To the Honorable Land Commission for the ascertaining and settling of Private Land Claims in California
 The Petition of Jose de la Cruz Sanchez respectfully represents to your Honorable Body that on the 22nd of December 1836 he made and presented his Petition in writing to the Governor of California soliciting for himself the grant of a tract of land hereinafter described and known by the name of San Mateo that said Petition on the 20th of March 1837 was referred for further information to the Alcalde of San Francisco and that he reported thereupon that said land was only occupied by a few Indian families who did not work the same

That on the 3rd of July 1840 Governor Alvarado declared by Decree that your Petitioner ought to be attended to in his Petition but as there was no other vacant land in the neighborhood which might be given to the Indians living in San Mateo your Petitioner should not obtain a special grant to said land until such Indian families could be provided for but that your Petitioner should for all future times have the preference to any other person who might apply for it afterwards

And your Petitioner further saith that he made many applications during the following six years showing that said Indian families had left the land Petitioned for by him and that it might now be granted to him without prejudice to any body but that he could not succeed in obtaining a special grant

That said land is situated in the Marin county of San Francisco is known by the name of San Mateo and bounded on the South by the San Mateo Creek on the East by the Estuary on the North by the Rancho of Benitoni and on the West by the Sierra containing altogether two square leagues more or less

Your Petitioner therefore presents to your Honorable Body all the original documents showing the proceedings taken in this matter praying that your Honorable Body will confirm and validate his claim and title to said land

Por presentarlo y admitido

el escrito que antecede y en vista de lo que pide la parte
 contenida en el Yo el Alcalde de 1^a nominacion de la
 Jurisdiccion Ciudadano Guillermo Fittley: hice comparecer
 a Don Francisco Guerrero vecino de la misma jurisdiccion
 y preguntarlo en forma sobre los puntos a que se contrae
 el presente escrito, de que fue enterado que tenia que decir
 sobre el particular: dijo que esta notorio el deplorable estado
 de arruinamiento en que se haya a la ex-Mision de San
 Francisco tanto en sus casas como en sus haberes: pues si
 existen algunos en pie es por estar ocupados por vecinos
 que los sostienen apesar de que se hallan en deplorable
 estado: y las que ocupan los pocos neofitos que existen
 (en sps) estan abandonados lo mas y amenazando ruina
 En cuanto a haberes para la sustension y fomento: tambien
 esta notorio su esterminio: pues solo consisten, en unas
 cuantas lleguas viejas: caballos en igual estado: bueyes
 lo mismo, y una que otra se mortanea; y aunque ignora
 que tenga algunos recursos exteriores conque pueda contar
 para su resablecimiento: los interiores, esta a la vista que
 no tiene ningunos: esquilmos por consiguiente casi ning
 unos produce: y lo de ser muy cortas siembras de trigo
 apenas pueden subvenir a la mantencion de la Mayord
 omia y su familia: si bien esto solo mero cubriendo
 a la muy poca neofia que existe y se emplea en ellas.
 a que se agrega el fomento de mi holgancia e inutilidad
 publica que el resto de neofia: consiste en un corto
 numero de ellos y los mas de abandonado estado: y en
 general descontentos por la demandas que padesen:
 pues siempre estan embueltos mas en la muderia a demoras
 y hambre por los ningunos recursos con que cuentan
 mi terrenos estan como baldios y ocupados con bionas
 o particulares: pues como ha dho. la ex-Mision no
 los posee: que es cuanto tiene que decir sobre lo que se
 le ha preguntado: y en fin de ser asi verdad: lo firmo

Se haya la ex. Mision de San Francisco de Asis; esta a la vista; y es bien notoria su deplorable situacion y si no cuenta con algunos recursos exteriores por su establecimiento: los que tiene en el interior son: sin ningunos: por solo consisten en una peca de leguajola Vieja: Caballos lo mismo y buyes por consiguiente: una que otra res mostronea; y brazos para sus trabajos, muy abansados y discontentos por los padecimientos de desnudos ambores y falta de recursos para su mantenimiento: esquilunos no produce casi ninguno y del unico seylon y es de las cortas Siembras de trigo que apenas dan la manutencion de la Mayordomia y su familia: y en lo que estan lo mas del tiempo empleados y siempre ociosos regularmente: las casas de la ex. Now at present the District of San Francisco can
 not be considered as a Mission on account of the
 abandoned state in which it is and of want
 of stock and of hands. The only few Indians remain-
 ing are well wretched. The Government thinks for I
 believe for the said location inasmuch
 of want of the security they have of the crops relat-
 ing to them and which is not to want food which
 is the principal thing and to be enabled to look
 and for the necessary clothing in the spot ac-

 determined

Respectfully

Excellent Sir Governor
 There is some time since Don Jose de la Cruz
 Sanchez has solicited the tract of land called
 San Mateo and it has since been capable of being
 granted because the Indians have their houses
 and tillage in it the only land in which they
 calculate to subsist. Therefore I am of opinion
 that Sanchez has in his possession documents
 to show when the location is in a state of being
 granted.

 having been advised that the Indians should
 in no case be least prejudiced from it and as
 the land appears to be vacant from this fact

 be beneficial to myself in the Province but also
 to secure a successful termination of it will
 likewise result favorable to all parties

Among

 which aids us with operative means for the im-

 sustenance of our families and true with coun-

 Justice of the Peace for the town of
 San Francisco de Asis April 12th 1844.

