2d Question -

Are you acquainted with the boundaries of the tract of land claimed in this case by Julius Martin in the tract called Entre Paso of five state town, also look at the plat or map in the document marked A and filed in this case and state whether the boundaries of said Martin's claim are therein correctly delineated?

Answer.

I am acquainted with the boundaries of Martin's claim in "Entre Paso" and this map is a correct representation of them. The tract lies between the "Anexo de las Carreras" and Paso Cruz Nicolas Kerquena who sold the land to Mellan told me the boundary commenced at a certain tree he sent his grand son to show me the tree the beginning corner he told us to run an East course to a spring at the foot of the hills and that the land lying south of that line was what he sold to Mellan. The tree lies at the Carreras Creek at the lower fork. The tree was marked as a corner tree.

3d Question -

boundary of said land!

Answer:

Some time in the year 1851 my brother Joseph B. Martin who was acting for Julius Martin came to my house and informed me that he had come to get Nicolas Heigunas to point out the corner of the land, and also to have the tract surveyed for Mr Martin - He requested me to go with him - I went to Heigunas house, and it was at that time that Heigunas gave me the information. We went then with the land with rd Heigunas grand son and found the tree - Heigunas himself afterwards came and showed us the tree. John C Brown the County Surveyor made the survey and this plat is the one he made of that survey. The tract is called Riveon delos Carriados!

177 ND
PAGE 7

4th Question

Who lived on this tract when that survey was made -

Answer - No person.

5th Question

Who has had possession since that time!

Answer.

There are several persons on it now, Maria Mias, Edward Nelson and Mr Sargey and others I do not know.

6th Question

How long have you known the premises and where do you reside!

Answer

I live 2 1/2 or 3 miles from the place and have since 1818 lived in the neighborhood and am well acquainted with the place.

Cross. Examined by W. S. Law Agent.

1. Question

Are you a practical Surveyor!

Answer - I am not.

2d Question.

How then do you know this map to be a correct delineation of the land which you have sworn to in this case!

Answer. I saw the Survey made

I know the limits of the creek and I think I could make as good a plat of the land myself as the Surveyor.

I know the bounds of the creek and I think I could make as good a map of the land myself altho I do not profess to be a practical surveyor. I think the map a correct representation of the land.

3^d Question

Are you interested in this claim.

Answer.

No: in no way.

This day personally came before Peter Lott Commissioner for taking testimony to be used before the Board of W. J. Land Commissioners in said State, Ramon de la Riva Abotups in behalf of the United States, in case no 323 on the docket of said Board, wherein Julius Martin is claimant and said witness being duly sworn on oath deposed in English as follows:
The claimants counsel is present.

1st Question

What is your name age and residence?

Answer. My name is Ramon de la Riva, my age 31 years. I reside in Los Angeles County California.

2^d Question

Did you ever reside in the County of Santa Fe, how long and were you acquainted with Paul J Walker while you lived there?

Depositing of Ramon de la Riva.

Answer.

I lived in Napa County from February 1851 to June 1853 and I know Joel P Walker while I lived there.

3^d Question.

Were you acquainted with the Rancho of Entre Rios formerly claimed by Nicolas Hequina, if yes what was the character of your acquaintance with it?

177 ND
PAGE 9

Answer.

I was acquainted with it I lived on it all the time I lived in Napa County

1st Question.

State whether the said Joel P Walker converses in Spanish language?

Answer.

He was not able up to the time I last knew him, some 14 months since, to hold a conversation in Spanish. He could speak a few words enough perhaps to buy a few articles. I acted as interpreter for him when he went to survey the land claimed in this case and he thus told me he did not understand enough of the language to know what Hequina said at that time.

5th Question.

Were you acquainted with Nicolas Hequina, if yes state whether he could speak the English language?

Answer.

I was acquainted with him and he could not speak a word of English.

6th Question.

Was you ever present at a conversation between Nicolas Hequina and Joel P Walker with reference to the land claimed by Julius Martin within the Entre Rios a tract, if yes state when where who was present what occasioned the conversation and what circumstances attended it?

Answer.

I was present at such a conversation between said parties. It was some three years ago or possibly a little more. It was on the place of Las Carnitas. Captain Walker a brother of Joel P and John C Brown and our other sons of Joel P Walker were present. A duel

...circumstances were that...

which Capt Walker heard from Julius Martin gave rise to the conversation. The circumstances were that Capt Walker had a duel from Mateo Tulum to Julius Martin and he Capt Walker said that he had that interest or that he represented Julius Martin I do not know what was the transaction between them Nicolas Heiquera told Joel P Walker and Capt Walker that he had sold a mile to the same Mateo Tulum on the wagon road (the main road from Sommar to Rupa) that Capt Walker and Joel P Walker agreed that they had bought the whole place according to the deed then Nicolas Heiquera denied it and said he only sold one mile of land. They talked in this way for a long time and they could not agree and at last Captain Walker said he was going to run the line that he knew what he had bought then the old man (Heiquera) went back to his house and I went with him.

(This answer objected to as hearsay testimony by Claimants Counsel as containing the declarations of the grantor and observations between third persons and for other reasons of substance.)

7th Question.

Who acted as interpreter in the conversation you have just repeated?

Answer.

I did at the request of Capt Walker, Joel P Walker and John O Brown the Surveyor who served me at that time.

8th Question -

State whether Capt Walker claimed to act as the Agent of Julius Martin at that time and whether he then and there Exhibited deeds and whether the two papers now shown for and marked Exhibit No 1 and Exhibit 2 to your deposition were then Exhibited by him?

8th Question objected to by Claimants Counsel as in part irrelevant & in part misleading -
P.S.

Answer -

He did not say that he was agent or was not but he Exhibited on that occasion the paper marked "Exhibit 2" a deed signed by Nicolas Heiquera and his wife the other paper Exhibit 1 I

11
do not recollect to have seen.

9th Question.

State whether either
Sgt P Walker or Capt Walker was a partner of
Julius Martin at that time?

Answer.

I do not know whether
they were either of them at that time partner of
said Martin.

10th Question.

What was the point of
land between the Camaras Creek and the Napa
River near their junction called?

Answer.

It was always called
"La Bolsa" de las Corugas. When I was there

11th Question.

Look at the map marked
"Exhibit B" annexed to disposition of Ramon G de la
River P L" and state whether it correctly delineates
the land between the two streams just mentioned as
far as it extends?

Answer.

This map is a correct de-
scription of the land between said streams according to
my recollection of the way the land lies.

