.

In course S302 special attention will be given to the development of a comprehensive programme of physical training for high school girls and to the discussion of organization, drill tactics, and the practical conduct of instruction in the various activities.

The development of school festivals and the promotion of wholesome recreation through folk and social dancing is becoming more keenly recognized every day. High school directors who are not prepared to conduct work along such lines are advised to enroll for courses 15AB, 15CD, 18CD, and 20.

ATHLETICS

WOMEN

The purpose of the courses listed under swimming for swimming are properly to grade instruction in swimming and thus simplify and standardize, through scientific methods, the acquiring of skill both as a performer and a teacher of swimming.

Prospective students should read the bulletin board at Hearst Hall for complete information. All students enrolled in these courses are expected to provide themselves with a text book in order that they may fully understand the purpose of the drills and procedure followed. Only those regularly enrolled will be admitted to the class during the period of instruction.

All women enrolled in swimming classes must report at the first general swimming conference for detailed instruction and general explanations of the plans which must be followed with regard to the use of the swimming pool, locker rooms, and bathing suits.

A swimming suit fee of \$1.50 and a course fee of \$1, making a total of \$2.50, must be paid and the receipt presented at the time of enrollment for courses in swimming.

HOMER C. TASKER, A.B., Assistant in Physics.

INTERSESSION COURSES

(May 9 to June 18, 1921)

A. Elements of Physics.

(JONES)

A first course in physics, designed to present the essential facts and principles of each of the main subdivisions of the subject and to illustrate their connection with the facts and processes of every day life. One lecture with experimental illustration by the instructor, one recitation, and two laboratory exercises, each daily. Credit for matriculation subject 11 will be given for the satisfactory completion of this course.

Lectures and recitations, M Tu W Th F, 9, 1; laboratory, M Tu W Th F, 10-12, 2-4.

S1A. General Physics.

(MINOR)

Lectures with experimental illustration and assigned problems in the mechanics of solid bodies, including both statics and kinetics. This course together with S4B listed below may be offered as the equivalent of course 2A of the regular session as prescribed for students of medicine. If offered with one unit of laboratory work taken under S3 in the Summer Session it is the equivalent of course 1A prescribed in the Colleges of Engineering. Prerequisite: high school physics. 2 units.

M Tu W Th F, 9.

S4B. General Physics.

(MINOR)

Lectures with experimental illustration and assigned problems on wave motion, sound, and light. This course together with course S1A above may be offered as the equivalent of course 2A of the regular session as prescribed for students of medicine. Together with one unit of laboratory work under S3 in the Summer Session, or Physics 18 of the regular session, it is the equivalent of course 4B of the regular session. Prerequisite: high school physics. 2 units.

SUMMER SESSION COURSES

(June 20 to July 30, 1921)

A. Elements of Physics.

(HOPFIELD, FRANCIS, WILLSON)

A first course in physics, designed to present the essential facts and principles of each of the main subdivisions of the subject and to illustrate their connection with the facts and processes of every day life. One lecture with experimental illustration by the instructor, one recitation, and two laboratory exercises, each daily. Credit for matriculation subject 11 will be given for the satisfactory completion of this course.

Lectures and recitations, M Tu W Th F, 9, 1; laboratory, M Tu W Th F, 10-12, 2-4.

S3. Physical Measurements.

(ADAMS)

A laboratory course in general physics offering opportunity for experimental work in mechanics, properties of matter, heat, sound, light, electricity and magnetism, requiring quantitative results. The course in detail will be adapted to the needs of individual students and may cover any portion of the laboratory work of the fall or spring session as given in courses 1A-1B, 4A-4B, 3A-3B, 3C-3D. Credit, not to exceed 4 units, may be given for the course.

M Tu W Th F, 9-12, 1-4.

S4A. General Physics.

(TUGMAN)

Lectures with experimental illustration and assigned problems in electricity and magnetism. This course, together with one unit of laboratory work under S3 in the Summer Session or Physics 18 of the regular session, is the equivalent of course 4A in the fall session. Prerequisite: high school physics. 2 units.

M Tu W Th F, 9.

S1B. General Physics.

(ADAMS)

Lectures with experimental illustration and assigned problems in the mechanics of liquids and gases, properties of matter, and heat. This course together with S4A may be offered as the equivalent of course 2B of the regular session as prescribed for students of medicine. Together with one unit of S3 in the Summer Session or Physics 18 of the regular session it is the equivalent of course 1B prescribed in the colleges of engineering. Prerequisite: high school physics. 2 units.

M Tu W Th F, 1.

S111. Radio Activity, Photo-Electricity, X-Rays, and Crystal Structure.

(DERSHEM)

An experimentally illustrated lecture course supplemented with problems and readings designed to acquaint the student with the principal phenomena of modern physics such as the conduction of electricity through gases, radio activity, photo-electricity, X-rays, and crystal structure. Prerequisites: Physics 2A-2B, 3A-3B and Mathematics 9 or their equivalent. 2 units.

M Tu W Th F, 10.

202. Seminar.

(DERSHEM)

A study of the recent work in the field of X-rays and crystal structure. Readings and problems supplemented by experimental work with the X-ray spectrometer and spectrograph. 2 units.

M Tu W Th F, 9.

S300. Teaching of Physics in Secondary Schools.

(TUGMAN)

A discussion of the content and scope of the first course in physics with experimental illustration of the fundamental phenomena. Critical study of current texts and suggestions regarding suitable reference material. Instruction in the selection, manipulation, and care of apparatus. 2 units.

M Tu W Th F, 11.

Attention is called to Mathematics S107, **History of Mathematical Science** (TYLER).

POLITICAL SCIENCE

EDWARD M. SAIT, Ph.D., Professor of Political Science.

RAYMOND G. GETTELL, M.A., Professor of Political Science.

SUMMER SESSION

LOS ANGELES, 1921

In conformity with the declaration of purpose by the Board of Regents, the University of California hereby announces a *Summer Session in Los Angeles*. The success of the experience is due to the decision of the

MILLSPAUGH HALL

board to continue the session thus created. Instruction will be given as before in the group of buildings of the Southern Branch of the University of California (formerly the Los Angeles State Normal School).

Session of 1921

The fourth annual session will begin Monday, June 20, 1921, and will continue until Saturday, July 30, a period of six weeks. During the same period the University will also conduct its Summer Session in Berkeley. An Intersession will be conducted in Berkeley from May 9 until June 18, 1921.

In the Los Angeles Summer Session the number of students registered in 1919 was 894, in 1920, 1427.

Purpose of the Session

The courses in the Summer Session are designed to meet the needs of the following persons:

1. Teachers who wish to increase their professional skill, to revise and extend their knowledge of a chosen field, or to qualify in new subjects, preparing to meet the special demand for instruction in various departments. (With state and federal aid, under the Smith-Hughes Act, special Summer Session courses are offered at the Chaffey Junior College of Agriculture, Ontario, for those preparing to teach vocational agriculture and the supplemental vocational subjects in California high schools.)

Teachers who desire to prepare for service in vocational schools and classes maintained under the provisions of the State and Federal Vocational Education acts and the State Compulsory Part-Time Education Act, which became effective with the beginning of the school year 1920. The courses designed primarily for this purpose are listed on pages 54 to 56 of this bulletin.

2. School superintendents, supervisors, and other officers.

3. Graduate students, to whom the advantages of smaller classes and the more direct and intimate personal contact with the professors in charge are peculiarly possible during the Summer Session. Residents of Los Angeles and vicinity may continue studies leading to higher degrees without making the journey to Berkeley. However, it should be noted that strictly graduate courses are for the present offered only in the Department of Education.

4. Undergraduate students, and especially those registered in the fall or spring semesters of the University, whose homes are in the southern part of the state, who may use a portion of the vacation to take up studies for which they are unable to find room in their regular programmes, or to make up deficiencies, or to shorten their courses.

5. Properly recommended high school graduates who are about to enter upon regular university courses and who desire to broaden their preparation for university work.

6. Housewives, graduate nurses, social workers, Americanization workers, students of public health, and all adults who are qualified to pursue with profit any course given, whether or not they are engaged in teaching or study.

Faculty

The faculty of the Summer Session will include not only members of the regular faculties of the University but also a number of men of letters and science from other American universities.

Applications for Admission

All persons who desire to attend any of the courses are urgently requested to notify the Recorder of the Faculties at Berkeley on or before Wednesday, June 1, using the blank form of application at the end of this bulletin. Compliance with this request will facilitate the making of adequate arrangements by the University, and will make possible prompt communication with prospective students in case of change in the programme.

Admission Requirements

Attendants upon the exercises of the Summer Session are divided into two broad classes:

A. *Auditors*.—Any adult of good moral character is permitted to attend all the regular exercises of the session, as an auditor, upon the filing of an application and the payment of the regular tuition fee of \$20. An auditor does not participate in recitations, does not take examinations, and hence does not receive credit.

B. *Students*.—While there are no formal admission requirements and no entrance examinations, the officers in charge of admissions will keep in mind the fact that the instruction offered is that suitable for students of university grade, and these officers will exercise their discretion, admitting to student privileges only those applicants who appear to possess the requisite maturity, training, and intelligence. Furthermore, the instructor in charge of a given course may himself require of those who present themselves as students in his course any preliminary test, formal or informal, which he may deem essential to the work proposed.

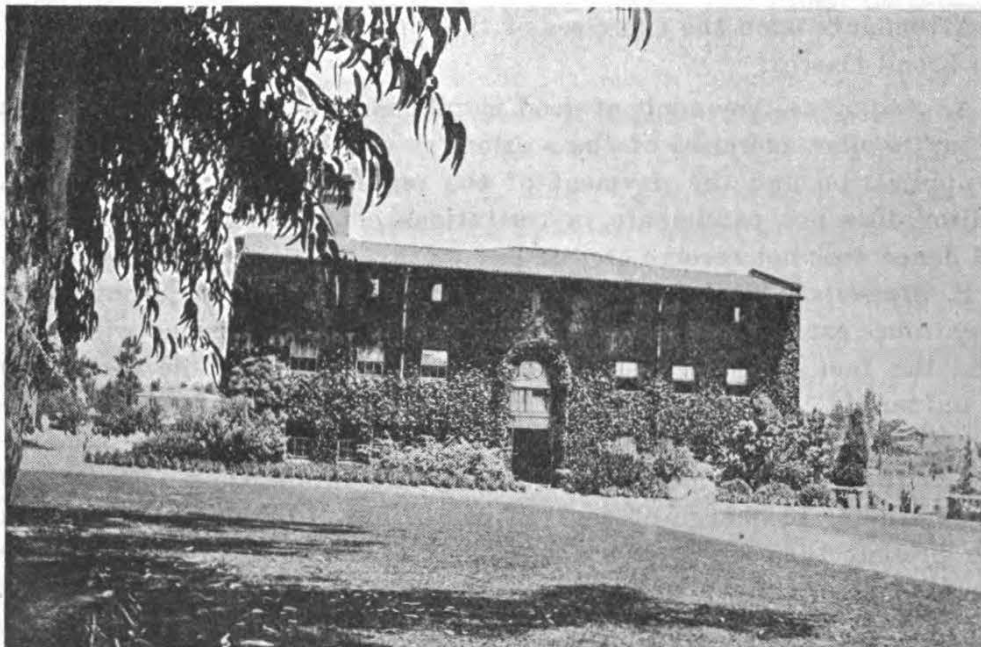

The University will not, as a rule, admit to the Summer Session pupils from the high schools who have not yet completed the four-year high school course. Where an exception is made to this general rule the pupil will be required to devote himself to courses given primarily or exclusively for matriculation credit, such as the "A" or "B" courses in chemistry, physics, mathematics, drawing, stenography, typewriting, book-keeping, and the languages. And in every such exceptional case the applicant will be required to procure from the principal of his school and to present at the University a special testimonial as evidence of superior scholarship and of unusual fitness for the work proposed. A blank form of testimonial for the principal's use may be obtained from the Recorder of the Faculties. Only by special arrangement made in advance may Summer Session courses other than the "lettered courses" be applied toward matriculation.

