HISTORY OF THE LICK OBSERVATORY

THE LICK OBSERVATORY was founded by James Lick, a pioneer citizen of San Francisco, through a deed of trust dated September 21, 1875, which provided the sum of \$700,000 for the purchase of land and the establishment thereon of a telescope and observatory of particular specifications. Of this sum there remained upon the completion of the project, in 1888, an unexpended balance of \$90,000, which amount, under the terms of the trust, has been conserved as an endowment. The site of the Observatory was chosen by Mr. Lick. Further particulars relating to the provisions of his deed of trust, and to the history of the Observatory, are recorded in a pamphlet referred to at the conclusion of this statement. Mr. Lick's gift was accepted by the Regents on December 7, 1875.

SITUATION

The Observatory stands on the summit of Mount Hamilton, in Santa Clara County. The Mountain, which is the highest peak of its section of the Coast Range of California, lies thirteen miles due east of San Jose, and the Observatory is accessible from that city by a good road twenty-five miles in length.

* Absent on leave, July 1, 1943—June 30, 1944.

The elevation above sea level is 4209 feet. The Observatory estate consists of a range of mountain- and wood-land of more than 3000 acres. The setting is superb and the environment is admirably suited to the purposes of the Observatory.

BUILDINGS AND INSTRUMENTS

The establishment consists of a *main building*, containing offices, computing rooms, a library of 18,000 books and 6000 pamphlets, and the domes of the 36-inch equatorial and the 12-inch equatorial, and of *separate buildings* to shelter the Crossley reflector, the meridian circle, and the Crocker photographic telescope. A fireproof building contains vaults for the storage of astronomical negatives, other records of value, and scientific instruments temporarily not in use, and also photographic darkrooms and photographic laboratories. On the grounds are dwelling houses for the astronomers, students, and employees, and shops for the workmen. The Observatory is well provided with telescopes and auxiliary instruments, such as clocks, spectrographs, photometers, measuring engines, and other essentials to precise astronomical and astrophysical investigation. Among the principal telescopes are the following:

36-inch Refracting Telescope; objective by Alvan Clark & Sons; mounting by Warner & Swasey. This instrument has also a photographic corrector of 33-inch aperture, figured by Alvan G. Clark.

36-inch Reflecting Telescope; presented to the Lick Observatory in 1895, by Edward Crossley, Esq., of Halifax, England. The large mirror of this instrument is by Sir Howard Grubb. An entirely new mounting has been constructed. The building was erected from funds subscribed by citizens of California.

12-inch Refracting Telescope; by Alvan Clark & Sons.

6½-inch Meridian Circle; objective by Alvan Clark & Sons; mounting by Repsold.

The Crocker Photographic Telescope; various objectives of from 4 to 6 inches aperture.

A *20-inch astrographic telescope* of 12-foot focal length, gift of the Carnegie Corporation. This instrument provides a field of critical definition $6\frac{1}{2}$ degrees square, that is to say, $42\frac{1}{4}$ square degrees.

RESEARCH AND PUBLICATIONS

The entire equipment of the Lick Astronomical Department is used for research. The principal programs at present relate to spectrographic measurement of the radial velocity of stars and nebulae; micrometric measurement of double stars, satellites, and comets; meridian circle determination of the apparent position of stars; photographic observation of nebulae, star-clusters, planets, satellites, and comets; and to qualitative analysis of stellar and nebular spectra.

The results of investigations are published in the *Publications of the Lick*

Observatory, Volumes I to XIX; *Contributions from the Lick Observatory*, Volumes I to V; *Contributions from the Lick Observatory*, Series II, begun in 1941, of which nine numbers have been issued; *The Lick Observatory Moon Atlas* (discontinued); *Astronomical Photographs taken at the Lick Observatory*; and the *Lick Observatory Bulletin*, Volumes I to XIX. Numerous short papers have been published in various scientific journals. Volumes VII and XIX of the *Publications* and many numbers of the *Bulletin* relate to investigations made at the Berkeley Astronomical Department.

UNIVERSITY FELLOWSHIPS

The Regents have established salaried fellowships in the Lick Astronomical Department. These usually permit the holders to pursue studies and to undertake investigations in fulfillment of requirements for the degree of Doctor of Philosophy. It is essential that an appointee be a graduate of a college or university of high standing, who has decided to make astronomy or one of the related sciences the basis of a professional career. Applications should be made to the Dean of the Graduate Division, Northern Section.

THE MARTIN KELLOGG FELLOWSHIP

A fellowship in the Lick Astronomical Department was endowed by Mrs. Louise W. B. Kellogg, in memory of her husband, Martin Kellogg, whose services to the University of California as professor and President covered nearly half a century.

The purpose of the Martin Kellogg Fellowship is to provide opportunities for advanced instruction and for research to students who have already received the degree of Doctor of Philosophy, or to members of the staffs of observatories. Preference will be given to qualified applicants who may desire to pursue formal studies or researches in the Lick Astronomical Department, or in the Lick and Berkeley Astronomical departments, and to members of the Lick Astronomical Department who may desire to undertake work in another university or observatory; but it is possible that opportunities will arise to award this fellowship, in case of special merit, without restrictions respecting the places of residence of the holders. The stipend per annum is variable in amount but will be sufficient to cover the necessary expenses of travel and residence. Applications, including outlines of proposed plans and estimates of necessary expenses, should be made in writing to the Director of the Lick Observatory.

Appointments will usually be made for the period of twelve months beginning July 1 of each year.

SPECIAL ASSISTANTS

On the recommendation of the Director and with the approval of the President, persons with experience in astronomical investigation may occasionally be received at the Lick Observatory, to act as assistants in definite researches

currently in progress. These assistants, serving without pay, will be assigned to such duties as will be advantageous both to the Observatory and to themselves. Opportunity for independent researches can be provided only under exceptional circumstances.

SPECIAL INVESTIGATORS

Occasionally, eminent investigators from other institutions desire to utilize the facilities of the Lick Observatory for the solution of special problems. Opportunity for such use will be provided if it will not interfere with the regular work of the Observatory.

THE ALEXANDER F. MORRISON MEMORIAL RESEARCH ASSOCIATESHIP

A foundation in support of this office was endowed by the late Mrs. A. F. Morrison, in memory of her husband, Alexander F. Morrison, of the Class of 1878 of the University of California, the class of which Mrs. Morrison was herself a member.

An earlier benefaction by Mrs. Morrison provided a fellowship in the Observatory. In 1936 she made a further gift and suggested to the Regents of the University that both donations be converted to the purposes of a foundation in support of a research associateship. Pursuant to this suggestion such a foundation was established by the Regents, with the office under it entitled as above.

Eligibility to the position requires that the appointee be "an astronomer, or astrophysicist, . . . or devotee of other subject intimately related to astronomy, of wide and admirable repute by virtue of contributions . . . to the science of astronomy." It is expected that the Associate will reside at the Lick Observatory, as a guest member of the staff, during a period agreed upon by the Associate and the University.

REGULATIONS GOVERNING STUDENTS AT THE LICK OBSERVATORY

At the Observatory graduate instruction in astronomy is offered by the Astronomers, in connection with the investigations in which they are engaged, or which may be specially assigned to the students by the Director. Graduate instruction at the Observatory is restricted, as a general rule, to students qualified to be on the footing of astronomical assistants. All undergraduate instruction in astronomy, and such graduate instruction as is not given at the Lick Observatory, is provided at Berkeley.

Applicants for admission to the Lick Observatory as students must first qualify in the Northern Section of the Graduate Division of the University. Applicants are advised to file their applications with the Dean of the Graduate Division, at Berkeley, before February 20.

As many graduate students—including holders of fellowships—as can be given accommodations at Mount Hamilton, without expense to the University, may pursue astronomical studies at the Lick Observatory; in return for the accommodations they will be required to execute such computations, etc., as are assigned to them.

It is usually advantageous for students to choose their time of residence at the Lick Observatory in the period from May to December.

HIGHER DEGREES

Graduate students enrolled in the Lick Astronomical Department of the University may become candidates for the degrees of Master of Arts and Doctor of Philosophy. The general conditions on which these degrees are granted are stated in the *Announcement of the Graduate Division, Northern Section*.

Candidates holding fellowships in the Lick Astronomical Department may be required to spend one or more terms in graduate work at Berkeley, the place of residence being assigned by the Director of the Lick Observatory from a consideration of the qualifications of the candidate and of the courses of instruction available at Berkeley, after consultation with the chairman of the related departments of the University. For all other students the term of residence at Mount Hamilton and at Berkeley is determined by the proper committee for each individual candidate after consultation with the Director of the Lick Observatory.

QUARTERS FOR THE STUDENTS

Comfortable quarters (partly furnished) are allotted to students at the Observatory.* The cost of board and service a month need not exceed \$55.00. The student should bring with him the linen for his room, blankets, etc., and should also provide himself with such books as are continually needed. All injuries to apparatus must be made good at his expense.

Intending students are advised to communicate with the Director of the Observatory before filing their formal applications for admission with the Dean of the Graduate Division. The post office address is Mount Hamilton, Santa Clara County, California.

ADMISSION OF VISITORS TO THE OBSERVATORY

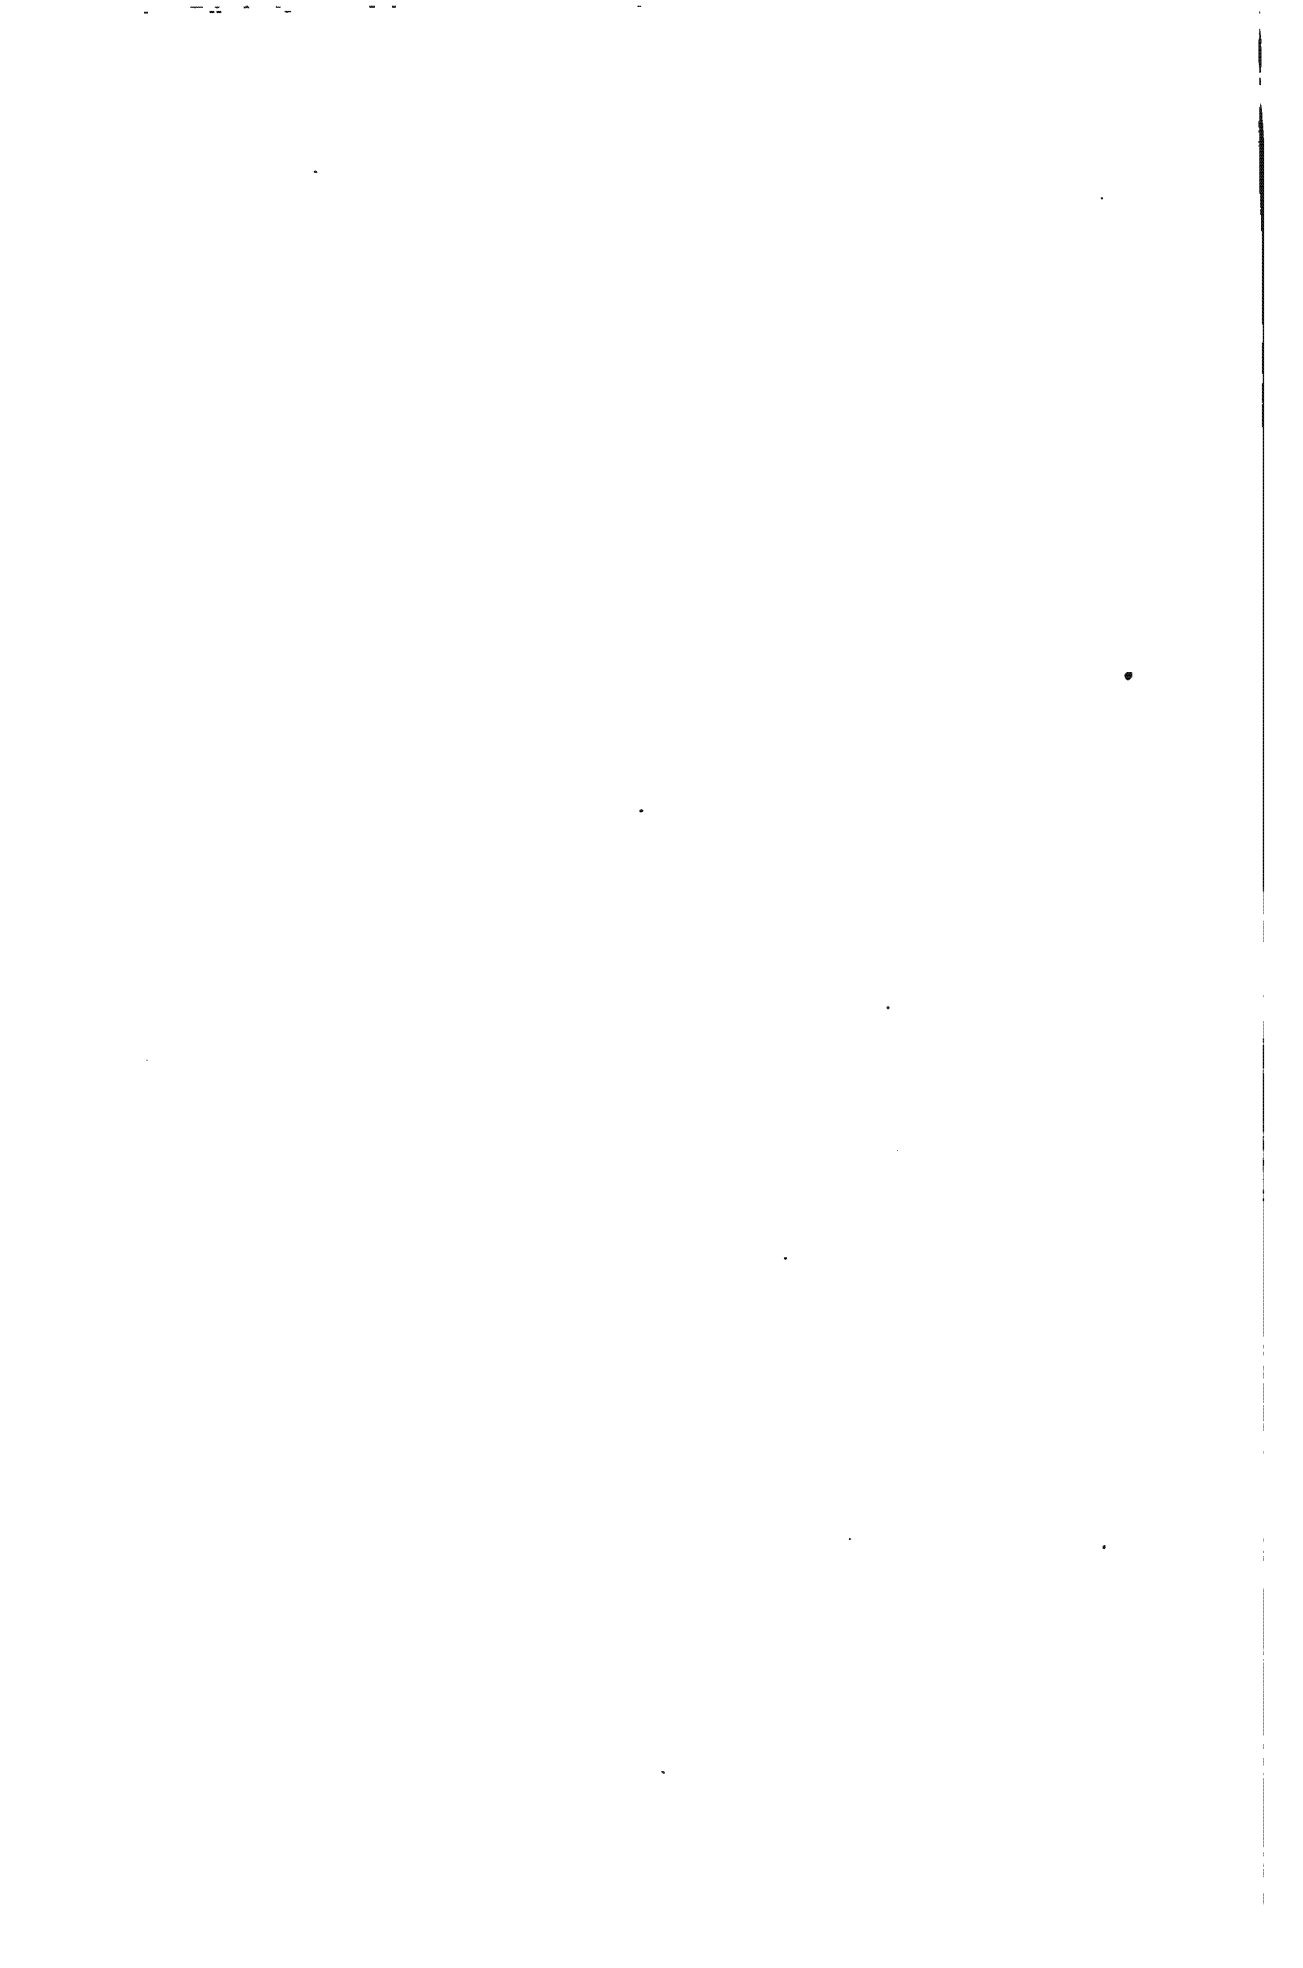

The Observatory buildings are open to visitors during office hours every day of the year, except during periods of heavy snow. The usual practice of receiving visitors on Saturday evening has been discontinued, probably for the duration of the war.

