 My Name is Justo Larios I am forty five years
 of age and reside in San Jose and am a native

An you acquainted with the Ranchos called Las Flores
 claimed in this case and if so look upon the maps
 you have upon making a part of a common man
 and a map filed in this case and state whether
 said map is descriptive of the boundaries of said Ranch
 according to your knowledge of the place and whether
 there was or not a fence upon the said tract
 of land as early as the latter part of the year 1842
 or early in the year 1843

The said Rancho lies in the south of Lomas
 of Fisher to the west it joins with the lands of the
 Munges in the south it lies in the red
 wood mountains and in the east with lands
 of the late Carlos Lester

There is an oak tree standing near the edge of the
 main road marked with a sign of a cross made
 with the axe in the line dividing this Ranch
 from the Ranch of the late Carlos Lester which
 is the eastern boundary. There is creek called
 the Arroyo delas Flores which runs down from
 the Red wood mountains which is the eastern
 boundary line.

The Arroyo delas Flores runs down
 from the Red wood mountains west part of this
 land and then runs over the lands of the late
 Carlos Lester Railroad leading from Martinez
 to San Jose runs through the land As to the
 map shown me I can neither read nor write
 and don't understand what is written

There was a house
 on the land in the latter part of the year 1842
 Lorenzo Pinedo lived in said house with his
 parents about that time I don't know him long
 since and then he did not live much
 after it until after the Murphys lived there

Murphys have occupied it with horses and cattle and horses cultivated some of the land I saw a field of wheat growing and they erected a saw mill on the land which is now in operation and has been since they built it and this occupation has continued up to the present day.

Martin Murphy heir of Juan &
of Bernardo Murphy deceased

The United States

It appears from an expediente found among the
archives of the former Mexican Government copies
of which is filed in the case under consideration in
evidence under the certificate of the Surveyor General
authenticated upon his private seal.

By stipulation
with the W. G. Associated Law Agent that in the
year 1842 Lorenzo Pinedo a citizen of the Pueblo
of San Jose presented his petition to the government
over this the undersigned tract of land named
the Leanza, or Los Vilas adjoining the Rancho
of los Capitanes cities over which his cattle ranged
in consequence of the one which he occupied being
too small He therefore prays that ownership of as
much may be granted to him in manner that he
may occupy it with cattle and for building timber
After making the customary preliminary inves-
tigations the Governor on the 14th day of June 1842
made him a formal grant of the land to the extent
of two leagues and a half bounded by the Arroyo de
los Vilas, the Sierra Geral the Arroyo la Linda
and the Loma del Laurel

These boundaries are all
natural objects described in the maps to
which reference is made in the grant as surrounding
the land in its four sides Henry F. Pitts whose dep-
osition is filed in the case, gives the same executed
a survey of the land according to the boundaries
described in the grant and made a calculation
of the quantity contained by them which he found
to be a little over two leagues but less than two and
a half the quantity called from the title.

From this testimony
of the quantity and location of the tract can be
established without difficulty there is no evidence
that the grant ever received the approval of the leg-
islative Assembly. The claim therefore in regard
to the form of its grants of the Board must rest
in equity in this aspect the question of the proper-
ties of the conditions of the grant becomes more
vague upon this point the following are vague

and to some extent conflicting Jose Haracio Castro testifies that he has known said Rancho since the year 1840 at which time the grantee Pineda had a small house in which he lived with his family also a stock of cattle and a small time was no cultivation.

Witness lived in the ranch
or house he thinks Pineda lived there until the year 1849 Mrs. Larios testifies that there was a house with the land in the latter part of the year 1842 and for years Pineda lived in said house with his family until that time. He does not know how long he continued to reside there, in his cross examination he says that he does not know of his own knowledge who lived in the house than he occasionally passed by it but never called at it he presumed however that Pineda lived in it.

Antonio Maria Pinoque testifies that he has known the Rancho for many years that it was granted to Lorenzo Pineda about the year 1842 and was occupied by him from or before that time with his cattle. The father-in-law of Pineda had a rancho adjoining the Lasas and Pineda lived there with his family in a house close to the bounds of the Lasas.

Pineda thus occupies the land till he sold it to Murphy the father of the present claimant. He had his house man upon it and had his cattle tended and herded there according to the custom of the country. They likewise cut timber on the Rancho.

He also testifies that Murphy occupied the land from the time of his purchase that he built a house and corral upon it in the year 1844 and continued to occupy it up to the time of giving his deposition and that he has never heard of any conflicting claim to the land. This evidence although it does not establish title only the part of an actual residence of the grantee in the land it nevertheless contains nothing in absolute conflict with such a presumption. Castro and Larios both state that he resided in the land while the testimony of Pinoque is that he lived in a house near the bounds of the Lasas without stating whether the house was situated in the latter or in the

adjoining Rancho of his father in law the Marques
and from his testimony however is that he considers
in the last mentioned tract the whole cadastral
plan together is we think sufficient to establish
a substantial compliance with the conditions of the
grant and in connection with the documentary
evidence to entitle the claimant to a confirmation
The original grant to Lorenzo Pinedo and his heirs
and from him to Bernardo Murphy was filed in the
case and this day executed and authenticated by
competent testimony

The claim in this case was confirmed by the Board of Commissioners - The case has been submitted without argument on the part of the appellants nor is any reason for reversing the decree of the Board seen suggested to us

In looking over the record it appears that the genuineness of the original grant is fully established - and indeed does not seem to be a fact seen controverted before the Board -

The evidence discloses a substantial compliance with the conditions of the grant and the boundaries of the land are distinctly indicated by natural objects - The land thus bounded has ^{on a survey} been found to contain less ^{than} the grantably called for in the grant -

We are unable to discover any reason for refusing to confirm the decree of the Commissioners. A decree to that effect must therefore be entered.