Registration Dates

The office of the Recorder of the Faculties will be established in Mills-paugh Hall, Southern Branch of the University, and will be open for the

registration of students Saturday, June 18, and Monday, June 20. For detailed directions as to entrance see page 92.

With the approval of the Dean, teachers whose regular employment makes it impossible for them to register on the first day (Monday) may register as late as the second Monday, but such students may enroll in the courses desired only when, in the opinion of the instructor, they have satisfactorily covered the ground of the first week's work.

THE GYMNASIUM

Fees

The tuition fee will be twenty dollars (\$20) regardless of the number of courses taken. Laboratory fees will be charged in certain courses. The amount in each case is stated in the description of the course.

Persons desiring to attend courses or occasional lectures without examination or formal credit may secure for this purpose an auditor's ticket upon payment of the regular fee (\$20).

All fees must be paid in advance, at the opening of the Summer Session, at the office of the Comptroller in Millspaugh Hall, Southern Branch of the University. No deduction will be made from fees by reason of late registration. After the first week no rebate will be allowed for withdrawal. *No application for refund will be considered unless it is made at the time of withdrawal.*

Special Summer Session scholarships equivalent in value to the Summer Session fee will be granted by the California State Board of Education to teachers, or prospective teachers, of vocational agriculture in the California high schools. Such scholarships are good only for the special teacher-training courses at the Summer Session conducted at the Chaffey Junior College of Agriculture at Ontario. Application for scholarship should be made in advance to the State Supervisor of Agricultural Education, State Department of Education, Sacramento, California.

Classification and Numbering of Courses

Undergraduate lower division courses are designated either by letters, without numbers, or by numbers. The "lettered courses," e.g., Chemistry A, Physics A, are equivalents, or nearly so, of subjects in the University preparatory list; they represent subjects of study which may be pursued either in the high school or in the University. Other lower division courses are numbered from 1 to 99 inclusive.

An upper division course is an advanced course in a department of study that has been pursued in the lower division, or of elementary work in a subject of such difficulty as to require the maturity of upper division students. All upper division courses are definitely announced as such, and are given the numbers 100-199.

Graduate courses are numbered from 200 to 299 inclusive.

Teachers' courses are numbered 300, 301, etc. Such courses may be classified either as upper division courses or as graduate courses; if offered for the master's degree, however, such courses are rated as upper division courses, not as graduate courses.

All Summer Session courses, graduate or undergraduate, which are identical, or nearly so, with courses given during the fall or spring sessions, are distinguished by the letter "S" prefixed to the regular number of the course.

Credit

Credit toward a university degree will be given only to attendants who are qualified to do systematic university work, and is in every case subject to the requirement that the student shall at some time qualify in the University as a regular matriculant, either by passing the entrance examinations or otherwise. In the absence of formal entrance requirements, the instructor in charge of a given course in the Summer Session is the judge of the qualifications of candidates for credit.

In general, credit will be given at the rate of one unit for fifteen exercises. A course of five recitations or lectures weekly during six weeks may receive a credit of two units. Credit may be given, in due proportion,

for a smaller number of exercises, when these are of more than the usual length (which for lectures and recitations is about fifty minutes). A recitation or lecture presupposes about two hours of study outside of the classroom; laboratory or other exercises which do not require outside preparation are estimated at a lower rate than recitations or lectures.

If in a given course a final examination is required by the instructor, there can be no individual exemption from this examination. A student who fails to pass the examination does not receive credit for the course. It should furthermore be noticed that special examinations and reexaminations in summer courses are not provided.

The maximum amount of credit obtainable during the session by a student who devotes his entire time to the work is six units. A bachelor's degree represents 124 or more units of credit, distributed according to the special requirements of the college in which the student is enrolled. For the master's degree there are required twenty units, including a thesis, which may count from two to four units. The courses must be graduate courses or undergraduate upper division courses. At least eight of the twenty units, including the thesis, must be strictly graduate work in the major subject. The work for Ph.D. and other doctor's degrees is not estimated in units of credit, and must be specially planned for every candidate. There are normally required four years of university residence for a bachelor's degree, one year for a master's degree, and at least two years for a doctor's degree; and though advanced credit is given for work done at other universities, the candidate's final year of residence for any degree must ordinarily be spent in the University of California.

Two summer sessions are accepted as the equivalent of one half-year of residence for any degree; but the amount of credit (the number of units) that may be completed during two summer sessions will not exceed three-fourths of the amount that could be completed by an undergraduate student during a single fall or spring session.

The specific courses which will be recognized as upper division or graduate courses toward a higher degree are announced in later pages of this bulletin. Students electing work in the Summer Session as part of a programme for a higher degree should consult the Announcement of the Graduate Division for information regarding facilities and departmental requirements. Except by special arrangement work for the Ph.D. can ordinarily be pursued only during regular sessions. Graduate students should consult, also, the Dean of the Graduate Division.

Prospective applicants for the Recommendation for the High School Teacher's Certificate or for higher degrees are urged to submit to the Dean of the Graduate Division official transcripts of records of their

college work, preferably by mail in advance of the opening of the Summer Session, so that they may be advised in regard to their graduate standing and to the program of study which they desire to elect.

The University issues formal Recommendations for the High School Teachers' Certificate only to those who hold a bachelor's degree and who have completed the professional and academic requirements in accordance with the regulations of the State Board of Education and of the School of Education. For further information the student should consult the Director of the School of Education. Certificates of record for summer

THE LIBRARY

session work, whether of matriculation or of university grade, will be issued by the Recorder of the Faculties, upon application of any student in the session; and personal recommendations from instructors may be obtained by school officers and other inquirers through the office of the Appointment Secretary at Berkeley.

There will be no general period of final examinations. The matter of examinations for credit will be left in the hands of the instructors, who may use the regular recitation hours for that purpose, or may hold examinations at other times, to be arranged with their classes. No examination is to be held except at a time which will make it possible for all members of the class to attend without conflict with other University appointments; special examinations to suit the convenience of individuals are not permitted.

Students who apply for credit in any course will be expected not only to complete all the work and examinations of the course but also to

continue in regular attendance upon the class exercises until the *close of the session*; and students will be required to hand in all their work by that time, in order that the instructor may make his report in due season. Students are not authorized to continue any part of the work beyond the close of the session. No provision is made for reëxaminations or supplementary work for the removal of deficiencies.

Graduate Division

A representative of the Dean of the Graduate Division of the University will hold office hours at Millspaugh Hall, Southern Branch, during the opening days of the Summer Session, beginning Saturday, June 18, from 9 a.m. to 12 m. for conference with advanced students desiring information with reference to graduate study. Professor A. O. Leuschner, Dean of the Graduate Division, will hold office hours during the second week of the Summer Session on dates to be announced.

A representative of the Director of the School of Education will hold office hours at Millspaugh Hall, Southern Branch, during the opening days of the Summer Session, from 9 a.m. to 12 m., for conference with candidates for the Recommendation for the High School Teacher's Certificate.

After the second week of the Summer Session inquiries regarding graduate study should be directed to Dean B. M. Woods and those pertaining specifically to the Recommendation for the High School Teacher's Certificate to Professor R. J. Leonard.

Accommodations and Expenses

There are many boarding houses and private homes in Los Angeles where students can obtain room and two meals at prices ranging from \$35 to \$50 per month. There is a cafeteria at the Southern Branch. A list of places offering board and room or either alone will be ready for distribution at the office of the Summer Session in Los Angeles, 831 Pacific Finance Building, Sixth and Olive streets, Los Angeles, by May 25. Copies will be mailed on request. Every possible assistance will be given to strangers in their search for suitable boarding places.

The following table will enable the student to form an estimate of the expenses, exclusive of railway fare, to be met in attending the six weeks of Summer Session:

University tuition fee	\$20-\$20
Laboratory fees (according to courses taken)	00- 12.50
Board and room, six weeks	50- 90
Textbooks and stationery	5- 15
Laundry	5- 12
Total	\$80-149.50

The Associated Students' Store carries all text books for summer session courses, as well as stationery and other supplies.

Railroad Rates for the Summer Session

At the time this bulletin goes to press no official announcement by the railroads with reference to reduced rates is yet possible. It is generally anticipated, however, that excursion rates under the certificate plan will be offered. Prospective students of the Summer Session are urged to secure definite information at railroad offices with reference to summer rates from their respective cities.

Library

Throughout the Summer Session the Library will be open daily from 7:45 a.m. to 6 p.m., Monday to Friday inclusive, and from 8 a.m. to 1 p.m. Saturday.

Full library privileges, including the home use of books, as accorded to regular University students, will be extended to those students in the summer courses who register at the library, without additional fee.

The Public Library, in the Metropolitan Building, at Fifth street and Broadway, is open every week day from 9 a.m. to 9 p.m. Summer Session students may obtain readers' cards by filing with their application blanks cards signed by the University registrar stating that they are students in the University.

Summer Session Californian

The SUMMER SESSION CALIFORNIAN is issued twice each week throughout the session. In addition to Summer Session news, it contains announcements of lectures, concerts, exhibits, meetings of University organizations, and general information of interest to visitors. It will be mailed to any address for the six weeks of the Summer Session for 25 cents, payable with other fees at the office of the Comptroller.

University Meetings

Meetings of the entire membership of the Summer Session will be held in the Auditorium, Millspaugh Hall, each Monday except July 4; members of the faculty and visitors will be the speakers. These gatherings are open to the general public. The hour of the meeting will change from week to week. The following is the schedule:

Monday, June 20, 11 a.m.

Monday, June 27, 2 p.m.

Monday, July 11, 3 p.m.

Monday, July 18, 9 a.m.

Monday, July 25, 10 a.m.

Special Lectures

During the session of 1920 there were many special lectures by members of the faculty and by distinguished visitors. Some were delivered at the Summer Session, others in an auditorium centrally located in Los Angeles. Plans for a similar series are under way for this year's session.

Excursions

The neighborhood of Los Angeles offers unusual opportunities for combining recreation with serious study. Bathing facilities are afforded by the beaches which dot the neighboring coast line; a network of automobile drives covers all southern California; week-end excursions are possible to the old missions of California, to Mt. Lowe and to Mt. Wilson with their observatories, to Catalina Island with its submarine gardens and its fishing, to Santa Barbara and Riverside, to Pasadena and San Diego, to Bear Lake and other mountain resorts, to La Jolla Biological Station, to the moving picture plants, and the famous La Brea fields.