Students of the University of California who visit Mount Hamilton are re-

* Students and fellows are advised not to bring automobiles to the observatory. Garage accommodations are not available.

quested to make themselves known, in order that the work of the Observatory may be explained to them.

A more complete account of the Observatory and its work, than is provided in the foregoing statement, is available in a well-illustrated brochure entitled: **THE LICK OBSERVATORY OF THE UNIVERSITY OF CALIFORNIA**. This publication may be had on application to the Secretary of the Lick Observatory, Mount Hamilton, California, at a charge of 25 cents.

SCRIPPS INSTITUTION OF OCEANOGRAPHY

HISTORY, SUPPORT AND MANAGEMENT

SCRIPPS INSTITUTION OF OCEANOGRAPHY is the outgrowth of the continued efforts, begun in 1892, of the Department of Zoölogy of the University of California to promote researches on the animal life of the Pacific Ocean. In the early years financial support came in small sums from numerous persons interested in the work, from alumni of the University, and to some extent from the University itself. The interest of Miss E. B. Scripps and Mr. E. W. Scripps in the undertaking began in 1903, when the itinerant equipment was moved from San Pedro to San Diego. Most of the funds for the physical development and a large part of those for maintenance have come from this source, though since 1912 the State of California has contributed liberally to the support of the scientific work.

For several years the enterprise was carried on as the Marine Biological Association of San Diego, a corporation which had no official connection with the University of California, though such a relation was looked forward to and provided for in the articles of incorporation. In accordance with this provision, the Institution became an integral part of the University of California when the property and management were transferred to the Regents of the University in 1912, the name of the foundation being then changed to the Scripps Institution for Biological Research. Since the Institution will henceforth devote its researches primarily to the sea, its name was changed by the Regents, on October 13, 1925, to Scripps Institution of Oceanography.

SITUATION

The Institution's one hundred and seventy-seven acres, originally designated as a "pueblo lot" (a heritage of early Mexican rule in California) are on the ocean front two miles north of La Jolla, and about sixteen miles north of the center of the city of San Diego.

Although this site on the open ocean, appreciably isolated from human habitation and transportation facilities, introduced into the problems of development rather difficult and expensive elements, the great and unique advantages which the situation offers for researches on the sea and on the life of the open sea, and the further advantages of ample grounds on which to build, have justified the hazards that were taken.

HOUSING AND EQUIPMENT

Library-museum building, fireproof, 60 feet long and 60 feet wide. On the first floor are oceanographic and natural history exhibits and offices. In the basement there are two laboratory rooms and a seismograph room. The library and reading room, used also as an assembly room, are on the second floor. The stack room now in use has a capacity of about 25,000 volumes.

The George H. Scripps laboratory building, 75 feet long and 45 feet wide and two stories in height, will accommodate about twenty-five investigators. On the lower floor there are laboratories for the experimental study of fishes and three individual research rooms, all supplied with salt water; and three rooms for the study of marine sediments. On the upper floor there are the offices of the director, a seminar room, and laboratories that do not require the use of salt water. This building is connected through the second floor with the library-museum building by a forty-foot enclosed passageway.

The William E. Ritter Hall is a laboratory building 100 feet long, 46 feet wide, and three stories in height. This building is used primarily for oceanographic investigations that require the use of physics and chemistry as tools for research, and it is equipped accordingly. Some of the rooms have aquaria with running salt water, and there are three constant temperature rooms capable of maintaining within 1° any temperature between 0° and 40° C.

A wharf, the piles and beams of concrete, the decking of wood, 1000 feet long and 20 feet wide. At the seaward end are a pump for the salt-water system, two work rooms, various pieces of scientific apparatus for observations in marine biology, meteorology, and oceanography, including an automatic tide gauge established by the United States Coast and Geodetic Survey and other aids to scientific work.

The salt water system consists of a concrete storage and settling tank of 60,000 gallons capacity, situated east of the laboratories at an elevation of about 90 feet. From the end of the wharf sea water is pumped through four-inch lead pipes directly into this tank; from there it is delivered by gravity through 2½-inch lead pipes to the laboratories and the aquarium.

A public aquarium building of wood, containing seventeen concrete tanks with plate-glass fronts.

A research vessel, "E. W. Scripps," capacity 108 tons, net; length over all, 104 feet; beam 21.3 feet, draft 12 feet. The vessel is an auxiliary schooner, equipped with a 165-h.p. Gray marine diesel and has, under power, a cruising radius of about 2500 miles at a speed of 8 knots. A 15-kw. generator, operated by means of a diesel auxiliary of 24 h.p., provides current for electro-motors for operating oceanographic winches and other electric equipment on board. One winch carries 20,000 feet of ¾-inch wire rope and another carries 20,000 feet of 5/32-inch wire rope. Both winches are placed on deck. A deckhouse gives room for a steering house and for a deck laboratory. A sonic depth-finder is installed in the deckhouse, a radio direction-finder in front of the house and a radio phone in the ward room below decks. Below decks there are good laboratory rooms and comfortable accommodations for a scientific party of six, and if necessary, for a total crew of nine.

The vessel was presented to the University on December 17, 1937, by the late Robert P. Scripps.

Twenty-six cottages, which are occupied by members of the staff of the Institution or persons who work at the Institution.

Garage, service houses, etc.

THE LIBRARY

The library contains about 20,000 volumes, 1100 charts, and about 30,000 pamphlets and unbound journals. The entire collection is catalogued and available for use. The Institution has been designated as one of the official depositories of the publications of the United States Geological Survey.

OCEANOGRAPHIC DATA AND MARINE COLLECTIONS

The oceanographic material and data received by the Institution are derived from a number of sources. The seaward end of the Institution's pier is a permanent hydrographic station and the Institution operates the vessel mentioned above. By arrangements with the United States Coast and Geodetic Survey, the Institution receives water, plankton, and bottom samples and hydrographic records from much of the region of the west coast of the United States, off the coast of Alaska, and off the Hawaiian Islands. Through coöperation with the United States Coast Guard, the Hopkins Marine Laboratory, and others, the Institution has a line of along-shore or near-shore observation stations which extend from Balboa to Cape Mendocino. It coöperates with the United States Navy in collecting records of surface and subsurface waters and water samples, which are used for computation of currents and the determination of corrections to be applied to sonic depths. Oceanographic data and collections are also received from other sources. It also coöperates with the United States Fish and Wildlife Service in the study of California pilchard.

The large collections available for study at the Institution and the opportunities afforded for making field as well as laboratory investigations, put the Institution in a position to offer facilities for virtually every kind of investigation in oceanography.

COURSES OF INSTRUCTION AND HIGHER DEGREES

While most of the instruction is of graduate level, special Studies in Oceanography S199 is also open to advanced undergraduates. Graduate courses in marine meteorology, biochemistry, geology, and microbiology; physical, dynamical, and chemical oceanography; phytoplankton, marine invertebrates, and biology of fishes are offered by the resident staff members throughout the year. The entire staff participates in a lecture seminar which meets weekly. Reports on current investigations by members of the staff of the Institution and by students, lectures by visiting scientists, and reviews of important literature are given at frequent scientific conferences.

The Scripps Institution of Oceanography is a department of the University of California. Students seeking admission, as well as those who desire to

become candidates for degrees, must meet the general requirements of the University. Work leading to the degrees of Master of Science or Doctor of Philosophy in Oceanography is offered at La Jolla, but candidates for such degrees will find it necessary to work one or more terms in other departments of the University either at Berkeley or Los Angeles. Advanced degrees may also be obtained by special coöperative arrangements with other departments of the University in certain fields of study in which the emphasis is upon marine sciences. The general requirements for degrees follow the rules of the Graduate Council, for which one should consult the *Announcement of the Graduate Division, Southern Section*.

Further information concerning admission to the institution for advanced study and a description of the work offered will be found in the *Circular of Information* and the *Announcement of Courses, University of California, Departments at Los Angeles*. For summer session undergraduate work, see also the *Bulletin of the Summer Session* of the University of California, Departments at Los Angeles. Investigators and students who contemplate work at the Institution should correspond with the Director before deciding to come to La Jolla.

VISITING INVESTIGATORS

Experienced investigators who wish to utilize for their researches such facilities as the Institution possesses will be welcome. There are opportunities for the study of a wide variety of oceanographic subjects, including problems in marine zoölogy and botany.

ANNOUNCEMENT

FOR THE YEAR

1943-1944

POLITICAL CODE OF CALIFORNIA

Part III, Title III, Chapter I, Article VII

HASTINGS COLLEGE OF THE LAW

Sec. 1478. *Officers, and Their Appointment.* The law college founded and established by S. C. Hastings shall forever be known and designated as the Hastings College of Law. Its officers are a dean, registrar, and eight directors. Whenever any vacancy occurs in the board of directors, they must fill the same from the members of the Bar Association of San Francisco or otherwise; but such vacancies must be so filled that one of such directors shall be an heir or representative of said Hastings. The dean and registrar are appointed by the directors.

Sec. 1479. *Affiliation with the University.* Such college is affiliated with the university of the state, and is the law department thereof.

Sec. 1480. *Granting and Issuing of Diplomas.* The faculty of the university must grant, and the president must sign and issue, diplomas to the students of the college.

Sec. 1481. *Rooms and Halls for Use of Students and Directors.* There must be set apart for the use of the students of the college, some room or suitable hall at the university, and the board of supervisors of the city and county of San Francisco is authorized to supply a suitable hall therein for the students and directors.

Sec. 1482. *The Dean.* The dean of the college is ex officio of the faculty of the university, to be designated as such by the directors of the college.

Sec. 1484. *Appropriation to Be Made.* The sum of seven per cent per annum upon one hundred thousand dollars must be appropriated by the state and paid in two semi-annual payments to the directors of the college.

Sec. 1485. *Purposes of the College.* The business of the college is to afford facilities for the acquisition of legal learning in all branches of the law, and to this end it must establish a curriculum of studies and must matriculate students who may reside at the university of the state, as well as students residing in other parts thereof.

Sec. 1486. *Professorships.* Professorships may be established in the name of any founder thereof, who pays to the directors the sum of thirty thousand dollars.

Sec. 1486a. *Powers and Duties of Directors.* All the business of the college must be managed by the directors without compensation. The acting officers, including the dean and registrar, must be appointed and may be removed by the directors.

Sec. 1486b. *Use of Law Library.* The Law Library Association of the city and county of San Francisco must grant to the students the use of its library upon such terms and conditions as it may agree upon with the directors of the college.

Sec. 1486c. *Payments in Case of Failure of Appropriations, etc.* If the state fails to pay to the directors of the college the sum of seven thousand dollars per annum, as stipulated in section fourteen hundred and eighty-four, or if the college ceases to exist, the state must pay to the said Hastings, his heirs or legal representatives, the sum of one hundred thousand dollars, and all unexpended accumulated interest, unless such failure is caused by mistake or accident, or the omission of the legislature to make the appropriation at any one session.

Sec. 1486d. *President of the Board.* The chief justice of the supreme court of the state is president of the board of directors, five of whom constitute a quorum to transact all business.

HASTINGS COLLEGE OF THE LAW

HISTORY

HASTINGS COLLEGE OF THE LAW was created by an act of the Legislature of California, approved March 26, 1878, which provided for its affiliation with the University of California. The College was endowed by and named for Honorable Serrano Clinton Hastings, the first Chief Justice of the Supreme Court of California.

In the early years of the College, John Norton Pomeroy, while occupying the chair of Professor of Municipal Law, wrote his work on Equity Jurisprudence. Upon his death in 1885, Honorable Charles W. Slack was appointed to the faculty and, from 1894 until 1899, acted as Professor of Municipal Law and Dean of the Faculty. Between the years 1888 and 1894, Honorable E. W. McKinstry, formerly a Justice of the Supreme Court of California, was Professor of Municipal Law. For twenty years from the time of the retirement of Judge Slack from the faculty in 1899, Dr. Edward Robeson Taylor was Professor of Law and Dean. In 1919 he was succeeded by Maurice E. Harrison, who served until 1925. William M. Simmons was Dean of the College from 1925 until 1940. He, in turn, was succeeded by David E. Snodgrass, who is Dean at the present time.

SITUATION

The classrooms and quarters of the College are on the mezzanine floor of the California Building, 515 Van Ness Avenue, San Francisco. The Supreme Court, the District Court of Appeal for the First Appellate District, the Railroad Commission, the Industrial Accident Commission, and the offices of other State boards and officials are located in the State Building nearby. Less than a block distant is the City Hall, which houses the civil departments of the Superior and Municipal Courts and the San Francisco Law Library, one of the finest law libraries on the Pacific Coast. Within a few blocks of the College is the Postoffice Building, where the United States District Court and the United States Circuit Court of Appeals for the Ninth Circuit hold their sessions; thus the opportunity for the study of law and the direct observation of its practices afforded to students of Hastings College are unexcelled among city law schools.

PURPOSE

The purpose of the College is to offer systematic and thorough instruction in those branches of jurisprudence which will prepare the student for the practice of the profession of law. With this end in view, the instruction given is based primarily on the case-book method, the aim being to develop the analytical powers of the student, as well as to provide a familiarity with the historical development of the law. Special attention is given to the codes and statutes of California and the decisions of the California courts.

LEGAL AID CLINIC

Third-year students are required to participate in the work of the Legal Aid Society of San Francisco. Students so doing are required to be in attendance at the office of the Legal Aid Society during one afternoon of each week for a period of ten weeks and, under the supervision of a member of the faculty of the College, to do such work as may be assigned to them.

LIBRARY FACILITIES

Students in Hastings College of the Law have access to the San Francisco Law Library, one of the finest law libraries in the West and located in the City Hall. Students also have exclusive use of the library belonging to the College, which is located on the mezzanine floor of the California Building.

DEGREE ON GRADUATION

The Degree of Bachelor of Laws is conferred by the Board of Regents of the University of California upon students who have satisfactorily completed the curriculum and who have complied with the regulations of the faculty.