The foregoing writing having been presented and
 admitted and on view of what the party there
 -in mentioned asks I do declare of the just com-
 -munion of this jurisdiction the City of Guadalupe
 -Hinkley made the resident Don Francisco
 -Garcia of the same jurisdiction appear and
 having been personally interrogated as to the points
 set forth in the present writing with which he
 was made acquainted what he had to say
 on the subject he said

That he is well apprised
 of the deplorable state of ruin in which the
 Ex Mission of San Francisco is now
 -as to the houses as to its stock for if there
 -are any houses standing at all it is owing
 to them being occupied by residents who
 sustain them in spite of being in a depre-
 -ciated state and the most of those which
 -the few courts now existing occupy are
 -abandoned and threatened with ruin
 -as to stock for the sustenance and improve-
 -ment the dissolution is also not true for
 it only consists of some few old worn horses
 in an equal condition when taken in and
 each animal goes astray as soon as
 -any person and although he is ignorant
 of whether it may have some extent of use in
 which to cultivate its reestablishment yet the in-
 -trinsic resources are apparently more consequently

The produce is almost nothing and the crop of the very small wheat fields can scarcely suffice for the maintenance of the Superintendent and his family this being very serious as well in the maintenance for the very few servants existing and employed in the Province though to which is added the engagement to the public interests and the business of the rest of the currents than consisting in a small number and most of them in an advanced age and in general being discontent on account of the state of our city under which they suffer for they are always enveloped in the misery of nakedness and hunger on account of having no means to reckon on their lands equivalent to being vacant and are occupied with stock of the Province for as he has said before the Ex Mission does not possess any which is all he has to say to what he has been interrogated about and in testimony of this being the truth he signed before me the present Justice the day and year annexed

In continuation the said Justice made to appear Don Jesus de la Cruz and of the aforementioned jurisdiction who having been interrogated about the points set forth in the preceding writings said that the actual state of the Ex Mission of San Francisco de Asis is apparently and notoriously a deplorable one and that it is without any resources in which to calculate its establishment

The resources it has in the interior are almost none as they only consist in a few mules horses and oxen in consequence of which each animal goes as they are victims an orphan and it is abandoned of hands for the labor and whose descent with their suffering from scarcity hunger and want of means for their maintenance. The produce almost no crop and the only income is from the small wheat fields which scarcely furnish for the maintenance of the Superintendent

and his family and in which they are for the most time employed and always regularly idle most houses in the Ex Mission are almost empty and in a deplorable condition and those which the residents occupy are the only ones that are in better repair which is all he has to say and in testimony of the truth of what he has declared he signed this before the present Justice and the assistants

In continuation Jose Bernas also of this jurisdiction like us appeared and having been made acquainted with the points set forth in the preceding writing and interrogated what he had to say about the matter he said

That it is true that the Ex Mission of San Francisco de Asis is very much deteriorated and in an almost total ruin and desolation that it has no exterior resources in which to calculate for its re establishment

That it has almost no interior resources those that is left are a few heads of old horses a few beans and men in the same condition and each one makes his day as without any more produce only a very small crop of wheat which scarcely suffices for the maintenance of the Superintendent and his family and in the morning and care of which the few servants existing are employed

This being a cause that they for the most time are idle that said servants are also in a very deplorable condition from natural want hunger and misery on account of not having neither resources nor liberty to procure means for their subsistence which causes their discontent and lastly they are in advanced age This is all he can say and in testimony of this being the truth he signed it before me the present Justice and the assistants the day and year past above written Jose Bernas Guillermano Huinibuy

Jose de la Cruz Sanchez }
vs }
The United States } San Mateo

The only documentary testimony filed in support of this claim consists of an original Expediente containing the preliminary proceedings upon the application of the present claimant for a grant of the land lying between the Rancho of Mumburi and Las Pulgas known by the name of San Mateo

The first paper contained in the document is the original Petition of Jose de la Cruz Sanchez praying for a grant of the land in question. Dated December 22nd 1836. Upon this Petition after several references and reports Manuel Jimini first Fiscal of the Departmental Assessor acting as Governor makes the following decree dated October 4th 1837

In view of what is represented by the Indians of San Francisco so that they be not deprived of the location of San Mateo which Don Jose de la Cruz Sanchez has solicited in his instance of the 22nd of December 1836 I have concluded by a decree of this date to resolve that there is no occasion for the solicitation of the above named Sanchez there being only the right of preference to another party in his favor in case at any time it should be resolved that the said land can be adjudicated to any particular individual

This is followed by an order signed Jimini dated 5th of October 1839 directing the Expediente to be returned to the interested party that he may pursue it when it may suit him as to his right. Then follows in the next time some additional testimony in support of the application and a decree of Governor Alvarado of which the following is a Copy San Juan July 3rd 1840. The interested party in this Expediente being preferred in the grant of the location of San Mateo in case it is given to any particular individual

and the Government being disposed to dissolve the
Community of the Mission of San Francisco offering
the Comrs to settle them that they may live
as freemen The interested party all at any time
be attended in the Solicitation he makes when
pursuing the will of the Indians has been known
whom the Justice of the Peace of that Community
will assemble in pursuance of orders and ask
themselves their free and spontaneous will in the
moment in which the indicated dissolution is
occurring giving the best circumstantial report
in continuation of this decree made in view of
all to resolve what is expedient

Señor Alvarado

Profective action appears to have been had
in the matter until April 1844 when San Diego
received his application by a new or supplement-
- ural Petition to Governor Micheltorena a com-
- panied by several depositions taken before the
- Alcalde of the 1st Jurisdiction of the Presid-
- ency of San Francisco going to show the neces-
- sity and arrangement of the Mission of
San Francisco and the business and destitute
condition of the Indians belonging to it
This new Petition was referred to the Secretary of
State who on the 30th of April 1844 makes
the following report

Excellent Señor Governor
There is some time since Don José de la Cruz
Sanchez has solicited the tract of land called
San Mateo and it has never been capable of
being granted because the Indians have their
houses and tillage upon it the only land on
which they calculate to subsist

When you are

of the opinion that San Diego should retain in his
possession these documents until the time
when the place shall be in a condition to be gra-
- nted your Excellency's superior determination
will however be more appropriate Mr. Fernan
This report is followed by a decree of Governor Micheltorena
- of the same date of which the following is a
- translation agreeable But let it be understood that
if he carries or gives the least annoyance to the Indians
with the object of showing that the land is vacant

by this act alone he shall lose all claim or right to the land and any other person may be considered as the just claimant of the place
Prohibit to read