The University of Southern California

The annual Summer Session of the University of Southern California will open June 20 at the College of Liberal Arts, University avenue and West Thirty-fifth place, Los Angeles. The first week is Educational Week at the University, and includes the annual commencement, the dedication of the new Administration Building, educational conferences, and a number of other events of interest to Summer Session students. Noted speakers representing some of the leading educational institutions of the country are on the programme. A series of special lectures, given during the session by members of the Summer Session faculty and others, is offered for the benefit of the student body and is open to the general public.

A wide range of courses has been planned by every department to meet the demands of all who wish Summer Session work. Special attention is called to the work to be given by visiting professors and instructors. Courses in *Modern Drama* and *The New Poetry* will be given by Dr. Richard Burton of the University of Minnesota; *Eugenics* and *Problems of Democracy*, by Dr. Frank Blackmar of the University of Kansas; *American History*, by Dr. James M. Callahan of the University of West Virginia; *Organic Evolution*, by Dr. James Merle Coulter of the University of Chicago; *California Agriculture* and *Landscape Gardening*, by Mr. J. B. Corcoran, Supervisor of Agriculture, Los Angeles; *Home Economics Education* and *Home Management*, by Miss Alice M. Loomis of the University of Nebraska; *Business English* and *Salesmanship*, by Professor Carl A. Naether of the Oregon State Agricultural College; *World Politics* and *Problems of Reconstruction*, by Dr. Lindsay Rogers of Harvard University; and *World*

Marketing and Latin-American Relations, by Dr. Glen Levin Swiggett of the Bureau of Education.

Address requests for further information and for the Summer Session Bulletin to the Dean of the Summer Session, University of Southern California, University avenue and West Thirty-fifth place, Los Angeles. Phone 25113, West 621.

High School Teachers' Association

On Monday and Tuesday, July 11 and 12, there will be a meeting of the California High School Teachers' Association at the Southern Branch of the University of California. Students of the Summer Session are invited to attend any sessions that may be of interest to them. One day will be given to general sessions devoted to discussions of various problems of high school administration. The other day will be given up to round table discussions, strictly for teachers, on the leading problems of secondary education.

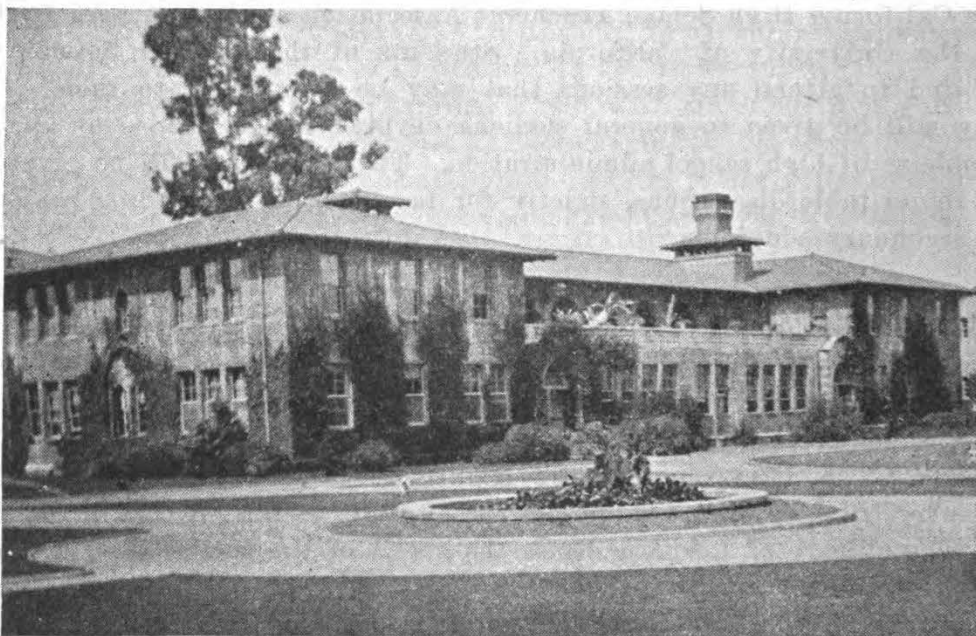

Site and Climate

Los Angeles, the chief city of southern California, is situated about eighteen miles north of San Pedro Bay and about the same distance east of the Pacific Ocean. To the north of the city rises the San Gabriel Range. The attractions of the beautiful sea-coast and the mountain country, all easily accessible from the city, are well known.

The climate of Los Angeles is the result of the combination of three factors: the southern location of the city, its nearness to the ocean, and the presence of the mountain range on the north. Its southern location causes moderately high summer temperatures. These, however, owing to the protection afforded by the mountains, never reach the extremes found in the interior beyond the range. The highest temperatures for June, July, and August average about 70°, 75°, and 81°, respectively, and not infrequently the thermometer in the warmest part of the day may reach 90° and 95°. Owing to the prevailing summer wind from the ocean, the humidity is usually fairly high. The nights, on the other hand, are usually cool. During the summer months morning fogs are frequent, but are almost always dissipated early in the forenoon. Contrasting with these effects of the ocean influence, occasional north winds bring air of high temperature over the city, but the dryness of the air keeps it from being either oppressive or debilitating. Altogether the summer climate of Los Angeles, though warmer than that of many places farther up the coast, nevertheless is not without the charm of a moderate changeability coupled with a large amount of bright, sunny weather, and with an absence of rainfall, which makes possible many out-door activities without interruption by the weather.

Location and Car Connections

The grounds of the Southern Branch of the University cover approximately twenty-five acres, bounded on the east by Vermont avenue, on the west by Heliotrope drive, on the south by Monroe street, and on the north by Willowbrook avenue. It is a short four-minute walk from the car lines to the Southern Branch. Both the Los Angeles Railway (the yellow cars) and the Pacific Electric Railway (the red cars) run within a block of the buildings. Students coming from the city of Los Angeles can reach the Southern Branch in about half an hour by taking the Heliotrope drive

THE SCIENCE BUILDING

car, marked "State University" (the yellow car), which runs west on Seventh street from Maple avenue, or by taking the Santa Monica boulevard, the Crescent, the Sherman, or the Highland cars (red cars), which leave the Pacific Electric station, between Fourth and Fifth streets on Hill street, and run north on Hill. Since all the Los Angeles Railway car lines transfer to the Heliotrope drive line, the Southern Branch can be reached from any part of the city by that line. Those coming from the beaches can take the Santa Monica car line of the Pacific Electric Railway or transfer to it and reach the Southern Branch in about three-quarters of an hour.

Buildings and Equipment

The ten buildings which comprise the Southern Branch group are situated around a court and are constructed of dark red, ruffled brick, with clay

tile roofs, and artificial stone trimmings. The style of architecture is reminiscent of the Lombardy style found in northern Italy. The Southern California Chapter of the American Institute of Architects awarded its first annual medal to the designer of the group.

The administrative building, Millspaugh Hall, contains the offices of the administrative officers and faculty, classrooms where most of the Summer Session classes will be held, a book store where the required text books and works of reference may be procured, and lockers and rest rooms for the students. Opposite the main entrance, in the central portion of the building, is the auditorium with a seating capacity of 1650; it possesses a completely equipped stage and dressing rooms. The halls are cool and are very comfortable in the summer. They are provided with bulletin boards upon which announcements of special lectures are placed.

The library is housed in a separate building. There is also a Domestic Science building with modern equipment and a science building which contains the physics and chemistry laboratories. In the Fine Arts building there are rooms for music and an auditorium and stage for musical productions, on the first floor, and art studios, work and supply rooms, offices, and a large exhibition gallery, on the second floor.

The Gymnasium building contains the main gymnasium hall, as well as lockers, showers, and dressing rooms.

The Cafeteria building has a large dining hall and complete kitchen and serving facilities. It will be ready for the use of the Summer Session students at the beginning of the session.

The grounds are very attractive. They contain lawns, gardens, fountains, and four ample tennis courts, together with excellent conveniences for track and field athletics.

Library Building

The Library building contains a reading room accommodating 400 readers. There are now 31,000 volumes and 8000 pamphlets on its shelves, as well as about 6500 bound volumes of literary and educational journals. This collection will be augmented by loans from the University Library in Berkeley, the State Library in Sacramento, and the Public Library and the County Library in Los Angeles. Where necessary, books of reference will be purchased by the Summer Session for the use of its students.

Information

Information concerning the session may be secured at 831 Pacific Finance Building, Sixth and Olive streets, Los Angeles, which is now open daily (Pico 3632), or the Information Desk in Millspaugh Hall at the Southern Branch of the University, which will open with the Summer Session. Inquiries may also be directed to the Dean of the Summer Session in Los Angeles, 105 California Hall, Berkeley.

THE UNIVERSITY

The University of California (founded in 1868) is by the terms of its charter an integral part of the educational system of the state. At Berkeley are the colleges of Letters and Science, Commerce, Agriculture, Engineering, and Chemistry, the schools of Architecture, Education, and Jurisprudence, and the instruction of the first two years in the Medical School; at Mount Hamilton is the graduate Astronomical Department, founded by James Lick; in San Francisco are the colleges of Law, Medicine (third, fourth, and fifth years), Dentistry, and Pharmacy; in Los Angeles is the Los Angeles Medical Department and the Southern Branch of the University, which includes teachers' courses, and a junior college; at Riverside is the Graduate School of Tropical Agriculture; at La Jolla is the Scripps Institution for Biological Research; at Davis is the University Farm; and at Swanton, the Summer School of Surveying. The University's income, 1919-20, for all purposes amounted to \$5,844,464.13. The University is indebted to Mrs. Phoebe A. Hearst for permanent building plans, upon a scale appropriate and comprehensive. At Berkeley there are 385 principal officers of instruction and administration, together with assistants numbering about 500; forty-three departments of instruction; about 15,556 students in 1920-21, including students in the Summer Sessions of 1920; a library of 400,000 volumes aside from the volumes in the Bancroft collection; museums and laboratories; also the agricultural experiment grounds and station, which are invaluable adjuncts of the farming, orchard, and vineyard interests of the state. In San Francisco there are 265 officers of instruction, including demonstrators and other assistants; 721 students in 1920-21. In Los Angeles there are at the Southern Branch 102 officers of instruction and administration, 908 students in the Junior College and 1218 in the teachers' courses. Tuition in the academic departments of the University, during the fall and spring sessions, is free to residents of California; non-residents pay a fee of \$75 each half-year. Instruction in all the colleges is open to qualified persons, without distinction of sex.

COURSES OF INSTRUCTION

The University reserves the right to withdraw any course in which the initial enrollment may be deemed to be insufficient. As a rule, an enrollment of less than four will be regarded as insufficient.

The University also reserves the right at any time to restrict attendance and enrollment in any course, if for any reason such restriction becomes necessary.