GRADES

The system of grading is as follows: A, B, C and D are passing grades; E is a condition and F a failure. One grade point is given for each semester hour of work in which a grade C is obtained; two grade points are given for each semester hour of work in which a grade B is obtained, and three grade points for each semester hour in which a grade A is obtained. A grade D, although a passing grade, does not yield any credit in grade points. A grade E entails a penalty of minus one-half grade point for each semester hour of work in which such grade is received. A grade F entails a penalty of minus one grade point for each semester hour of work in which such grade is received.

Grades of D, E, or F may be removed by taking reexaminations in subjects in which such grades have been received. Reexaminations may not, however, be taken in more than the equivalent of two full-year subjects in any one year, and must be completed within one year after the original grade was received, in each instance.

If a grade D, E, or F is subsequently removed by reexamination, a student will be given credit for the grade received in the reexamination, but not to exceed a C. The grade point penalty resulting from a grade E or F will, however, be deducted from his total number of grade point credits.

SCHOLARSHIP AVERAGE

A student who entered the College prior to 1941, must in order to obtain a degree receive passing grades in 90 semester hours of work and a minimum of 90 grade points. He must also receive not less than 30 grade points in his third year.

A student who entered the College in 1942, must in order to obtain a degree receive passing grades in 87 semester hours of work and a minimum of 87 grade points. He must also receive not less than 28 grade points in his third year.

A student who enters the College in 1943, must in order to obtain a degree receive passing grades in 88 semester hours of work and a minimum of 88 grade points. He must also receive not less than 30 grade points in his third year.

No student may receive a degree who has not first removed all conditions or failures which he has theretofore received. A student who has received a condition or failure in three or more subjects in any one year will not be permitted to take reëxaminations or to be advanced to the next succeeding year. Special reëxaminations for the purpose of removing conditions or failures, or for the purpose of obtaining grade points in subjects in which a grade of D was received will not be given. If a student is otherwise eligible for advancement he may take reëxaminations to remove conditions, failures or grade point deficiencies during the next succeeding year, but only when regular examinations are given. C is the maximum grade which will be received for any reëxamination. A fee of \$5 is charged for any special examination, or for any reëxamination given to enable a student to remove a condition, failure or deficiency in grade points.

No first-year student will be permitted to register for the work of the second semester of the first year who has received a net total of less than 4 grade point credits. To be eligible for the work of the second year, a first-year student must at the conclusion of his first year's work have received at least 20 grade point credits. No student having completed his first year of work will be permitted to take reëxaminations for the purpose of removing grades of D, E, or F unless he shall have theretofore received at least 20 grade point credits in such work. A first-year student who is eligible to take reëxaminations may continue in attendance and may take the regular second-year subjects. In the event that a student at the end of his first year has not received 20 grade point credits, he may, in the discretion of the faculty, and under such conditions as the faculty may impose, repeat the first-year work in the next succeeding school year, but not otherwise.

To be eligible for the work of the third year, a second-year student must at the conclusion of his second year have received at least 51 grade point credits. No student having completed his second year of work will be permitted to take reëxaminations for the purpose of removing grades of D, E, or F received in second-year subjects unless he shall have theretofore received at least 51 grade point credits in his first and second years' work.

A second-year student who is eligible to take reëxaminations in second-year subjects may continue in attendance and may take the regular third-year subjects.

No third-year student will be eligible to receive a degree unless he maintains a C average in his third-year work, receiving at least 1 grade point credit for each unit of such work.

RIGHTS RESERVED BY HASTINGS COLLEGE OF THE LAW

The faculty reserves the right, in its discretion, to deny admission of any applicant to the College. Whenever in its judgment the best interests of the College will be furthered thereby, it may terminate the membership of any student; may deny admission to any examination; or may withhold the granting of any degree. In such case, any and all rights which may have been acquired by matriculation or entrance into the College, or by work done there, shall cease. The curriculum and regulations affecting students may be revised at the discretion of the faculty, at any time. The action of the faculty in any such case shall be final.

ATTENDANCE

Unless excused for good cause, students are required to attend a minimum of eighty-five per cent of the lectures in each course. A student whose attendance falls below this required minimum in any course will be ineligible to take the examination in such course.

DISQUALIFICATIONS

Any student who, while in attendance at the College, passes a satisfactory examination in one or more subjects will be entitled to a certificate stating the length of time he has been in the College and specifying the subjects and grades received by him while in attendance. The members of the faculty reserve the right to refuse to recommend for a degree any student who, in their opinion, for any reason whatsoever, is not fitted to become a member of the legal profession.

FEES

A fee of \$60 for the work of the first semester, and \$60 for that of the second semester is payable at the time of registration; this fee will not be refunded in whole or in part. Those who register late are subject to an additional charge of \$2. (For dates of registration, see page 4.) A charge of \$5 is made for each special examination or reexamination.

SCHOLARSHIPS

The following scholarships are awarded to second-year students for use in their third year of work.

SHEFFIELD SANBORN SCHOLARSHIPS

Mrs. Frances B. Sanborn, widow of Sheffield S. Sanborn of the class of 1894, has established three scholarships, known as the Sheffield Sanborn Scholarships.

One of these is available for a student in Hastings College of the Law, but only to one who has not yet received a degree in law and who otherwise would not have the opportunity to acquire college training. It yields about \$150 a year.

JOHN BELL MHOON SCHOLARSHIP

With funds presented to the Regents of the University of California by the late Mrs. John Bell Mhoon there have been established the John Bell Mhoon Scholarships. These scholarships are open to students in Hastings College of the Law or in the School of Jurisprudence in Berkeley, especially to students who need financial assistance to enable them to continue their studies. Each of the scholarships yields about \$350 a year.

FRANK M. PIXLEY SCHOLARSHIP

With the income from a fund bequeathed to the University by Mrs. Amelia V. R. Pixley, the Regents of the University of California have established the Frank M. Pixley Scholarship. In accordance with the wishes of the donor this scholarship is granted to some student in law to assist him in his studies. It is open to students in Hastings College of the Law or in the School of Jurisprudence in Berkeley. This scholarship yields about \$100 a year.

WARREN OLNEY, JR., MEMORIAL SCHOLARSHIP

The younger lawyers associated with the firm of which the late Warren Olney, Jr., a Director of the College at the time of his death, was the senior member, have established a scholarship which bears his name. This scholarship, the income from which is about \$150 a year, is open to students in Hastings College of the Law.

BANCROFT-WHITNEY PRIZE

A senior prize is given by the Bancroft-Whitney Company to the senior student having the highest scholastic standing. The winner of this prize in 1943 was Harry Margolis.

STUDENT LOAN FUNDS

MARCEL E. CERF MEMORIAL LOAN FUND

Friends of the school and of the late Marcel E. Cerf, who served on the faculty of the College, have contributed a fund available for loans to second- and third-year students. This fund is administered by the Dean.

LOUIS T. HENGSTLER LOAN FUND

Mr. Lawrence Livingston, B.L., 1914, LL.B. (Hastings), 1915, a member of the San Francisco Bar, has contributed a fund to be used for making loans to second- and third-year students as a memorial to the late Louis T. Hengstler, a former member of the faculty. The amount of this fund represents the

benefits received by the donor from a Sheffield Sanborn scholarship, together with accumulated interest from the time when the scholarship was received. This fund is administered by the Dean.

DAVID DALE CRAIK MEMORIAL LOAN FUND

This fund was established by friends and fellow students of David Dale Craik, a former student who died during the academic year 1937-1938. This fund is administered by the Dean.

REQUIREMENTS FOR ADMISSION

REGULAR STUDENTS

Every applicant for admission to the College as a regular student must present evidence of good moral character and must have completed one-half (60 units) of the work acceptable for a bachelor's degree in the College of Letters and Science of the University of California, or of the University of California at Los Angeles.

An applicant who has taken academic work at educational institutions other than the University of California, but who has not completed sufficient work to entitle him to a degree, must have completed the equivalent of one-half (60 units) of the work acceptable for a bachelor's degree in the College of Letters and Science of the University of California. Such applicant will be required to have his work evaluated by the Director of Admissions of the University of California, for the purpose of determining his equivalent standing in the University's College of Letters and Science.

A transcript of record showing his work at other institutions attended should be sent directly to the director of admissions with the request for an evaluation. A fee of \$5 for making his evaluation is charged by the University. Remittances should be made by draft or money order payable to the Regents of the University of California.

An application fee of \$5 is payable by each student who has not previously been enrolled as a member of the student body. Remittances should be made by draft or money order payable to the Registrar of Hastings College of the Law.

Should the number of applications for admission exceed the number for whom adequate accommodations are available, selection will be made upon the basis of the quality of the applicant's academic scholarship record, preference being given to holders of collegiate degrees.

Credit may be allowed for satisfactory work done at other law schools which are approved by the Section on Legal Education and Admissions to the Bar of the American Bar Association. In the event that the prior law school work was not done immediately preceding the making of application for admission to the College, the faculty may, in its discretion, refuse to allow credit for all, or any part of such work.

No student will be entitled to receive a degree unless he completes two full

years of work at Hastings College of the Law, regardless of the amount of law school work completed prior to his admission to the College.

SPECIAL STUDENTS

A special student is one who may be admitted with less than 60 units of approved prelegal academic work. The registration of special students is permitted in exceptional cases with the approval of the faculty. Such students must be at least twenty-five years of age when admitted. They may take all of the subjects in the curriculum but *will not be eligible for a degree*. Each special student is required to maintain at least a C average in his first year's work.

ADDITIONAL INFORMATION

Members of the Bar, and those graduates of the College who are not members of the Bar, may, with the Dean's approval, be admitted for the purpose of auditing courses.

The curriculum is so arranged that students cannot advantageously enter the College except at the beginning of the academic year, in August. All classes are conducted in the morning—Monday to Saturday, inclusive—between 8:10 and 11:00 a.m.

Further information may be obtained from the Registrar, Hastings College of the Law, California Building, San Francisco, California.

ADVICE TO PROSPECTIVE STUDENTS

The student who intends to study law should first acquire a background of knowledge in history, economics, philosophy, and current political and social theories. A knowledge of accounting and business methods also will be helpful. Furthermore, a thorough training in English expression is essential. For these reasons, a student who contemplates the study of law at Hastings College of the Law is advised first to complete a full college or university course in non-professional subjects.

Students in the College are expected to give substantially all of their time to their studies. Opportunities for employment exist in San Francisco; but only a student of exceptional physical strength and mental attainment can hope to complete the course of the College satisfactorily and at the same time engage in outside work. If possible, the money required for subsistence during the College course should be obtained before beginning the course.

Living accommodations, including board and room, may be easily procured in the vicinity of the College at prices ranging from \$60 a month upwards.

THE CALIFORNIA SCHOOL OF FINE ARTS

HISTORY AND SITUATION

THE CALIFORNIA SCHOOL OF FINE ARTS was founded in 1874 by the San Francisco Art Association; in 1893 it was affiliated with the University of California. For many years the School was known as the Mark Hopkins Institute of Art and occupied the historic site at the corner of California and Mason streets in San Francisco. This property was a gift of the late Edward F. Searles. In 1906 the original buildings were destroyed in the earthquake and fire and a temporary structure took their place. Here the School remained until July, 1923, when the San Francisco Art Association, with the approval of the Regents of the University of California, sold the property and with the proceeds bought the present beautiful site at Chestnut and Jones streets on the brow of Russian Hill, overlooking San Francisco Bay.

The School buildings, in the Italian Renaissance style of architecture, were especially designed for the study of art. The large studios and modern equipment provide adequate facilities for the work of the School and for the various activities of the San Francisco Art Association, including lectures on art and exhibitions of painting and sculpture.

ENROLLMENT AND INSTRUCTION

No preliminary qualifications are required for the Fine Arts and professional courses of study and students may enroll at any time. However, the student who does not make reasonable progress in his work is not encouraged to remain in the School.

Satisfactory work done in other institutions of high standing will be recognized in so far as it meets the requirements of this School. Elementary work will be given to beginners.

The instruction is individual, as well as by lectures and informal talks to the class, and students are given every opportunity to advance as rapidly as is consistent with sound training.

A four-year course in the study of Fine Arts is offered to those students who desire carefully balanced training for professional work. A certificate of accomplishment will be issued on satisfactory completion of this course.

The regular courses include complete professional training in Advertising and Commercial Art.

Teachers of Art. The California School of Fine Arts is accredited by the State Board of Education as a teacher-training institution, offering to qualified students the special secondary credential in art, issued by the Board of Education. This credential entitles the holder to teach the subjects of Art and Crafts in the public schools of California.

The complete course comprises four years of comprehensive and systematic study of the fine and applied arts, with required educational and academic subjects, and must be preceded by graduation from an accredited high school with at least 15 units of grade C or better, including 8 recommended units.

As all work given in the School is essentially practical in character, students completing this course would be equally prepared to enter the professional fields of Fine Arts and Commercial Art.

Professional courses in education and directed teaching are carried on at the University of California through its School of Education. Ordinarily students who obtain the credential in public school art register for at least one year of work at the University of California.

The faculty is composed of practicing artists, whose ability and experience as teachers insure competent direction of the student's work.

Further information about the teacher-training course may be obtained from the Director of the School.

Terms for units of credit. The school will evaluate work done by students in terms of units of credit according to the regulations governing the granting of special Credentials and Certificates of the Arts Type, issued by the Commission of Credentials of the State Board of Education.

A unit or semester-hour is one recitation or lecture hour a week of prepared work carried for a period of eighteen weeks. Prepared work presupposes an average of at least two full hours of study in preparation for each hour of lecture or recitation. Students who desire credit for their work must sign a card to this effect at the time of enrollment. A fee of two dollars is charged for the extra work this supervision entails.

THE ANNE BREMER MEMORIAL LIBRARY

This library, housed in one of the most attractive rooms of the School buildings, has a splendid collection of books and reproductions broadly covering all phases of art, ancient and modern, as well as current art journals and periodicals of America and Europe.

Owing to the generosity of the late Mr. Albert Bender, the library is one of exceptional value and is open to students for reference and research study.

SCHOLARSHIPS AND PRIZE COMPETITIONS

The President and Board of Directors of the San Francisco Art Association award each year to students of special merit the following scholarships and prizes.

James D. Phelan Tuition Scholarships. Six scholarships entitle the recipients to a year's tuition in the School. They are awarded annually to students who have completed at least one year of study in the day or night courses of the School.

James D. Phelan Scholarship Fund. Further Scholarships in the School may be created from this fund by the Board of Directors, open to students outside the San Francisco area, who have demonstrated unusual ability.

Abraham Rosenberg Scholarship Fund. This constitutes a fund of \$50,000, the income from which is "to be used and applied in the discretion" of the Association's Board of Directors "for a scholarship or scholarships to be awarded and paid . . . to worthy students of the Association." The income available from this fund will be used by the Board of Directors to provide scholarships from time to time, in such amounts as it considers proper in each instance, to enable or assist students who have shown marked talent to pursue such studies as will serve to develop that talent.

Williams Scholarship. A yearly scholarship in the school, founded by the late Dora Norton Williams as a memorial to her husband, Virgil Williams, will be awarded at the close of each regular session.

Angus Gordon Boggs Memorial Scholarship. An annual scholarship has been established by Mrs. Angus Gordon Boggs as a memorial to her husband.

I. N. Walter Sculpture Prize. From the income of a fund donated by Caroline Walter in memory of her husband, Isaac N. Walter, a cash prize will be awarded annually for the best student work done in sculpture during the regular session.