178 ND
PAGE 27

Note The Translation of the Expediente into English by the Claimant is exceedingly inaccurate and the two last documents cited as from Translations made in the Office of the Commission
This decree is the last paper in the order of time contained in the Expediente and which is all action both on the part of the Government and the Claimant appears to have ended The few numbers and attention to copy of the said papers comprising the Expediente are only known by the admission of William Richardson This constitutes the whole Testimony in the case

There is no proof whatever that the Claimant ever was in possession of the land or exercised or claimed any exclusive ownership if the only evidence upon this point is that the cattle of the Sanchez family sometimes ranged over it

This evidence so far from establishing any right or title in the Claimant proves that his repeated applications for grant of the land were either refused or put aside until the land could be shown to be in a condition to be granted and the only concession in form of the Petition was an intimation that he should be prepared in case the Government should through some accident to grant the premises

This is clearly insufficient to invest the claimant with any such incipient right or equitable interest as would have bound the Commission of the Mexican Government or that of the United States which succeeded it, to pass up into a complete title, the whole matter remained in the discretion of the Government he might have refused to grant at all or he might have granted to any other person without violating any principle of Law or Equity The claim is not sustained by any principle or authority which has been presented for the Government of the Commission and must therefore be rejected

Señor Political chief

The citizen Jose de la Cruz Sanchez resident of the Presidio of San Francisco and native of the State of your residence, to you in due form: makes known that being the owner of some number of horned Cattle and horses needs for their security and the establishment of the property a tract of land. Hence it is that he applies to you in order that in use of your authority, you may be pleased to grant to him the middle land, between the one that Don Jose Sanchez (my father) possesses called Bivi Bivi to the north and that of Las Pulgas of Doña Soledad Ortega to the south; which is called of San Mateo..

Wherefore to your honor (V.S.) I pray you to decree in conformity with justice this my present petition which I make on common paper there not being any of the corresponding seal. I declare all that is necessary &c.

In compliance with the requirements in the Superior decree of the 20th of March ult: which is found on the margin of the petition that the citizen Jose de la Cruz Sanchez makes for the tract of San Mateo on the 22^d of December 1836: In report concerning the circumstances which favour this interested party: I must say; that, the petitioner has the requirements of law that he may be attended to; that although the land which he asks for, has been considered by the Ex-mission of San Francisco de Asis as its property: (pertinencia) the said Mission has only occupied a small portion of it for the sowing of wheat, corn &c. but without necessity; as before: these same labours were made in the vicinity of the same Mission which can be proved by the signs of cultivation of the land, and even by the public voice of antient people: and, if at present they are made there, the ambition of the old Missionaries to accumulate lands must be the reason; and the rest of the land has been without movable property belonging to the Mission. Its extension from North to South may be of one league a little more or less: and from East to West, the same with little difference. It bounds on the North with the Rancho of Buri Buri of Don Jose Sanchez, and besides the circumstances above mentioned this Rancho and the one called Laguna de la Merced of Don Francisco de Haro, are interposed: so that the aforesaid of San Mateo remains at a distance of more than four leagues of land from the circumference of the Mission. On the South it

bounds with the Rancho of Las Pulgas of Doña Soledad Ortega. The plat (diseño) of the aforesaid tract of San Mateo is the one with which this goes accompanied of which the same as of the present report your honor (S.S.) will make the use that you may think proper.

In view of what the Indians of San Francisco represent in order that they may not be deprived of the place called San Mateo which Don Jose de la Cruz Sanchez has applied for in his petition of the 22nd of December 1836: I have by decree of this day ordered: that the petition of the above named Sanchez cannot be granted, only he shall be aided by the right of preference to any other, in case it should be ordered at any time, that the said land can be adjudicated to any particular individual.

Jose de la Cruz Sanchez resident of this Jurisdiction before you in due form appears and states; that having solicited of the Departamental Superiority the concession of the land of San Mateo in consequence of it being recognized as belonging to the Mission of San Francisco de Asis: and having been destined to the Neophytes for their sowing grounds; this without doubt has been the obstacle for which it has not been granted to me.

Nevertheless; having a decree in my favour given by Don Manuel Jimeno during the time that he was Governor (ad interim) concerning said provision and which I have in my possession; and and lastly having obtained the spontaneous will of the same Neophytes that I may be able to occupy it hearing my protest of not troubling them in their works.

In virtue of which, and that I may be ratified in my purpose; I apply to you that you may cause a necessary number of them to appear in the office (Juzgado) of your charge; and before the witnesses of your assistance make known to them the corresponding information upon their said consent; that this Document may serve me as security in the necessary steps that in consequence of the cited investigation I must make before the Departamental Superiority; so soon as this document and the one upon which has been acted will be returned to me.

Wherefore, to you I beg to do as I ask in my present petition which I make on common paper there being none

Before me Francisco Guerrero Justice of the Peace of this jurisdiction I caused to appear the Neophytes of the settlement of Dolores to make known to them the present petition, and that they might say without prejudice to their persons and homes, whatever they had to say with regard to said solicitude, and they answered me in a loud voice that it was their greatest wish to cede the land of San Mateo in favor of Don Jose de la Cruz Sanchez, provided: that they would not be troubled in the portions upon which they live, and that they desired him to be as a friend with them. And having made several reflections to them respecting his petition, the Alcalde Crispo and all his subjects ratified with me what they had said before in presence of Don Manuel Sanchez for which reason I give the present to the interested party.