AGRICULTURE

TEACHER TRAINING COURSES IN AGRICULTURE AT CHAFFEY JUNIOR COLLEGE OF AGRICULTURE, ONTARIO, CALIFORNIA

The special Summer Session courses in Agriculture, which will be offered by the University of California at the Chaffey Junior College of Agriculture from June 20 to July 30, 1921, are designed to prepare teachers and prospective teachers of agriculture in the schools of California to meet the certification requirements of the California State Board of Education. Opportunity will also be given intermediate and rural school teachers to perfect themselves in the subject matter and technique of agriculture club work, junior home projects, and elementary school agriculture. For special information relative to pre-vocational work during the Summer Session write to F. L. Griffin, 303 Budd Hall, University of California, Berkeley.

All courses of instruction offered during the 1921 Summer Session, in so far as possible, will be conducted by the informal problem or project method.

Students in any course, by arrangement with the instructor in charge, will be given opportunity to devote special attention to subjects of personal interest, it being the aim in each course to help teachers to solve problems encountered in their school work.

The regular Summer Session fee is \$20, regardless of the number of courses taken. For information concerning special scholarships, equivalent in value to the Summer Session fee and accepted by the University Comptroller in lieu thereof, see **Fees**, page 8.

THE CHAFFEY JUNIOR COLLEGE OF AGRICULTURE

Chaffey Junior College is located in the southwestern corner of San Bernardino County, midway between the towns of Upland and Ontario. The Pacific Electric and Santa Fe railways pass through Upland. Ontario

is reached by the Southern Pacific and the Salt Lake railroads. A street-car line connecting Upland with Ontario runs past the Chaffey Junior College. Chaffey is about forty miles from Los Angeles and state highways lead to all the southern California cities as well as to the nearby mountain and beach resorts.

The Chaffey Union High School and Junior College of Agriculture occupies the site of Chaffey College, which was established by the founders of the Ontario Colony in 1883. Chaffey ranks high among the secondary educational institutions of California. It is the only "Junior College of Agriculture" in California and the character of the work done is high in quality. The secondary work of the institution compares favorably with that of the best high schools in the state. In its community work and rural school extension activities Chaffey easily ranks first. These are some of the reasons why Chaffey has been selected as the place for giving the 1921 Summer Session courses in Agriculture.

The **Chaffey Library** contains over twelve thousand volumes and the titles dealing with agriculture and rural affairs constitute a large percentage of the list. In the reading room over one hundred of the leading daily, weekly, and monthly publications are kept on file. The library will be open throughout the Summer Session and the services of a trained librarian will be at the command of the Summer Session students.

Camping Facilities.—There are excellent camping sites in the vicinity of Chaffey Junior College as well as right on the campus. Those desiring to come with their families in their automobiles may do so with the assurance that convenient and sanitary camping facilities will be available. Those wishing to spend a few weeks in the mountains may camp by a mountain stream within forty minutes' ride from the college.

Reasonably priced rooms, as well as excellent hotel facilities, are available for those desiring such accommodations.

Cafeteria Service.—The Chaffey cafeteria will be operated on a non-profit plan throughout the Summer Session, providing the patronage is sufficient.

Recreation and Special Entertainment.—The Chaffey tennis courts and plunge will be open throughout the Summer Session to all students. A specialist in rural recreation and community singing will be available for those desiring to utilize his services. Special classes in these subjects may be organized.

Address all communications relative to rooms or camping facilities to Mr. M. E. Hill, Principal, Chaffey Union High School, Ontario, California. All questions relative to the educational features of the Summer Session should be addressed to F. L. Griffin, 303 Budd Hall, University of California, Berkeley, California.

RURAL INSTITUTIONS

S106. The Problems of Organized Rural Community Life. BRANSON

The agricultural teacher, from the very nature of his vocation, must function as a rural community leader. The purpose of this course is to familiarize the teacher with the economic and social problems now affecting the farm, farm home, and rural community life; to study the principles governing and the methods utilized by the more important American agricultural organizations and to discuss the possible solutions of the farmer's problems through more effective methods of organization and education. The class project will be the preparation of outlines or syllabix of the courses in Farm Economics and Rural Home and Community Life required in the fourth year of the vocational course in agriculture. (See Calif. State Board of Education Bull. 23, p. 16.) 2 units.

M Tu W Th F, 4.

S107. The Rural Survey. BRANSON

The principles and methods of making social and economic surveys of rural communities. This is an advanced course for secondary agricultural teachers. The class project will be the actual making of a survey of a high school district. 2 units.

M Tu W Th F, 7 p.m.

AGRICULTURAL EDUCATION

S106. The Principles and Practice of Teaching Agriculture. GIBSON

The biological, psychological, and sociological bases of the principles of teaching; their bearing on the art of teaching in general and on the teaching of vocational agriculture in particular. Special topics considered are: the teacher's relation to the learning process, motivation, psychological versus logical thinking, the problem and project method of study; selection and arrangement of subject matter; lesson planning; the art of questioning; management of students in the classroom, laboratory, and field; visual and extension methods of teaching. 2 units.

M Tu W Th F, 11.

S108. Methods in Teaching the Supplemental Vocational Subjects.**108A. Farm Applications of Mathematics.** FISCHER

The selection, organization, and application of those mathematical principles and methods that are necessary for the solution of the more common farm problems. To suggest the mathematics a farmer really needs and to demonstrate the best methods of presenting such knowledge to students of vocational agriculture is the primary purpose of the course. 1 unit. Three weeks. June 20 to July 9.

M Tu W Th F, 3.

108B. Farm Applications of English.

CUBBISON

This course has to do with the selection of material from scientific and other literature dealing with farm and rural life; its organization and the best methods of presenting such material to high school agricultural students. The most effective methods of teaching those phases of oral and written English and business correspondence that will be of greatest service to the farmer are also considered. 1 unit. Three weeks. July 11 to July 30.
M Tu W Th F, 3.

S109. Agricultural Clubs, Junior Home Projects, and Elementary School Agriculture.

GRIFFIN, PERRIN, MORRIN

A course for agricultural supervisors, intermediate and rural school teachers interested in the organization, subject matter and methods of prevocational work in agriculture. 2 units.
M Tu W Th F, 8-11.

S111. Problems in Teaching Vocational Agriculture.

GRIFFIN, LILLARD

An advanced course for experienced teachers. The classroom, field, and community problems and difficulties with which the agricultural teacher most often has to contend constitute the basis of this course. The class will be organized on the informal round table plan and all the students and instructors in attendance at the session will be expected to make contributions. Every agricultural teacher in the state will be requested to suggest problems for discussion. 1 unit.
M Tu W Th F, 7 a.m.

S113. Project Job Analysis.

GIBSON and GAINES

The farm project, according to the California plan, is the basis for both the school study and home work of the agricultural students. The vocational efficiency of the student is measured, not in terms of final examinations, but by his ability to do effectively each "job" or distinct bit of work involved in carrying out the project, and to understand the reasons for so doing. The agricultural job analyses that have been made in other states as well as those that have been undertaken in California will be made the basis of the course. 2 units.
M Tu W Th F, 5.

S202. Special Studies in Agricultural Education.

GRIFFIN

A graduate course for students accepted for graduate standing in agriculture. 1 or 2 units.
Hours to be arranged.

EDUCATION

S122. Secondary Education.

HILL

This course is for agricultural teachers and others interested in the administrative problems of the modern high school serving a rural community. Some of the topics treated are: the scope of secondary education; the place and function of the secondary school in the social, economic, and educational life of the community; its relation to the elementary school system on one hand and the college on the other; the reorganization of the curriculum with reference to the vocational subjects and community interests; selection of teachers, arrangement of programme, equipment, discipline, records, etc. The professional responsibilities of the secondary school vocational teacher; educational ethics. The rural relationships of the secondary school and community extension work. 2 units.

M Tu W Th F, 3.

S320. Directed Teaching.

BOOTH

Opportunity will be provided for a few students to obtain experience in teaching under the personal direction of Dean Booth. 2 or 4 units.

Hours to be arranged.

103. Gas Engines and Tractors. FLETCHER, STIRNIMAN, and HARGRAVE

A study of the construction, operation, and repair of gas engines and tractors. The laboratory work consists of examination and operation of engines and tractors; trouble finding, operating, and actual repair work of tractors brought in from neighboring farms. The lectures are open to auditors, but only students enrolled for credit may take the laboratory work; the laboratory section will be limited to twenty-four. 3 units.

M Tu W Th F, 8-11.

110. Farm Mechanics and Repair. FLETCHER, STIRNIMAN, and HARGRAVE

Soldering, babbitting, pipe fitting, belt lacing, shaft alignment, forge work, use of tools, etc., as applied to the care and repair of farm machinery; also rope tying and splicing. Each student will be expected to undertake the repair or reclamation of at least one farm implement as a Summer Session project. 3 units.

M Tu W Th F, 1-3. Laboratory open all day Saturday.

ANIMAL HUSBANDRY**S100. General Animal Husbandry. MILLER, HUGHES, and CONDEE**

The feeding, care, and management of all classes of live stock, taught in terms of the project method. Special work in judging market types and breeds, including the technique of training stock judging teams and of organizing and managing stock judging and demonstration contests. Neighboring stock farms will be visited, classes arranged for judging, and a study made of the general equipment and management of the herd. 3 units.

M Tu W Th F, 8-11.

CITRICULTURE**S109. Citriculture. BOOTH**

The seasonal requirements of the citrus fruits and the more important subtropical fruits, from propagation to maturity. The citrus pests and diseases, and methods of control. Orchard demonstrations and field practice are essential features of the course. 3 units.

M Tu W Th F, 1-3, and S, 7-12.

POMOLOGY**S108. General Pomology. WELDON**

The seasonal requirements of the deciduous fruits from propagation and planting to maturity. The deciduous pests and diseases. Methods of control. As much field demonstration and practice will be given as possible. 3 units.

M Tu W Th F, 8-10, and S, 7-12.

POULTRY HUSBANDRY**S101. Poultry Husbandry. DOUGHERTY, LLOYD and BEACH**

A course designed to give high school agricultural teachers a thorough understanding of the science and art of poultry keeping and training in methods for teaching poultry husbandry to secondary vocational pupils by the project method. Full use will be made of the opportunity to study the organization, methods, and physical equipment of the many commercial poultry plants within easy reach of Ontario. 3 units.

M Tu W Th F, 8-11. Saturday field trips.

ASTRONOMY

RUSSELL TRACY CRAWFORD, Ph.D., Professor of Astronomy.

S1. Elements of Astronomy.

CRAWFORD

An introductory course, largely descriptive in character, for those who desire a general knowledge of the subject, with emphasis on modern methods and recent results. Lantern slides will be used freely to illustrate the lectures. 2 units.

M Tu W Th F, 11.

CHEMISTRY

WILLIAM CONGER MORGAN, Ph.D., Professor of Chemistry.

WENDELL M. LATIMER, Ph.D., Instructor in Chemistry.

The chemical laboratory will be open daily, except Saturday, from 8 a.m. to 12 m. and from 1 to 4:30 p.m. A fee of \$12.50, none of which will be returned, must be paid to the comptroller before a student will be admitted to a course in chemistry which requires work in the laboratory.

A. Elementary Chemistry.

MORGAN

An introduction to general chemistry. Credit for matriculation chemistry 3b will be given for the satisfactory completion of this course. Lectures and experimental illustrations or recitations and 15 hours of laboratory work per week.