Anne Bremer Memorial Fund. In memory of the late Anne Bremer, distinguished California painter and former active member of the San Francisco Art Association, a fund of more than \$25,000 has been established by public subscription, the income from which will be used each year for the aid and encouragement of deserving students of the School. In conjunction with the donations from this fund, the School awards yearly, to students enrolled in the School, two full-year scholarships and three half-year scholarships.

The Robert Howe Fletcher Cup. For outstanding merit to an undergraduate student as an honorary award each year. The student's name to be engraved upon the cup.

High School Scholarships. An annual competition for three scholarships is offered by the School at the close of the second term, open to all high school students of this state. Original work in drawing, or modeling, or design must be submitted before the close of the spring semester. High schools will be sent further information in advance.

MISCELLANEOUS INFORMATION

Social activities. The San Francisco Art Association buildings offer splendid opportunities for many and varied social activities on the part of the School and the Association.

Art Gallery. Adjoining the patio is the Art Gallery, where special exhibitions and lectures are held throughout the season.

Store. For the convenience of students, the School maintains a store where supplies may be bought.

SUMMER SESSION

A summer session of six weeks will be held this year. The courses offered are organized to give persons who have only the vacation period free for individual work, the advantage of six weeks' intensive art study. Each summer, in addition to the fundamental instruction, special classes of exceptional interest are arranged. A catalogue of the Summer Session giving detailed information is prepared in the spring and copies will be mailed on request.

REGULAR SESSION COURSES OF STUDY**Elementary**

Composition and Drawing: The basic course offers an extensive exploration of the various uses of line, planes, volumes, spaces, textures, color and light; the dynamics of the picture plane and the illusions and cues of space; color as an expressive and decorative factor in painting; the creation of light and atmosphere and its combination with color; the simplification of objective areas into significant shapes and the means of animating such shapes.

Still Life Painting: The student is taught to analyze light and color values, solidity of forms and surfaces.

Techniques: The student in the first year will make a comprehensive study of materials and techniques, including pastel, water color, gouache, tempera, fresco, oil painting, mosaic and stained glass.

History of Art: The student will discover how the same plastic means were explored and used by masters in all traditions. A fine collection of reproductions in color is available and field trips to the museums of San Francisco will be made from time to time.

Anatomy: A course of lectures demonstrated by models, charts, etc., with textbooks.

Advanced

Life Drawing: The School unreservedly advises the full and complete study of drawing as an essential background for creative work in art. Drawing forms the basis of study for all courses in the School.

Figure Painting: Classes in advanced painting from life, creative composition of the figure with its surroundings. Advanced study of color and composition.

Still Life Painting: Oil and water color; study of abstract and natural objects. The student is at all times given encouraging advice toward the development of his own original painting style.

Sculpture: Here clay modeling, modeling directly in plaster, plaster casting, stone and wood carving, and terra cotta, are carried on. A stone yard is available where stone cutting is done in the open.

Advertising Art: The student is thoroughly prepared for his professional entrance in all branches of art in advertising and designing. The course covers the entire field of this active profession.

Ceramics: The course is offered with fully equipped laboratory and ceramic kilns. It includes study of clays, mixing and testing of glazes, form building and wheel throwing, built, incised and underglaze decoration.

Lithography: In recent years artists everywhere have shown a growing interest in this important medium. The course is complete from the resurfacing of the stone to the flattening of the finished proof. The laboratory is fully equipped, including an excellent lithographic press.

NIGHT SCHOOL

Monday, Wednesday, Friday, 7 to 10 p.m.

The Night School offers special opportunities to men and women who can study only at night, by providing a course of study which practically duplicates that of the Day School. Classes in life drawing and painting, commercial art, sculpture, and ceramics are given. The Department of Drawing and Painting has a special class for beginners, where elementary drawing and painting with the use of simple materials are taught. Illustrated lectures on anatomy, art history, and aesthetic appreciation are also offered.

The night classes occupy large, well-lighted studios specially equipped for their needs. Students may enroll at any time.

SATURDAY CLASSES

Saturday classes, for children, are held throughout the year and have been notably successful. Detailed information is contained in the annual *Announcement of the California School of Fine Arts*, which may be had by writing the Director.

Night School (one night per week)	7.00	20.00
Saturday Class for children (half day)	7.00	20.00
Enrollment fee, each student per semester	\$1.00	
Rent of lockers per semester, according to size	\$1.50, \$2.50, \$3.00	

Studio fees are charged in sculpture and craft classes according to materials used.

Recording fee of \$2.00 is charged to students who register for units of credit. Scholarship students are required to pay enrollment and studio fees.

Students are not enrolled in the classes for a period of less than one month. Students continuing their attendance for more than the month they have paid for will be charged tuition fee for another month.

Steel lockers with combination locks are provided. The School will not be responsible for the loss or destruction of students' property under any circumstances. Students must use School padlocks for lockers. A deposit of \$1.50 is required on these padlocks, which sum is refunded on return of padlock at close of the semester.

The School authorities reserve the right to omit any course or branch of study if found advisable, and to make changes in the schedule and class work. *Tuition fees are not refunded for any cause whatever.*

LOS ANGELES MEDICAL DEPARTMENT*

A School for Graduates of Medicine

ROBERT GORDON SPROUL, B.S., LL.D., Litt.D., President of the University.

BENNET M. ALLEN, Ph.D., Professor of Zoölogy, University of California at Los Angeles; in charge of the Los Angeles Medical Department.

THE LOS ANGELES MEDICAL DEPARTMENT of the University of California is an institution which offers clinical instruction to graduates of medicine. The undergraduate medical work of the University is carried on at Berkeley and at San Francisco.

The Los Angeles Medical Department traces its origin to the organization of a college of medicine by the University of Southern California in 1886. From that date until February, 1909, it remained a medical department of the University of Southern California; but in the latter year its property was transferred to the University of California.

In order not to duplicate the expense of undergraduate teaching in the University of California it was decided in 1914 to confine the work of the Los Angeles Medical Department to instruction for graduates of medicine. The aim of the work is to permit graduates to review past studies which will keep them in touch with recent advances in medicine.

The instruction offered is largely clinical. In these courses the practitioner attends the dispensary and hospital clinics, and without any obligation on the part of the instructor to give special didactic instruction, follows the clinical work in the dispensary and hospital, and obtains therefrom such knowledge and experience as is possible.

The clinical work gives the student opportunity to work with patients in the dispensary, and at the bedside, so that he may acquire proper methods of technique, in the hope that the experience so gained will enable him to obtain a greater knowledge and capacity in his particular field.

The purely clinical courses in the dispensary and the courses for specialists may be entered at any time; and the work is so arranged that the practitioner can give practically the whole day to his work.

Physicians who have received the M.D. degree and are licensed in some state of the Union, are eligible for admission to these courses, the work of the department being construed to be an expression of the general extension activities of the University.

Certificates. Certificates of attendance will be granted only to those who pursue courses covering a period of at least three months, and these certificates will be for attendance only.

* Additional information may be obtained from Dr. Bennet M. Allen, 737 North Broadway, Los Angeles.

Students pursuing all-day courses for at least three months, and who give written notice in advance of a desire to have a certificate of proficiency, must take an examination at the close of their work to determine whether they have earned such a certificate of proficiency.

Fees. The fees are nominal, but in all group work there must be at least three students in the class; if there be a smaller number the fees for such work must equal the total amount of the tuition which would have been received from at least three students.

The facilities for work at Los Angeles are ample, the city itself having an estimated population of more than 1,500,000 persons.

The Graves Memorial Dispensary is situated in the buildings of the department on North Broadway, between Ord and Alpine streets, the property extending from North Broadway to Castelar street. The address of the main building is 737 North Broadway. The telephone is MUTual 2436. These buildings offer commodious and well-equipped quarters for clinics. The Graves Dispensary cares for about forty thousand patients yearly.

The Los Angeles General Hospital, at 1200 North State street, has some three thousand patients, most of these being available for bedside instruction. The County Hospital also maintains a very large outpatient service, in which daily clinics are held. Excellent medical library facilities are also offered.

The practitioner student, therefore, can spend the hours from 8 A.M. to 11 A.M. at the County Hospital; the hours from 12 M. to 3 P.M. at the Graves Dispensary. The facilities of the Los Angeles County Medical Association library, at 634 South Westlake avenue, are also available to student physicians.

SUMMER SESSION, 1943

THE ANNUAL SUMMER SESSION on the Berkeley campus of the University of California will begin Monday, June 28, 1943, and continue for six weeks until Friday, August 6.

The Summer Session of the University of California, Los Angeles, will begin Monday, June 28, 1943, and will continue until Friday, August 6.

Through a new administrative arrangement, the Summer Sessions on both campuses are now a part of the enlarged University Extension Service.

The courses in the Summer Session are designed to meet the needs of the following persons:

1. Teachers who wish to increase their professional skill, to revise and extend their knowledge of chosen fields, or to qualify in new subjects, preparing to meet the special demands for instruction.

Teachers who desire to be prepared for service in vocational schools and classes maintained under the provisions of the State and Federal Vocational Education acts, and the State Continuation Education Act. Courses designed primarily for this purpose are listed under the Department of Education in this bulletin.

2. School superintendents, supervisors, and other officers.

3. Graduate students.

4. High school graduates who are about to enter the University and who want to broaden their preparation for university work. To meet their needs, courses are offered in Mathematics, French, German, and Spanish.

5. Housewives, graduate nurses, social workers, students of public health, and all adults who are qualified to pursue with profit any course given, whether or not they are engaged in teaching or study.

Applications for Admission—

Persons who wish to attend the Summer Session should notify the Director of Summer Sessions, using the form of application at the end of this bulletin. Summer Session applications should be received on or before Monday, June 14. Persons who do not file their applications by this date may encounter some delay in registration.

Students who previously have not attended regular terms at the University of California (Berkeley or Los Angeles), and who plan to offer the work taken in the Summer Session in partial fulfillment of the requirements for the Associate of Arts degree or for a bachelor's degree, should file their credentials covering both high school and collegiate work with the Director of Admissions. This should be done at least three weeks before the opening of the session in order that applicants may be properly advised regarding their status. (For Application Fee see page 53.)

Admission Requirements—

Attendants of the Summer Session are divided into two broad classifications:

Auditors. Any adult is permitted to attend the regular exercises of the Summer Session as an auditor, upon filing an application, paying the regular tuition fee of \$25, and filing a study list. An auditor does not participate in recitations, does not take examinations, and therefore does not receive credit. In general, an auditor will not be admitted to seminars, to the laboratory sections of any courses, nor to activity courses in physical education.

Students. (1) Persons under twenty-one years of age. Admission will be granted to persons who are under twenty-one years of age provided they are graduates of high schools or other secondary schools.

(2) Persons more than twenty-one years of age. The University does not attempt, in general, to make inquiry concerning the educational qualifications of applicants for admission to the Summer Session who are more than twenty-one years of age. The University assumes that the applicant either is a high school graduate or has maturity and special fitness for the type of work he intends to undertake. The instructor of any Summer Session course may require of those who present themselves as students in his course a preliminary test, formal or informal, of knowledge which he believes essential to the work proposed.

Subject A—

The examination in Subject A will be given at 2 o'clock on Saturday, June 26. All students who register in the University for the first time and who wish to take work in English Composition are required to take this examination. The place of the examination will be announced on University bulletin boards.

Registration Dates—

The office of the Registrar will be open for the registration of Summer Session students, Saturday, June 26, from 8:30 a.m. to 3:00 p.m. Prospective attendants should note the importance of making application for admission in advance of this date in order to avoid possible delay in registration. (See page 7.)

Students who find it impossible to register for the Summer Session on the first Saturday may register as late as the second Monday. Students who register late, however, may enroll in the courses desired only when, in the opinion of the instructor, they can satisfactorily make up the work already done by the class.

Fees—

The tuition fee, irrespective of the number of courses taken, is \$25 for the Summer Session. Additional fees are charged in certain courses in art, bac-

teriology, botany, economics, decorative art, physical education, physiology. Each of these fees is stated in the description of the course.

Persons who wish to attend courses or occasional lectures without examination or formal credit may obtain an admission card for this purpose upon payment of the regular fee, \$25, or may purchase from the Cashier in the Administration Building fifty-cent tickets for single lectures.

The tuition fee of \$25 must be paid at the time of registration for the Summer Session. Refunds for withdrawals are made *only* when the admission card and fee receipt are returned, and when the reasons for withdrawal are satisfactory. If the admission card and the fee receipt are returned during the first week, a refund of not more than \$18.50 may be granted; during the second week, \$12:50, during the third week, \$6. After the third week no refund is made. Any student who is obliged to request a refund must do so *at the time of withdrawal*, and must, *at that time*, return admission card and fee receipt to the Registrar.

Application Fee. No application fee is necessary to enter the *Summer Session*. However, application for admission to any *regular* session of the University of California, must be accompanied by a remittance of \$5, payable to The Regents of the University of California.

Admission to Courses; Classification and Numbering—

All Summer Session courses which are identical, or nearly so, with courses given during the regular sessions at Berkeley, are distinguished by the letter "S" prefixed to the regular number of the course.

Courses are classified and numbered as follows:

Group A. Courses carrying University credit.

I. UNDERGRADUATE COURSES

(1) *Lower Division Courses* (numbered 1–49, or sometimes indicated by letters if in subjects usually given in a high school). A lower division course is a course open to freshmen or to sophomores and does not count as upper division work in any department.

(2) *Upper Division Courses* (numbered 100–199). An upper division course is an advanced course in a department of study that has been pursued in the lower division, or an elementary course in a subject of such difficulty as to require the maturity of upper division students. Students will not be permitted to register in upper division courses unless they have completed the courses named as prerequisites, or, if no courses are definitely named as prerequisites, until they have attained junior standing in the University. Accepted professional training, however, will be regarded as sufficient preparation to justify admission to upper division courses in the field in which the student has been trained, as for example, normal school graduation for upper division courses in educa-

tion, or practical experience in social work for upper division courses in social economics.

The prerequisites for courses should be noted carefully.

II. GRADUATE COURSES (numbered 200–299). As a condition for enrollment in a graduate course the student must submit to the instructor in charge of the course satisfactory evidence of preparation for the work proposed; adequate preparation consists normally of the completion of at least 12 units of upper division work, basic to the subject of the graduate course, irrespective of the department in which such basic work may have been completed.

The admission of undergraduates to graduate courses is limited to seniors who have an average grade of at least B in the basic courses; the study-list limits in such cases are the limits imposed by the rules of the Graduate Division.

A student who includes in his program a graduate course (one of the courses numbered from 200–299) is not permitted to register for more than four units.* In general, auditors will not be admitted to graduate courses. Further directions concerning graduate study will be found on page 11.

III. TEACHERS' COURSES (numbered 300–399). *Professional Teacher-Training Courses* in the Department of Education and courses in other departments that are especially intended for teachers or prospective teachers.

IV. CERTAIN PROFESSIONAL COURSES (numbered 400–499) in departments other than education.

Group B. Courses meeting requirements for credentials, certificates, and upgrading.

This group, numbered 600–799, is especially designed to meet the requirements of independent agencies for credentials, certificates, and upgrading and contains courses briefly designated as "Vocational Courses." Junior standing or the equivalent is prerequisite to courses numbered 600–799.

Credit—

Credit toward a university degree will be given only to a student who is qualified to do systematic university work, subject to the requirement that he shall at some time qualify in the University as a regular matriculant, either by passing the entrance examinations or otherwise.

In general, credit will be given at the rate of one unit for fifteen exercises. A course of five recitations or lectures weekly during six weeks may receive a credit of two units. Credit may be given, in due proportion, for a smaller number of exercises, when these are of more than the usual length (which for lectures and recitations is about fifty minutes). A recitation or lecture presupposes about two hours of study outside of the classroom; laboratory or other exercises which do not require outside preparation are estimated at a lower rate than recitations and lectures.