12th Question.

Are you acquainted with
the wagon roads crossing the tract of Entre Napa and
with the point of hills and location of the high lands
in said Rancho East of the said Roads. If you point
out on said map the location of said roads and describe
said high lands?

Answer.

I am acquainted with
said roads, hills and high lands and it seems to me
that the road as laid down on the map is correctly laid
down, there is another road running further up in
the hills which passes by Nicolas Heiguera's house
and runs to Napa.

13th Question.

Do you know of a Squawper
occupying off the land in the "Bolsa" before mentioned
for sd Martin if you who was he and was he

11
forbidden to do so to survey it, if you by whom
and when did this occur?

Answer.

At the same time I
have before spoken of, when the Mackay and John
C. Brown were there together, said Brown surveyed
the land in the Bolsa, he was forbidden to do so by
me as a messenger, sent by Nicolas Requena and I
went and told him and Capt Mackay in the presence
of one Joseph Green, that Nicolas Requena forbids
him against their surveying said land.

1st Question.

Look again at the
document marked Exhibit 1. admitted to your
disposition and state whether from the words of the
description contained therein, you think with your
knowledge of the country, you could locate the quantity
of land called for in said document? —

Answer.

I will say that I do not
think I could locate a piece of land possibly
from this description or any other because I am no
surveyor and therefore there is no use in my reading
the document.

Cross Examined by Claimants Counsel.

1st Question.

What is the name of the
land between the Arroyo de los Carreros and the
Napa river?

This 1st Justice objected to as not cross exam-
ination by N. S. Law Agent.

P. L.

Answer.

By taking the whole grant
it is called Rancho de Napa Abasco, so far as I
recollect the point between the two streams near
their junction I was told when I lived there was
called the Bolsa and as Nicolas Requena told me
the place which was called "Rancho de los Carreros"
was about where the road crosses the Arroyo of los
Carreros at the point marked on said Mapas Ford
at the lower corral "because at the time when the
Mission was there they left some sheep about at

that point, the Corral was South of the road.

2d. Question

How far is it from the road just mentioned on the Arroyo de las Carreras to the foot of the hills laid down on said road map a North Easterly course along the road as laid down on said map!

Answer.

I think it is about 2 miles & maybe more or less.

2^d Question.

What is your profession what Office do you now hold and state whether you are acquainted with the Rancho of Entre Rapa formerly owned by Nicolas Requena in said County of Napa. State herein the Character of your acquaintance with said Rancho?

177 ND
PAGE 14

Answer.

I am a Surveyor by profession. I am now County Surveyor of Napa County. I am acquainted with the Rancho named I have had in my possession the Escondido of the title thereof and have surveyed the Rancho.

3^d Question

Are you acquainted with the Spanish language. If so, look at the words of description in the document marked Exhibit 1st disposition of Ramon de la Riva L^o and said in this case and state whether from your knowledge of the County the land intended to be granted by said document can be located by the words of description therein?

Answer.

I am acquainted with the Spanish language well enough to read it but cannot keep up a conversation in it very well with a Spaniard. I can speak it so as to make myself understood.

From my knowledge of the County I could not by these words of description locate the wide square of land called for because in the deed it mentions only a road and an indefinite point of hills and there is but one line mentioned in the deed and I do not know how from only one line of description to enclose 1200 acres of land.

4th Question

What is the distance from the point where the road crosses the Carrizo Creek to the first point of hills on said road to the East?

Answer.

It is two miles —

5th Question

Look at the map marked Exhibit 3 annexed to disposition of Ramon de la

Review P. 11 and say whether it correctly delineates the land its purports to represent and particularly with respect to the road laid down and the hills east of the Caminos Creek?

Answer.

I made a map of which this appears to me to be a traced copy and it is a correct description of the land it represents and the said road and hills as here laid down are correctly delineated.

PAGE 15

Errors Claimed by Claimants Counsel.

1st Question.

Do you know which place is called "Rincon de las Caminas?"

Answer.

I understand all the land forming the delta between the Caminos Creek and the Papoa River to be the "Rincon" without any definite limit to the North.

Containing one mile square

Opinion
by
Camm
Metc

No pretensions claims a part of the
Rancho of Entre Rapa, which Rancho he alleges
was granted in 1830 by Governor Manuel Chico to
Nicolás Heiguna who was judicially put into
possession of the premises with well defined
boundaries and who fully performed the conditions
of his grant.

In proof of title in himself in
the portion of the premises claimed, in the last the
petitioner has presented first a conveyance from
said Heiguna and wife to Mateo Tellow dated
November 13, 1847 and second a conveyance
from said Tellow and wife to him dated
July 1, 1851.

Both these conveyances are defective
in the description of the premises granted and both
in my judgment are void for uncertainty.

The premises are described
in the conveyance made by Heiguna as a certain
quantity of land lying along and situated in the
District and Territory already named in the
Talley of Rapa containing more or less, one mile
square of land in the place known as the Rancho
de las Carneras commencing at the wagon
road and ending at the point of the Hill on the
East. The description in the second convey-
ance is substantially the same and not more
definite in its terms.

There is nothing in the de-
scription to define any point on the road upon the
premises and to begin on the section in which it is
to be located any of the lines by which it is bounded
or any defined monuments by which the location
can be made by a Surveyor.

The rule is of universal
application that if the description in a conveyance
is so uncertain that it cannot be known what
estate was intended the conveyance is void.

This rule and trust applies in its full force to the conveyance under which the Claimant derives title.

This conveyance being thus ineffectual and inoperative the Claimant has failed to show any interest or title to any portion of the premises and is not consequently entitled to a decree in his favor.

There is nothing in the other evidence given in the case to avoid this result and his petition must therefore be directed ^{refused.}

San Francisco, July 27th 1855-

ON this day, before *Jos. A. Mourne* a

authorized to administer oaths, &c., &c., came *Matthew*
Fallon a witness produced on behalf of the
Claimant

in Case No. 177, being an appeal from the Board of Commissioners to ascertain and settle the Private Land Claims in the State of California, in Case No. 323 on the Docket of the said Board of Commissioners, and was duly sworn and testified as follows — his evidence being interpreted by

a sworn interpreter—

PRESENT: *Edward Stanley* for
Claimant + *Jos. A. Godfrey*
for the United States

QUESTION BY *E Stanley*—

Are you acquainted with the
Rancho Entre Mapa, formerly
owned by Nicholas Higuera?