Lectures, M Tu W Th F, 11; laboratory, M Tu W Th F, 1-4.

S109. Lectures and Problems on the General Principles of Physical Chemistry.

LATIMER

Prerequisite: a college course in inorganic chemistry and at least one additional college course in either chemistry or physics. 2 units.

M Tu W Th F, 9.

302. Course for Teachers.

MORGAN

This course is designed for actual or prospective teachers. It presupposes a knowledge of the facts and fundamental principles of science, and considers them from an advanced standpoint for the purpose of giving perspective and breadth of view. Some of the more recent developments in chemistry will be discussed and their significance pointed out. 1 unit.

M W F, 10.

CIVIL ENGINEERING

SUMMER SCHOOL OF SURVEYING

CAMP CALIFORNIA, SWANTON, CALIFORNIA

CHARLES DERLETH, Jr., C.E., Professor of Civil Engineering and Dean of the College of Civil Engineering.

FRANCIS SEELEY FOOTE, E.M., Professor of Railroad Engineering and Director of the Summer School of Surveying.

CHARLES C. SWAFFORD, M.S., Instructor in Civil Engineering.

STURLA EINARSSON, Ph.D., Assistant Professor of Practical Astronomy.

WILLIAM C. POMEROY, B.S., Instructor in Physics.

Additional instructors, a medical officer, who will act also as commissary agent, and the necessary cooks, janitors, and helpers will be appointed before April 30, 1921.

The Summer School of Surveying is held at a camp established at the junction of Scott and Little Creeks, Santa Cruz County, within one and one-half miles of the ocean coast, and sixteen miles northwest of Santa Cruz. The session begins Thursday, May 12, and is four weeks in length.

UNIVERSITY FEE

All students attending camp pay a University fee of \$20.

COMMISSARY DEPOSIT

A deposit of \$35 is required from each student to cover expenses incurred for board at camp, fines for injury to instruments or camp equipment, etc. Any surplus not required to cover the above items is returned to the student.

The fee and commissary deposit must be paid in advance to the comptroller of the University at Berkeley. Receipts for these payments must be shown to the Camp Director after reaching camp.

Civil Engineering 3. SWAFFORD, EINARSSON, POMEROY, and Assistants

This course consists of field practice in plane surveying, comprising such subjects as: determination of length of base lines; measurement of horizontal angles by repetition; triangulation; azimuth traverse; differential and profile leveling; topographic survey by plane table and stadia; determination of latitude and azimuth with engineer's transit by solar and Polaris observations; military sketching.

Four weeks' continuous field work. Required of freshmen in the colleges of Civil Engineering and Mining. Prerequisite: course Civil Engineering 1A, 1B. 3 units. Students with grade 4 or incomplete in course CE 1B will not be admitted to course CE 3.

Civil Engineering 103.

FOOTE, POMEROY, and Assistants

This course comprises field and office work necessary for the location of a short railroad line, including: reconnaissance; preliminary surveys; final location; cross-sectioning; drainage area and right-of-way surveys; maps and profiles; estimates of quantities and costs.

Prescribed at the end of the junior year for all students in the College of Civil Engineering. Prerequisite: courses 3 and 102. Four weeks' continuous field practice. 3 units.

Students interested in surveying field practice are advised to secure the Special Bulletin of Information of the Summer School of Surveying.

Communications regarding the work of the Summer School of Surveying should be addressed to the Dean of the College of Civil Engineering, University of California, Berkeley, California.

CRIMINOLOGY

ERNEST BRYANT HOAG, M.A., M.D., Mental Examiner of the Juvenile Court, Los Angeles, and Director of Child Welfare, Pasadena.

113A. Mental Hygiene.

HOAG

The following topics will be discussed: early influences in relation to mental hygiene; temperament and individual differences; abnormal tendencies and their control; character and environment; nervous disorders of the child and adult, their recognition and control; feeble-mindedness and other mental deviations; criminal and delinquent tendencies; normal habit formation and reëducation against abnormal habits. The course is intended to be of practical value to teachers, social workers, and medical students. 2 units.

M Tu W Th F, 1.

113F. Juvenile Delinquency.

HOAG

The problems of misconduct in children and youths, its prevention, control, and treatment. Such topics as the following will be included: early mental influences in relation to habit formation; special study of the influences of heredity and environment; the elements entering into character formation; a study of the prevention of delinquency, especially in relation to the public schools; the history and development of juvenile courts and institutions for reform; laboratory methods as applied to the study of intelligence and responsibility; delinquency in relation to school problems; types of delinquents such as the feeble-minded, epileptic, psychopathic, etc.; special delinquencies, such as those involved in mental complexes, pathological lying, etc. A study of case histories taken from the Los Angeles Juvenile Court. Opportunity will be given for a first hand study in the Los Angeles court, the Detention Home, private institutions, and the Whittier State Industrial School. 2 units.

M Tu W Th F, 2.

ECONOMICS

ELIOT JONES, Ph.D., Professor of Economics, Stanford University.

C. A. LEDEUC, M.B.A., Ph.D., Assistant Professor of Accounting, Southern Branch.

ELBERT A. KINCAID, M.A., Instructor in Economics.

EVA M. ALLEN, Instructor in Commercial Practice, Southern Branch.

ESTELLA B. PLOUGH, Instructor in Commercial Practice, Southern Branch.

MARGARET TOMSEN, Burbank Intermediate High School, Berkeley.

S1. The Elements of Economics.

JONES

This course will consider elementary economic concepts and institutions, including the factors of production, the division of labor, competition, monopoly, money, credit, prices, value, and the distribution of wealth. 2 units.

M Tu W Th F, 9.

S3A. Economic Geography.

KINCAID

The relation of economics and geography with special reference to the influence of geographic factors on demand and the geographical factors affecting the supply of human wants. 2 units.

M Tu W Th F, 9.

107. The Essentials of Marketing.

KINCAID

The organization of the market, types of markets, functions of middlemen, problems of distribution. 2 units.

M Tu W Th F, 10.

S173. Railway Transportation.

JONES

Historical account of railroad transportation; rates and rate making; development of railroad systems; state and federal legislation; decisions of the commissions and of the courts; government ownership and operation. 2 units.

M Tu W Th F, 10.

OFFICE PRACTICE

The courses lettered A-F may be used for matriculation credit; university credit toward a degree for courses A-D will be granted only to candidates for the bachelor's degree in the College of Commerce.

A. Elementary Stenography.

ALLEN

Fundamental principles of Gregg shorthand. The first half of the manual; penmanship drills and supplementary work. Students should be able to take simple graded dictation at the rate of seventy-five words a minute at the conclusion of the course. 2 hours daily, 4 hours preparation. 4 units.

M Tu W Th F, 1-3.

B. Intermediate Stenography.

ALLEN

Review of the theory covered in course A; last half of the manual. Beginning speed dictation; special vocabularies; letters and business forms. Prerequisite: course A or its equivalent. 2 hours daily, 4 hours preparation. 4 units.

M Tu W Th F, 8-10.

C. Elementary Typing.

TOMSEN

A rapid development of a thorough command of the keyboard through finger gymnastics, exercises for mental control, and intensive drills in fingering and rhythm. Correct position, the various mechanical devices, and care of the machine. 1 hour class drill and 1 hour practice daily. Laboratory fee, \$1.50. 1 unit.

M Tu W Th F, 8; practice hour to be arranged.

D. Intermediate Typing.

TOMSEN

Intensive development of skill based on principles developed by typewriter speed experts and adapted to school conditions. Detailed study and application in class and individual work: correct position and technique; rhythm; independent finger control, hand gymnastics and proper use of the phonograph in school work. The laws of applied art governing the artistic arrangement of typewritten material, with special reference to simple commercial forms. Designed to furnish typists and those intending to teach with first hand knowledge of skill. Prerequisite: mastery of the keyboard by touch method. 1 hour class work and 1 hour supervised practice daily. Laboratory fee, \$1.50. 1 unit.

M Tu W Th F, 10; practice hour to be arranged.

E. Elementary Bookkeeping.

LEDEUC

A study of values and their classification; accounts and account analysis; financial, economic, trading, and operating transactions; double entry, journalizing, posting, and trial balances; ledger closings; balance sheets, trading profit and loss statements; locating and correcting errors; cash, purchase, and sales books; business papers (form and use); bank accounts and bank service; discounts; indorsements; contingent liabilities; methods of computing percentages of profits, losses, and costs of doing business; eastern and western practices in bank discount; special columns, controlling accounts, customers' and creditors' ledgers; formation and dissolution of partnerships; auxiliary books, etc. Attention will be given to methods of presenting this work to high school students. 2 units.

M Tu W Th F, 9; laboratory hour to be arranged.

F. Advanced Bookkeeping.

LEDEUC

A brief review of elementary bookkeeping touching upon the theory of accounts, financial statements, special columns, controlling accounts, auxiliary and principal books, etc. A study of opening entries; adjustments of interest on partnership investments; dissolution and closing entries; branch and agency accounts; imprest cash funds; depreciation and allowances for depreciation; bad debts and allowances for bad debts; accrued assets and liabilities; deferred charges and credits; real estate accounts; construction and analysis of balance sheets, trading and profit and loss statements; graphic presentation of accounting facts; corporation accounting; manufacturing accounting, statements and analysis of costs, etc. Attention will be given to methods of presentation to high school students. 2 units.

M Tu W Th F, 11; laboratory hour to be arranged.

G. Penmanship.

PLOUGH

Zaner method, which is used throughout the state of California. Emphasis upon blackboard work and method of teaching. Designed for those who wish to teach penmanship. Students may apply for their "Zaner Certificates" upon completing this course. First week, position and movement; second week, application of movement and position to formation of letters, words, and figures; third week, capital and small letters; fourth week, application of movement and form to sentence writing; fifth week, alphabetical word and sentence work; sixth week, page work, commercial forms, and instruction in "scaling" writing. No credit.

M Tu W Th F, 8.

THE DEMONSTRATION SCHOOL

The Demonstration School Staff.—Mr. WADDLE, Director; Mrs. SAMUELS, Mrs. WARING, Mrs. BEAUFIT, Mrs. KELLER, Mrs. RAYBOLD, and others.

The Organization and Purpose of the School.—The purpose of the Demonstration School is to show in operation certain selected types of school organization, materials, and methods which depart somewhat radically from the traditional. It is designed to put to the test of practical operation certain educational theories and principles which, though admitted in theory, are often considered unworkable in practice.

The school will comprise two units, a primary unit of three rooms and a middle grade unit of two rooms. Each of the five rooms will attempt to serve the purpose of demonstrating an unique attack upon a specific problem or group of problems. Through observation and discussion students of the Summer Session will have an opportunity to familiarize themselves with any one or all of the experiments.

In one unit an experiment will be carried on with a large group of pre-primary children in which the child's natural tendency to repeat a physical activity is utilized to develop, spontaneously, writing and reading.

In the other two primary groups methods and materials suitable to self-directive and self-corrective education will be utilized; new materials assembled, arranged, worked over and made to stimulate self-directed activities of an educative sort. Much of the work of these groups will be illustrative of the project method and the values of conscious goals of effort and accomplishment will be made clear.