* In the case of graduate students exceptions to this rule may be made only by permission of the Dean of the Graduate Division.

The maximum amount of credit obtainable during the Summer Session by a student who devotes his entire time to courses strictly of university level is from four to six units, according to the kind of work selected; a student who includes in his program a graduate course is not permitted to register for more than four units of credit.* In the Summer Session additional credit for one-half unit of physical education may be received. Students who are registered for credit may audit such courses as they choose. A bachelor's degree represents 120 or more units of credit, distributed according to the special requirements of the college or department in which the student is enrolled.

Graduate Students—

No student is assumed to be in graduate standing until his credentials have been evaluated and approved. For purposes of adjustment of status, all prospective candidates for higher degrees or for certification of completion of the teacher-training curricula should file a formal *Application for Admission to the Graduate Division* together with credentials, at the office of the Dean of the Graduate Division at least four weeks before the opening of the Summer Session. The *Application* must be accompanied by a money order or bank draft for \$5, made out to The Regents of the University of California, in payment of the *Application Fee*. The *Application* blank may be obtained by addressing the Dean of the Graduate Division. *Persons who do not contemplate work toward a higher degree or certificate may register in the Summer Session unclassified and may enroll in any courses for which they have met prerequisites. Such persons need not file credentials nor formal Application for Admission to graduate standing. Transcripts of students' records and all other official credentials are retained permanently in the files of the Office of the Dean of the Graduate Division.* In addition to having the records sent to this office, the student must have in his possession an official record for his own use and for departmental use here.

Summer Session Work Toward Higher Degrees—

For regulations governing requirements for higher degrees and for other information on graduate study, the student should consult the ANNOUNCEMENT OF THE GRADUATE DIVISION, NORTHERN SECTION.

Students who plan to offer Summer Session courses in partial fulfillment of the requirements for the master's degree should be careful to select only courses especially designated as acceptable for this purpose. Not all the upper division courses announced for the Summer Session may be offered in satisfaction of the requirements for the master's degree. A complete list of courses for the Summer Session of 1943 which will be accepted in partial fulfillment of the minimum requirement of 20-24 units of advanced work for the master's

degree will be printed in a Supplementary Announcement available to students at the time of registration. With reference to the distribution of work among upper division and graduate courses, the student should consult the ANNOUNCEMENT OF THE GRADUATE DIVISION, NORTHERN SECTION. Before undertaking work toward a graduate degree the student should ascertain from the graduate adviser in the department concerned, whether or not he should first complete preparatory fundamental courses.

Certificates of Completion of Teacher-Training Curricula—

The University issues formal certificates of completion of the Teacher-Training Curricula only to those who hold a bachelor's degree from the University of California or from another institution recognized as equivalent by the Graduate Division, and who have completed the professional and academic requirements in accordance with the regulations of the State Department of Education and of the School of Education. Graduates of other universities and colleges should follow the instructions given on page 11 concerning the evaluation of transcripts by the Dean of the Graduate Division. For further information consult the ANNOUNCEMENT OF THE SCHOOL OF EDUCATION or address the Dean of the School of Education, Room 206, Haviland Hall. Certificates of record for Summer Session work, whether of matriculation or of university level, will be issued by the Registrar upon application of any student in the session; and personal recommendations from instructors may be obtained by school officers and others through the office of the Appointment Secretary.

Undergraduate Curricula—

The University maintains at Berkeley four academic colleges, in each of which there is an undergraduate curriculum of four years, leading in the College of Letters and Science to the bachelor's degree in arts (A.B.), and in the three colleges of applied sciences to the bachelor's degree in science (B.S.). These colleges are:

College of Letters and Science

College of Applied Sciences—

College of Agriculture. In this college, curricula are open in the fields of plant science, animal science, veterinary medicine, agricultural economics, agricultural education, entomology and parasitology, forestry, home economics, soil science, and landscape design.

College of Chemistry. In this college, the student may choose a program in chemistry or a program in chemical technology.

College of Engineering. The student in this college may elect civil engineering, electrical engineering, mechanical engineering or mining and metallurgy. In civil engineering, he has a further choice of structural,

transportation, irrigation, or sanitary and municipal engineering. In electrical engineering, the student may select courses in electric power generation, transmission, and distribution; electronics and radio communication; illumination, and the general electric problems of industrial engineering. In mechanical engineering, he has a choice of aeronautical, agricultural, automotive, heat power, hydraulics, industrial, gas, marine engineering or chemical engineering. In mining and metallurgy there are open to the student five options: mining, petroleum, economic geology, physical metallurgy and process metallurgy.

The first year of the four-year curriculum in Pharmacy is also given at Berkeley; the other years are taken in the College of Pharmacy in San Francisco.

The University maintains on its Los Angeles campus the following colleges, in each of which there are undergraduate curricula of four years:

College of Letters and Science, with curricula leading to the degree of Bachelor of Arts, and curricula of the earlier years of the College of Dentistry, the Medical School, and the College of Chemistry.

College of Business Administration with curricula leading to the degree of Bachelor of Science.

College of Agriculture with a curriculum in subtropical horticulture, leading to the degree of Bachelor of Science, and curricula of the earlier years of other majors in agriculture.

College of Applied Arts, with curricula leading to the degrees of Bachelor of Arts and Bachelor of Science, curricula of the earlier years of the College of Engineering, the College of Pharmacy, and School of Optometry, and a curriculum leading to the Certificate in Public Health Nursing.

The curricula of the Colleges of Letters and Science, Business Administration, and Applied Arts also lead to the degree of Associate in Arts which may be obtained at the end of the sophomore year.

The University has no preparatory department.

Professional Curricula—

The University offers professional curricula leading to appropriate degrees and certificates in architecture, business administration, dentistry, education, hospital dietetics, jurisprudence, law, librarianship, medicine, nursing, optometry, pharmacy, public health, and social welfare. The curricula in architecture, hospital dietetics, and public health are described in the CIRCULAR OF INFORMATION; the other curricula are described in separate, free bulletins. Copies of all publications may be obtained from the Registrar.

College of Letters and Science—

Requirements for the degree of Bachelor of Arts in the College of Letters and Science are listed in the CIRCULAR OF INFORMATION.

Colleges of Applied Sciences—

For information concerning curricula in these colleges, reference should be made to the following bulletins: for the College of Chemistry—the CIRCULAR OF INFORMATION; the College of Agriculture—the PROSPECTUS OF THE COLLEGE OF AGRICULTURE; the College of Engineering—the ANNOUNCEMENT OF THE COLLEGE OF ENGINEERING, or the CIRCULAR OF INFORMATION; the College of Pharmacy—the ANNOUNCEMENT OF THE COLLEGE OF PHARMACY, or the CIRCULAR OF INFORMATION. Copies of these publications may be obtained from the Registrar.

Final Examinations—

By a general University rule, final examinations must be held in all courses. Exceptions to this will be announced during the first week of the session. Usually the final examination takes the place of the last recitation or other scheduled period for each course. Special examinations to suit the convenience of individual students will not be given.

When a course requires a final examination, there can be no individual exemption from it. A student who fails to pass the examination does not receive credit for the course. Special examinations and reexaminations in summer courses are not permitted.

Other Requirements Concerning Credit—

A student who applies for credit in any course will be expected not only to complete all the work and examinations of the course but also to continue in regular attendance upon the class exercises until the *close of the session*. Furthermore, he will be required to hand in all his work by that time, in order that the instructor may make his report. Students are not authorized to continue any part of the work beyond the close of the session. No provision is made for reexamination or supplementary work for the removal of deficiencies.

Scholarship Grades—

The final results of the work of students in every course, graduate and undergraduate, will be reported to the Registrar in the same grades† used in regular sessions.

Approval of Study Lists—

All undergraduate students already regularly matriculated in the University who are prospective candidates for the degree of A.B. (or for the degree of B.S. in the School of Business Administration) are required to have their study lists approved by the dean or director of the college or school or his representative.

† Grades—A, excellent; B, good; C, fair; D, barely passing; X and F, not passing. It should be noted with respect to grades X and F that in the Summer Session no reexaminations or special examinations are provided for the removal of deficiencies.

Grade points or quality units will be assigned as follows: grade A, three points for each unit; B, two points for each unit; C, one point for each unit; D, X, and F, no points. For further information, see the CIRCULAR OF INFORMATION.

Upper division students in the College of Letters and Science are advised to consult the current CIRCULAR OF INFORMATION for requirements in their majors.

Changes in Study Programs—

Changes in study programs after the study lists have been filed may be made only by a written petition filed with the Registrar not later than Tuesday, July 20, 4:30 P.M.

Accommodations and Expenses—

A list of approved living accommodations for men and women is compiled annually and will be available in the office of the Director of Summer Sessions. Prices range from \$37.50 to \$65 per month for board and lodging, two meals a day. *These prices are subject to change.* The houses on this list have been inspected with a view to sanitation, orderliness and safety. *To insure their protection and comfort, students are urged to consult this list before making their plans for accommodations.*

The following table will enable the student to estimate the expense, apart from transportation to and from Berkeley, of attending the six weeks of Summer Session:

University tuition fee.....	\$25.00—\$25.00
Laboratory fees (according to courses taken)....	00.00— 27.00
Board and room, six weeks.....	56.25 —97.50
Textbooks and stationery.....	5.00— 15.00
Laundry	5.00— 12.00

The Associated Students' Store in Stephens Memorial Student Union Building carries all textbooks for Summer Session courses, as well as stationery and other supplies. It also operates a coffee shop.

International House—

Conveniently situated on the campus, International House offers to students comfortable living quarters and pleasant social rooms.

The purpose of International House is to promote peace and international understanding by bringing representatives of the many races and nationalities into intimate, friendly association. Its facilities are available to registered students of the Summer Session. Those who live there during the summer will also have the privilege of taking part in a program centering around the problems of international relationships.

The cost of residence in International House is nominal in spite of the extensive facilities, and compares favorably with that of other living accommodations in the community.

A leaflet describing facilities, proposed program of activities, and costs will be sent, upon request, by the Admissions Office, International House, University of California, Berkeley.

Library—

Throughout the Summer Session the General Library of the University will be open from 8 A.M. to 10 P.M., Monday to Friday inclusive, 8 A.M. to 6 P.M., Saturday, and from 1 P.M. to 10 P.M., Sunday. The Biology Library, in the Life Sciences Building, will be open from 8 A.M. to 6 P.M., Monday to Saturday inclusive, but closed on Sunday.

Full library privileges, including the home use of books, as accorded to regular University students, will be extended without additional fee to students in the summer courses, upon presentation of registration certificates.

Appointment Secretary—

Students of the Summer Session, as well as former graduates and students of the University of California, are entitled to the services of the office of the Appointment Secretary at 102 Administration Building. Teachers who are candidates for positions in California should, if possible, send for and fill out registration blanks prior to the opening of the session in order that confidential information regarding their scholarship and teaching experience may be obtained in advance and their recommendations prepared for distribution. Though there is no fee for placement services, registrants pay a \$5 fee which is used to cover the cost of copying their letters of recommendation. The office is open for the service of school officials from 9 A.M. to 12 M. and from 1 P.M. to 5 P.M., daily, except Saturday, when it closes at noon. The office will give more effective aid to superintendents and principals if it is notified in advance of the specific requirements of positions and the hour at which appointments are desired.

The Daily Californian—

The *Daily Californian* is issued by the Associated Students three times each week throughout the Summer Session. In addition to Summer Session news, it contains announcements of lectures, concerts, exhibits, meetings of University organizations, and information concerning the library, museums, art galleries, observatories, and other parts of the University of interest to visitors.

Recreational Activities—

Hearst Gymnasium for Women and the Gymnasium for Men provide every modern facility for sports and recreation. There are five outdoor swimming pools for recreational swimming, eighteen tennis courts, eight handball courts, and several fields for outdoor sports and activities.

During the period of the Summer Session there will be a number of tournaments—tennis, badminton, squash, ping pong, and a swimming meet. These tournaments are open to both men and women students.

Summer Session students are especially urged to take an active part in the events planned for their entertainment.

University Chorus—

A University chorus under the direction of Professor Edward B. Lawton will be conducted during the Summer Session. It will be open to all students who are interested in singing with others. Rehearsals will be held on Tuesdays and Thursdays from 5:00 p.m. to 6:00 p.m. For further details, see page 42.

Y. M. C. A.—

The University Young Men's Christian Association with its program of social service, religious discussion, and personal counseling is open without cost to all men of the University irrespective of race or creed. A reading room and a recreation room are available for use in its building at 2227 Union Street. The Association secretaries will be glad to help students in finding rooms, in meeting faculty members, or in any way possible.

Y. W. C. A.—

The building of the Young Women's Christian Association of the University of California, situated on the corner of Allston Way and Union Street, a block west of Sather Gate, will be open during the Summer Session for the use of all women students. The building provides reading and rest rooms, a sunny patio and a foyer. The lunch room will be open from July 5 at noon, Mondays through Fridays.

Workshops—

During the Summer Session there will be Workshops set up in the Departments of Decorative Art, Education, and Music. These workshops will be open to administrators, supervisors, teachers, and students who expect to enter the teaching field.

School Executives' Conference—

The thirteenth annual conference for school executives will be held under the auspices of the Department of Education.

The conference will be one week in length, from July 19 to 24, inclusive. No prerequisites of admission will be required, no examinations imposed, and no University credit given. The registration fee will be \$5.

Reading Conference—

During the 1943 Summer Session a conference on problems relating to reading will be held under the auspices of the Department of Education.

The conference will be one week in length, July 12 to 16, inclusive. No prerequisites of admission will be required, no examinations imposed, and no University credit given. The registration fee is \$5.

Children's Recreation School—

For a complete description of the Children's Recreation School, attention is directed to page 35.

The Demonstration Elementary School—

A demonstration school will be maintained during the Summer Session for the purpose of demonstrating desirable teaching procedures. The classwork in the school will be observed by elementary school teachers, principals, supervisors, and superintendents enrolled in the courses dealing with the integrative curriculum in the elementary school or with the supervision of the elementary school. The observations will form the basis of conferences, discussions, and similar types of help desired by Summer Session students. For further details, see page 35.

The Demonstration Secondary School—

University High School will be open during the summer for eight weeks, June 28 to August 21. High school students will be accepted for any school district, but it is advisable to arrange with the home school before entrance if credit for graduation from high school is desired. Semester credit for either one or two subjects may be obtained. In addition to the usual academic subjects, courses in arts and crafts, in woodshop, and in vocal and instrumental music will be offered. The school will be open from 7:45 A.M. to 12:16 P.M., five days a week.

The school will be used in connection with classes in education for purposes of teacher training and demonstration. The Curriculum Laboratory at the University High School will be open during the summer for consultation and service. For further details attention is directed to page 35.

THE UNIVERSITY OF CALIFORNIA

The University of California was founded in 1868 and is, by the terms of its charter, an integral part of the educational system of the State. It provides, for all qualified students, a college education without distinction of sex, creed, or race, and its instruction covers all the broad and essential fields of human knowledge, including the arts, the sciences, and literature. It also provides fundamental training for many of the professions.

Since its founding, the University has grown steadily in size, in influence, and in opportunity. Today it carries on its activities on seven campuses—at Berkeley, Los Angeles, San Francisco, Davis, Mount Hamilton, La Jolla, and Riverside. In addition to its centers of resident instruction, the University of California maintains a state-wide extension service and offers summer study on its several campuses.