Jose de la Cruz Sanchez resident of this Jurisdiction before you in due form appears and says: that I have to go to Monterey with the object of making a petition before the Superior Government of the Department which will not only be beneficial to me in particular but also for obtaining the good result of the same. It will be also beneficial to all being the desire with which I am inspired; to direct myself to the source of protection; to make mention in some way for us to be aided with working hands for the Encouragement of our agriculture and the raising of cattle &c. which are to us of such absolute necessity for the sustenance of our families and many obligations: the same as for the number of the Jurisdiction to which we belong which is to pretend the liberty of the Neophytes that to day (it may be said) find themselves in a nearly total state of inaction and public inutility in the notoriously ruined Ex Mision of San Francisco de Asis; in detriment furthermore of the same Neophytes; and this being evident and palpable; with this probability I have decided myself to make the indicated pretention; and hoping to obtain a good result from the upright considerations of the Most Excellent Governor General; in view of future embarrassments; and to overcome those which may present themselves: I apply to you that in use of your attributions, you will make out a report of the necessary credible witnesses who may testify in form upon the following

points.

Wherefore: to you I beg that you act in justice and be pleased to admit the present on common paper there not being any of the corresponding seal. I declare all that is necessary &c.

The foregoing instrument having been presented and admitted and in view of what the party named in it asks for: I William Hinkley Alcalde of 1st Nomination of the Jurisdiction caused Don Francisco Guerrero resident of the same Jurisdiction to appear, and having been questioned upon the points to which the above instrument refers, the contents of which were made known to him, as to what he had to say upon the subject. He said: it is truly notorious: the deplorable state of ruin in which the Ex-Mission of San Francisco finds itself, not only in its buildings but also in its property; for if any of them are extant, it is because they are occupied by neighbours that repair them, notwithstanding; they are in a deplorable condition: and the ones that the few neophytes occupy (at times) also are abandoned nearly always and threaten ruin. With regard to the property for the sustenance and Encouragement; its destruction is also notorious: for, they consist only of a few old mares, horses in equal condition, oxen the same and a stray beef here and there and I even ignore of its having any external revenue upon which it counts for its reestablishment.

It is evident that means of its own it has none; consequently they have scarcely any produce from Cattle; and that which they derive from their limited sowing grounds of wheat barely provides for the maintenance of the administrator and his family; this serving only as a mere pastime to the very few neophytes that exist and occupy themselves in working:

to which may attributed the encouragement of their indolence and public inutility. That the rest of the Neophytes consist of a small number and the most of them of an advanced age, and generally dissatisfied for the nakedness in which they are, as they live in a state of nakedness and hunger: for the reason of they not having means upon which they can count: their lands are as vacant and occupied by the property of other individuals: since as he stated, the Ex-Mission does not own them: which is all that he has to say (testify) concerning what has been asked him, and he believes it so to be true. He signed before me this present Judge on the day of this date

In continuation I the above named Judge caused Don Jesus Nor to appear resident also of this Jurisdiction and in the same as to the foregoing: having been questioned upon the points to which the preceding refers: he said that the actual condition in which the Ex-Mission of San Francisco de Asis finds itself can be seen, and its deplorable situation is truly notorious: that if it does not depend upon some external funds for its reestablishment: those which it has on hand are almost none: these only consisting of a few old mares, horses the same and oxen as a matter of

course, a wild beef here and there and working ^{hands} very few and far advanced in age, and discontented on account of their sufferings from nakedness and hunger, and want of means for their maintenance. Produce from cattle it has scarcely any and from the only branch is that of their limited sowing grounds of wheat which surely scarcely yields enough for the maintenance of the administration (Mayordomia) and family, and in which they are occupied most of their time and always idle generally. The houses in the Ex-Mission are abandoned most of the time and in a desolate condition: and those which the neighbours occupy are the only ones that are more firm: which is all he has to testify: being what he has declared true, he signed before the present Judge and the assisting witnesses.

In continuation appeared also Jose Cornelio Bernal resident of the Jurisdiction; and having been made acquainted of the points relative to the instrument that precedes: And having been questioned as to what he had to say upon the matter, he said, it to be true that the Ex-Mission of San Francisco de Asis found itself very much deteriorated and in a nearly total ruin and desolation;

that if it does not count upon external means, it has no internal ones; for only small remains are left of old (caballada) horses, a few mares in the same condition, oxen and may be a wild or stray beef here and there; Produce only from the very limited harvests of wheat which are scarcely enough for the maintenance of the administrator and his family and in which sowings the few Neophytes that exist employ themselves, this being the cause why they are most of the time in idleness. That said Neophytes are also in a very deplorable condition of nakedness, hunger and misery for not having means, nor the liberty to earn their living which gives rise to their discontent and the most of them of an advanced age; being this all that he has to testify and which in truth is so: he signed it before the present Judge with the assisting witnesses on the day of this date

Jose de la Cruz Sanchez resident in the Jurisdiction of San Francisco, before your excellency with due respect present myself and say: that by the accompanying documents which are numbered from one to four Your Excellency will observe the repeated petitions that I made asking in property the place called San Mateo and ultimately I obtained only the grace of being preferred to any other individual, when the time should arrive for it to be adjudicated. San Francisco at present can no more be considered as a Mission for the abandonment in which it is, and for the want of property and working hands (brazos). It is the will of the very Indians (few) that are left: that if the Government deems it proper, the expressed land of San Mateo may be granted to me in property for the security they have of the good that results to them and it is, that they may not want for food which is the principal thing, and to be able to get on the premises

the necessaries for clothing according to their earnings. -
In view of this I beg that your Excellency vouchsafe to
grant to me what I ask: for with this, my numerous
family and myself will receive a great deal of favour
and also the Indians themselves who desire it and find
themselves without means to live in our community will
be thankful to you. I declare &c. &c. Monterey April

Jose de la Cruz Sanchez

To the Most Excellent Sir.

Most Excellent Governor

It is already some time that Don Jose de la Cruz Sanchez
has applied for the land called San Mateo, and it has
not been possible to cede it, as within it, the Indians
have their houses and their farms; the only land upon
which they count, for their maintenance, so that I am of
opinion that Mr Sanchez retain these documents in his
custody until the land shall be subject to concession.
The superior determination of your Excellency will
be the most proper.