Answer Yes. I have known
the Ranch since about the
year 1844. Exhibit hereto an-
nected is a correct representation
of that part of the Rancho known
as Higuera de los Cameros.

I purchased that part of the
Ranch, commencing at a point
where the wagon road crosses
the Cameros and running to the
point of the hills East, as repre-
sented on the Map, from thence

along ^{to the} Mapa River to its Junction
with Carreros creek, and from
thence along the Carreros creek
to the place of beginning
Nicolás Figuera took me
all around and showed me
the land described between
the river and the creek.

In making out the deed before
Governor Boggs who was jus-
tice of the peace, a question
arose as to the quantity of land
Governor Boggs was dictating
in English and an American
Sergeant in ~~English~~ Spanish
and Figuera asked if I would
be satisfied with the land
within the limits described
that he did not know how
much it was - I said yes -
neither of us knew how much
land there was and we put it
down one mile more or less.
I sold the whole of the land
to Julius Martin and he
paid me for it. The wagon
road where the measurement
commenced was near where
Salvador Vallejo's claim lies -
the point of the hills is a very
prominent point

Cross Examined. I have no interest
whatever in this claim -

On this day before me Charles Halsey

in said State a litigant produced in behalf of
the claimant in the case No 177 being an appeal
from the board of Commissioners to ascertain and
settle the private claims of land in the State of
California in case No 223 on the docket of
said Commissioners - and the said John E Brown
being duly sworn testifies as follows -

I have been acquainted with the
land claimed in this case since early
in the year 1850 - I have read the deposition
of Matthew Fallon in this case to which is
annexed a copy of the survey of the land
in question made by me in July 1850 -
I believe the said copy is a correct one
The copy of said survey is marked
"Exhibit A. J. A. Munroe. W. S. Compt." and attached
to Matthew Fallon's deposition. My first
acquaintance with the land in question

was early in the year or Spring of 1850 at which time I was appointed Agent of said Nicholas Higuera with power from him to survey and sell his land. We then took me all over his Rancho of "Entre Napa" pointing out what he wished sold and what he wished to keep: and at that time informed me that he had sold all the land South of a line leading from the ford over the Arroyo de los Camarros to the point of the hills on the east referred to in said Map. referred to, I was surprised to hear that he had sold this large body of good land and enquired to whom he had sold - he replied that he had sold it to his son in law Fallon "before you Yankees came into the country" as he said. Afterwards in the early part of July 1850 I was called upon by Capt Joseph Walker to make a survey of this land in question - When we went to survey it Nicholas Higuera went with us to the point on the Arroyo Camarros at the ford of said creek where the "Haddon Road" from Napa to Sonoma crosses and the same marked on the plot and informed me that that place was the beginning corner of the land he sold to Fallon. We then ran

to the point of the hills on the East near Napa River and stopped at a point where the said Nicholas Higuera planted the flag staff and told me that it was the place referred to in the deed to Fallon from him - The point on the hills where the said Higuera planted the flag staff is that marked on the map annexed to the deposition of Mathew Fallon - the said point of the hills is a very prominent object near Napa River - the hills terminate there - and the tract known as the Rincon de los Camaros south of the line first described is a rolling country containing no high hills, the point of the hills called for ^{it} will ^{be} almost impossible to mistake for any other object - I am acquainted with Ramon de la Riva who testifies in this case - He claimed to have a deed from Nicholas Higuera executed in either 1850 or 1851 for this land - the said Ramon de la Riva was a man of infamous character and from his general character I would not believe him under oath - The statement of the said Dela Riva in his deposition in which he says he acted as interpreter for me - is not true - Capt Walker who had been in California for many years spoke the Spanish language and interpreted for me, I never saw Ramon de la Riva -

as there was no necessity or authority
for me doing so -

I have no interest of whatever kind
or nature in this claim of land -

I have examined the traced copy of the map
of the Rincon de los Carreros, attached to the

Deposition of Matthew Fallon taken in this case on the 27th July 1855. Said copy marked "Exhibit A. J. A. Munroe v. S. Curran". The point on Los Carreros Creek (or Arroyo de los Carreros) ^{described} as the "Wagon Road", is a well known ford on said Arroyo & has been since I knew the place. The point of the hills on the East, is a well known natural object, near Napa River, and the land described in the plot referred to, purporting to have been surveyed by John G. Bram on the 9th July 1850, and lying between Napa River and the Arroyo de los Carreros, south of the line from the Wagon Road to the point of the hills, is that part of the County which has been known, since 1835, as the "Rincón de los Carreros".

At the wagon road, in the arroyo, there was a ford: it was on the Road from Napa to Sonoma.

I knew Ramon G. de la Riva, who formerly lived in Napa & was a witness in this case. He was a man of very bad character. —

I have no interest in this case in any way & have no claim or interest in the land claimed. —

vs Case No. 177, Dist Court - Case No. 323 - Land Commission
The United States

San Francisco, Cal. January 17th 1856.

On this day before Geo. Pon. Johnstone a Commissioner of the United States for the Districts of California duly authorized to administer oaths he became José S. Berreyesa _____ a witness produced on behalf of the United States Appellees in Case No. 177, being an appeal from the Board of Commissioners to ascertain and settle the Private Land Claims in the State of California, in Case No. 323, on the Docket of the said Board of Commissioners, and was duly sworn and testified as follows; his evidence being interpreted by B. F. Mahan a sworn Interpreter -

Present; U. S. Law Agent in behalf of the United States - Edwin Stanley Esq in behalf of Claimant and Appellant; -

Questions by U. S. Law Agent

"What is your name age and place of residence?"

"My name is José S. Berreyesa, I am thirty seven years of age, and I reside in Martinez Contra Costa County California." - "Are you ac-

acquainted with the Rancho originally granted to Nicolas Figueroa, and do you know where the Rincon de los Cañeros is: - point out the same if it is on the map now shown you attached to the deposition of Matthew Tolom, filed in this cause - and if not on said map state where it is." - I am acquainted with the Rancho granted to Nicolas Figueroa, I do know where the Rincon de los Cañeros is: the Rincon de los Cañeros is not shown on the map attached to the deposition of Matthew Tolom it lies north of the wagon road, as marked on the map - the road runs over a portion of the hills which form the said Rincon de los Cañeros. - "What has the point of land between Napa River and the Arroyo de los Cañeros as shown on the map been called, and how long has it been so known, and has it ever been known as ^{Rincon de} los Cañeros?"