THE BERKELEY CAMPUS

Site, Climate, and Transportation—

The Berkeley campus of the University of California is situated on the eastern shore of San Francisco Bay, directly opposite the Golden Gate. The University grounds comprise five hundred and thirty acres, rising in gentle slopes to the Berkeley hills. From almost every part of the campus—and the city of Berkeley—there is a magnificent outlook over the bay and the city of San Francisco, the neighboring plains and mountains, the Pacific Ocean, and the Golden Gate.

Berkeley has a climate well suited to university work. The summers are cool with an average temperature for the months of May, June, and July of about 60 degrees. Temperatures as high as 85 degrees are of infrequent occurrence and brief duration.

From the business center of Oakland, it is about a twenty-five minutes' ride by electric car to the University; about thirty minutes' from San Francisco by train. Motorists from San Francisco may come by way of the San Francisco—Oakland Bay Bridge.

Libraries—

The University Library, the greater part of which is housed in the building made possible by the bequest of the late Charles Franklin Doe, now contains more than one million volumes. It is constantly augmented by donations and exchanges and by large purchases of books with the income from the Michael Reese, Jane K. Sather, E. A. Denicke, Alumnus, Meyer, Carpentier, and other funds. Books are especially bought each year for the particular courses offered during the Summer Session. All Summer Session students may enjoy full privileges of the Library, including the drawing of books, upon presentation of registration certificates.

The Bancroft Library contains several thousand books and manuscripts relating to Spanish-American and Western-American history, all of which are available to graduate students at individual desks, and to undergraduates for work in courses.

Several of the departments of instruction have collections of books, useful for ready reference and classroom work.

Museums and Laboratories—

For students pursuing research and graduate study, laboratories and laboratory equipment are available. All the scientific departments are adequately equipped with museums and laboratories in the Life Sciences Building.

The Museum of Anthropology, founded by Mrs. Phoebe A. Hearst, and on the Berkeley campus since 1931, contains 130,000 specimens illustrating the history and development of culture from the earliest times.

The Museum of Paleontology, situated in the Hearst Memorial Mining Building, was organized in the year 1921, and is supported largely by funds donated by Miss Annie M. Alexander. The Museum maintains the largest fossil collections on the Pacific Coast, and makes use of these in teaching and research. The Matthew Library of Paleontology is housed on the premises, and is open to students. A public exhibition gallery is on the second floor of the Hearst Memorial Mining Building. Anyone interested in using the research facilities of the Museum may address the Director.

Research Institutes and Bureaus—

Designed to facilitate the cultivation of knowledge in special fields and to emphasize the need of public service, various research institutes and bureaus have been established within the University, among them the Bureau of Public Administration, the Institute of Child Welfare, and the Bureau of International Relations.

The Bureau of Public Administration and Library of Economic Research, situated in the University Library building, contain an extensive collection of pamphlet and other materials which supplement the main library collection on governmental problems. Since 1940, special attention has been given to the building up of a very comprehensive collection dealing with war problems. These facilities are available to properly qualified students and are particularly helpful to those who plan to engage in governmental work. The library and research staff of the Bureau of Public Administration carry on informational and research programs on public problems, in the service of governmental agencies and civic organizations.

The Institute of Child Welfare is pursuing investigations of wide significance in the field of education through its study of child development by expert research workers. To a limited number of University students it gives opportunity for directed observation of children as a background to the understand-

ing of human growth and educational problems. The facilities include a nursery school, and library and research facilities for students qualified to make use of assembled materials in the field of adolescent development.

Students interested in acquiring a knowledge of the forces and influences affecting present-day world policies or in preparing for careers in foreign service are afforded opportunities for study through the facilities of the Department of Political Science and its Bureau of International Relations.

THE DEMONSTRATION SCHOOLS**Elementary****ORGANIZATION AND AIMS**

The Demonstration Elementary School will be held daily during the Summer Session, from 9 A.M. to 12 M. Classes will include each grade from the kindergarten through the sixth. Through the courtesy of the Berkeley Board of Education and Superintendent of Schools, the Demonstration School will be housed in the Whittier-University Elementary School, a short distance from the campus. Classes will be open daily for observation by Summer Session students, especially those enrolled in Education 133 and Education S233B. Persons not enrolled in the Summer Session may visit the school upon payment of the auditor's fee of fifty cents for each visit.

The school will provide daily practical demonstration of modern school procedures with classes of typical children led by skilled teachers. Teachers, supervisors, and administrators will be able to observe such procedures as: the initiation and development of a unit of work, modern provisions for individual differences, and growth of skills in the three R's while carrying on purposeful activity.

THE PUPILS

Enrollment of children in the Demonstration School should be made by advance application to insure acceptance, since each class will be limited to 30 pupils. Application for enrollment should be made to the Director of the Demonstration Elementary School, Mr. David H. Russell, 316 Haviland Hall, University of California, Berkeley, California. Final registration will take place at the Demonstration School on Monday, June 29, from 9 A.M. to 12 M. The fee is \$7.50 for the six weeks' session. This fee must be paid on registration day. Checks should be made payable to The Regents of the University of California.

SUPERVISED PLAYGROUND AND SWIMMING

Children may remain on the school playground in the afternoon under the direction of the supervisor provided by the Berkeley Recreation Department. This department also provides facilities for swimming for Demonstration School pupils at the Berkeley High School pool at a nominal fee.

Secondary**ORGANIZATION**

Through the courtesy of the Oakland Board of Education and the Superintendent of Schools, the University High School will be open during the Summer Session from 7:50 A.M. to 12:16 P.M., five days a week for a period of eight weeks, June 28 to August 21. Work in grades 9 to 12 will be included. The school is located at Grove and Fifty-eighth streets in Oakland and may be reached by street car. Classes will be open daily for observation and for supervised teaching by students enrolled in Education S323 or in other education courses. Persons not enrolled in the Summer Session may visit the school upon payment of the auditor's fee of fifty cents for each visit. Materials for studying

recent developments in curriculum and in procedures of teaching and evaluation are available in the Curriculum Laboratory at the University High School for students in education classes.

THE PUPILS

High school students will be received from any school district, but it is advisable to arrange with the home school before entrance if credit for high school graduation is desired. Students may obtain semester credit for either one or two subjects. In addition to the usual academic courses, arts and crafts, woodshop, and vocal and instrumental music will be offered. Most of these activity subjects are open to teachers and to other adults.

Enrollment should be made by advance application to the Director, Mr. Robert E. Brownlee, University High School, Oakland, California. Students may register and pay fees at the University High School on Friday, June 25, from 8:00 A.M. to 4:00 P.M. and on Saturday, June 26, from 8:00 A.M. to 12:00 M. The fee is \$7.50 a course for the eight weeks' session. This fee must be paid on registration day. Checks should be made payable to The Regents of the University of California.

THE CHILDREN'S RECREATION SCHOOL

The University offers facilities for children's recreation, during the morning hours, 9 to 12, Monday through Friday. A systematic program of instruction will be conducted at the Hearst Gymnasium for Women with its swimming pools and adjacent fields.

For girls there will be swimming, dancing, and archery or games.

For boys, there will be swimming, tumbling, and archery or field sports.

Children of school grades 2 to 9 inclusive will be enrolled. Enrollment is limited to 130 boys and 130 girls. A fee of \$20 will be charged for each child. Applicants for advanced enrollment will be accepted after April 1 on payment of a deposit of \$3.50. Request for application cards should be addressed to the Department of Physical Education, Hearst Gymnasium, University of California, on or after April 1.

THE UNIVERSITY OF CALIFORNIA

Founded 1868

THE UNIVERSITY OF CALIFORNIA is, by the terms of its charter, an integral part of the educational system of the State. It provides, for all qualified students, a college education without distinction of sex, creed, or race, and its instruction covers all the broad and essential fields of human knowledge, including the arts, the sciences, and literature. It also provides fundamental training for many of the professions.

In its seventy-five years of existence, the University has grown steadily in size, in influence, and in opportunity. Today it carries on its activities on seven campuses—at Berkeley, Los Angeles, San Francisco, Davis, Mount Hamilton, La Jolla, and Riverside. In addition to its centers of resident instruction, the University of California maintains a state-wide extension service and offers summer study on its several campuses. With this service the Summer Sessions are now identified.

SUMMER SESSION OF 1943 IN LOS ANGELES

The University's twenty-sixth annual Summer Session in Los Angeles will begin on Monday, June 28, 1943, and continue for six weeks until Friday, August 6.

In the Los Angeles Summer Session the number of students registered in 1918, the first session, was 630; in 1942, 4,552.

Purpose of the Session—

The purpose of the Summer Session is to provide essential training for all types of students, to equip undergraduate and graduate students, teachers, school executives, nurses, homemakers, social workers, and other professional groups for improved service, with immediate emphasis on the war effort. The University endeavors through its Summer Sessions to make available programs of study based upon its wealth of knowledge and its full resources which will serve the needs of war as well as of the coming peace.

Applications for Admission—

Persons who wish to attend any of the courses are urgently requested to notify the Director of Summer Sessions, 405 Hilgard Avenue, Los Angeles, on or before Friday, June 11, using the form of application at the end of this bulletin. Compliance with this request will enable the University to make adequate preparation, and to inform prospective students promptly of any change in program.

Summer Session students who do not wish to enter subsequently the regular sixteen-week terms of the University of California, Los Angeles, are not required to submit transcripts of record.

New students who plan to offer work taken in the Summer Session toward an undergraduate degree or certificate at the University of California should submit full credentials (see *Application Fee*, page 9) covering high school and collegiate studies, to the Director of Admissions of the University of California, Los Angeles. This should be done at least three weeks before the opening of the session in order that applicants may be properly advised regarding their status. Candidates for higher degrees or certificates should follow the instructions on page 11.

Admission Requirements—

Attendants of the Summer Session are divided into two broad classifications:

A. Auditors. Any adult is permitted to audit the regular exercises of the Session, except courses to which admission is restricted, upon filing an application and paying the regular tuition fee of \$25. An auditor does not participate in recitations, does not take examinations, and therefore does not receive credit.

***B. Students.** (1) Persons under twenty-one years of age. Admission will be granted to persons who are under twenty-one years of age provided they are graduates of high schools or other secondary schools.

(2) Persons more than twenty-one years of age. The University does not attempt, in general, to make inquiry concerning the educational qualifications of applicants for admission to the Summer Session who are more than twenty-one years of age. In admitting to the Session an applicant more than twenty-one years of age, the University assumes that the applicant either is a high school graduate or has maturity and special fitness for the type of work he intends to take. Any instructor of a Summer Session course may require of those entering his course a preliminary test, formal or informal, of knowledge which he believes essential to the work proposed.

Subject A—

For Summer Session students who wish to enroll in courses in English composition and who have not fulfilled requirements for Subject A, (Elementary Composition), a special examination will be given on Monday, June 28, at 3:00 P.M. This examination is designed to test their ability to write English without gross errors in spelling, grammar, diction, sentence structure, and punctuation.

* Admission to the Summer Session does not carry with it a guarantee of admission to the regular session. For further information concerning admission requirements, and regulations concerning credit, please address the Office of Admissions, University of California, 405 Hilgard Avenue, Los Angeles, California.

Registration Date—

Registration for Summer Session students will be conducted on the Los Angeles campus of the University of California, on Saturday, June 26.

Students who find it impossible to register on the opening days of the Session may register as late as the second Monday, July 5, but such students may enroll in the courses desired only if, in the opinion of the instructor, they can make up satisfactorily the work already done by the class.

Fees—

The tuition fee, irrespective of the number of courses taken,* is \$25 for both residents and nonresidents of California. Fees must be paid at the time of registration, *not in advance*. Payment of fees by cash is preferred. If checks are presented they must not exceed the total amount of fees to be paid. Checks should not be mailed in advance. In certain courses laboratory fees are charged, each of which is stated in the description of the course and is payable at the time of registration.

A person who wishes to attend courses or occasional lectures without examination or formal credit may obtain for this purpose an auditor's ticket by paying the regular fee of \$25, or may purchase from the cashier in the Administration Building, 50-cent tickets for single lectures.

The tuition fee of \$25 must be paid at the time of registration. A refund for withdrawal is made *only* when the admission card and fee receipt are returned, and when the reasons for withdrawal are satisfactory. If the admission card and fee receipt are returned during the first week of the Summer Session, a refund of not more than \$18.50 may be granted; during the second week, \$12.50; during the third week, \$6.00. After the third week no refund is made. Any student who is obliged to request a refund must do so *at the time of withdrawal* and must, *at that time*, return admission card and fee receipt to the Registrar.

In cases of students taking short-term courses of three weeks (Education 132T, or Public Health 481) the tuition fee of \$17.50 must be paid at the time of registration. Refunds for withdrawals subject to the foregoing paragraph are as follows: during the first week, \$13; during the second week, \$8.50; during the third week, \$4.00.

Application Fee. No application fee is necessary to enter the *Summer Session*. However, application for admission to any *regular* session of the University of California, Los Angeles, must be accompanied by a remittance of \$5.00, payable to The Regents of the University of California.

* Summer Session study lists are limited to six units.

Admission to Courses: Classification and Numbering of Courses—

Summer Session courses which are identical, or nearly so, with courses given during the regular sessions at Los Angeles, but which carry a different number of units, are distinguished by the letter "S" prefixed to the regular number of the course.

Courses are classified and numbered as follows:

I. UNDERGRADUATE COURSES.

(1) *Lower Division Courses* (numbered 1–49, or sometimes indicated by letters if in subjects usually given in a high school). A lower division course is a course open to freshmen and sophomores and does not count as upper division work in any department.

(2) *Upper Division Courses* (numbered 100–199). An upper division course is an advanced study of a subject that has been pursued in the lower division, or an elementary course in a subject of sufficient difficulty to require the maturity of upper division students. Students will not be permitted to register in upper division courses unless they have completed the courses named as prerequisite, or, if no courses are definitely named as prerequisite, until they have attained junior standing in the University. Accepted professional training, however, is regarded as sufficient preparation for upper division courses in the field in which the student has been trained.

The prerequisites for courses should be carefully noted.

II. GRADUATE COURSES (numbered 200–299). As a condition for enrollment in a graduate course the student must hold at least a bachelor's degree from a four-year college and must submit to the instructor in charge of the course evidence of satisfactory preparation for the work proposed; adequate preparation will consist normally of the completion of at least 12 units of upper division work basic to the subject of the graduate course, irrespective of the department in which such basic work may have been completed.

Admission to graduate standing is not required for enrollment in graduate courses in the Summer Session. However, in order to have graduate courses taken in the Summer Session accepted as partial fulfillment of the requirements of graduate units for higher degrees or credentials, the student must be eligible for admission as a regular graduate student (see page 11).

In general, auditors will not be admitted to graduate courses. Further directions concerning graduate study may be had from the Registrar.

III. TEACHERS' COURSES.—*Professional Teacher-Training Courses* (numbered 300–399) in the Department of Education and courses in other departments that are specifically intended for teachers or prospective teachers.

IV. CERTAIN PROFESSIONAL COURSES (numbered 400–499 and 800–899).

Credit—

Acceptance of a particular course toward any university degree is subject to the approval of the authorities of the college in which the degree is offered.

For the requirements of the colleges and schools at Berkeley, see the CIRCULAR OF INFORMATION. For requirements for the colleges at Los Angeles, see recent issues of the GENERAL CATALOGUE, DEPARTMENTS AT LOS ANGELES.

In general, credit will be given at the rate of one unit for fifteen exercises. A course of five recitations or lectures weekly throughout six weeks may receive a credit of two units, or throughout three weeks may receive a credit of one unit. Credit may be given, in due proportion, for a smaller number of exercises, when these are of more than the usual length (which for lectures and recitations is about fifty minutes). A recitation or lecture presupposes about two hours of study outside the classroom; laboratory or other exercises which do not require outside preparation are estimated at a lower credit rate than recitations and lectures.