Taken in Court.

Jose Antonio Alvarado sworn
L. A. Forbes Jr Interpreter
I am 70 years old - born in San Francisco at the Presidio - lived there until I went into the service at 15 years of age at the Presidio - continued in military service from 15 to 18 years I was Mayor Alamo at Mission of San Francisco - I was soldier in Spanish service before the Mexican Revolution - was Mayor Alamo of Mission five years - was appointed by Father Tijas Missionary Priest.

Know claimant in this case have known him since I was 19 or 20 years old - knew him when he was very young - He was one of the sons of Jose ^{Antonio} Manuel Sanchez

✓ One of my daughters married
a brother of the Clamant

The boundaries of the place
called San Mateo are one
from the Las Juntas down the
San Mateo ^{reek} to the shore of
the Bay the other is the
dividing line of José Antonio
Sanchez - the another is the
from the Cañada de San
Andrés to the Bay -

I know the boundaries by
Cause I was present when
the land was measured
to José de la ^{Antonia} Cruz Sanchez.

José de la Cruz Sanchez did
not take possession of that land
of San ^{Miguel} ^{San} ^{Antonio}
His brother José Pedro Sanchez
was the one that took posses-
sion of the land of San Mateo
José Pedro was in possession
for José de la Cruz - He
built a good adobe house
and corral - The house
was situated was near the
boundary of José Antonio Sanchez

23 It was built by José Pedro Sanchez my son in law. He built it by permission of José de la Cruz - I don't know how long he occupied it but he was there when the Americans came there - He died and his wife returned to my house -

He occupied all the rancho it was full of cattle and horses and bands of mares - He did not till that land He sowed on his father's land -

José de la Cruz Sanchez had maintained the Indians on the rancho at his own expense - They sowed & tilled the ground with his permission the relations to him were very amicable -

I know that José de la Cruz Sanchez, shared that land from the Government - we had all together nearly a same

4 And I could not fail to know a brother of mine José Maria Aloisio also solicited. The land he solicited it alone - not with any person. A brother of José de la Cruz did not solicit jointly with my brother - He wanted to buy José de la Cruz's rights but he would not sell. My brother did not obtain anything - he is dead -

W. G. Amund

I ceased to be Mayor Dono of the Mission about 10 years before the Americans came after I left the Mission I lived on my father's rancho at Aloisio until Americans came.

I know that José Pedro took possession for his brother because I was there every day and he was my son-in-law I saw with my own eyes

José de la Cruz gave possession to José Isidro - He had inherited the property and considered himself the owner.

A man doubt requires to know how to dance to do a thing like that. He merely told him to go and hold possession and as he was afraid that another might inherit and obtain it as my brother did inherit but could not get it as José de la Cruz was before him -

This was when José de la Cruz gave José Isidro the possession the house was already built as José Isidro thought it was within the limits of his father's rancho. But when it was found not to be and José de la Cruz made a petition for the land José Isidro wished to buy the land on which the house was but José de la Cruz refused.

6 And told him to go and live there for him. José Isidro had been living in the house a very little time before it was discovered not to be within limits of José Antonio Sanchez's rancho, by the survey of the latter—

Direct resumed

Isidro Sanchez paid for the building of the house.

The Parish of the Mission built the house near the Green Creek— The had grain in it and a chapel to say Mass— one part a granary and the other a chapel, The Indians holed, in a part of the house—in the granary— This was before José de la Cruz whited the land—

The house was not occupied as a granary & chapel after José de la Cruz whited the

land - When he solicited the land the priests no longer had their temporalities - After that it was occupied by the departed souls for it was left empty -

There was a very small corral or enclosure for sheep to the south of the ^{house of} José Pedro or Chino Sanchez -

The other corral was to the N. West further up near the foot of the hills -

At the mouth of the San Mateo there was a kind of island on which there was a small corral - it was not of much consequence - Further up there was another in which there were 200 hogs and still further up there was another I don't know the year but it was while we were all established there - for José Pedro was a man who had plenty and not little

8 José de la Cruz occupied
these corrales whenever he pleased,
he put in his horses and bands
of mares

H.

After José de la Cruz's death
no one claimed the land
or disputed his right to the
land - no body -

Prof. G. Amintore assumed
the cattle of all the sons
of José Antonio Sanchez
pastured on the San Mateo
Rancho José Lidro José Manuel
& José de la Cruz's cattle
pastured there -

Be it Remembered, that on this 23d day of March A. D. 1868

at my office in the United States Court Building, in the city of San Francisco, personally appeared before me Samuel Steel a Commissioner,

to take acknowledgment of Bail and Affidavits, etc., duly appointed by the Circuit Court of the United States, for the District of California, _____ a witness on

the behalf of the _____ in the above entitled suit.

R. T. Morrison Esq U.S. Atty, S. M. Wilson and Sidney L. Johnson Esqs appeared as Counsel

for the United States and Gregory Gale Esq., as Counsel for the the Claimants

And the said Witness, having been by me first cautioned and sworn, to testify to the truth, the whole truth, and nothing but the truth, in the cause aforesaid, did thereupon depose and say as follows, that is to say:

Examination in chief by _____

Question:—What is your name, age, occupation, and place of residence?

Answer:—My name is John Willis; my age is _____

years and upwards; my occupation is _____; and my place of residence _____

Question:—

Mr. Yau on behalf of Claimants

pediente on file in the office of the Sur-
veyor General, in this case, certified by
the Surveyor General, and marked "Exhibit

of the above Expediente from Spanish

He then offers the depositions (certified copies)

Puyster, witnesses produced in behalf of the
United States in the case of The United States
vs. W. D. M. Howard, being Land Case No.
409 in the Northern District (on pages

To the depositions of each of the witnesses it is objected on the part of the United States that they are incompetent, that they were taken in a different cause and between different parties, and upon different issues; and are also irrelevant — that the United States are not bound by the same as admissions and that ~~that~~ as to the deposition of said Sauchey the additional objection is made that his said deposition is likewise incompetent, because of his interest in this claim now and at the time of giving his said deposition.