(Objected to by Claimant's Counsel as leading -)

^{ref} The point of land between Napa River and the Arroyo de los Cañeros has been called, and known as the Bolsas de los Cañeros I lived in Sonoma from 1837 to 1849 and it was always known to me during that time by that name I did not know the land before 1837 - It has never in my knowledge been known

as the Rincon de los Carneros - Bolsas is understood to mean necks or strips of land, partially surrounded by water - Rincon is understood to be a point of plain or level land surrounded by hills or mountains partially, not altogether."

Cross Examination by Edw^d Stanley Esq^t
Atty for Claimant.

"How many acres or how much land is comprised in the tract of land or that part of it you call Rincon de los Carneros?"

"I think it comprehends or embraces a little less than a mile square." "How much land is comprised in what you call the Bolsas de los Carneros?" "I cannot make an estimate of the quantity because it is composed of several strips of land about the contents of which I can make no proper calculation;" "I do not know how many Bolsas there are - there are several."

"Do you know what part of the land formerly owned by Figueroa was purchased by Matthew Fallon?" "I have understood from Figueroa and Fallon that the said Figueroa had sold to Fallon one mile square of the land situated at the Rincon de los Carneros." "Do you know whether Matthew Fallon ever lived on or had possession of any part of the land on the Map south of the line from the wagon road to the point of the hills?" "Fallon never has lived

upon or cultivated any part of the land contained within the boundaries of the Rancho of Nicolas Figueroa that I know of. -" "What was the Rancho of Figueroa called?" "It was called, Napá - part of the valley of Napá. -" "Does any part of the land known by you as the Rincon de los Carneros come south of the Wagon Road?" "No part of it does. -" "I mean there was none of it to the south of the old Road, it was north of the old ford. -" "Was any part of the Rincon de los Carneros on the west side of the Arroyo de los Carneros?" "The Arroyo de los Carneros runs through the Rincon and a part of it lies to the east and a part to the west of the Arroyo. -" "What persons have you conversed with about this Rincon de los Carneros and these other localities on the map?" "or have you had any conversation with Mr Joseph Green who claims a piece of land inside of this map?" "I have never had any conversation with Mr Green about any of the lands represented on the map - nor about the Rincon de los Carneros. -" "At whose request did you come here to testify?" (Objected to by U.S. Law Agent as immaterial. -) "I came here to testify at the request of Nicolas Trias - who is a grand-son of Figueroa. -" "By what name is the land known which is described in

this map?" The lower part of it next to the River, is known as the Bolsas, and the upper portion is known, a part of it, as Huichica and the other part as the ends of Napa Valley."

Direct Examination resumed by U. S.

Law Agent -

"Is not the part known as Huichica on the west side of the Arroyo de los Carneros?" "It is." "Is not the line which is drawn on the map from the wagon Road to the point of the hills the southern boundary of Napa Valley?" "I never have known any particular southern boundary to Napa Valley - it ends where it spreads out into the plain." "Have you ever had any conversation with J. E. Bronn as to the location of the Rincon de los Carneros, and if so when and where and what was said?"

(Objected to by Claimant's Counsel as hearsay.) -

Mr Bronn on yesterday evening went to the St Francis Hotel in San Francisco - and spoke to me in relation to the lands of the Rincon de los Carneros, and asked me if I could draw him a sketch of it I told him I could and did so - Bronn also asked me to explain to him what were Bolsas and what was a Rincon and I told him what the two terms meant - we then

made an appointment to meet this morning at ten o'clock at Mr Brown's on private business of my own, we did meet at the time appointed and Brown asked me if I was going to testify in this case to-day - and I told him I was - Brown also asked me yesterday evening what I knew to be the Bolsas de los Carneros and the Rincon de los Carneros - I told him the locality of the two. -

Direct Examination resumed by Edw. Stanley Esq. Claimant's Counsel. -

"Do you know Ramon G de la Riva, if so what is his general reputation?" "I know him I never had an opportunity to become acquainted with his general reputation." "From what you have heard from others what was Riva's character for truth and veracity?" "I never heard anything about his reputation for truth & veracity." -

but had tried to steal the Rancho - I heard
nothing about the will in connection with the

January 16th 1856

On this day before Geo. Don. Johnstone as
Commissioner of the United States for the Dis-
tricts of California, duly authorized to admin-
ister oaths he he came Edward Cotterill,
a witness produced on behalf of the United
States Appellees in Case No. 177, being an
appeal from the Board of Commissioners to
ascertain and settle the Private Land Cl-
aims in the State of California, in Case
No. 323, in the docket of the said, Board,
of Commissioners and was duly sworn and
testified, as follows;

Present; U.S. Law Agent on behalf of the United
States - Edu^d Stanley Esq^r on behalf of
Claimant and Appellant.

Questions by U.S. Law Agent -

"What is your name, age, and place of res-
idence?" My name is Edward Cotterill
my age is thirty five year and I reside in

Napa Valley and have resided there since the year 1849." "Are you acquainted with Ramon G. de la Riva a witness in this case if yes how long have you known him and are you acquainted with his general character for truth and veracity in the community where he resides? What is that reputation good or bad and judging from such reputation would you believe him on oath?" "I am acquainted with Ramon G. de la Riva, I have known him since the fall of 1850 - I am acquainted with his general character for truth & veracity where he resides, have had a good deal of dealing with him - his reputation is very fair and I would believe him on oath." "Are you acquainted with J. E. Brown former County Surveyor of the County of Napa and also a witness in this case and Joel P. Walker also a witness in this case and with their respective characters for truth and veracity in the communities where they respectively reside if yes what are they good or bad and judging from that public reputation would you believe them respectively on their oaths?" "I am acquainted with J. E. Brown & Joel P. Walker

I am acquainted with their respective characters for truth and veracity in the community in which they live - the reputation of both of them is bad enough, one J. E. Brown is a land swindler and the other Joel P. Walker is a lying old hypocrite, and I don't think I would not believe them on oath. - "Would or would you not believe them on oath?" "I would not."

"Were you acquainted with Nicolas Higuera in his life-time and state whether or not he could talk English state also whether Brown could talk Spanish and whether these persons could converse together without an interpreter?" "I was acquainted with Nicolas Higuera - he could not talk English - I am almost confident that Brown could not talk Spanish when he came to the valley but am not certain he came to the valley in the Spring of 1850 - and he and Higuera could not converse together without the aid of an Interpreter." "Did you ever converse with said Higuera concerning the land he had sold to Mateo Bellon if yea state when and where and what he said?"