The *maximum credit* obtainable during the Summer Session by a student who gives his entire time to courses of strictly university level is from four to six units, according to the kind of work selected; a student who includes in his program a graduate course is not expected to register for more than four units of credit in the Summer Session.*

Two summer sessions are accepted as the equivalent of one half-year of residence for the bachelor's degree, but the amount of credit (the number of units) that may be completed during two summer sessions will not exceed three-fourths of the amount that could be completed by an undergraduate student in a single regular term.

Students from other institutions should find out from their own registrars if courses taken in the Summer Session of the University of California, Los Angeles, will fulfill specific requirements.

Graduate Students—

Students who intend to pursue graduate work toward a higher degree in the University should file a formal Application for Admission to Graduate Standing at the office of the Registrar with application fee (see page 9). The application form and the ANNOUNCEMENT OF THE GRADUATE DIVISION, SOUTHERN SECTION, may be obtained from the Registrar, University of California, 405 Hilgard Avenue, Los Angeles, California. Summer Session students may petition to have courses taken in the Summer Session apply toward higher degrees or credentials if and when they are admitted to graduate standing. *Persons who do not contemplate work toward a higher degree or certificate at this University may register in Summer Session without specified status and may enroll in any courses for which they have met prerequisites. Such persons need not file credentials or formal Application for Admission to Graduate Standing but must hold at least a bachelor's degree from a four-year college.*

Enrollment in a Summer Session graduate course does not carry with it the right of admission to graduate status.

College of Letters and Science—

Requirements for the degrees of Associate in Arts and of Bachelor of Arts in the College of Letters and Science are listed in recent issues of the GENERAL CATALOGUE, DEPARTMENTS AT LOS ANGELES and in the ANNOUNCEMENT OF THE COLLEGE OF LETTERS AND SCIENCE AT LOS ANGELES.

School of Education—

The School of Education, established on the Los Angeles campus July 1, 1939, offers professional curricula to students preparing for teaching service in elementary and secondary schools, and for experienced teachers desiring preparation for educational administration, research, or other specialized phases of public school education. The School of Education makes provision

* Upper division courses in other departments not appearing in this list may be accepted if the major department approves them.

for all types of teacher training formerly offered in the Teachers College, which was discontinued on June 30, 1939.*

In addition qualified students may combine certain of the curricula listed in the preceding paragraph with programs leading to (1) the Master of Arts degree with a major in education, or (2) the recently approved program for the degree of Doctor of Education.

Applicants for admission to the School of Education must be students in good standing in the University of California, must have completed the requirements for the degree of Associate of Arts in one of the colleges of the University, or the equivalent thereof, and must be approved by a physician of the University of California as having met the health requirements of the State Board of Education.

Although admission to curricula of the School of Education is contingent upon the attainment of full junior standing, as defined above, representatives of the school will be glad to advise students interested in the most effective preparation for various teaching fields, during their freshman and sophomore years. All such students are urged to consult the Dean of the School of Education as early as possible in their academic careers.

CERTIFICATES OF COMPLETION OF TEACHER-TRAINING CURRICULA

The School of Education offers curricula leading to certificates of completion and state credentials authorizing service in the following fields:

1. Kindergarten-Primary
2. Elementary
3. Junior High School
4. General Secondary
5. Special Secondary in the fields of:
 - a. Art
 - b. Business Education
 - c. Homemaking
 - d. Industrial Arts
 - e. Music
 - f. Physical Education
 - g. Trade and Industrial Education
6. Junior College
7. Elementary School Administration
8. Secondary School Administration.

It is no longer possible for new students to enroll in the Teachers College. Students planning to prepare for kindergarten-primary or elementary school teaching may enroll either in the College of Letters and Science, or if their major interests lie in the fields of art, homemaking, industrial arts, music or

* Students holding teachers' credentials issued by the Los Angeles State Normal School or by the Teachers College of the University of California, and students registered in the Teachers College who have completed at least 12 units in regular sessions prior to July 1, 1939, may qualify for the degree, Bachelor of Education, on the basis of the requirements in effect during the academic year 1938-1939, provided that these requirements are completed prior to September 15, 1943. After that date the degree Bachelor of Education will not be awarded.

physical education, in the College of Applied Arts. Those enrolling in the College of Letters and Science should choose a major related to the curriculum of the elementary schools, such as English, geography, history, music, psychology, or a group major in the social sciences. The general major, offered for the first time in 1940, is particularly desirable.

Students desiring to prepare for the special secondary credential, which is limited to one field, should enroll in the College of Applied Arts if the proposed major is art, homemaking, industrial arts, music, or physical education. Those desiring the special secondary credential in business education may register either in the College of Business Administration, or the College of Letters and Science with a major in economics.

Candidates for the general secondary credential may enroll for their undergraduate work in the College of Letters and Science, the College of Agriculture, the College of Business Administration, or the College of Applied Arts if the major is homemaking, music, or physical education.

All new students registering in the Summer Session and preparing for teaching, who have at least junior standing, should enroll in the School of Education and consult the Credentials Counselor in order that their programs of study may be efficiently planned.

A complete statement of curricula, requirements, and procedures in the School of Education will be found in the ANNOUNCEMENT OF THE SCHOOL OF EDUCATION, LOS ANGELES, which may be obtained at the office of the Dean, 231 Education Building, on the Los Angeles Campus, or by mail upon application to the Registrar of the University of California, Los Angeles, California.

The College of Business Administration—

Requirements for the degree of Bachelor of Science in the College of Business Administration are listed in the ANNOUNCEMENT OF THE COLLEGE OF BUSINESS ADMINISTRATION.

The College of Applied Arts—

Requirements for the degree of Bachelor of Arts and the degree of Bachelor of Science in the College of Applied Arts are listed in recent issues of the GENERAL CATALOGUE, DEPARTMENTS AT LOS ANGELES.

Curriculum in Public Health Nursing—

The Curriculum in Public Health Nursing at the University of California, Los Angeles, is approved by the National Organization for Public Health Nursing. For information regarding admission, refer to recent issues of the GENERAL CATALOGUE, DEPARTMENTS AT LOS ANGELES.

Changes in Study Programs—

Changes in study programs after study lists have been filed may be made only by permission of the Director, to be obtained by written petition filed with the Registrar not later than *Tuesday, July 20*.

Final Examinations—

By a general University rule, final examinations must be held in all courses except in cases in which other provisions are authorized. Usually the final examination takes the place of the last recitation or other scheduled period for each course.

When a course requires a final examination, there can be no individual exemption from it. A student who fails the examination does not receive credit for the course. *Special examinations and reexaminations in summer courses are not permitted.*

Other Requirements Concerning Credit—

A student who applies for credit in a course will be expected not only to complete all the work and examinations of the course but also to continue in regular attendance upon the class exercises until the *close of the session*. Furthermore, he will be required to hand in all his work by that time, in order that the instructor may make his report. Students are not authorized to continue any part of the work beyond the close of the session. No provision is made for reexamination or supplementary work for the removal of deficiencies.

Scholarship Grades—

The final result of the work of students in every Summer Session course, graduate and undergraduate, will be reported to the Registrar in the same grades* used in the regular sessions.

Transcripts of record for Summer Session work, whether for courses of matriculation or university level, will be issued by the Registrar, upon application, to any student in the session; and personal recommendations from instructors may be obtained by school officers and others through the office of the Appointment Secretary.

Physical Education—

The curriculum in physical education for the 1943 Summer Session has been planned with reference to both elementary and secondary school fields.

Physical examinations will be required of students taking the practical courses. Special examinations for women will be conducted in room 1, Library, during the first week of the session. Appointments must be made in 124 Women's Physical Education Building the first day of the session. Physical examinations for men will be held in room 15, Library, during the fourth and fifth days of the session. Appointments for these examinations must also be made the first day of the session in room 15, Library.

* Grades: A, excellent; B, good; C, fair; D, barely passing; X, conditioned; F, failure. Concerning Grade X, it should be noted that in the Summer Session no reexaminations or special examinations are provided for the removal of conditions.

Grade points or quality units will be assigned as follows: grade A, three points for each unit; B, two points for each unit; C, one point for each unit; D, X, and F, no points for each unit. For students graduating in certain curricula there are required grade points equal in number to the number of units of work undertaken. For further information, see recent issues of the GENERAL CATALOGUE, DEPARTMENTS AT LOS ANGELES.

Auditors will be permitted to take physical education activity courses by paying the regular Summer Session tuition fee plus the course fees involved and passing the required medical examination.

Required Study of the United States Constitution—

American Institutions (page 51) 101 in the Summer Session may be offered to satisfy the requirement of a course in the Constitution of the United States for a university degree or a teacher's certificate.

Teachers' Certificates—

All students preparing for teaching or administration should consult the Credentials Counselor of the School of Education as early as possible in their academic careers, in order that their programs of study may be efficiently planned for teachers' certificates.

Appointment Secretary—

The Appointment Secretary will keep daily office hours during the session in room 123, Education Building. Those desiring positions in elementary schools, junior high schools, high schools, and colleges should register in this office.

Registrants for all positions must pay at the office of the Cashier a fee of \$5.00 to cover the cost of clerical work. This fee also entitles registrants to the service of the Appointment Office on the Berkeley campus.

The Secretary may more effectively aid superintendents and principals if notified in advance of the specific requirements of positions and the hours at which appointments are desired.

Conferences and Institutes—

As an extension and enrichment of the Summer Session program in Los Angeles there will be offered a number of conferences and institutes in specialized fields.

Conference on Elementary Supervision. Three weeks, July 19 to August 6. Dealing with problems of the elementary schools. Admission in order of application. Fee, \$17.50, for persons not enrolled in the Summer Session. 3 units. Leader, Miss Helen Heffernan, State Department of Education. (See Education 132T.)

School Executives' Fifth Annual Conference. One week, July 12-16. Leader, Dr. Lloyd N. Morrisett, Professor of Education. Morning and afternoon sessions each day. Fee, \$5.00. No credit. Theme: Our Schools in Wartime and After.

Conference on Today's Problems of Textiles and Clothing. Two weeks, July 12-23. Daily 2-4 P.M. Fee, \$5.00, for persons not enrolled in the Summer Session. Leader, Patricia L. Hungerland, Associate in Home Economics. (See Home Economics.)

Conference on Wartime Food Problems. Two weeks, July 26 to August 6. Daily 2-4 P.M. Fee, \$5.00, for persons not enrolled in the Summer Session. Leader, Dr. Gladys T. Stevenson, Assistant Professor of Home Economics. (See Home Economics.)

Radio Institute. Offered in collaboration with the National Broadcasting Company, Western Division, Hollywood. Six weeks, June 28 to August 6. Courses include Control Room Operation, Radio Acting, Radio Writing, Radio Survey Course, Radio Production Direction, Radio Announcing. Fee, \$40, plus \$4.00 laboratory fee. Registration, June 26 and 28. Leader, for the Summer Session, Mr. Ralph Freud, Lecturer in Public Speaking. (See English.)

Summer Regional Conference on Childhood Education. Offered in collaboration with the Association for Childhood Education. July 13-16. Fee to be announced at a later date. Leader, Dr. Helen Christianson, Supervisor of Nursery School Training.

Other special conferences and meetings will be announced later.

Library Hours—

Throughout the Summer Session the University Library will be open daily from 7:45 A.M. to 9:00 P.M., Monday to Friday inclusive, from 7:45 A.M. to 1:00 P.M., Saturday, and from 2:00 P.M. to 5:00 P.M., Sunday. The admission card of the Summer Session student entitles him to full library privileges including the home use of books. In accordance with the practice in regular sessions, no additional library fee is required.

Supplementing the collections of the University Library is the William Andrews Clark Memorial Library of about 26,000 volumes, primarily in the fields of English Literature and northwestern United States history. This library is situated at 2205 West Adams Boulevard in Los Angeles. Admittance of students and visitors is by card, which may be obtained at the office of the University Librarian on the campus.

The Los Angeles Public Library, on South Hope Street between Fifth and Sixth streets, the West Los Angeles Branch Library, Purdue Street and Santa Monica Boulevard, and the Santa Monica Public Library, 503 Santa Monica Boulevard, are open every week day, and will grant readers' cards to Summer Session students who present, with their applications, cards obtainable from and signed by the Registrar, certifying that they are students in the University.

Situation and Transportation—

The campus of the University of California at Los Angeles, comprising 384 acres, is situated in Westwood Village which is within the corporate limits of the City of Los Angeles. It extends along the south side of Sunset Boulevard from Hilgard Avenue to Veteran Avenue, and is bounded on the south by Le-Conte and Gayley avenues.

Bus lines operated by the Los Angeles Motor Coach, Pacific Electric Railway,

and Bay Cities Transit companies connect Pershing Square, Pico, Wilshire, Beverly, Sunset, and Hollywood boulevards and districts of Santa Monica, Ocean Park, Venice, Brentwood Heights, West Los Angeles, and Cheviot Hills with the University.

Accommodations and Expenses—

In privately owned dormitories, fraternity and sorority houses, housekeeping dormitories, and private homes near the University students may obtain room and board at prices ranging from \$65 to \$95 for the six weeks. A list of addresses offering board or lodging or both will be ready for distribution June 10 at the offices of the Summer Session, 242 Administration Building, of the Dean of Women, 239 Administration Building, and of the Dean of Undergraduates, 202 Administration Building, 405 Hilgard Avenue, University of California, Los Angeles. Copies will be mailed on request. Strangers will be given every assistance in their search for suitable accommodations.

The following table will help the student to estimate the expense, apart from transportation to Los Angeles, of attending the six weeks of the Summer Session:

University tuition fee.....	\$25-	\$25.00
Laboratory fees (according to courses taken).....	0-	17.50
Board and room, six weeks.....	65-	95.00
Textbooks and stationery.....	5-	15.00
Personal laundry	5-	12.00
		<hr/>
Total.....	\$100-	\$164.50

The Associated Students' Store carries all textbooks for Summer Session courses, stationery, and other supplies.

Y. W. C. A.—

The building of the Young Women's Christian Association, at 574 Hilgard Avenue near the east campus entrance, will be open throughout the Summer Session to all women students. It provides reading and rest rooms. A limited number of women desiring to be near the campus may procure dormitory sleeping accommodations in the building at a reasonable rate. Single rooms and an apartment are also available. A staff secretary will be on duty during the session.

Recreation and Excursions—

Opportunities for sport and pleasure are numerous in the neighborhood of Los Angeles. The coast is lined with excellent beaches for swimming; excursions may be made to the old missions, to the Griffith Observatory and Planetarium, to Santa Barbara and Riverside, to Pasadena and San Diego, to Lake Arrowhead and other mountain resorts, to Scripps Institution of Oceanography at La Jolla, and to the W. K. Kellogg Institute of Animal Husbandry at Pomona.

Summer Session Bruin—

The *Summer Session Bruin* is issued twice each week throughout the session and contains, in addition to news, announcements of lectures, concerts, exhibits, meetings of University organizations, and general information of interest to visitors. This paper is distributed free of charge to Summer Session students.

Buildings and Equipment—

The buildings of the University of California, Los Angeles, are situated on a ridge of land running south from Sunset Boulevard, and are approached from the east by a monumental bridge and from the west by the West Stairway. The central esplanade is flanked by four buildings, all in ruffled red brick and artificial stone, with tile roofs, in a style of architecture inspired by the Romanesque of northern Italy.