By consent of parties the further taking of testimony on the part of claimants was adjourned to Thursday next the 26th day of March, 1868, at 2 o'clock at the same place.

As Keeper of the Spanish Archives
I am familiar with the papers
comprising the Spanish Archives
relating to land grants of the
late Mexican and Spanish Government

This document - is an Expediente
of a grant or concession to Jose

the Board of Said Commissioners
on 1st March 1853, as shown
by the endorsement thereon

I am familiar with the hand

Saunders, Francisco Guerrero,
Guillermo Kinckley, ^{José de Siqueiros} who were
~~former~~ officials of the former

Juan Miguel Ayar a government
official, also Jose Castro a former

My familiarity with the hand

in the Archives.

From my knowledge so
derived my opinion is that
from the signatures of the persons

Q.

Do you have any personal knowledge that other portions of other tribes of California Indians formerly connected with missions of the Department occupied portions of the public land with the consent of the Mexican Government after the dissolution of the Missions in 1832?

Yes, the Indians occupied different portions of

the public lands after the
 Missions were dissolved
~~are~~ called Mission lands
 Small Rancherias or farms

~~of the Government~~
 or rather by the cession
 of the Government,
 not that they had any

 Original Expediente, when
 you had the Infirmary

 was the reason that you
 did not make an

Ans Because I was not satisfied of that Information.

178 ND

I was not entirely satisfied and according to private information from my Secretary Jimeno it was necessary to take more evidence in that matter

Q Have you to any knowledge of any further testimony being taken regarding that matter while you were in office?

~~I have no further knowledge of it except what I now see in this Expediente before me~~

Ans No I have not, and all I know about it, is what I now see in this Expediente before me —

Q Did you regard your decree

the Indians were protected
by the Claimant as a
promise from the Mexican
Government to make an
absolute grant to Sauches

178 ND
PAGE 251

(Objected to as incompetent,

A This ~~is~~ decree is a promise
to make an absolute
grant to Sauches, and
such was my intention
to make an absolute
grant to Sauches
as is plain from this
decree according to my
answer of yesterday
when the consent of
the Indians was obtained

(Answer objected to by U.S.,
as incompetent)

Q Was there any other obstacle in
making the grant at the date

of your decree except the desire of
the Government to protect the
Indians from want or the
necessaries of life.

A. There was no other obstacle
That is the only reason.

Q. Do you know whether the claimant
Gauches took possession of
this land, and took charge
of the Indians, made them
a part of his family establish-
ment, protected and took
care of them.

Ans. (Olychian as leading.)

that he was acting in
good faith in order to
secure his grant from

Objected to be the Counsel for the United States as irrelevant & immaterial.

Ans. I think in August or September. I do not remember very well. I think that on the 7th of September 1846 I started from my ranch Santa Margarita down. My rancho may be about 30 leagues from the line between California & Mexico. I went overland into Lower California.

Ques. What was the occasion of your going at that time?

Question propounded subject to the same objection as the preceding.

Ans. The reason of my going was that I had not the necessary means in my Country

4
to carry on the war against the United States. The Commandante General went away & left me.

178 ND
PAGE 257

Ques. Where were you at in the State of California on 7th July 1846 when Commodore ~~James~~ ^{Floot} took possession & raised the American Flag at Monterey?

Same objection as to the preceding question.

Ans. I do not know whether I was at San Luis Obispo. I think it was ^{near} ~~at~~ San Luis Obispo that I received the news that the Commodore had taken the Plaza of Monterey.

Ques. Were you then the Governor of Alta California?

Objected to as immaterial & irrelevant and as involving a question of law.

Ans. Yes, sir.

Ques. Where were you at when Commodore Stockton in command of a portion of

The American Fleet took possession of San Pedro?

Object to as immaterial and irrelevant.

PAGE 258

Ans. I did not know at what time he took possession of the Port of San Pedro. I do not remember when I was.

Ques. As Governor of California before the war between the American Government and the Mexican Republic, ^{took place} did you not in your official capacity as Governor of Alta California make many grants of land under the Colonization laws of 1824 and the Regulations of 1828, to Citizens of California?

Object to as immaterial & irrelevant.

Ans. I made several.

Ques. Did you ever make a grant or attempt to make a grant under the same law and Regulations to any person or persons of land in California after the American Forces took possession of Monterey or any other portion of what is now called California?

6
after the 7th of July, 1846.

Be it Remembered, that on this 31st day of May A. D. 1870

at my office in the United States Court Building, in the city of San Francisco, personally appeared before me Edward B. Catter a Commissioner,

to take acknowledgment of Bail and Affidavits, etc., duly appointed by the Circuit Court of the United States, for the District of California, Ephraim Travel a witness on

the behalf of the Claimant in the above entitled suit.

Gregory Gale Esq., appeared as Counsel for the Claimant and W. S. Atty. & A. P. Whittenden Esq., as Counsel for the United States,

And the said Witness, having been by me first cautioned and sworn, to testify to the truth, the whole truth, and nothing but the truth, in the cause aforesaid, did thereupon depose and say as follows, that is to say:

Examination in chief by Counsel for Claimant

Question:—What is your name, age, occupation, and place of residence?

Answer:—My name is Ephraim Travel; my age is 62 years and upwards; my occupation is _____; and my place of residence is San José.

Question:— 2.

State the place of your birth, when you arrived in California?

Ans.

I was born in Pennsylvania and I arrived in California in the middle of October 1833. I came here in the whaleship "Helveticus" landing in the bay of Yerba Buena as it was then called.

178 ND
PAGE 280

3.

State where you have resided since, if in California, at what points?

Ans.

The first five years I resided in San Pablo on the Castro ranch, from there to the Mission San Jose, resided there five years, from there to San Jose where I have resided ever since.

4.