(Objected to by Counsel for Claimant on account of inadmissibility. -)

I have conversed with Higuera, concerning the land he had sold to Mateo Felton in August 1851 at the "Embarcadero" at the mouth of the "Carneros". I was there and shipped, and sold his grain for him - he told me that the next year he should, should sow about 200 fanegas - I then asked him if he had sold that land, the land on which he was living and farming, he lived about three quarters of a mile from the "Embarcadero" up the creek where his buildings were - his answer was as nearly as I can recollect that he had not sold it if he had that he would not have been there at that time - he also said, that the piece that he had sold was up above at the point of the hills he spoke in a general way and, I don't think he said anything about the quantity sold, or mentioned the name of the person to whom he had sold it. -

"Who holds possession of the land shown in the map filed herein, annexed to the deposition of Matthew Felton, comprising an area of 1804 ^{acres} _{1/2} Rods and 9 piles up to the time of the death of Higuera, and who has since occupied it?" "The old man (Higuera) held possession until he was taken sick, - he then moved back to the old adobe which

is about three miles from that place on his old Ranch where he died, - but his daughter Martha Higuera, continued in possession of the place which he left and still lives there. - "How long have the witnesses in this cause, ^(J. E. Brown & J. P. Walker) heretofore mentioned, lived in the community in which you ^{have} lived?" "Brown lived there about four years, and Walker I have known there nearly five years. - Was your knowledge of their respective character as testified heretofore gained while they so lived there?" "It was."

~~What examination was taken~~
Cross Examination by Edw^d Stanley Esq^r
Atty for Claimant. -

"When you speak of the reputation of Ramon I de la Riva, do you speak from your own knowledge or from what people generally say about him?" "I speak from my own knowledge - I have had several dealings with him - I came to this country in July 1848. - What dealings had you with de la Riva?" "I bought cattle, horses, and grain from him at different times. I was then merchandising with Joseph ~~Mont~~ Mont and supplied de la Riva with provisions that is he traded with me

"Did you ever hear anything against Brown except that he was shrewd in land trades?"

"I only know of Brown by his general reputation and what people said about him he could not be believed on oath where his interest was involved - he would deal fair if he was obliged to - he traded in nothing but land and was looked upon as tricky."

"Are you friendly with Brown?" "I was as friendly with him as I ought to be with any such man - I have nothing either for or against him." "How long had Nicolas Figueroa been living at the Embarcadero when you had the conversation with him in August 1851?"

"He had lived there long enough to raise the crop which I have spoken of shipping and selling." "At the time you conversed with Figueroa in August 1851, did you know that Martin had purchased a tract of land of him (Figueroa)?"

"I saw Martin in 1850 in Napa City and he had been drinking and bragging around and said that he would take in all the land from the old fields to Napa City in a claim which he had purchased." "Had Nicolas Figueroa lived at the adobe where you say he finally

went to and died, before he moved to the place where he raised the crop of which you speak?" "He had lived there." "Did you ever hear that Ramon G. de la Rivas was accused of forging a will, or any other forgery?" "No." "What is the connection between yourself and Joseph Mont at this or any former time?" "At present we have no connection - formerly we were partners in the mercantile business." "Did Mont ever buy any of the Higuera land from Higuera, or anybody else?" "He and I purchased a piece of the Higuera land outside of Martin's claims in partnership from Encarnacion the daughter of Nicolas Higuera." "Did de la Rivas ~~was~~ ever negotiate any trades for land for you in that neighborhood?" "He never did." "Did de la Riva ever negotiate for land for anybody else in that neighborhood from the heir of Higuera?" "Never, in my knowledge." "How many persons in your knowledge are interested in the land in controversy, claimed by Martin in this cause?" "Martha Frias Higuera and Joseph Gross and I suppose two squatters named W^m Hanley and Alderson # McGimsey." "When did

you and want dissolve partnership in business?" "A year ago, the first day of last October; and I am not directly or indirectly interested in the result of this suit; I am now engaged in farming and stock raising." "Do either of the daughters of Nicolas Higuera owe you anything?" "They do not." "When did you settle with them?" "I never had anything to do with but one of them - the one from whom I bought the land, I have heretofore mentioned, (Encarnacion) I paid her three thousand dollars the greater part in cash, for eight hundred acres which afterwards turned out to be about a thousand acres. I do not remember who either wrote or witnessed the deed - De la Rivas was in town the day the deed was executed, I don't know how he came, I think he came on horseback - De la Rivas lives with one of the daughters of Higuera, but I don't know whether he was married to her or not - the daughter's name with whom he lives was "Encarnacion" the one from whom I bought land." "Had you had any conversation with de la Rivas about the purchase you afterwards made,

of the land, from "Encarnacion" before you purchased it?" "I had". - "What was the subject and substance of your conversation with De La Riva?" "He said, that he thought there was a piece of land there for which there was no claimant which he said, he thought belonged to "Encarnacion" and asked me to see the County Surveyor - which I did, and reported to De La Riva, & Encarnacion accordingly - they then invited me to sell the land, as she thought she had better have the money than the land - then I did not think of buying it myself - the price Encarnacion put on the land, was five dollars per acre I afterwards spoke to Mr Mount about it and we concluded, to buy it. - No money was paid, to De La Riva, for the land, I don't know whether De La Riva, picked up the money, or Encarnacion when it was paid to her." "Are any of your connections interested in the land, in controversy?" "They are not." "What were the reports you heard about De La Riva, having been connected with the mill of the old man, Figueroa?" "I heard that he had influenced Figueroa,

to make the will in favor of his daughter, there was a controversy in Court about the claim of a woman who lived with Higueras & pretended to be his wife for her share of the land. —

"When you speak of your knowledge of the reputation of De La Rivas for truth & veracity, do you speak from your own knowledge, or on the ground of his reputation with the men with whom he had had dealings?" "I speak from both but more particularly from my own transactions with him." "When you heard the declaration of Martin in Napa City in 1850 that he would take in Napa City in the claim which had bought was he drunk or did he know what he was saying?" "He was a little tight but knew what he was about." "Have you and Mount divided that tract of land which you bought from Encarnacion?" "We have." —

"Did you have at any time business or partnership transactions with de la Rivas?"

"I have had business but no partnership transactions with him." "Was not the land purchased by you from Encarnacion Ni-

guera lying immediately north of the road ford at the Wagon Road, as shown on the map annexed to the deposition of Valon in this cause filed?" "The line of the land purchased by Morant and myself starts from the ford, - and the land lies to the north & east of that line - from the ford to the point of the hills as drawn on the map." -

(Defendant's or Claimant's Counsel objects to the testimony of Edward Cotterill on the ground that he is interested in the land in controversy.)