To the south of the bridge is the Administration Building, in which are the offices of the President, the Director of Summer Sessions, the Registrar, the Comptroller, the Director of Admissions, the Dean of Undergraduates, the Dean of Women, and the Dean of the Graduate Division. Along the arroyo beneath the bridge on the west side of this building, is an extensive botanical garden.

The Library building facing north is on the south side of the esplanade. On the second floor are the main reading room, and the catalogue, reference, and general circulation desks. In the west wing of the first floor, is the reserved book reading room and the graduate reading room. The Library contains 425,000 volumes and regularly receives 6,900 periodicals.

Josiah Royce Hall, facing the north side of the esplanade, has forty-seven classrooms of various sizes, the administrative office of the College of Applied Arts, many faculty offices, and an auditorium which seats 1,902 persons and has a spacious stage fully equipped for theatrical and musical productions. A Skinner pipe organ, a gift to the University, is in the auditorium.

The Chemistry-Geology Building, east of Royce Hall, contains classrooms and laboratories, and a lecture hall with a seating capacity of about 400. The Physics-Biology Building, east of the Library, also has a lecture room of the clinical theater type, seating 250 persons. The College of Agriculture has headquarters in this building.

South of the Library and facing east is the Education Building, housing the departments of education, music, art, and home economics, as well as the administrative offices of the School of Education and the Appointment Secretary. Two lecture rooms are especially adapted for musical and dramatic productions for small audiences.

West of the Education Building is Kerchhoff Hall, erected by Mrs. William G. Kerckhoff, of Los Angeles, as a memorial to her husband. It serves as a center for the social activities of students and faculty and contains the Students' Coöperative Store, several dining rooms and lounges, and the offices of student publications.

The first unit of the Life Science Group is southeast of the Education Building; it houses the department of psychology. On the west slope of the arroyo near this building is a group of five smaller buildings constituting the vivarium for the life sciences, and providing research facilities for the various life sciences.

The Physical Education Buildings for Women and Men are situated on a lower level west of Royce Hall and the Library, and are approached from the esplanade above by the West Stairway. Each gymnasium has an outdoor swimming pool, large gymnasium floors, recreation rooms, special training rooms for students who are physically handicapped, and extensive equipment suited to the practice of the most modern physical education methods.

Outdoor playing fields including running track, football and hockey fields, and basketball and tennis courts, are across from the gymnasiums, along Westwood Boulevard.

Near the south campus entrance, on Westwood Boulevard, are the Mechanic Arts Building and shops, and an outdoor amphitheatre.

University of California Summer Session in Berkeley—

The University of California's Summer Session at Berkeley will begin June 28, 1943, and continue for six weeks until August 6.

Information—

Full information concerning both the Berkeley and Los Angeles Summer Sessions of the University of California may be obtained at the office of the Summer Session, 242 Administration Building, 405 Hilgard Avenue, Los Angeles (telephones: BRadshaw 22171 or ARizona 30971) and at the Extension Division Office, 813 South Hill Street, which is open daily.

SCHOOLS FOR CHILDREN**ELEMENTARY DEMONSTRATION SCHOOL**

The Demonstration School, in session daily from 9 A.M. to 12 M., will comprise a complete elementary school unit from the nursery school through the eighth grade. It also includes a multigraded room. Classes are open for observation by Summer Session students, especially those enrolled in related courses. Visitors may obtain single admission tickets on sale at the school office.

The work of each group is planned to illustrate concretely how a completely integrated child experience in the social studies draws upon and utilizes curricular materials from the various subject-matter fields. The aims, objectives, methods of procedure, and the outcomes of the activity approach to child education will be made evident through observation and by discussion. The constant aim is to work from and to illustrate the use of basic principles of teaching and learning.

Enrollment of children in the Demonstration School should be secured by advanced application in order to insure acceptance. Applications for enrollment should be made between June 1 and June 20 to Miss Corinne A. Seeds, Principal of the Demonstration School, 725 Woodruff Avenue, Los Angeles, California. Final registration of applicants will take place on Saturday, June 26, from 8:30 A.M. to 12 M. The fee for the six weeks of the nursery school is \$25; for kindergarten, \$12; for grades one to eight, \$10. The fee should be paid at the time of application and not later than registration day. Checks should be made payable to The Regents of the University of California.

CLINICAL SCHOOL

A clinical school under the direction of Miss Grace M. Fernald and Miss Ellen B. Sullivan will be conducted in connection with the course in Clinical Psychology given by Miss Fernald. Diagnostic tests will be given to each pupil admitted to the school followed by remedial instruction for the period of the Summer Session. Special attention will be given to children and adults of normal intelligence who have difficulty with specific school subjects such as reading, spelling, arithmetic, and foreign language. Opportunity will be given to all members of the class in Clinical Psychology (see Psychology S166A) to observe or to assist in the work of the Clinical School.

The regular class work of the Clinical School will begin on Monday, June 28, at 9 o'clock and will continue for a period of six weeks from 9 A.M. to 12 M. for those enrolled in the 1st section and from 1 P.M. to 4 P.M. for those in the 2nd section, Monday through Friday until the close of the Summer Session, August 6.

Applications for enrollment of children should be made between June 1 and June 20 to the Office of the Summer Session, 405 Hilgard Avenue, Los Angeles, California. The fee is \$25 and is payable on registration day, Saturday, June 26, only.

VACATION HIGH SCHOOL

By arrangement with the Los Angeles Board of Education and the Superintendent of Schools, Los Angeles High School will be open during the Summer Session from 8:00 A.M. to 2 P.M., five days a week. Students who elect two subjects will attend six weeks only, but those electing three subjects will continue for an additional two weeks' period. Work in grades 9 to 12 will be offered. The school is located at 4600 West Olympic Blvd., Los Angeles. Classes will be open daily for observation by University Summer Session students, and for supervised teaching by students enrolled in Education G378 or J374. Persons not enrolled in the Summer Session may visit the school upon payment of the auditor's fee of fifty cents for each visit.

High school students will be received from any school district but it is advisable to arrange with the home school before entrance, if credit for high school graduation is desired. Students may obtain semester credit for one or two subjects.

Enrollment should be made after June 1 by advance application to the principal, Dr. Paul E. Webb, at Los Angeles High School. Registration will take place at the High School on Saturday, June 26, and Monday, June 28, from 8:00 A.M. to 12:00 M. The fee is \$6.00 a course for the six or eight weeks session. This fee must be paid on registration day. Checks should be made payable to The Regents of the University of California.

CIRCULARS OF INFORMATION

For information concerning the colleges of the University of California, Los Angeles, write to the *Registrar, University of California*, 405 Hilgard Avenue, Los Angeles, California. For circulars of information concerning the several colleges and departments of the University elsewhere please write to the *Registrar, University of California, Berkeley, California*, mentioning the department of study in which you are interested.

*Before filling out Application Blank please read carefully.

Summer Session courses which are identical, or nearly so, with courses given during the regular sessions at Los Angeles, but which carry a different number of units, are distinguished by the letter "S" prefixed to the regular number of the course.

The maximum program which a student in the Summer Session is permitted to carry for credit is six units; if a graduate course (numbered 200–299) is included, the maximum is four units. Exceptions to this rule may be made for graduate students only by permission of the Dean of the Graduate Division. No exceptions will be made for undergraduate students.

If you are now in attendance in regular session at the University of California at Los Angeles, check here:

ALBERT ELKUS, *Director*

INVOCATION:

THE REVEREND ULYSS S. MITCHELL
First Baptist Church, Berkeley

MUSIC:

1. Let us now praise famous men . . . *Ralph Vaughan Williams*
(Words selected from Ecclesiasticus XLIV)

Let us now praise famous men, and our fathers that begot us.
Such as did bear rule in their kingdoms, men renowned for their
power,

Leaders of the people by their counsels, and by their knowledge.
Such as found out musical tunes, and recited verses in writing:
All these were honoured in their generations, and were the glory of
their times.

And some there be, which have no memorial; who are perished, as
though they had never been.

Their bodies are buried in peace; but their name liveth forevermore.

2. The heavens are telling *Josef Haydn*
(From the oratorio "The Creation")

The heavens are telling the glory of God,
The wonder of His work displays the firmament.

The University Chorus, Treble Clef Society,
University of California Glee Club and the

UNDERGRADUATE SCHOLARSHIPS

1943-1944

The scholarships here listed, with but few exceptions, are awarded upon the recommendation of the Committee on Undergraduate Scholarships. The awards made by the Committee are based upon scholarship, need, and promise, and represent a real distinction, comparable in most cases with the attainment of honors status, excepting where the special conditions of the bequest are such as largely to eliminate competition.

EXPLANATORY NOTE

KEY TO ABBREVIATIONS USED

IN THE CATALOGUE OF STUDENTS are given in order: student's name, college address and telephone number, his status, and the place from which he registered in the University; all such places are in California unless stated to be elsewhere. For *undergraduate students* the college or school is indicated as follows:

Agr	Agriculture	Med	Medicine (first year)
Arch	Architecture	Min	Mining
Chem	Chemistry	Nurs	Nursing
Com	Commerce	Optom	Optometry
Eng	Engineering	Pharm	Pharmacy
LS	Letters and Science		

The status of the student is regular unless indicated special by s, after the number showing the class. The number 1, 2, 3, 4, etc., prefixed to the abbreviation showing the college indicates the class or year of residence; however, for undergraduate students in the schools of Architecture, Nursing and Optometry, and graduate students in the School of Jurisprudence and in the Medical School the number denotes the class, not the year of residence in the University, or in the Graduate Division.

Graduate students are not registered in colleges and for these students the school (Med., Juris, Arch, Ed, Libr, Nurs, Optom) or major subject is indicated. For students enrolled in the School of Education, the teaching major is listed preceding the abbreviation Ed indicating the School. The double dagger (†) marks the names of graduate students who are (1) candidates for the master's or doctor's degree registered with the Dean of the Graduate Division only; (2) holders of fellowships (from other institutions) who are permitted to engage in research at the University of California without formal registration.

Registration of graduate students in departments away from Berkeley is indicated by an abbreviation after the major subject, as follows:

(Agr-D)	College of Agriculture at Davis
(Agr-R)	College of Agriculture at Riverside
(D)	College of Dentistry at San Francisco
(HF)	George Williams Hooper Foundation for Medical Research
(LO)	Lick Observatory
(Med Depts)	Medical Departments in San Francisco
(Ph)	College of Pharmacy, San Francisco
(S)	Scripps Institution of Oceanography at La Jolla

In the CATALOGUE OF OFFICERS, officers of colleges or departments are designated by an abbreviation following the title, as follows:

(A)	California School of Fine Arts
(B)	Departments at Berkeley
(Agr-D)	College of Agriculture at Davis
(Agr-R)	College of Agriculture at Riverside
(D)	College of Dentistry
(H)	Hastings College of the Law
(HF)	George Williams Hooper Foundation for Medical Research
(Hosp)	University of California Hospital
(LA)	Departments at Los Angeles
(LO)	Lick Observatory
(M)	Medical School
(N)	School of Nursing
(Ph)	College of Pharmacy
(S)	Scripps Institution of Oceanography

The dagger (†) marks the names of officers who are married; the asterisk (*) the names of those absent on leave throughout the year; the double dagger (‡) the names of those on sabbatical leave in residence throughout the year; the superior figure ¹ means in residence first term only; ², second term only. The spread eagle (☞) indicates officers on leave for duty in the armed services; the profile eagle (☜) indicates officers on leave for civilian war work.

On the Berkeley campus, the names of the University buildings are abbreviated as follows:

AH	Agriculture Hall	Gilman	Gilman Hall
Adm	Administration Building	Gym M	Gymnasium for Men
Anthro	Anthropology Building	Hearst Gym	Hearst Gymnasium for Women
Anthro M	Anthropology Museum	Haviland	Haviland Hall

EXPLANATORY NOTE

KEY TO ABBREVIATIONS USED

IN THE CATALOGUE OF STUDENTS are given in order: student's name, college address and telephone number, his status, and the place from which he registered in the University; all such places are in California unless stated to be elsewhere.

For *undergraduate students* the college or school is indicated as follows:

Agr	Agriculture	LS	Letters and Science
Arch	Architecture	Med	Medicine (first year)
Bus Adm	Business Administration	Nurs	Nursing
Chem	Chemistry	Optom	Optometry
Eng	Engineering	Pharm	Pharmacy

The status of the student is regular unless indicated special by *s*, after the number showing the class. The number 1, 2, 3, 4, etc., prefixed to the abbreviation showing the college indicates the class or year of residence. The curriculum of students registered in the College of Engineering (Civil, Electrical, Mechanical, or Mining Engineering) is shown by the abbreviation CE, EE, ME, or Min, following the abbreviation for the college.

The superior figure ¹ marks the names of students registered in the summer term only; ² fall term only. The names of students registered as undergraduate students in the summer term and as graduate students in the fall term are indicated by the superior figure, ³ preceding the name in the undergraduate list.

Graduate students are not registered in colleges and for these students the school (Med, Juris, Arch, Educ, Libr, Nurs, Optom) or major subject is indicated. For students enrolled in the School of Education, the teaching major is listed preceding the abbreviation Ed indicating the School. For students in the School of Jurisprudence and in the Medical School, the number prefixed to the abbreviation for the school denotes the class, not the year of residence in the University.

Registration of graduate students in departments away from Berkeley is indicated by an abbreviation after the major subject, as follows:

(Agr-D)	College of Agriculture at Davis
(Agr-R)	College of Agriculture at Riverside
(D)	College of Dentistry at San Francisco
(HF)	George Williams Hooper Foundation for Medical Research
(LO)	Lick Observatory
(Med Depts)	Medical Departments in San Francisco
(Ph)	College of Pharmacy, San Francisco
(S)	Scripps Institution of Oceanography at La Jolla

In the CATALOGUE OF OFFICERS, officers of colleges or departments are designated by an abbreviation following the title, as follows:

(A)	California School of Fine Arts
(B)	Departments at Berkeley
(Agr-D)	College of Agriculture at Davis
(Agr-R)	College of Agriculture at Riverside
(D)	College of Dentistry
(H)	Hastings College of the Law
(HF)	George Williams Hooper Foundation for Medical Research
(Hosp)	University of California Hospital
(LA)	Departments at Los Angeles
(LO)	Lick Observatory
(M)	Medical School
(N)	School of Nursing
(Ph)	College of Pharmacy
(S)	Scripps Institution of Oceanography

The dagger (†) marks the names of officers who are married; the asterisk (*) the names of those absent on leave throughout the year; the double dagger (‡) the names of those on sabbatical leave in residence throughout the year; the superior figure ¹ means in residence summer term only; ², fall term only; ³, spring term only. The spread eagle (☞) indicates officers on leave for duty in the armed services; the profile eagle (☞) indicates officers on leave for civilian war work.

UNIVERSITY TELEPHONES, BERKELEY

UNIVERSITY OF CALIFORNIA (Connecting with all telephones on the University system) *Ashberry 6000*

To connect with any University telephone from outside, ask for Ashberry 6000; when the operator at the University answers, give the number desired with the word "Local." For example, "Local 204."

To connect with any University telephone from any University office, dial the number given in the University of California Local Telephone Directory.

To connect with a telephone outside of the University system, dial "O" for the University operator and give the local number of the telephone you are using before asking for connection with an outside line.

STATISTICAL ADDENDA

**FOR THE YEAR
1942-43**

SUMMARY OF STUDENTS

SUMMARY OF OFFICERS

SUMMARY OF DEGREES CONFERRED

COMPILED BY THE REGISTRAR

NOTE.—In the enumeration of students, each student who was registered and was in actual attendance at any time during the period covered by the report is counted as one student.

In the columns showing the number of students, officers, and degrees conferred, the upper left-hand figures refer to men; the lower to women; the figures on the right are totals.