State whether you were acquainted with the Sanchez family - the father and sons, - if yes give their names?

Ans.

I was acquainted with them, the father's name was I think Jose. Luis de la Cruz Sanchez, Francisco Sanchez, Manuel Sanchez were the principal sons, that I was well

acquainted with.

5

Was the father in any office at the time you knew him?

Ans.

I think he was just out of office at the time ~~he~~ I came here. He was Commandant at the Presidio.

6.

Where did the Sanchez family reside at the time you first came here, including the father and the sons you have named?

Ans.

It was after I came here that I became acquainted with them - a year or so - I was slightly acquainted with them - had seen them a few times. The father resided here at the Presidio, the sons were here off and on, with him, sometimes they were on the father's ranch joining on the Mission Dolores. It went by the name of the Sanchez ranch.

7.

State whether you know anything about the San Mateo ranch, whether it was occupied

at any time by José de la Cruz Sanchez, if so, state the character of that occupation?

Ans.

178 ND
PAGE 282

What I know about that, was some years afterwards - about 1843, ^{or} ~~and~~ 1844, - I saw cattle and horses ~~and~~ ~~xx~~ belonging to him, and a house he built there, and a man called Chino, ^(Sanchez) lived there, and Indians also lived about there taking care of the horses, and cattle for José de la Cruz. Chino Sanchez was a brother of José de la Cruz.

8.

On what part of the San Mateo ranch was that house built?

Ans.

Close to the pond or Laguna near the roadside

9

How long did you notice that house standing there?

Ans.

Until 1846 or 1847 or about there, it might have been later, I cannot be certain about that time.

I couldn't ~~be~~ be certain whether it was an adobe or sticks filled in with adobe, it was one of them.

10.

178 ND
PAGE 283

Do you know whether the house had been torn down or removed, when it disappeared?

Ans.

Nothing more than hearsay. I think I recollect hearing that it was torn down.

11.

What opportunities had you of seeing the extent of the occupation of the rancho by Jose de la Cruz Sanchez, were you stopping there, or merely passing through?

Ans.

I passed through quite often, stopping there several hours at a time. I ate fruit there, watermelons and muskmelons; beyond the house he had built there with the Indians, at the place called "Milpas." They cultivated there Watermelons, Muskmelons, beans, Onions green corn and Peas.

12.

Was any part of the rancho cultivated by the claimant, in barley or wheat?

Ans.

I think I saw several patches of grain - small patches - not very large, but I couldn't say whether they were barley or wheat. They were some distance from the house.

13.

Did the old Californians at that period give much attention to the cultivation of grain, beyond what was necessary for domestic use?

Ans.

No sir. It was not customary at all except at the Missions in later years. The farmers never raised more than was necessary for their own use, and seed for the following year. When the Russians came here about 1835 or 1836 and were the first sales of grain that I knew of in California, they carried it away in ships and skin launches, which held about eighteen or twenty thousand

bushels

14.

178 ND
PAGE 285

State if you know how many
indians were on that rancho in
care of the claimant, and what they
were doing there?

Ans.

It is pretty hard for me to tell
that, I have seen forty or fifty
there taking care of his horses
and cattle, and I have seen left-
scattered about, some hunting, and
some gathering wild seed.

15

State if you know what tribe
they belonged to, and whether or
not they had a rancheria there?

Ans.

They had a rancheria on the
other side of the creek near the
knoll. It was nearly all destroyed
when I saw it - the ruins of it.
Some of them belonged to the
San Mateo Indians, and some to the
Mission Dolores. There might have
been other tribes mixed in with
them but I don't know.

16

16.

Do you ^{know} whether or not after the Missions were secularized, any Indians were sent to the San Mateo ranch?

178 ND

PAGE 286

Ans.

I do not know that. I don't know whether they were sent anywhere, because I was in the Mission of San Jose until 1845 and there were Indians there yet. The Missions were taken out of the Priests hands and placed in charge of Administrators during the time of administration of Alvarado as Governor and Castro as General.

17.

Do you know whether any part of the San Mateo ranch was ever used as a Mission farm, for the Mission Dolores.

Ans.

All I know is there were the walls of an old building there. I enquired what it was for, and they said it was said it was ^{built} ~~used~~ for an old Mission building. I never saw it occupied. I never knew of their sending Indians up there.

Answer objected to by Counsel
for the U. S. as hearsay and not
responsive to the question.

18.

178 ND
PAGE 287

Do you know, if as stated by what
means, whether or not the Indians
on the rancho acknowledged the
claimant as their head and protec-
tor, and whether he was there exercis-
ing his claim as owner by their
consent?

Objected to as immaterial
and irrelevant.

Ans.

I knew it by the Indians them-
selves, by Jose de la Cruz himself
and by his brother Chino, but
I never saw him on the ground
to talk to him, but I saw the
Indians on the ground, and
have talked with them, they
most all spoke good Spanish,
I spoke Spanish with them.

19.

State to what general use
the old Californians appropriated
their large ranchos except in
cultivating grain?

Ans.
Grazing, Raising cattle, horses
and mares.

20.

How many cattle and horses had
the claimant on this ranch?

Ans.

I couldn't say I never saw them
counted. I should judge about
between two and three hundred head
of cattle, I couldn't say how many
horses and mares perhaps 100 or 150
of them more or less. I don't recollect
seeing any hogs or sheep. There
might have been some in back,
on the good grazing land over
in the hills.

21.

State what you know of the
Indians having been at work
for the claimant whether he sup-
ported them, allowing them to take
his cattle, and articles grown on
the ranch, for food, whether he gave
them ~~food~~ clothes, and allowed them
the privilege of staying there?

Objected to as leading.
Question withdrawn.

22.

178 ND
PAGE 289

State if you know whether the Indians used his cattle or not, and whether or not, it was by his permission?

Ans.