(Direct examination resumed by U. S. Law Agent.)

"Have you any interest in the land below the line last above mentioned?" "I have none and don't expect to have any - as long as it is in dispute my cattle run on it"

vs Case No. 177. District - Case No. 323. Land Commission
The United States

San Francisco Cal January 18th 1856.

On this day before Geo. P. Johnston, a Commissioner of the United States for the District of California, duly authorized, to administer oaths he came Joseph Mount, William Russell and James Sternback, witnesses produced on behalf of the United States, Appellees in Case No. 177, being an appeal from the Board of Commissioners to ascertain and settle the Private Land Claims in the State of California, in Case No. 323, on the Docket of the said Board of Commissioners, and was duly sworn and testified, as follows:

Present; U. S. Law Agent on behalf of the United States - Edw^d Stanley Esq^r on behalf of Claimant and Appellant.

Questions by U. S. Law Agent.

"What is your name, age, and name and place of residence?" "My name is Joseph Mount, I am forty nine years of age and I reside at Napa City in the County of Napa State of Cal^a.

"Are you acquainted with Ramon ~~de~~ la Riva, a witness in this case; if yea, how long have you known him, and where, and are you acquainted with his general character for truth and veracity in the community where he resides?" "What is that reputation?" "Good or bad?" and judging from such reputation would you believe him on oath?"

"I am acquainted with him; I became acquainted with him in the Fall of 1850, and have known him ever since. This was in Napa city. I am acquainted with his general character for truth and veracity in the neighborhood where he resides.

His reputation in these respects was good. I would believe him on oath."

"Are you acquainted with J. C. Brown, ~~and Joel P. Walker~~ former County Surveyor of the county of ~~Napa, and also~~ ~~Joel P. Walker~~ ~~and Joel P. Walker~~ Napa, and also ~~Joel P. Walker~~ witnesses in this case, and with their general character for truth and veracity in the community where they reside; if yea, what is it, good or bad; and judging from that public reputation, would you believe them on their oath."

"I am acquainted with J. C. Brown and Joel P. Walker; with Walker since the Fall of 1849, and with J. C. Brown, since the Fall

of 1850; I was acquainted with them

of 1850; I was acquainted with them
in Napa; I am acquainted with their
character for truth and veracity in
the community where they resided;
In regard to J. C. Brown, his character
is not very good, it is doubtful; I
would not believe him on oath where
his interests or prejudices are concerned;
~~I am acquainted~~ In regard to Joel P. Walker,
I would not say anything about his
character for truth and veracity; he is
always attending to other people's business
rather than his own.

Cross Examination. — "Do you claim
any claim in the ranches formerly owned
by Nicholas Higuera, called entre Napa?
"I do. From whom did you purchase?"
"I purchased, in connection with my former
partner, Edmund Cottrell, of one of the heirs
of Nicholas Higuera, Inmaculacion, daughter
of Nicholas Higuera;" "Did de la Riva nego-
tiate this trade for you?" "I have talked
before the trade with de la Riva, but my
partner, Mr. Cottrell, better understanding
the Spanish language, made the nego-
tiation with Inmaculacion Higuera." "In
the conversation you had with de la
Riva did you talk about the price of

the land?" "I did talk about the price of the land, but we came to nothing definite." "Did de la Riva write the deed or witness it?" "I think not." "Was not present when the money was paid, nor when the deed was executed." "If you know or have heard ~~any~~ charges against de la Riva respecting his forging a will of Nicholas Higuera, say what you know respecting the same?" Objected to by the U. S. Land Agent. "I never heard any charges of ^{de la Riva} ~~Nicholas Higuera~~ forging a will of Nicholas Higuera; I have understood that there was a will executed by John H. Hovell, which was proved in the Probate court of Santa Fe, New Mexico; I understand that the will was admitted to Probate; It was said that the will was executed when Nicholas Higuera was in an unconscious state; Never heard of de la Riva's having participated in the execution of this will; do not say this from personal knowledge; I do not know where Encarnacion is now; I do not know where Ricon de las Carneras is;" (Witness is here shown map annexed to the deposition of Matthew Fellora, and he is asked whether the land he claims with Cottrell does not

fellora, and he is asked whether the land he claimed with Cottrell does not lie immediately north of the line from the wagon road to the point of the hill?") "I cannot answer it from that map." (Witness is here shown map marked exhibit "A. G. P. G.") "I say that the land bought by myself and Cottrell commences at the old Ford on the Cañeras, and runs directly north; and another line runs from the same Ford to the point of the hills on the east; ~~at~~ the southern point it would make my land form a triangle; I do not know anything about the correctness of the map; I do not think the map is correct;" "Beginning at the Ford of the lower corral, in what direction does the line run of Salvado Vallejo's land?" "I do not know; I do not know whose land adjoins mine on the West; I came ~~here~~ to this country in 1849; the daughters of Figueroa are not in debt to me." "Were they ever in debt to you?" "There is one of them that has had a small account with me; I kept a grocery, dry goods, and general variety store in Napa; that one was Martha; the account was small and has been settled; Recamacion never had an account with me, nor with Mount & Cottrell."

"By my request, the Deputy Clerk of Santa
Barbara County, Mr. Fortuitous, Charles T. Briggs,
Manuel Castro, a native Californian, an
interpreter, was sent by me, and paid the
money, and brought me the papers in the
name of Mount & Cottrell, for the land
bought by us, specially referred to ~~by~~ ^{by} me
on the map." "The whole sum of three
thousand dollars in cash was paid, and
the deeds returned, duly witnessed; de la
Riva never received any of this money
that I know of; there was no understanding
between Cottrell and myself that I was to
to share the loss, if we lost ^{the} land; - "Did you
ever ^{hear} of Martin's claim to the land in
dispute before your purchase of Macaulay's?"
"I did by rumor." "Are you friendly with
Brown?" "I am on speaking terms with him.
I have never had any quarrel with him;
I knew him well to make a false statement
before a Grand Jury in relation to myself, ^{and another}
in the case of Macaulay, ~~who~~ who was
hung by the mob; I never had a law suit
with him; there was a law suit with him
in the name of our firm, but I was not
in the State at the time; I was in Cutaw
at the time; I might have been in Cutaw,

"I might not have been there; I was in the East at the time," "Are you a Mormon?" "I am not known as such; I have no claim upon the Church, ^{has the Church} ~~no have they~~ a claim upon me;" "Do you believe Jo. Smith was a prophet?" Objected to by the U. S. Law Agent. "I believe Jo. Smith was as much of a prophet as Mahomet;" "Do you believe Mahomet was a prophet?" "I have very little faith in the prophets;" "Do you believe that polygamy is lawful?" "I do not; I was in Cutaw; did not leave a family there, nor bring a family with me from there; I went there for cattle." "Were you ever a member of the Mormon Church?" Objected to by U. S. Law Agent. "I was. I came here at the request of Joseph Green."