One of the middle grade rooms will be a typical adjustment room. The materials and methods elaborated, systematized, and now extensively used in the city schools of Los Angeles, under the direction of Dr. A. H. Sutherland, will be used. This room will illustrate the Sutherland method of individualizing the work of a group, of helping the misfit child to become readjusted to his proper grade, of developing self-confidence, self-direction and independence in study. The materials and methods of initial testing and of determination of individual needs will also be made clear, as well as methods of testing, recording, and checking of individual progress.

The other middle grade room will be more strictly experimental. It will lay particular stress upon methods of supervised study, upon Dr. Fernald's new method of attack upon the problem of the non-reader, upon illustration of the method of the new state text in the teaching of spelling, and upon methods of diagnosis of individual difficulties in learning. An effort will be made to show how the laws of learning may be applied in specific cases to meet individual needs and idiosyncrasies. Special attention will be given to the correction of faulty habits of learning and to the establishment of good habits, self-confidence, and self-direction.

In all its units the school will attempt to show what it means to take the experimental attitude, how certain disputed theories in education may be attacked, and how steps may be taken toward their solution.

Observers should not expect to find a perfected type of smoothly running organization. It is desired rather to show how groups of children with widely differing interests, needs, and capacities are brought together, tested, grouped, and set to work, and how the leads that the children's own interests and needs furnish, may be made use of in the working out of suitable materials and activities for the promotion of their individual development.

The Children.—On account of the nature of the work to be undertaken, the number of children who can be accommodated is limited. A fee of \$5 will be charged for pupils in the primary groups and \$10 for pupils in the middle grade adjustment groups. Applications for enrollment should be made as early as possible to Mr. Waddle or to one of the teachers in the demonstration school.

INDUSTRIAL AND CONTINUATION SCHOOL EDUCATION

The Summer Session courses under this heading are designed primarily to prepare men and women for service in vocational schools and departments maintained under the provisions of the State and Federal Vocational Education acts and the recent State Compulsory Part-Time Act, which became effective with the beginning of the school year 1920-21. The courses here listed will be of interest to shop teachers, commercial teachers, supplemental subject teachers, and those desiring to prepare for part-time schools.

Special Summer Session scholarships, equivalent in value to the Summer Session fee, may be granted to prospective and qualified teachers of shop subjects and will be accepted in lieu of the \$20 fee. Application for scholarships should be made in advance to George W. Galbraith, Supervisor of Classes for Teachers of Trade and Industrial Subjects, Central Intermediate School, 451 North Hill street, Los Angeles.

Courses for shop teachers will be open to men and women who may qualify as teachers of applied work under the California state plan. These courses are open to men and women twenty-four years of age, or over, who have had at least three years' experience in the trade which they wish to teach, to those whose personal characteristics would seem to fit them for teaching in vocational schools, and to those who are now engaged in such teaching.

Persons who meet the above requirements will be required to take courses S1 or S1A, S2, and S3. Those who have not had previous teaching experience will be expected to devote a certain number of hours to practice teaching in addition to the courses above mentioned.

AGRICULTURAL EDUCATION

The special Summer Session courses in Agriculture, which will be offered by the University of California at the Chaffey Junior College of Agriculture from June 20 to July 30, 1921, are designed to prepare teachers and prospective teachers of agriculture in the schools of California to meet the certification requirements of the California State Board of Education. (See under Agriculture in earlier pages of this circular.)

Special opportunities will be afforded graduate students for meeting the requirements of the University of California for the master's degree. Opportunity will also be given intermediate and rural school teachers to perfect themselves in the subject matter and technique of agriculture club work, junior home projects, and elementary school agriculture. For special information relative to both the graduate and prevocational work during the Summer Session write to F. L. Griffin, 303 Budd Hall, University of California, Berkeley, California.

Special scholarships, equivalent in value to the Summer Session fee, may be granted to teachers and prospective teachers of prevocational and high school agriculture in California. Applications for such scholarships, which will be granted only to students undertaking the courses offered at Ontario, should be made to F. L. Griffin, 303 Budd Hall, University of California, Berkeley, California.

M Tu W Th F, 11.

3. Content of Supplemental Trade Subjects.

GOLDWAITHE

The purpose of this course is to familiarize the shop man with the content of the subjects related to his trade. A well organized vocational course calls for close correlation between the shop teacher and the supplemental subject teacher. This correlation can only exist when the shop teacher knows, to a certain extent, the character and content of the work that relates to his trade. 2 units.

M Tu W Th F, 1.

S163. Content and Method of Instruction for Supplemental Subject Teachers.

GOLDTHWAITE

The teaching of subjects related to a trade presents one of the most difficult problems in vocational education. This course, taken in conjunction with S164, offers opportunity to discuss the application of principles to shop processes, and will serve as an aid toward establishing the content of such supplemental subjects as mathematics, science, drawing, and English. 2 units.

M Tu W Th F, 11.

S164. Industrial Practice for Junior High School and Supplemental Subject Teachers.

GALBRAITH, SPRINGER, HEARD, MACKENZIE, SMITH, HEES, MURRAY

For teachers of supplemental subjects and for industrial teachers in junior high schools a knowledge of trade terms, processes, and machines is necessary. This course is designed to give such experiences. The student will devote approximately one week to each of the following activities: machine shop, auto shop, sheet metal, printing, electricity, and mill cabinet. No attempt will be made to develop skill, the main purpose being to provide experience which will prove valuable in showing the application of related work. This course will be offered in shops and laboratories in the Los Angeles region. 2 units.

M Tu W Th F, 1-4.

AMERICANIZATION

88. Community Problems.

ARONOVICI

The normal community and the problems of maladjustment. A discussion of the standards of normal community life in its relation to the problems of social, economic, and political maladjustments with special emphasis upon race and nationality as factors in such maladjustment. The place of private agencies and the functions of government in the development of constructive community programmes will be considered in the light of existing problems and the fitness of these existing agencies to deal with poverty, ill health, bad housing, mental and physical defects, the assimilation of the foreign born in the community, and similar conditions of maladjustment. 2 units.

Institute of Musical Art, New York.

GRACE GAIL GIBERSON, Director of Music, State Normal School, Eau Claire,
Wisconsin.

EDWIN EARL TOWNER, B.M., Director of Music, Fresno High School and
Junior College.

A. Solfeggio.

GIBERSON

A course combining the elements of ear training, sight singing, dictation, and music writing. Its aim is primarily the equipment of the student with a practical ability to handle intelligently the facts of music, namely, musical sounds and their representation. Accordingly the course is devoted largely to practice in both melodic and rhythmic problems. Of value to all who pursue music in any form, as teachers, professionals, or music lovers. 2 units.

M Tu W Th F, 9.

S1. The University Chorus.

TOWNER

Ensemble singing, solfeggio, ear-training, dictation and practice conducting. 1 unit.

M Tu W Th F, 3.

S4. Elementary Harmony.

ROBINSON

Scale laws; division of musical structural material; chord construction; discussion of harmonic subject matter to include triads and seventh dominant chords of both modes; modulation to near related keys; melodic structure; all work done by the aural method. Prerequisite: course A or its equivalent. 2 units.

M Tu W Th F, 10.

S5. Advanced Harmony.

ROBINSON

Short review of subject matter included in elementary course; secondary seventh chords; chromatically altered chords; inharmonic tones; remote modulation; six and eight voice structures; melody and accompaniment dictation; aural method followed throughout. Prerequisite: course S4 or its equivalent. 2 units.

M Tu W Th F, 11.

21. Elementary Music Education.

GIBERSON

Principles, materials, and practices of developing music ability in children. Aims of musical instruction in the grade school. Selection and presentation of rote work. The child voice, its proper and improper use and training. Development of musical feeling and vocal and rhythmic ability, through imitation. Transition of emphasis from imitation to independent work. Development of ideas of notation. Recent tendencies in methods of instruction. "Song" and "scale" methods of teaching reading contrasted. Special emphasis on the appreciative aspect of musical instruction throughout the elementary period. Part singing. The changing voice. The course of study, its significance, its preparation, and its use. The measurement of results, grades, and credits. The growing place of instrumental music in the grade school. 2 units.

M Tu W Th F, 8.

22. High School Music.

TOWNER

Study in detail of all high school music courses with a discussion of their worth and methods of presentation. The following will be considered: chorus, solfeggio, glee clubs, orchestra, band, individual instruction, harmony, composition, counterpoint, music history and appreciation. Instrumentation and seating arrangements of various sized organizations. Lists of music will be suggested. Prerequisite: course 21 or its equivalent. 2 units.

M Tu W Th F, 2.

S105. Composition.

TOWNER

Not less than two songs and two compositions in some other form will be written by each student during the session. Each student will receive individual attention. Consideration of the correct method of preparing manuscripts for publication. Limited to 20 students selected on the basis of ability. 1 unit.

PHYSICAL EDUCATION

JAMES HUFF McCURDY, M.D., Professor of Physical Education, International Y. M. C. A. College, Springfield, Massachusetts.

FREDERICK WARREN COZENS, M.A., Assistant Professor of Physical Education, Southern Branch.

MARY S. SHAFER, Instructor in Dancing in the Summer Session, University of California.

IRMA L. RAYBURN, Director of Physical Education for Girls, Kern County Union High School, Bakersfield, California.

HOWARD H. SNYDER, Instructor in Swimming in the Summer Session.

FLORENCE EDITH SUTTON, Assistant in Tennis, Southern Branch.

LYDIA M. BROWNING, Instructor in Social Dancing in the Summer Session.

LILLIAN RAY TITCOMB, M.D., Examining Physician for Women.

GENERAL INFORMATION

The work of the Department of Physical Education will be under the general direction of Professor Cozens.

Gymnasium costumes will be required for all floor and field courses. Women should provide themselves with bloomers, middy blouse, and tennis shoes. Those enrolled in the dancing courses should also have a short skirt over bloomers and dancing slippers. Men should have athletic shirt, tennis trousers, and gymnasium shoes.

The University will supply lockers and towels. A fee of \$1 for the use of towels and shower bath privileges is required of all those enrolled in field or floor courses. This fee is not refunded. Men and women may obtain steel lockers in the gymnasium upon the payment of a \$1 deposit for the key. This deposit is refunded upon the return of the key. Students may furnish their own padlocks for lockers either in the men's or women's gymnasium. (See courses listed below for which physical examination is required.)

All women enrolled in swimming are required to pay an added fee of \$5 (plus war tax) for the use of the plunge at Bimini Baths. A swimming card will be issued by the comptroller to all paying this fee. This card must be presented at the baths at each meeting of the class.

The University tennis courts will be open during the entire Summer Session and regular classes organized for instruction in tennis. An instructor is provided, and a tournament will be arranged for the benefit of all the students in the session.

No visitors will be admitted to physical education classes except by special arrangement with the instructor upon approval of the dean.