Yes sir, they used his cattle with his permission. I know that from him and them both. They had the privilege too of sowing, and raising onions watermelons and muskmelons for their own use, or to give away as they pleased. I never saw anything but friendly feeling among them, they would eat together, drink and smoke together.

23.

Among the Sanchez brothers which one of them was most domestic in his habits and disposition, and was more of a farmer than the others?

Objected to as irrelevant.

Ans.

Jose de la Cruz, was the most reserved, but about his farming I don't know whether he or

Francisco were the best. The other

Francisco were the best. The other two were more worldly inclined to rove about. I mean Francisco and Manuel.

24.

Was the Claimant married when you first knew him?

Ans.

I don't recollect.

25.

When did the Indians disappear from that ranch?

Ans.

It was after the Americans came in.

PAGE 292

33.

Who did you find there the first time you were on the ranch?

Ans.

I found Indians there.

34.

Did you see any of the Sanchez family there?

Ans.

Not the first time, nor the second I don't think.

35.

In what year did you first see any of the Sanchez family on the ranch?

Ans.

I think it was between 1843 and '44 that I saw Chino, and I think a nephew of his.

36.

In what year did you become acquainted with Jose de la Cruz Sanchez, was it before or after you

went to the town of San José to live?

Ans.

It was before.

37.

Down to 1849, how often were you on the San Mateo ranch?

Ans.

It is a hard thing to tell - a great many times backwards and forwards.

38.

Did you ever see José de la Cruz Sanchez on the ^{San Mateo} ranch?

Ans.

No sir, I never saw him even I met him several times this side. I did do not know how far this ranch extended this way to his fathers house.

39.

Where did that house which you say he built, stand in reference to the creek and the road?

Ans.

It stood ^{close} by the road side and close by the ^{little} creek this side of the San Mateo creek, on the right hand side of the road going South.

40

How far this side of San Mateo
creek?

Ans.

I couldn't say how it was. I never
measured it, nor paid particular
attention,

178 ND
PAGE 294

41.

Was it as much as a mile?

Ans.

Yes, or more.

42.

Are there any ruins of that
house now visible?

Ans.

I could not say - I passed by
in the cars and couldn't see. I
suppose I could tell if I were to
go there and look around horseback
or afoot.

43.

How far did it stand from the
line of the present railroad to San
Jose, and on which side of the
railroad?

Ans.

That I cannot tell, because I do
not know on which side of the
old trail road the railroad is built.

44.

When did you first see that house?

Ans.

I think it was between 1844 and 1845 as near as I can recollect.

178 ND
PAGE 295

45

Did you see anybody building it?

Ans.

No sir, it was built when I saw it and they were living in it.

46

Was it there the first time you ever went on the ranch?

Ans.

No sir.

47.

How do you know that José de la Cruz Sanchez built it?

Ans.

By the occupants - Chinos - and by the Indians that I asked.

48.

How do you know that the cattle and horses which you saw on the ranch belonged to José de la Cruz Sanchez?

Ans.

Ans.

By themselves, by Chino, by the Indians, and by a good many outsiders - Spaniards - I enquired around there.

178 ND
PAGE 296

29.

Who built the Adobe house that stood on the West of the road, a little this side of San Mateo creek?

Ans.

I don't know of any Adobe house there, I don't recollect seeing any.

30

How large was this house which you say was built by José de la Cruz Sanchez?

Ans.

About twenty five feet square.

31.

Was the road which crossed this ranch going from San Francisco to San José in 1843 and '44, the same road that was travelled in 1849 and 1850?

Ans.

I expect it was, there might have been some little changes, I don't know of any changes except

where the road might have been
overflowed in very heavy rainy
seasons.

178 ND
PAGE 297

52.

Was the crossing at San Mateo
creek the same?

Ans.

Yes sir.

53.

Did you not travel that road
in 1849 and 1850?

Ans.

I don't think I did. I don't
recollect that I did.

54.

Did you travel on that road
across the San Mateo ranch,
in 1848?

Ans.

I think I did, in the forepart
or just before 1848.

55

Was there not an Adobe house
on that ranch near the road
in 1848?

Ans.

There might have been I have
no recollection of it - other than

this house at San Mateo.

this house of José de la Cruz.

36.

You say that you saw patches of grain on the rancho, some distance from the house. Was that grain planted by the Indians or by José de la Cruz Sanchez?

Ans.

I didn't see it planted, but suppose it was done by the Indians, as no Spaniards ever planted in those times.

37.

Do you know anything more about it, except that you saw some patches of grain there?

Ans.

No sir.

38.

How many of the Indians that you saw on that rancho, did you ever talk with?

Ans.

I suppose I might have talked with a dozen more or less, I don't think I talked to many more.

39.

What is the distance from the San Mateo rancho, to the Sanchez

ranchos?

Ans.

I don't know

Q.

Don't the two ranchos adjoin?

Ans.

I suppose they do.

Q.

How do you know that the horses and cattle you saw on the San Mateo ranch, did not belong to the Sanchez ranch?

Ans.

I never said they did not belong to the Sanchez ranch. I said they belonged to Jose de la Cruz, if not all, the greater part, I enquired around from one to another.

Q.

Did you know the mark or brand of the cattle belonging to the Sanchez ranch?

Ans.

I wouldn't know it now, but I knew it then. I used to know all the brands belonging to different ranchos, but couldn't tell them

now

now.

Jella Torre

Petition shows that Sanchez applied in 1835 for the land and from time to time renewed it - but never obtained it - The grant was ~~still~~ ^{temporarily} withheld because the tract was occupied by Indians. The Expediente is undoubtedly genuine -

It must be rejected. There was no grant nor was a promise of one - only a promise of a paper once whenever the land came to be colonized - But not certainly that they would ever have granted it -

Clarke

The most we could sweet up on is that we have an ~~interest~~ equity.

The promise given him was that as soon as the land was grantable, ^{it} should be granted to him.

In 1845 a informe was required of the Alcalde whether the Comisision of the Indians required that the land should be granted. The report was favorable.