Direct Examination resumed. — "Are you now a member of the Mormon Church?" "I have stated that they have no claim upon me as a society, nor have I upon them, to my knowledge." "Have you a wife and family that reside with you?" "I have, at Stapa city." "What is the name of the lawyer whom you say executed the will?" "Johnson." "Did he draw up the will as a lawyer?" "He drew up the will as a lawyer, and Nicholas Higuera signed it." "Did you have any

reflection upon Howell in connection with
the Will? "I did not."

state whether or not he could talk

talk Spanish anytime during the
year 1851; and whether those persons

Nicholas Higuera; he could not talk
English; Mr. Brown could not during
1851 talk Spanish well enough to be

understood; he could say a few words; Higuera and Brown could not talk together without an interpreter; I acted as Spanish interpreter for Brown in the Spring of 1850; I talk Spanish as well as Americans generally; I can converse in Spanish readily; I interpreted several times for Brown, but do not recollect with whom; I recollect once asking Nicolas Higuera some questions concerning land that Brown had purchased from Higuera, for Brown; -"

"When did you first learn Spanish?"
 "When I first came to this country in 1844; in the conversation of Brown with Higuera Brown spoke three or four words of English to me of Spanish - he could not hold a conversation in Spanish with any one; I came here to testify at the request of Mr Joseph Green who claims a piece of the land in controversy."

and says as follows:

Questions by U. S. Law Agent.

"What is your name age and place
of residence?" "My name is James Horn-
back, my age is fifty-four years, and
I live in Napa County California,
I am a farmer and stock raiser."

"Are you acquainted with Ramon G. de-
la Rivas a witness in this case, if yes
How long have you known him and are
you acquainted with his general char-
acter for truth and veracity in the com-
munity where he resided? - What is that
reputation good or bad, and judging
from such reputation would you be-
lieve him on oath?" "I know Ramon
G. de la Rivas, and have known him
about four years I was acquainted with
his general character for truth and ve-
racity in the community in which he
resided, - it is pretty hard to say what
it was some people spoke well of
him some spoke against him - it is
a hard question whether I would believe
him on oath or not - I don't know that
I would have any reasons to disbelieve
De la Rivas on oath - in saying that

it was a hard question whether I would believe de la Rivas on oath I did ^{not} means that it was a hard question to decide whether I would believe him or not but that it was a question I didn't like to answer. - "Are you acquainted with J. E. Brown former County Surveyor of the County of Napar, and with Joel P. Walker, witnesses in this case?" "And with their characters for truth and veracity in the community where they ~~they~~ resided, if you what were they good or bad, and judging from that public reputation would you believe them on their oaths?" "I am acquainted with J. E. Brown and Joel P. Walker and I am acquainted with their character for truth and veracity in the community where they have resided, - their respective character were not good, - I should be doubtful about believing them where their interests were concerned. -"

Cross Examination by Edw^d Stanley Esq^r Counsel for Claimant. -

"At whose request did you come here testify?" "At the request of Joseph Green who has been here several days

during the taking of these depositions -
and who has a tract of land, on the
Carreros and I believe embraced,
within the land, in controversy; I
came to this country in 1850; I have heard,
reports about the mill of Higuera, in
connection with De la Piva; - some people
thought that he had, acted badly about
Higuera's mill a great many thought
he had, not - there was something about
the old woman who lived with Higuera
~~he~~ claiming to be his wife &c: - I lived
close by Walker and a mile and a
half from Napa City where Brown lived,
and I did not form an opinion of
their character from what ~~the~~ ^{their enemies,} said,
about them but from a personal know-
ledge of their trades and dealings -
Brown I considered, not fair in a
trade of any kind; I am the father-
in-law of Edward Cotterell a witness
in this case and a former partner
of Joseph Mount; I have seen Hi-
guera, during his life time, but was
not acquainted, with him; Brown,
has owned and sold, a good deal of land,
about where I live at different times:-
it is about two years ago this winter

I think, when I first heard, that Julius
Martin, and John Walker, or Joseph
Walker, had a claim to the land in
dispute. —

Qu. 1- Do you know Ramon de la Rosa, a
witness in this case who formerly resided in Napa County,
and if you state whether you know his general character
and whether from your knowledge of his general character
you would believe him on oath. —

Ans. I do know said de la Rosa, since the
summer of 1850, or thereabouts, when he first came to
Napa Valley: he was at one time acting as agent of
Nicholas Herrera. his general character was bad,
he had the reputation of being a swindler: and
from my knowledge of his character, I could not
believe him on oath where he was interested. —

Qu. 2nd - are you acquainted with J. Travis Brown
formerly County Surgeon of Napa, & if so what

is his character for integrity & veracity, & would you believe him on oath?

177 ND
PAGE 120

Ans: I have known Brown since 1849; his character for integrity & veracity is unsuspected & I would believe him on oath as soon as any man. I have lived in Napa ever since 1849, & in 1851, I kept a hotel there for eight or ten months & twice then running a Steamboat, which enabled me to see a great many people—

Qu: Are you acquainted with the tract of land formerly owned by Nicholas Herrera, and sold by him to Matthew Fellon and by said Fellon to Julius Martin, and if so, what was said piece of land called?

Ans: I am acquainted with said land; it lies near Napa City, between La Cumeros Creek and Napa River. It was always known as the "Rincon de la Cumeros". I know this from the old Californians who resided in Napa; I spoke Spanish & could converse with them. The paper herewith annexed marked "T. G. B." correctly represents said land—

Qu: Have you any interest in this controversy?

extensively engaged in different kinds of business since
1850, - and represented Napa County in the State Assembly
last year

Answer I have heard Figueroa speak of that land - In the Summer of 1848, I applied to Figueroa to purchase a portion of this land near the junction of the Arroy de los Camarros and Napa River - in fact it included the junction of the Creek and River aforesaid, and he refused to sell it, as he did not own it, he said he had sold it to his son in law Matthew Fallon -

Julius Martin

vs

The U. S.