A physical examination will be required of all those taking the strenuous courses. Courses included in this category are S1AB, 10A, S11A, 16AB, 16CD, 18AB, 18CD, 21AB, 21EF. Physical examinations for women will be conducted in the Women's Gymnasium at special hours during the first week of the session. Appointments must be made at the gymnasium office the first day of the session. Physical examinations for men will be conducted at the Men's Gymnasium during the second and third days of the session. Appointments for these examinations must also be made the first day of the session at the office in the Women's Gymnasium.

Those who have not had the elementary courses in dancing and playground activities and wish to take the advanced work must pass a practical examination given by the instructor in charge.

Students wishing to take work in the Department of Physical Education, but desiring no credit therefor, must record these courses on the study lists which they file at the Recorder's Office, and must also fill out enrollment cards in the classes concerned.

Careful attention must be paid to all notices posted on the gymnasium bulletin boards regarding the work of the department.

S1AB. Elementary Gymnastics.

RAYBURN

Methods of class arrangement and squad division. Fundamental positions and movements of the body without apparatus; simple exercises and drills with hand apparatus such as wands, bar-bells, dumb-bells, and Indian clubs. Serial exercises with music. Nomenclature essentials. A few elementary exercises on heavy apparatus will be given. Elementary gymnastic dancing. 1 unit.

M Tu W Th F, 2.

2GH. Schoolroom Games and Gymnastics.

RAYBURN

Simple gymnastic games, relays, and drills suitable for rainy day use in the crowded schoolroom. Discussion of schoolroom hygiene with special reference to the problems of seating, lighting, ventilation, and exercise. Possibilities for cooperation with school nurses in the control of communicable diseases. $\frac{1}{2}$ unit.

M W F, 1.

10A. Swimming for Women.

SNYDER

For students desiring to learn to swim, and for those desiring to increase their own proficiency. A special section of one of the three pools at Bimini Baths will be reserved for the use of the class during the instructional period. A fee of \$5 (plus war tax) is charged in connection with this course and entitles the student to the use of the pool for 25 instructional periods. Everything is furnished by the baths except a bathing cap. Only those regularly enrolled will be admitted to the class during the period of instruction. Enrollment in this class should take place during office hours at the Director's Office, Gymnasium Building, on Monday, June 20 and thereafter at specially appointed hours, as posted on the bulletin boards. No enrollments are accepted without the payment of the special fee. $\frac{1}{2}$ unit.

M Tu W Th F, 4:30-5.

S11A. Tennis.

SUTTON

For those who wish to qualify for positions as tennis instructors and for all who wish to become more proficient, whether they are interested primarily in physical education or not. Both elementary and advanced work will be offered. Classes limited to 24 students per section. $\frac{1}{2}$ unit.

Sec. 1, M W F, 9; Sec. 2, M W F, 10; Sec. 3, M W F, 11.

16AB. Elementary Dancing.

SHAFTER

Planned primarily for teachers of dancing in departments of physical education, and intended to impart a technical knowledge of the material from the teacher's viewpoint. 1 unit.

M Tu W Th F, 9.

16CD. Advanced Dancing.

SHAFTER

The technique of dancing as taught in the Russian, French, and Italian opera schools. The work will include instruction in classic, interpretative, pantomimic, eurhythmic, character, and Russian ballet dancing. Only those who have a knowledge of the elementary technique and skill in execution will be permitted to enroll. Two additional hours required for practice. 1 unit.

M Tu W Th F, 10.

17CD. Social Dancing.

BROWNING

Primarily for those interested in the improvement of conditions influencing the social life of high school and college students. The aim will be not only to teach good form and style on the dancing floor but also to provide combinations of steps and figures suitable for group dancing. A portion of the period each day will be devoted to "school dancing." No credit.

M Tu W Th F, 12:30 to 1.

18AB. Dramatic Games and Folk Dancing for Playgrounds and Elementary Schools.

SHAFTER

During the first three weeks instruction will be given in dramatic games and dances suitable for children of the kindergarten and the first three grades. The last three weeks will be devoted to dramatic dances designed for use in the intermediate and grammar grades. Suggestions and material will be presented for the production of school and playground festivals and for coöperation among the various school departments in the production of typical school festivals. 1 unit.

M Tu W Th F, 11.

18CD. Dramatic Expression for Grammar Grades and High Schools.

SHAFTER

This course is arranged to aid elementary and high school teachers in planning school festivals and dance pantomimes. Special dancing material will be given in syllabus form. A festival of dance pantomimes will be chosen for production by the class during the Summer Session. Costumes will be required and must be furnished by the individuals enrolled. 1 unit.

M Tu W Th F, 1.

21AB. Playground Activities (School and Municipal): Elementary.

RAYBURN

For students and teachers who wish to learn the elementary activities of the playground so that they may assist with physical education in elementary schools. Opportunity will be offered not only to learn the games and become proficient in playing them but also to lead the group and take complete charge of the activities of the period. 1 unit.

Tu W Th F, 3.

21EF. The Coaching of Elementary School Sports. COZENS and RAYBURN

For elementary school teachers who have a knowledge of the games but who wish to familiarize themselves with the more highly developed team play. The following sports will be dealt with in a technical manner: soccer, baseball, basket-ball (both for girls and boys), track and field events. 1 unit.

Tu W Th F, 4.

***S100AB. Theory and Principles of Physical Education.**

Discussion of the principles underlying systems of physical education in elementary and high schools. Selection of exercises, methods of teaching corrective, educational, and hygienic exercises. Consideration will be given to the causes and correction of poor posture, voice training, class organization, programmes of play and drill. 2 units.

M Tu W Th F.

S101AB. Organization and Management of School Playgrounds. COZENS

Details of the organization of physical training activities, especially designed to meet the needs of grade teachers in charge of, or assistants in, the work of schools. Special emphasis will be put upon the place of play in the programme of physical education. Administration and supervision of playgrounds; playground construction; arrangement of the elements, surfacing, fencing, buildings, and equipment; supplies and general maintenance. 2 units.

M Tu W Th F, 8.

S110A. Physiology and Hygiene of Exercise.

MCCURDY

Physiology in its interpretation of the phenomena resulting from exercise. The influence of various types of exercise upon the nutrition, circulation, respiration, and nervous functioning. A discussion of the hygienic significance of diet, ventilation, exercise, personal habits, etc. The physiological bearing of hydrotherapy, electrotherapy, and massage in the treatment of scar tissue, inflammations, and athletic injuries. Discussion of growth divergencies. 1 unit.

M W F, 11.

NOTE.—A section designed especially for coaches and men in physical training work will be given in case of sufficient demand. This course will include matters pertaining to growth divergencies, conditioning of athletes, and treatment of injuries. (3 hours, to be arranged.)

* Not to be offered 1921.

S111AB. Physical Examinations and Health Supervision. McCURDY

Training in modern methods of physical examination and measurements.

Special attention given to the recording and scoring of physical efficiency tests, developmental and postural conditions. The legitimate application of such findings in the work of the physical educator and the dangers of assuming responsibility for diagnosis and treatment. This course will include a discussion of growth conditions. 2 units.

M Tu W Th F, 9.

S112AB. Physiotherapy. McCURDY

Fundamentals of corrective gymnastics included within the scope of the physical training teacher; methods and exercises used for corrective and therapeutic purposes; types of variation from the normal and the effect of corrective exercises. Hydrotherapy, electrotherapy massage, and various hygienic agencies used for the correction of deformities and abnormal physiological conditions, which do not respond to medical treatment, will be dealt with. 1 unit.

M Tu W Th F, 10.

PHYSICS

JOHN CUTLER SHEDD, Ph.D., Professor of Physics, Occidental College, Los Angeles.

EVERETT C. STANTON, S.B., Instructor in Physics, Los Angeles High School.

A. Elements of Physics.**STANTON**

A first course in physics, designed to present the essential facts and principles of each of the main subdivisions of the subject and to illustrate their connection with the facts and processes of everyday life. One lecture with experimental illustration by the instructor, one recitation, and two laboratory exercises, each daily. Credit for matriculation subject 3a will be given for the satisfactory completion of the course.

Lectures and recitations, M Tu W Th F, 9, 1; laboratory, M Tu W Th F, 10-12, 2-4.

S4A. General Physics.**SHEDD**

Experimental lectures with assigned problems on magnetism and electricity. Prerequisite: high school physics. 2 units.

M Tu W Th F, 9.

300. Teachers' Course.**SHEDD**

A discussion of the content and scope of the first course in physics. Suggestions regarding the organization of the course, the division of time between lecture recitation and laboratory work. The selection, care, and manipulation of experimental equipment. 2 units.

M Tu W Th F, 11.

POLITICAL SCIENCE

ARTHUR W. MACMAHON, Ph.D., Instructor in Political Science, Columbia University.

PUBLIC HEALTH

HERBERT F. TRUE, M.D., Director of the Health and Development Department, Los Angeles City Schools; Assistant Health Commissioner, City of Los Angeles.

GAVIN J. TELFER, M.D., State District Health Officer, California Board of Health.

S3. Elementary Epidemiology.

TELFER

The sources of infection and methods of transmission of the principal communicable diseases. A study of representative epidemics together with control procedures which have become accepted as standard. Lectures and assigned readings. 2 units.

M Tu W Th F, 10.

105. Child Welfare.

TRUE

Designed for those who wish to gain a broad view of modern child welfare. It is not intended to train experts nor to take the place of the regular course in public health nursing in the University. It will appeal to nurses, health visitors, social service workers, and others who care to study child hygiene in its relation to public health. The course will cover the principal activities for child welfare from the prenatal period to adolescence. An attempt will be made to integrate these with other phases of public health and to define the duties of health officers, public health nurses, health visitors, and social service workers. The development of child welfare in this country will be outlined. Modern standards of child welfare will be considered. The organization of health centers will receive considerable attention. Lectures, assigned readings, discussions, and, as far as possible, field work in various types of child welfare will comprise the course. 2 units.

M Tu W Th F, 10.

106. School Hygiene.

TRUE

This course will be adapted to school nurses, physical education instructors, principals, and teachers. The following topics will be considered: the object of health development in the educational system; public health aspects of school hygiene; organization and administration of health work in public schools and the relation of school physicians, nurses, principals, and teachers to the same; the question of remediable defects of school children, and practical methods of correction; the detection and control of communicable diseases in the school; the value of dental clinics, nutrition classes, and open air schools; the teaching of hygiene by practical demonstrations and the project method, and coöperative possibilities between the health development department, home economics, physical education, and science. Lectures, assigned readings, discussions and, where available, actual demonstrations with school children will make up this course. 2 units.

M Tu W Th F, 11.

PUBLIC SPEAKING

CHARLES D. VON NEUMAYER, Associate Professor of Public Speaking.

ELIZABETH MACK, Lecturer in Interpretative and Dramatic Reading.

S3A. The Fundamentals of Interpretation.

MACK

A study of the fundamental principles of correct voice production with practical application of the principles to reading and speaking. Individual defects in voice and speech pointed out and methods of improvement suggested. Supplementary work in vocal expression and public speaking. 2 units.

M Tu W Th F, 8.

S10A. Fundamentals of Acting.

VON NEUMAYER

The aim of the course is two-fold. First, to pass in review the general principles of the psychology of acting and to afford drill in practical essentials—in dramatic reading, in exercises designed to foster and develop the dramatic instinct, in the visualization of situations, in the sympathetic portrayal of character, etc. Second, to emphasize the intimate relation that exists between acting and the study of the drama as literature. 2 units.