177 ND

The claim of the appellant in this case is founded on a grant made in 1836 by Governor Manuel Chico to Nicolas Figueroa. The authenticity of this grant is fully proved, nor does its validity appear to have been questioned either by the Board or the Law agent of the U. S. The original grant and the expediente from the Archives are produced, and the ^{former} record of the act of judicial delivery of possession is also exhibited showing that the ^{of Figueroa} land was formally put into possession with his land the Homesteads whereof were definite established by proper Authority. There seems to be no doubt that it is also shown that the conditions of the grant were fully complied with by Figueroa who has appeared to have enjoyed the uninterrupted possession of the grant except those portions

2

which he may have sold -
 until his death - ~~would~~ appears
~~the validity~~ There ~~seems~~ then
 to be no doubt as ~~to~~ the
 validity of the original grant
 as against the U. S. nor do
 I understand it to be disput-
 ed on this behalf -

This fact, having been ascertain-
^{it would seem that} ed, the chief duty of this Court
~~would seem to have~~ ~~been~~ ^{is}
 accomplished and the
 claim should be confirmed -
 It is however opposed
 nominally on behalf of the
 U. S. but really in behalf
 of parties claiming under
 Higuera and affirming the
 validity of the original grant,
 but denying the rights of the
 present claimant, Martin to the
 portion of the land alleged to
 have been conveyed ^{to} him -
 The real controversy is then for
 between the claimant and
 third persons and this Court
 is to decide asked in effect
 to decide between parties ~~between~~
 whose ^{interests} rights by the very terms
 of the act its decree cannot

lost sight of — and the
 time and labor of the Court
 would be devoted to trying
 a complicated series of cross
 objections in a ^{suit} proceeding not
 dissimilar to a proceeding
 in rem — but probably to
 carry into effect such ~~an attempt~~
~~it~~ But if this Court were to
 undertake to adjudicate upon
 the rights of a diverse claimants
 as between themselves the very
 nature of the proceeding would
 require it to permit all ^{such} adverse
 claimants to intervene, in every
 suit — The ~~inconvenience~~ impracticability
 of allowing ~~that~~ right
 was ~~fully~~ demonstrated ~~with~~ in
 the opinion delivered by Mr. Court
 Thompson in Case No. 2 before the
 Board and for the reasons
 there assigned this Court has
 heretofore decided that the ~~primary~~
~~inquiries~~ ~~to~~ the chief question
 after ascertaining the validity
 of the original grant as against
 the U. S. it would not attempt
 to adjudicate upon the rights of
 various claimants under the original

But would decree in favor
 of the party presenting the ap-
 plication provided he showed
 a prima facie right to the
 confirmation of his claim. In
 this way ~~the~~ alone could the
~~the~~ inquiries before this Court
 be limited to the questions the
 act intended it should decide
 while all questions of mere
 private right would be settled
 before the ordinary judicial
~~for~~ tribunals of the Country
 to which all parties have
 accep-

The only question then to be
 determined in this case is
 do the Census Commissions to
 the claimant in ~~this case~~
 show such a prima facie
 right in him as entitles him
 to a decree in his favor ~~without~~
~~proof~~ or are they so clearly void
 as to make it ~~impossible~~ ^{unwise} to
 reject his claim altho' we
 are satisfied that the land
 in no court can be the prop-
 erty of the U. S.

The claim was rejected by the Board on the ground that the description of the land in the mesue conveyances by Higuera to Fallon & wife & by the latter to the claimant was vague and uncertain - and that therefore nothing passed by the deeds.

The description is as follows

"a certain quantity of land lying
"and being situated in the district
"of Merced and Territory already named
"in the valley of Lapa contain
"ing more or less one mile square
"of land in the place known
"as the Rincon de las Carneras
"commencing on the wagon
"road & ending at the point of
"the hill on the East -

Much additional testimony has been taken in this Court - Had that testimony been before the Board it is not certain that this decision might not have

It is ^{to} think sufficiently established by the proofs that the Rincon de las Carneras is a triangular

piece of land embraced be-
 tween ^{Francia} ~~the~~ ^{river} ~~the~~ on one side
 and the Arroyo de Las Pame-
 ras on the other - These two
 streams come together at an
 acute angle at the south
 thus forming the apex & two
 sides of a triangle - The precise
 limits of the Pincon on the north
 seem not very definite - but
 the limits boundaries of the land
 in that direction are indicated
 in the survey with tolera-
 ble distinctness - The old cart
 wagon road crosses a line
 drawn from the ~~old~~ ~~dragon~~
 road to the point of the hills
 on the East would ^{nearly} join the
 base of the base of the triangle
 above described and I think
 sufficiently shows the intended
 limits of the grant in that
 direction - If then the grant
 had been of the Pincon, commencing
 at the line above stated I do
 not perceive that any ~~definitely~~
 would doubt could exist as to the
 precise track intended to be
 conveyed - But the words of

the grant are "a quantity
 of land containing more or
less one mile square in the
 place known as the Rincon
 de San Carneras commencing &
 was this then a grant of one
 mile square out of the larger
 quantity contained in the Rincon
 or did the grantor intend to
 convey the Rincon from the line
 mentioned adding a rough
 estimate of its supposed extent.

I incline to the latter view.
 If the parol testimony taken
 be deemed admissible there
 cannot I think remain any
 doubt ^{on the point} as to the grantor's intent
 and the equitable rights of the
 claimants as against the original
 grantor & his heirs to ^{have} retained
 the land according to the limits
 originally intended would seem
 indisputable —

The loose^{ness} and inaccuracy of
 the estimates of the area of land
 formed by the old California Mexican
 population of the country is no
 longer — and there is nothing
 improbable in the supposition

That a piece of land containing in fact 1800 acres should be described as containing a "square mile more or less" - If the intention had been to restrict the grantee to the precise quantity of one mile on the line mentioned the words "more or less" would hardly have been introduced - The fact that they are in the deed shows that the grant was not intended to be of any specific quantity of land but of some tract present to the mind and before the eyes of the parties - That tract or piece of land, ^{must} could only have been the Rincow limited on the north by the line mentioned in the grant.

It is unnecessary however to discuss the question further for no decision of this Court on this point can ultimately bind the parties who alone are the contestants. I think it clearly our duty to confirm the claim, ^{as against the G. & S.} to the extent whole Rincow south of the line mentioned without prejudice

however to the rights of any
third parties having or pretending
to have any ^{title} a house to the
the ^{same} land or to any part
of it —