M Tu W Th F, 10.

S107A. Advanced Interpretation.

MACK

A study of the principles that make for the effective interpretation of literature and their application to public reading. The primary aim of the course will be to develop the ability to interpret the printed page with adequate vocal and emotional response. Ballads, lyrics, short stories, and scenes from Shakespeare's plays and from modern plays of literary merit will be assigned for individual study. 2 units.

M Tu W Th F, 9.

S117A. The Staging and Presentation of Plays.

VON NEUMAYER

The course will include both theory and practice. It will deal among other matters with plays, the method of dramatic analysis, practical solutions of stage problems, the recognition of dramatic values, delineation of character, impersonation, the psychology of action. 2 units.

DIRECTIONS

1. **On or before Wednesday, June 1**, if possible, file application with the Recorder of the Faculties, University of California, Berkeley, California. This may be done by mail. See Application Form at the end of this bulletin.
2. **Before Monday, June 13**, if possible, select lodgings in Los Angeles.
3. **Saturday, June 18—Monday, June 20—Registration at Millspaugh Hall, Southern Branch.** (a) Register your college address with the Recorder on the card provided for that purpose; (b) obtain from the Recorder an admission card and blank study card; (c) show your admission card to the Comptroller of the University; (d) pay necessary fees, and (e) have your admission card stamped by the Comptroller; (f) this card is to be shown on demand to the officers in charge of the classes, at the first meetings of the classes, or at any time during the session. Students may register between 8:30 a.m. and 12 m. on Saturday, or between 8:30 a.m. and 4.30 p.m. on Monday. Students who can conveniently do so are advised to register with the Recorder and pay their fees to the Comptroller on Saturday, June 18, in order to gain time for consultation with their instructors and for other preliminaries on Monday. Fees may be paid from 8:30 a.m. to 12 m. on Saturday, and from 8:30 a.m. to 3 p.m. on Monday.

The regular class exercises will begin Monday, June 20.

4. **On Monday, June 27**, return your study card, duly filled out, to the Recorder. It is necessary for auditors, as well as regular students, to file study cards.
5. **To obtain a certificate of record**, showing the courses elected during the session and the grade attained in each, deposit a self-addressed stamped envelope with the Recorder at the close of the session, and a certificate will be mailed to you.

OFFICE HOURS OF THE DEAN

The Dean of the Summer Session will keep office hours in Millspaugh Hall daily, except Saturday, 11-12.

Invocation

EDWARD POWER DENNETT, D.D.

Hymn, "America"

My country, 'tis of thee,
Sweet land of liberty,
Of thee I sing;
Land where my fathers died,
Land of the pilgrim's pride;
From every mountain-side
Let freedom ring.

Our fathers' God—to Thee,
Author of Liberty,
To Thee I sing;
Long may our land be bright
With freedom's holy light;
Protect us by Thy might,
Great God our King.

Address to the Candidates for Degrees; Conferring of Degrees and Honors

THE PRESIDENT OF THE UNIVERSITY

Hymn

O God, our help in ages past,
Our hope for years to come,
Our shelter from the stormy blast,
And our eternal home.

Before the hills in order stood,
Or earth received her frame,
From everlasting Thou art God,
To endless years the same.

A thousand ages in Thy sight
Are like an evening gone;
Short as the watch that ends the night
Before the rising sun.

O God, our help in ages past,
Our hope for years to come,
Be Thou our God while life shall last,
And our eternal home.

Benediction

AWARDS OF UNDERGRADUATE SCHOLARSHIPS 1921-22

The scholarships here listed are arranged approximately in order of the dates at which they were established. Unless otherwise noted they are awarded upon the recommendation of the Committee on Undergraduate Scholarships.

The awards made by this Committee are based upon the candidates' ratings as to character, need and scholarship, and it is assumed that the intent of the donors of the various scholarship funds was not to dispense charity, but rather to make it possible for students who give promise of leadership in scholarly pursuits or in the service of the state to profit to the fullest extent by a university course. With very few exceptions, where the special conditions of the bequest are such as largely to eliminate competition, the awards of the present year represent a real distinction, comparable with attainment of the honors status.

EXPLANATORY NOTE

In the CATALOGUE OF OFFICERS, the names of University buildings are abbreviated as follows: AH, Agriculture Hall; Agr. Chem., Agricultural Chemistry Building; Anat, Anatomy Building; Arch, Architecture Building; B, Botany Building; Bac Lab, Bacteriology Laboratory; Bacon, Bacon Hall; BL, Bancroft Library; Boalt, Boalt Hall of Law; Budd, Budd Hall; Chem, Chemistry Building; Cal, California Hall; CE, Civil Engineering Building; D, Drawing Building; E, East Hall; Ent Lab, Entomology Laboratory; F, Forestry Building; Gilman, Gilman Hall; HE, Home Economics Building; HG, Harmon Gymnasium; Hilgard, Hilgard Hall; H, Hearst Gymnasium; HM, Hearst Memorial Mining Building; HP, Hygiene and Pathology Building; Inf, Infirmary; L, University Library; M, Mechanics Building; M Annex, Mechanics Annex; Mil, Military Science Building; Mus, Museum of Greek Sculpture and Anthropology; Music, Music Building; MVZ, California Museum of Vertebrate Zoology; O, Students' Observatory; P, Philosophy Building; PL, The Rudolph Spreckels Physiological Laboratory; S, South Hall; Vet, Veterinary Science Laboratory; W, Benjamin Ide Wheeler Hall.

Officers of Colleges or Departments situated elsewhere than in Berkeley are designated by an abbreviation following the title, viz.: (D) College of Dentistry, (A) California School of Fine Arts, (H) Hastings College of the Law, (HF) George Williams Hooper Foundation for Medical Research, (Hosp) University hospitals, (LO) Lick Observatory, (M) Medical School, (Ph) California College of Pharmacy, (FS) University Farm School, (S) Southern Branch of the University of California.

The following abbreviations are also used: M, Monday; Tu, Tuesday; W, Wednesday; Th, Thursday; F, Friday; S, Saturday; UC University of California.

When no office hours are given, instructors may be consulted immediately before or after their recitations.

The dagger (†) marks the names of officers who are married; the asterisk (*) the names of those absent on leave throughout the year; the superior figure, ¹, means in residence first half-year only; ², second half-year only; m, permanent mailing address, both for terms and vacations.

In the CATALOGUE OF STUDENTS, the college is indicated as follows: LS, Letters and Science; Com, Commerce; Agr, Agriculture; Mec, Mechanics; Med, Medicine (first and part of the second year); Min, Mining; CE, Civil Engineering; Chem, Chemistry. The status of the student is regular, unless otherwise indicated, as follows: s, special; al, at large. The number 1, 2, 3, 4, etc., prefixed to the abbreviation showing the college indicates the class or year of residence; for graduate students in the School of Jurisprudence and in the Medical School the numeral denotes the class, not the year of residence in the Graduate Division. Students admitted this year with advanced standing are designated by (1) prefixed to the figure indicating the class. ¹, means in residence first half-year only; ², second half-year only. The (*) marks the names of students who received the bachelor's degree in December, 1920. The (‡) marks the names of graduate students who are registered for work in absence. PreA, following the abbreviation showing the college, indicates that the student is enrolled in the course preparatory to the School of Architecture; PreM, in the pre-medical course; PreL, in the pre-legal course; Juris, in the School of Jurisprudence; (HF) in the Hooper Foundation for Medical Research.

The student's *home* is given immediately after the name; all home addresses are in the state of California, unless stated to be elsewhere. In the lines following the name and home are given the student's status and his address and telephone number while attending the University; and all such addresses are in Berkeley, unless stated to be elsewhere. The following abbreviations are used: ter, terrace; rd, road; pl, place; apts, apartments; dr, drive; S F for San Francisco, LA for Los Angeles, O for Oakland, A for Alameda, P for Piedmont, R for Richmond, S L for San Leandro, S R for San Rafael. The word "Local" used with telephone numbers denotes telephones on the University's private exchange; Ala, Alameda; Bkly, Berkeley; Colo, Colorado; Dgls, Douglas; Elm, Elmhurst; Flmr, Fillmore; Frkn, Franklin; Frvl, Fruitvale; Garv, Garvanza; Grfld, Garfield; Krny, Kearny; Lksd, Lakeside; Mer, Merritt; Mrkt, Market; Msn, Mission; Oakd, Oakland; Pied, Piedmont; Pac, Pacific; Pspt, Prospect; Rand, Randolph; Rchd, Richmond; Snst, Sunset; Sutr, Sutter; Valen, Valencia; Wil, Wilshire.

For explanation of the abbreviations used in the catalogue of students in the SOUTHERN BRANCH (Teachers' Curricula), see page 288.

2. MEDICAL SCHOOL

NOTE.—The medical classes of the first year and part of the second year are conducted in Berkeley; all other medical instruction is given in San Francisco. Medical students in the first year and the first half of the second year are listed also among graduate or undergraduate students in the foregoing pages. Names marked with a dagger (†) are those of students fulfilling the fifth-year requirement in advance of the final year of residence. With the approval of the Medical Faculty, students are permitted to substitute research work during any period after the third half-year of the medical curriculum in lieu of the fifth or intern year. The double dagger (‡) marks the names of students who are registered also under the George Williams Hooper Foundation for Medical Research.

UNIVERSITY TELEPHONES

UNIVERSITY OF CALIFORNIA (connecting with all telephones on the University system)Berkeley 7100

To connect with any University telephone from outside, ask for Berkeley 7100; when the operator at the University answers, give the number desired with the word "Local." For example, "Local 4."

The small figure following local numbers indicates the number of bells to be called. For example, 68¹ means "Local 68, one bell."

To connect with any University telephone from any University office, it is sufficient to use the word Local with the desired number.

To connect with a telephone outside of the University system give the operator the number as printed in the Telephone Company's directory.

NOTE.—In the columns showing number of students, the upper left-hand figures refer to men, the lower to women; the figures on the right are totals.

TABLE I

STUDENTS IN THE ACADEMIC DEPARTMENTS

A. *At Berkeley:* Comprising the Colleges of Letters and Science, Engineering, Commerce, Agriculture, and Chemistry. Includes undergraduate students in the College of Letters and Science who have also registered in the Schools of Jurisprudence, Architecture, and Medicine. Does not include students in these schools who have already taken the Academic Bachelor's degree unless they are registered for advanced academic degrees in the Graduate Division. Such students in all cases are registered in the Academic Departments at Berkeley.

SUMMARY OF STUDENTS, 1920-1921—(Concluded)

TABLE IV

STUDENTS NOT ENUMERATED IN THE FOREGOING TABLES

Note.—Students enumerated in Tables I, II and III received resident instruction during 1920-21 in courses which constituted an integral part of curricula leading to degrees, academic or professional. In Table IV are enumerated the students in other courses. The instruction in these other courses does not, in general, lead to degrees, although it may (as in the case of the Teachers' Curricula) be based upon regular University matriculation requirements, and may lead to certificates which entitle the holders to advanced standing as candidates for the University degrees.
